I have been suffering for the past ten months with pains in my back and stiff joints. *I could get no relief from anything.* I tried many doctors and used many medicines. I am happy and thankful to say that three boxes of Dr. Gossom's Kidney and Bladder Cure *entirely cured me.* I can always cheerfully speak a good word for this wonderful remedy.

A Free Sample Treatment Laid the Foundation for a Permanent Cure.

I was suffering with my back and kidneys, and no medicine which I took brought me any relief. I was greatly benefited by the free sample of Dr. Gossom's Kidney and Bladder Cure, and one box of it worked a complete cure. I can always speak a good word for such a wonderful remedy.
CHARLES HAWLEY, Greenfield, Mass.

Raised from a Bed of Torture to Immediate and Permanent Health by One Box.

I want to tell you how much good Dr. Gossom's Kidney and Bladder Cure has done for me. Was down in bed with my back and could not get up and nothing seemed to help me. Seeing your advertisement in the paper I bought a box of your medicine and after the second day I commenced to get better and now I am completely cured. The pain is all gone and I feel just as well as ever. Dr. Gossom's Kidney and Bladder Cure is certainly a wonderful remedy.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHELLE, GA., Jan. 30, 1902.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 20 per cent. better.

BRIBERY CHARGE

Stilson V. MacLeod Notified to Appear and Answer.

WON'T GET OFF SO EASY

Move to Shift Blame From Salsbury to Other Shoulders—His Case Goes Over Week—Echo of Adams-Baker Suit.

Grand Rapids, Mich., Nov. 7.—Lant K. Salsbury was too ill to appear in court Friday morning and his case went over for a week. A new phase in Grand Rapids' water board scandal has developed.

When Stilson V. MacLeod walked out of the Detroit prison Thursday it was generally supposed that he would be let alone and allowed to go into business there. It now appears, however, that he must also face the music again. He has been notified by Judge Newnham that he must appear next Monday to answer to a charge of bribery which is still hanging over him. He has two cases yet pending against him, and the judge insists that MacLeod is just as guilty, and even more so, than any of the others. He received the bribery money from the promoters, deposited it in the safety deposit box, kept a key to it, and afterward turned over the $75,000 to Salsbury, the city attorney.

When the exposure came MacLeod's band and society friends held him up as the victim of a bad gang, and he was given the best of it all around. He went before the grand jury, where the judge says he perjured himself, and afterward went on the stand against Salsbury, his former friend, and "squealed."

The order of the superior court that MacLeod respond to the two indictments against him for being engaged in the water deal conspiracy is looked upon as a move in the interest of Salsbury and an effort to shift some of the blame of the deal upon other shoulders. When he made his confession and appeared as a witness against Salsbury, Taylor and McGarry, it is claimed that he did not tell all he knew.

The prosecuting attorney's office is not in sympathy with the move to bring MacLeod back and place him on trial, because the witnesses for the people are scattered, and it would be impossible to get some of the most important ones back to Grand Rapids. Salsbury did not appear in court Friday, as he was sick, but will respond today.

Grand Rapids, Mich., Nov. 7.—The attorneys for Henrietta Adams, who was given judgment against Robert Stuart Baker for $30,000 for breach of promise, asked the court Friday to set aside the order for stay of proceedings.

The fact has developed that the Baker mortgage for $8,000, running to Baker's stepfather, Nelson R. Howlett, covering his Spring Lake real estate, was put on record Oct. 31, the day after the verdict was rendered. Five days later Howlett began foreclosure proceedings.

It is claimed $3,000 of the notes upon which the mortgage is based were given for money advanced to defend the suit and $5,000 to cover a previous indebtedness.

Want $10,000 More.

Detroit, Mich., Nov. 7.—After receiving $200,000 from the estate of the late David Whitney, Jr., under the war revenue act, the United States government is demanding $10,000 additional. The act under which the tax was collected was repealed July 1, 1902, but the tax became due and payable at the time of Mr. Whitney's death, about a year previous. The government's mistake in not collecting all it had coming is not due to any misrepresentation on the part of the trustees of the Whitney estate, but to an oversight on the part of some clerk in the local internal revenue office in making the computation of the amount due.

One Perished; Others May Die.

Sault Ste. Marie, Mich., Nov. 7.—Mrs. James Stewart of the Canadian Soo locked her two little boys in the house in the afternoon and went down town. When she returned it was to find her home and the one next to it in ruins, her youngest son, Harold, aged two years, burned to death, and the other little boy, Charles, aged four, badly burned about the face and arms and alive only because of the heroic action of a neighbor, who rescued him. How the fire broke out is not definitely known. The boy who was rescued says coals fell from the stove and started the blaze.

Fight Over Rural Route.

Owosso, Mich., Nov. 7.—The villages of Vernon and Durand are fighting over a new rural mail route. Congressman Fordney promised it to Durand, but Judge S. B. Daboll of St. Johns, inspector of rural routes, fancies Vernon. Whichever wins, the victory will cost the other town a score of patrons.

U. P. Is Oil Crazy.

Escanaba, Mich., Nov. 7.—Since the discovery of oil near Rapid River, Delta county has gone crazy, and there are already fifty-two leases recorded in the county office, covering some 5,000 acres of land.

CANNON INSTALLED

"Uncle Joe" Cannon Takes His Seat as Speaker of House.

CONGRESS IN EXTRA SESSION

President's Message Comes Next—Cuban Trade Question to Be Pushed—Panama Affairs May Demand Attention of Senate.

Washington, Nov. 9.—The house of representatives was called to order at noon today by Alexander McDowell, the clerk. The opening of congress always is of sufficient interest to attract a much larger crowd to the capitol than the galleries will accommodate, so admission was by card, two being supplied to each member. There were the usual floral displays to lend picturesqueness to what necessarily was routine proceedings.

The proclamation of the president, convening congress in extraordinary session, having been read prayer was offered by the chaplain and then the roll was called by states.

Mr. Cannon, who has been selected as the unanimous choice of his party for speaker, was formally elected. After the oath of office was administered to him by the "father of the house," a title bestowed upon the member who has seen the longest continuous service, the speaker administered the oaths to the members generally. The old officers of the house, having been made the nominees of the Republican caucus, were re-elected and sworn in. Speaker Cannon appointed a committee to join a committee of the senate to notify the president that a quorum of the two houses had assembled and that congress is ready to receive any communication he may desire to make.

Drawing of Seats.

After adopting resolutions agree on in the Republican caucus, making the rules of the fifty-seventh congress the rules of the fifty-eighth congress, announcing an hour for the convening of the daily sessions, the drawing of seats took place.

On Tuesday the house will listen to the reading of the president's message. For the remainder of the week little can be accomplished, but it is understood to be the desire of the house leaders that consideration of the question of reciprocal trade with Cuba be pushed as rapidly as possible.

Today was the usual roll call of senators and the proclamation calling the congress in extraordinary session read. These were followed by the appointment of a committee to notify the president that a quorum of the senate has met and is ready to receive any communication he has to make.

On Tuesday the president's message will be received and read. Adjournment will follow its reading, as a caucus of Republican senators is to be held in the afternoon. Wednesday will be devoted largely to the introduction of bills, and Thursday will be a short legislative session unless discussion of the Panama situation is precipitated by the introduction of resolutions asking for information. It is the intention of Senator Morgan to introduce resolutions on the subject, and these may be discussed under the rules on the day following their presentation.

Pockets Picked of a Fortune.

Madrid, Nov. 9.—A wealthy merchant named Fabra has been the victim of a record pocket-picking. He came to Madrid from Granada carrying nearly half a million dollars in bank notes, shares and other valuables. Fearing to leave so much wealth in the hotel, he carried it in two large pocketbooks. Alighting from a street car he found one of the pocketbooks, containing $225,000, had disappeared. Evidently some well-dressed thief had possessed himself of it.

Found Dead in a Swamp.

Pontiac, Mich., Nov. 9.—Wilson Tucker, a veteran of the civil war and a trapper, was found dead in a swamp on the George Seeley farm, two miles south of this city. Tucker had been missing since Wednesday.

Echo of Hallowe'en.

Birmingham, Mich., Nov. 9.—Several more of the young men who were out Hallowe'en night disturbing the peace were up before Justice D. M. Doty Saturday. Elza Shadbolt and Charles Allen pleaded not guilty and will be tried next Wednesday. Howard Allen and Roy Montgomery pleaded guilty and will receive their sentences next Tuesday. Melvin Deer, George Deer and Howard Montgomery, who had pleaded not guilty and demanded a jury trial, changed their plea to guilty and will be sentenced tomorrow. There are still several more.

Razors Used Freely.

Bay City, Mich., Nov. 9.—In a mixup in front of a Third street saloon Sunday morning, Frank King was cut on the neck from the back of the ear around under the chin; William Irons was cut on the back of the head, and Roy Williams had his overcoat slashed. According to Irons, the trio came from a saloon, when they met a party of five, who began punching and slashing them. He says he didn't know any of them. Two miners were arrested on suspicion. The cutting was apparently done with a razor.

Shot Himself With Revolver.

Saginaw, Mich., Nov. 9.—James Wallstead, a butcher, aged 44 years, was found in his room at his home, 2351 South Michigan avenue, with a bullet hole through his head and a revolver lying on the floor. He held the pistol at the back of his right ear and death was instantaneous. He had been complaining some days of pain in the head, and it is supposed the man was suffering from temporary aberration.

TOO SMALL SALARY

Rural Carriers Find Employment With Uncle Sam Unprofitable.

A MEMORIAL TO CONGRESS

Important Meeting at Dearborn—Grievances and Plans of Relief to Be Discussed—More Money and Holidays Wanted.

Dearborn, Mich., Nov. 9.—An important meeting of rural letter carriers will be held here on Wednesday evening, Nov. 11, when matters in connection with the memorial to congress, recently drawn up by the National Letter Carriers' association committee, will be discussed.

So far as can be learned this plea, which is called "the first gun," has the unqualified support of all rural letter carriers who have read it.

The committee representing the 17,000 rural letter carriers of the United States met in Washington, D. C., Oct. 12. Mr. Payne made an early appointment with the committee at his office in the postoffice building, greeted them pleasantly and gave the committee an extended audience.

In addition to resolution to the postmaster-general, which was framed and adopted at the convention, the committee found it necessary to frame and present a memorial to congress to be transmitted through the postmaster-general.

The memorial to congress is in part as follows:

The Memorial.

A memorial to the congress of the United States through the Hon. Henry C. Payne, postmaster-general, by the National Association of Rural Letter Carriers, through their president and executive committee, setting forth in respectful petition to congress the grievances of the carriers, their plans for the betterment of their condition and some arguments sustaining the same and praying that at its next session measures may be enacted by that honorable body tending toward the redress of these grievances and a betterment of the carrier's condition.

The objects of this association are fraternal, also to seek the best methods by which to advance the rural service, and strive to increase the revenues of the government and to better the condition of the carriers.

Some Grievances.

From every rural letter carrier in the land comes one universal cry for relief from the necessary expenses to which we are put in order to perform our duties.

These expenses are so heavy that after they are paid there does not remain of the salaries paid us a sum sufficient to meet the necessary living expenses of ourselves and our families, many carriers being compelled to seek or accept charity from their patrons.

To begin the service the carrier's expenses necessitate an outlay of from $250 to $400 in horses, wagon, harness, robes and horse blankets; in addition to this it requires $150 to $250 each year to feed our horses, repair our wagons and harness, and to keep our horses shod. But few carriers have less than two horses, and many are compelled to keep as many as three or four in order to give an efficient service.

You will, therefore, readily see that the first year's average expenses are about $525, leaving only $75 for the carrier and his family upon which to subsist.

Plan of Relief.

To cure the evil complained of, we suggest the following plan, based largely upon the present graded scale so common in the civil service: We suggest that a carrier's salary be arranged on a sliding scale, giving him $600 for the first year, $720 for the second and $850 for the third. In addition to this, we earnestly urge that every rural carrier be given annually a leave of absence for fifteen days on full pay, during which time a substitute shall be employed by the government at the rate of $600 per annum.

We further feel that the rural carriers are entitled to the national holidays at full pay, the same as is enjoyed by all other government employes.

We therefore submit this memorial most respectfully to congress for your consideration, and trust, that after mature deliberation, you will see and appdeciate the exigencies of our position and enact legislation calculated to relieve the emergency now existing in the ranks of the rural carriers.

PRESIDENT AND EXECUTIVE COMMITTEE.

Verdict Is Manslaughter.

Paw Paw, Mich., Nov. 9.—The inquest in the shooting of Arda Martin by Harry Fairbanks, at Lawrence, has been concluded. The jury found a verdict for manslaughter. Fairbanks was arraigned before Justice Rowland charged with murder and committed to jail without bail pending an examination.

Big Land Deal.

Marquette, Mich., Nov. 9.—The Cleveland Cliffs Iron Co., which already owns a million and a half acres of land in the upper peninsula, has purchased 60,000 acres from the Manistique Lumber company for $166,000. The tract is located between Grand Marais and Seney. All the pine has been cut, but much maple and spruce remains, and this will be utilized in the manufacture of pulp and charcoal for the paper mill at Munising and the pig iron furnaces at Marquette.

Doesn't respect old age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect Pill. 25c at C. A. Wright's, druggist.

SECRETARY ROOT RETURNS.

Thinks It Hardly Necessary to Send Troops to Panama.

New York, Nov. 9.—"Yes, there is a possibility that troops may have to be sent to the isthmus," said Secretary of War Root in speaking of the Panama situation on his arrival from Europe Sunday. "There always in a possibility; that is what the army is for, but I hardly think it will be necessary in this case." Beyond this he declined to be quoted, pleading lack of information.

Mr. Root, who went abroad as one of the American commissioners on the Alaskan tribunal, returned on the steamer Celtic, which was docked Sunday morning.

Concerning the attitude of the Canadian commissioners, Mr. Root would make no statement, but he declared that the marking of the boundary of the 120-mile strip not covered by the report of the tribunal would be a matter of no difficulty and would be done in accordance with the principles already laid down as soon as the necessary data are obtained by survey.

Washington, Nov. 9.—Secretary Root, who returned to New York from his duties abroad in connection with the Alaskan boundary commission, reached Washington last night.

UNIONS AND POLITICS.

Labor Federation In Convention Takes Up Important Question.

Boston, Mass., Nov. 9.—The convention of the American Federation of Labor opens in Faneuil hall today. Nearly all the delegates are here, arrivals including President Samuel Gompers and John Mitchell.

The convention will be in session at least ten days and 475 delegates, representing 17,000 votes, will be in attendance.

One of the principal questions to be considered by the convention will be whether the American Federation of Labor shall recommend that its affiliated members ally themselves with that political party which, in their judgment, will best promote the cause of labor. It is said that a resolution will be introduced impliedly pledging the federation to the cause of socialism.

Among the other questions to be discussed will be those of industrialism against trade autonomy, women and child labor, the eight-hour question, trade jurisdiction, arbitration of labor, difficulties and unionism in government offices.

MICHIGAN CORPORATIONS.

List of Concerns Which Filed Articles During Past Week.

Lansing, Mich., Nov. 9.—The following corporations filed articles of association with the secretary of state during the past week: Ironwood Township Threshing Co., Ironwood, $1,000; Michigan Implement and Transfer Co., Lansing, $10,000; D. Deafness cannot be cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

German Syrup.

We want to impress on our readers that Boschee's German Syrug is positively the only preparation on the market to-day that does relieve and cure consumption. It contains the specifics, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasm of dry and racking cough in the morning The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing four times as much, 75 cents. At all druggists G. G. GREEN, Woodbury, N. J.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

Hood's Sarsaparilla

Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

A LOYAL CHURCH.

A TECUMSEH STORY WITH REAL HOME CHARACTERS.

(Copyright, [illegible], by George S. Scales.)

A meeting of the church had been called to decide upon the purchase of new carpets.

The ladies—God bless 'em—had held entertainments, and worked and saved, and secured the funds, and now the male members of the congregation who had stood by and looked wise, while their better halves were digging tooth and nail to accumulate the shekels, were called together to direct them where to spend the money.

Parson Goodman called the meeting to order and asked Hon. Thomas Jones to take the chair. "I move," hurriedly said Deacon Titefist, "that we send and get the carpets of Catchem & Doem, the great catalogue house."

Dr. Cureem's wife seconded the motion.

Hon. Thomas Jones rose in protest. "Brothers and sisters," he said, "you are making a mistake. No community can prosper that divides its forces. Its buyers and sellers must work together."

"Huh!" said Deacon Titefist, "I believe in buyin' where I can get things the cheapest."

"So do I," answered the Hon. Thomas. "That is one reason why I am a Johnny-on-the-spot man, for I've learned that the home man gives better goods for the money than the catalogue man. He can't afford to sell shoddy goods to neighbors. And competition keeps his prices down."

"It's my privilege to go where I please with my money," persisted the deacon.

"Just so. And strike your home man when you want credit," retorted Mr. Jones. 'I'm not built that way. The home man gives employment to my boys and girls. He buys my products and employs other people who consume my products. He spends his profits in building up the community in which I live. He is entitled to my support."

He's got no strings on me," growled the deacon.

"He has, if you are a fair man," declared the former Nebraska legislator. "He is a target every time you fire a contribution gun. When the church was built, you were the busiest man in town, deacon, striking business men for donations. I never heard that Catchem & Doem gave a penny."

"But these here carpets"—began the deacon.

"You can bank on their being shoddy," broke in Mr. Jones; 'made to sell cheap. All this catalogue stuff is. We have a reliable, responsible house in town. Why not buy of them? Seaton W. Anderson sells carpets of repute. We all know that he handles the best carpets made. What more do you want? And a house as enterprising as this, that carries full and complete lines, is entitled to local support."

We bought our last church carpet of Seaton Anderson just 20 years ago and it is pretty good yet, it has wore well, just as he said it would, now let us give him another chance.

"You can get groceries cheaper by clubbing," declared Dr. Cureem's wife.

"What kind?" snapped Hon. Thomas Jones. "Bogus spices, imitation coffee, sloppy canned goods, refuse stuff of all sorts! The traveling grocery peddler is one of the worst evils we have, and when you compare his prices with James Lowry's for pure, fresh and wholesome food articles you'll find the home man's the lowest anyhow. That's not all, This house offers you a clean, big, complete stock that comprises the best of every possible thing in staple and fancy groceries."

"I see one of them range fellers hitched down to your house t'other day," the deacon broke in, rather insinuatingly.

"Yes, and he limbered up in short order," declared Mr. Jones. "Swindlers, most of 'em. Sell you an imitation contraption, and hang you up with a note at the bank. Why, you can get a Round Oak steel range or a Cole's hot blast heater of Satterthwaite Bros. for less money, and keep the profit all at home. There's no sense in being bothered by such chaps. I fire 'em quick. I find everything a housekeeper wants in the stove, tinware and kitchen supply lines in splendid stock at Satterthwaite Bros., and I have confidence in the goods because I know the men behind them."

"The big cities set the fashions; why shouldn't we get our hats at headquarters," argued Dr. Cureem's wife.

"Why shouldn't you buy your finery there?" jollied Mr. Jones. "One reason is that right here in Tecumseh in Miss N. Pierce's millinery establishment which provides every facility for getting everything that's new and admirable in the world of fashion. She carries everything that the last new style decrees. Her trimmers are quite as expert as those of fashion's centers, and as well posted and have as correct taste. And my wife, who has compared prices, says Miss Pierce sells cheaper than the catalogue houses."

"One of the rankest swindlers of the day is the Catchem & Doem supply house furniture," continued the Hon. Thomas, warming to his subject. "It is shoddy, from the cheap, imitation wood it is made of and the paint that conceals its imperfections, to the tawdry trimmings that set it off. It is simply a cinch that you're sold when you buy it—and serves you right, if you are. For right here in town is B. A. Rauch, who has a stock of furniture and picture moulding that the community knows to be first class quality, sold on its merits and at close prices. The stock includes all grades, for outfitting a mansion or a cabin, of the very latest and accepted patterns. There is style as well as quality in B. A. Rauch's furniture."

"The home merchant's prosperity does not interest me," butted in Col. Manoeuvres.

"Then you are short sighted," retorted Mr. Jones. "Take Spayde's cash store. Its people consume your products. Its profits are applied to improve your town. It pays taxes to help you run the home machine. It subscribes to public enterprises. It sells you clothing, shoes and furnishing goods that are honest, at prices that are economical. It carries a stock that in extent and variety is the pride of the town, just because it is prosperous. Interest you? I guess yes!"

Col. Manoeuvers suggested that certain kinds of manufactured articles—notably harness—could be produced cheapest in the big factories.

"Nobody denies that," said Hon. Thomas Jones. "But how about quality? That is what is vital to the buyer. There is no other product where shoddy is so freely used by unscrupulous men. The only Simon-sure cinch against a swindle is to buy of a man you know something about—a man like W. C. VanAntwerp for instance. His repute for honest material, good work and reliable representation is as the page of an open book in this community, and he carries a stock of robes and blankets of sufficient extent and variety to meet any demand."

"These fellows quote cut prices on patent medicines," said Deacon Titefist, referring to the supply house catalogue.

"Some kinds," said Jones. "Shelf-worn goods bought in job lots. When I use medicine I want the best, and to be sure of getting it I go to a house I have confidence in. We all know John J. Orr to be thoroughly reliable and are assured of the genuine quality of the goods we get. He carries full lines of everything known in the realm of pharmacy and makes a point of having it fresh and pure. Health is too precious to take chances with. I want to know that the man is skilled and reliable who deals out my medicines."

"The merchant himself doesn't always stick to the home-made idea," declared Judge Mandamus.

"In cigars, for instance," flashed back Mr. Jones. "And it's a shame. They'll stock up from drummers, when right at home is Eckert & Co's. cigar factory, that is making the "Ben Attow," as prime a cigar as can be rolled from tobacco. If the majority of cigars that are smoked in town were made here, it would add thousands of dollars to the trade of these very merchants through the patronage of the cigar makers and others, who would benefit by keeping the money in circulation at home.

"I don't suppose as many dollars have gone for snide goods in any one direction on earth as have been paid out for cheap buggies," spoke up Farmer Hardscrabble.

"There is only one way to get genuine quality," said Mr. Jones. "Buy of a home man you know,—a firm like Witherell & Sons. They carry lines of the best vehicles in stock, that include many styles, and their goods are here for inspection. Their carriages and wagons are sold on the honor of reputable houses, and you stand to get what you pay for. No foreign dealer can ship you singly the same quality for as little money, as they buy in car load lots."

"Does your rule apply to the professions, judge? asked Comrade Sureshot.

"Sure thing. Why should I rush off to a big city for services, like dentistry for instance, that experience has taught me can as well be had here? There is no dentist anywhere who is better equipped in point of skill or mechanical appliances than is Dr. B. F. Steinhoff, and it would be the rankest folly to take the chance of having a stranger or man without experience, attempt your dental work, when you have positive knowledge of first class work right at home."

At this point the entertainment committee reported that they had arranged with Wm. Willoughby, of the City bakery, to supply everything needed for the Anniversary church supper. The ladies of the society had worked so hard to secure funds for the carpets, that they were too nearly tired out to do the cooking and baking for the supper. Besides it was a question, if it was not just as economical in the long run to have this work done by a professional baker. Remembering the deliciousness and wholesomeness of the City bakery's bread, cakes, pies, ice cream, candies and oyster stews, the church members promptly indorsed the action of the committee.

"There's one business the catalogue men do not meddle with," said Parson Goodman, "The butcher's."

"But the packer does," said Mr. Jones. "His agents slip around and take private orders for cured meats. They get no encouragement from me. Jacob Miller supplies my table. The Daisy market is always stocked with prime meats of every description that I know to be of first class quality. And Miller's weights are honest, and prices graded to the lowest market notch. It pays to trade with the Daisy market."

Deacon Titefist continued to growl, and was heard to mutter that the "home man has no mortgage on me."

Hon. Thomas Jones concluded to administer a knock-out blow.

"May be not," Mr. Jones retorted. "But who pays taxes to keep up community expenses? Who's the first man you strike with a subscription list but the home merchant? Who helps you keep up the schools, churches and charities? The catalogue house of Catchem & Doem, or men like Spayde of the cash store? And yet you'll propose to send away for shoes when you should know you can get better quality for the money right at home. That's blindness, deacon. Here's Spayde's cash store carrying an elegant stock of the latest styles of the best made shoes in creation, including the famous John Kelly shoes, and you ask me to ignore it and take a dead sure chance of getting soaked by a concern that never spends a cent here. Deacon, you insult my intelligence."

"One of the pleasant things in the question of home trade," said Hon. Thomas Jones, "is the tendency of citizens to build up the Tecumseh grain market. Take the matter of flour. Here's the Wm. Hayden Milling Co. that manufactures all grades of the most superb flour—every good housekeeper in the community will admit that she never had any flour better than "1900" and "White Star." Citizens order from their grocer flour made at this mill, with confidence that it is never cheapened by injurious whiteners and fillers that never grew in a wheat-field. Farmers, too, who expect the mill to buy their wheat and other grain, and pay the highest market price, give it their loyal support."

A special committee reported that they had closed a deal with H. L. Jones for a strip of land 20x125 feet for additional room for the new horse sheds.

"I thought he would be able to secure the strip for us," remarked Parson Goodman, with an air of satisfaction. "He can arrange a real estate deal if any one can. He always has desirable city properties, as well as a long list of farms on his books, and can usually accommodate any applicant who wants to rent, or to buy, sell or exchange. He will make you a loan, pay your taxes, collect your rents, or take charge of tenantless property."

"The most pestiferous nuisance in this day and generation I have met up with," remarked Farmer Hardscrabble, "is the traveling picture maker. His greatest 'art' is in extracting coin from people. It's strange to me that he gets business enough to exist on, when we have an artist of such excellent skill and perfect knowledge of portrait making in Tecumseh as the proprietor of the Sunbeam studio. And what is strangest of all, is that some people will pay the wandering agent bigger prices for botch work than the reputable home man asks for perfect work. The traveling 'artist' catches many suckers by agreeing to make the picture for nothing, and then charging $5 or $6 for a 75 cent frame."

"Bro. Hardscrabble is right in his opinion of traveling picture solicitors," observed Parson Goodman; "but I believe the traveling spectacle peddler is a greater evil, and city councils would be justified in placing a prohibition license on their business. In most instances they not only extort double prices from their victims, but being ignorant of optics and knowing nothing but peddling, they frequently sell glasses that prove a positive injury to the eyesight. A home man like S. P. Hosmer, who has had 25 years of experience in fitting glasses, and possesses every modern scientific apparatus for testing eyesight, is a good man to buy glasses of. Eyesight is too precious a gift to let strangers experiment with."

"'Banking by Mail' is an alluring phrase," said Joseph Hustler, "but how about a little accommodation when the necessities of business demand it? Is it your home banker or the distant city banker that takes care of you when you want a few hundred dollars for a short time in order to close a deal? The 'Banking by Mail' concerns are all willing to take care of your money, but when you want to use any of theirs, that is another story, as Rudyard Kipling says. I find the Tecumseh State Savings bank always ready to afford any reasonable accommodation, it pays me interest on deposits, and I am personally acquainted with its officers and know them and the bank to be thoroughly reliable."

"The principle of home trade is one that underlies the successful growth and progress of any community," reaffirmed Hon. Thomas Jones. "When I want a nice suit of clothes, I don't send in my measure to a Catchem & Doem mail order house. I walk into J. M. Jones' tailoring establishment, look over his latest style goods in the piece, and I am sure of finding something that gives me perfect satisfaction. Then at the time appointed I go again and try on the coat, and the result is I get a perfect fit of stylish well made clothes at a moderate price, and my money returns to me again in the channels of local trade, for J. M. Jones pays it out in this community."

"In most cases," continued the Hon. Thomas Jones, "it is thoughtlessness that leads people into seeming forgetfulness of home enterprizes. Merchants themselves, who should, of all others appreciate a strict observance of loyalty, sometimes stray after false gods. They use foreign printed stationery, oblivious of the fact that they can do just as well right at home. Take, for instance, the job department of the TECUMSEH HERALD. It has equipments and facilities for all kinds of commercial job printing and turns out first class work. It is loyal to all home enterprises and deserves the support of Tecumseh business men.

"It is a short-sighted policy that ignores resident dealers."

"I 'low I've been converted, Brother Jones," contritely acknowledged Deacon Titefist. "I withdraw my motion."

Mrs. Dr. Cureem agreed with the deacon.

And that's why Catchem & Doem failed to receive an order for the church carpets, and which instead was given to the enterprising home firm of Seaton W. Anderson.

The end of the carpet deal was: the committee bought 500 yards of Lowell carpet of Seaton W. Anderson at the same price the catalogue house asked for an inferior grade.

Milton Henry, a Canandaigua chopper was using an ax on the woodpile last Friday, lodged the sharp bit of the ax into his instep and Dr. Sutton was called to stop the flow of blood, and he tied the arteries, stitched the split epidermis, bound up the wound, and Miltons paradise for a time, will be in an arm chair waiting for the gash to heal.—Adrian Press.

At Jonesville lately, a boy helping to drive a flock of sheep through town, flung a stone at a sheep. It struck the sidewalk and caromed against a $75 plate glass in the postoffice, and shattered it. The sheep and the kid were unharmed. The tariff on plate glass, and on wool are about the same.—Adrian Press.

Nothing grows faster than the habit of depending on others.

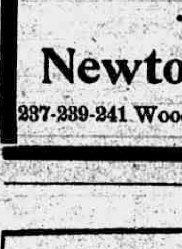
Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.



A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Peter Pieh, a young man of about 30 who lives on the county line three miles south of Deerfield, went to a "belling" last Monday evening. Mixed drinks were served the company, and as a result he became intoxicated. Tuesday afternoon, in a moment of disgust at himself, he mixed an enormous dose of paris green and drank it. It was many hours before any one knew of his condition. At that time practically little could be done for him, and he suffered untold agony until Thursday night when death came to his relief. He was an amiable young man and thoroughly trusty and respected by all, except occasionally he would have a spree.—Petersburg Sun.

Grau's Big Opera Co.

The management of the Bradley Opera House are very gratified to be able to announce to their patrons, that, after a great deal of trouble they have succeeded in securing the world renowned Jules Grau Opera Company to play an engagement of one night, Tuesday, Nov. 17. The name of Grau needs no introduction to the theatre goers of Tecumseh for, as everyone knows it is only associated with the very highest class of clever and up-to-date musical novelties. Mr. Grau carries with him a complete operatic plant, and will present, in an elaborate manner that great comic opera success El Capitan which received such well merited recognition last season. The scenery is all new, and fresh costumes have been imported by Mr. Grau for this season's tour. It speaks well for Mr. Grau that he is able to retain with him from one season to another the high class of principals with which he has surrounded himself, and among the artists who are with him this season are Anna Marie Tyler, Ethel Balch, Lillian Lord, Lucca Schott, John Henderson, Wm. Herman West, Albert Wilder, and George Lord. The latest acquisition to Mr. Grau's forces is Miss Bessie Fairbairn, the new comedienne of the organization, who has been secured this season at great expense. She is said to be the cleverest artist at present on the operatic stage, and was with such well known organizations as Henry W. Savage's, "Princess Bonnie" and the Castle Square Opera Company. She will appear as Princess in El Capitan. The chorus is larger and prettier than ever.

A LIQUID AIR LECTURE

Given for the benefit of next season's

BASE BALL

At the New Bradley Friday evening, Nov. 13.

A presentation of the truth about liquid air as understood by the foremost scientists—facts and not fallacies—the language and illustrations so clear that a child can understand.

Besides briefly touching on the historical side of the subject, the lecturer, during the course of the experiments, presents the suggestions which have been made concerning the availability of this material as a refrigerant, an aid to combustion, a source of power, an explosive, etc., and frankly discusses the merits of the claims made for it.

Wherever these liquid air lectures and demonstrations are given the audiences evince the most intense interest and enthusiasm. The up-to-date manufacturer attends to see its possiblities in his line of work; the mechanic is there to get all the light possible, for it is the mechanic who will win fame and fortune by inventing the best means of applying some one of the forces wrapped up in this mysterious fluid; teachers and pupils are present to see it and learn more of this wonder of science; and all are given food for thought as well as delightful entertainment. A liquid air demonstration is a short visit into the fairyland of science, yet all is so thoroughly explained that each one wonders how such an important discovery could be so. Nothing is advertised that is not performed. It is impossible to briefly give an adequate description of liquid air, or of the [illegible] of experiments that are rendered; they must be seen to be appreciated. To see a rubber ball dipped into liquid air and thrown upon the floor, only to crash like glass into small fragments; to see a kettle boiling away upon a cake of ice; to see mercury frozen solid and used as a hammer; to see iron made brittle and crushed in the hands; to see steel burning in liquid air with a shower of dazzling pyrotechnics—these sights, and many others, are indeed almost too marvelous for belief.

To read about liquid air is to excite wonder; to actually see what may be done with it produces astonishment which finds no adequate expression in words. Seldom has a scientific discovery been followed by such a popular demand for particulars, and no other subject affords such a wide range of experimental work with which to interest the general public. The mere announcement of an opportunity to view the seemingly magical experiments with this wonder-working liquid becomes a matter of general conversation and passes from lip to lip like a bit of news of great importance.

Liquid air's ultimate development may not be safely predicted. It is in its infancy—where steam was at the beginning and electricity at the middle of the past century. Many false and absurd claims have been made, for sensational or stock selling purposes, but the fact remains that liquid air is a reality and does many seemingly impossible things. With its manufacture sufficiently cheapened, utilization may follow, and it become a great factor in the industrial advancement of the world. Automobiles have been propelled by it through the streets of New York, London and Paris. Physicians have reported excellent results in the treatment of cancer cases, and it has been used as a local anaesthetic in surgical operations. Liquid air may be used to produce complete combustion of coal and overcome the present enormous waste. It may solve the garbage problem, as it causes tin cans, hair felt and refuse to burn briskly and completely, with no smoke or odor arising. Hudson Maxim, the eminent authority on explosives, states that liquid air combined with a hydocarbon makes an explosive more powerful than dynamite, and at a small fraction of its cost. There are numerous uses for liquid air's component gases, oxygen and nitrogen.

The present experiments in liquid air are simply voyages of exploration into the strange country of hitherto unknown temperatures. What the heat of a fire is to water in generating steam so is the heat of the atmosphere to liquid air. It is so almost inconceivably cold that a kettle of it will boil away fiercely even upon a cake of ice. It will cause a thick frost to gather on the sides and on the bottom of a kettle boiling over a hot stove, water in the kettle meantime freezing, and it will instantly convert steam into a miniature snow storm.

The admission has been placed at 50 and 75 cents, school children 25 cents.

ALL WRONG

About the mandamus proceedings of

SUPERVISOR GARLINGHOUSE

Against the board of Supervisors.

The following report from Lansing, printed in the Adrian Times of last Friday, was all wrong. The same article was in the Free Press of the same date and how such blunders could keep on going, simply shows that the average reporter will keep on printing from paper to paper without stopping to inquire whether anything is right or wrong.

As the HERALD understands the matter, the county has raised by their assessment of the state tax about $39,000 and need only about $34,000. In making the apportionment the board has taken 20 per cent off all the townships, but Tecumseh and only 10 per cent off Tecumseh. Supervisor Garlinghouse wants the same taken off Tecumseh as off the other townships and asked the judge for a mandamus compelling the board to do so. This is the plain United States wording of the affair. He is really in favor of the tax commission and with their rulings, and not against them as according to the following report:

A Lansing dispatch of Friday says the tax tangle in Lenawee county on account of the action of the state tax commission in raising valuation has reached the supreme court, a writ of certiorari in the case of Garlinghouse against the board of supervisors having been granted today. The court below declined to grant a mandamus to compel the board to ignore the action of the tax commission in equalizing the county property. The case from Lenawee county is almost the exact converse of the one which is likely to reach the court from Cass county, where the supervisors were restrained from using the valuations of the commission.

The above indicates that the mandamus proceedings brought by Supervisor B. J. Garlinghouse against the board of supervisors, was to compel the board to ignore the action of the tax commissioners. That is not the situation. It will be remembered that Mr. Stearns filed a bill for an injunction enjoining the board from changing the tax commission's figures. This was denied on the ground that that was not the proper remedy. Then Mr. Garlinghouse applied for a writ of mandamus to compel the board to equalize the county upon the figures made by the board of state tax commissioners.

Judge Lockwood, acting as circuit judge, denied this writ, holding that the board of supervisors still had the power under the old law to equalize the county without regard to the figures made by the board of state tax commissioners.

Mr. Garlinghouse, through his attorneys, made application to the supreme court for a writ of certiorari to review these proceedings, and the above dispatch indicates that the supreme court Friday granted the writ. So the question will be reviewed by the court of last resort, and the much mooted question will be finally settled.

ELECTRIC LINE

Party of four here last night backed by capitalists in

TOLEDO, OHIO,

Who propose an Electric Line favorably thought of by our Council.

A party of four men, who are backed by Toledo capitalists, drove here last night from Ohio and proposed an electric line from Toledo to Petersburg, Milan, Tecumseh, Sand Lake, Wamplers Lake, Brooklyn, Clarks Lake and Jackson.

President Smith talked with the promoters of the road last night and speaks quite favorably of the affair. They spent the night here and started this morning to drive over the proposed route.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

ROUND ABOUT US.

Cyrus Card was married the other day, and on his wedding notices were the words: "No cards." But then he doesn't know what might happen.—Deerfield Journal.

Ezra Betser, a painter living near Tecumseh, had stood on ladders and painted for 20 years without an accident, but last week he went up a ladder into an apple tree and straight way fell 20 feet striking on his back with a peck of apples under him. He will be out again in a few months.—Blissfield Advance.

An exchange says a girl recently sent her photograph to her best fellow and wrapped it up in a newspaper on which was printed an advertisement of a stove firm. A portion of the print adhered to the photograph and the young man was very much startled to see staring him in the face in bold pica type the following words: "See name on leg."

Yes. It's similar to the case where a maiden aunt received wedding invitations where her niece was a party, and on the invitations was printed "children not expected." The spinster read it carefully and as she folded it and replaced it in the envelope she said: "Perhaps not, but they'll have 'em just the same."—Adrian Press.

And now they say that Brother Stearns of the Adrian Press is not a democrat; and the Press is not a democrat paper! O, oh!! What are we coming to? The party will go a long way, and then never find a truer, cleaner or more courageous democrat than he is. If he had not stood so loyally by his party he would today be worth more in cash; but he has what is better—honor and integrity.—Hillsdale Leader.

Hallowe'en pranks here were of the usual boyish, unnecessary sort, vehicles gates, signs, etc. were moved, whistles tied, blocks overturned, lumber thrown into the river and so on with the list. Will some one please explain why the rights if property owners are lost on one night in the year?—Blissfield Advance.

Apropos of "how old is Ann" which is going the rounds of the national papers, here is one you may figure on. "How much wood would a woodchuck chuck, if a woodchuck would chuck wood? It's hard to say we should think. however, a woodchuck would sooner chuck chuck than he would wood. But speaking of woodchucks, the woodchuck is a groundhog. [illegible] ground would a groundhog grind if a groundhog would grind ground."—Reese Review.

A respectable looking workingman, who had evidently been imbibing some, walked up to Marshall Ross yesterday and asked to be locked up. The man's request was complied with and he occupied a cell at the city hall last night. Supper was sent to him by Mr. Ross. "I'm afraid I'm going to get full," he explained. "I'm a carpenter by trade and there is a good job waiting for me at the sugar factory if I am sober tomorrow morning." He was turned out this morning in shape to go to work. Owosso Press-American.

Eleven bruised and weary foot ball warriors from Tecumseh, passed the city limits about midnight Wednesday on their way home singing, "O how drunk I am and nobody seems to care a —."—Blissfield Advance. The above is a base libel, as our boys left Blissfield about nine o'clock and were all home before midnight.—Tecumseh News.

The Advance regrets that the News takes our little item so seriously, we didn't say the boys were drunk nor even think so. They drove over the bridge singing as boys do. The Advance Editor stepped out doors and heard the words we quoted and some more we didn't quote. The editor walked in and looked at the clock and it was over two hours after the time Editor Hawkins over in Tecumseh heard the boys pull out of Blissfield. We speak from certain knowledge while the News evidently took some jolly from the boys and wrote it up.—Blissfield Advance.

WHEN BABY IS COMING
USE
Mother's Friend

Woman's greatest dream of beauty and glory is when nature has chosen her to become a mother. Every faculty is keenly alert as she foresees the joy, ambition, success and the life-long satisfaction coming nearer, day by day, in the dear and innocent being so soon to see light, and the uncertainty whether she shall see a sweet girl or a brave boy face beside her on the pillow adds zest to her expectancy. **Mother's Friend** applied externally throughout pregnancy will relieve the pain of parturition, and no mother and child can fail to be healthy, hearty, strong, clear complexioned, pure blooded and cheerful in disposition, who are mutually influenced by the continued use of this great liniment, MOTHER'S FRIEND. Buy of druggists, $1.00 per bottle. Our treatise "Motherhood" mailed free.

MOST BEYOND BELIEF.

If it were not for Tecumseh Indorsement people might be skeptical.

Tecumseh people want local proof.

That's what we have here.

It's not beyond belief because it can be proved.

Read a local citizen's testimony.

Mr. W. C. Witherell, agent for buggies, harnesses and other machinery, place of business southwestern section of Tecumseh, says: "I cannot praise Doan's Kidney Pills highly enough for they have been a great friend to me. Some years ago I was an expert at sheep shearing and did a lot of that work. Everybody knows it is very hard on the back and it finally brought on a severe pain across the loins. Nothing did any good until a friend advised me to try Doan's Kidney Pills. I got a box and the treatment gave immediate relief. When I finished the box the trouble was entirely removed. If I feel any symptoms of a return a resort to Doan's Kidney Pills quickly ward off the attack. They are a reliable remedy and I consistently recommend them." Just such emphatic endorsement is plentiful in Tecumseh. Call at C. A. Wright's drug store and ask him what his customers report.

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

—Where is happiness always to be found? In the dictionary.

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store, 50 cents.

—When is a man not a man? When he turns into a lane.

"Little Colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds too, down to the very verge of consumption.

It is said a Hillsdale minister, who goes to church from his home in a carriage on Sunday, received an anonymous letter recently calling his attention to the fact that the Lord never rode to church in a carriage. The minister read the letter from the pulpit and then said: "If the writer will come to me next Sunday properly saddled and bridled, I will be glad to follow the Lord's example and come to church as He entered the city of Jerusalem."—Reading Hustler.

The Time to Do the Counting.

In the old days of impetuous warfare caution was not regarded as so much a virtue on the part of a military commander as at present. In a battle between French and Austrians, in which Marshal Bugeaud commanded the French forces, an officer of the staff said to the marshal: "The enemy are advancing. Shall I send a party to reconnoiter and see how numerous they are?" "No," said Bugeaud; "we'll count 'em after we've beaten 'em."

FOUR CHILDREN KILLED.

Were Playing With Can Which Had Contained Nitroglycerine.

Lancaster, O., Nov. 9.—Four children were instantly killed by an explosion of nitroglycerine at Bucks Run, in Hocking county, Sunday.

The dead: Oscar Bohn, Charles Born, aged 14 and 12; their eight-year-old sister, and the nine-year-old son of Robert Conrad.

The children were playing with a can which had contained nitroglycerine and it is supposed struck it with a stone. The home of the Bohns was partially wrecked. The bodies of the children were terribly mutilated.

King Knights Two Men.

London, Nov. 9.—King Edward's birthday honor list is extremely interesting. No new peers or privy councillors have been created, but there is a long list of promotions, decorations and knighthoods for services rendered in the various public departments. Vice Admiral Lord Charles Beresford has been promoted from commander of the Bath to Knight Commander of the Bath. August Manns, musical director of the Crystal Palace, has been made a knight. The following Canadians have been honored: Robert Bell of Toronto, director of the geological survey of Canada; Colonel Pinault, deputy minister of militia, and Louis Philippe Herbert, the artist.

Long Strike Ends.

London, Nov. 9.—The strike in the slate quarries at Port Penrhyn, North Wales, which has been maintained for the last three years, entailing great expense and suffering upon the families of the workmen, has collapsed, the men voting to return to work without having obtained a single concession from the owner, Lord Penrhyn.

LATE NEWS IN BRIEF.

Servia Wants to Borrow.—The government of Servia is making efforts to secure a loan of $20,000,000, to be used principally for the modern equipment of the army.

Why Russia Entered Mukden.—The correspondent of the London Daily Mail at Tientsin cables that the Russian government explains that the reoccupation of Mukden was made necessary because Japan was menacing the province of Shinking.

Dowie Says He Will Reutrn.—John Alexander Dowie held his final meeting in New York, in Carnegie hall, Sunday night, addressing a sparse audience, which he characterized as "scrawny and miserable." He also declared that he intended to return in two years at the head of a host 10,000 strong.

Scaffold Fell.—By the collapse of a scaffold in the Terminal Railroad association's subway, in course of construction near Union station, in St. Louis, twenty-five laborers were hurled twenty-five feet to the ground, three of them being probably fatally injured. The other twenty-two were more or less seriously hurt.

Nobility Recommends Nervine.

The above portrait is that of Countess Mogelstud, of Chicago, Ill., whose gratitude for the benefit received from the use of Dr. Miles' Nervine prompted her to make this statement:

"It affords me great pleasure to add my testimony to the very excellent merits of Dr. Miles' Nervine. Although I am past 80 years of age I find it soothes the tired brain, quiets the irritated nerves and insures restful sleep. I never feel contented without a bottle of it in the house." Gratefully yours,
CHRISTIANA MARIA,

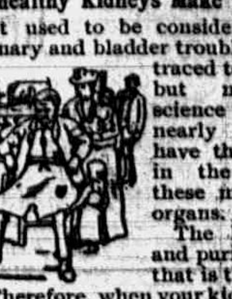
Anxious Moments.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar, It is a household favorite for throat and lung troubles and as it contains no opiates or other poisons, it can be safely given. J. J. Orr.

Lots of poor men are the architects of other men's fortunes.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure.



Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Misses Emma Ruesink and Helen Beebe entertained at a china throw in honor of Miss Zora Billington at the latter's home Saturday afternoon.

The best remedy for croup.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all druggists.

—Why may Dutch people be said to come into the world ready dressed? Because they are born in Holland.

Divorced and Remarried.

Menominee, Mich., Nov. 9.—Dr. Robert I. Cole and Mrs. Mary Cole, both of Appleton, Wis., who had just been divorced from each other by Judge Goodland at that place three weeks ago, were remarried by Justice Henry Nason in this city. Both are prominent residents of Appleton.

Sentenced For Seven Years.

Detroit, Mich., Nov. 9.—George H. Gifford, formerly a member of the Church of the Messiah choir and the son of a prominent Battle Creek man, was recently convicted in New York of a crime against a boy in that city and was sentenced to seven years at hard labor in the state prison.

Daylight Robbery.

Ann Arbor, Mich., Nov. 9.—While Ed Hiscock's man went into the back part of his woodyard during the afternoon a sneakthief entered the office, gave the safe door handle a turn and opened the door of the money drawer. The fellow secured $35 15 in money and $36 in checks.

Left His Family.

Mulliken, Mich., Nov. 9.—S. J. Jacobs, a barber, has left for parts unknown. He drew what money he had in the bank and bid his three small children good-bye in the absence of his wife. No cause for his action is known.

Given a Week's Respite.

Grand Rapids, Mich., Nov. 9.—Lant K. Salsbury appeared before Judge Wolcott Saturday for sentence. His attorney asked that action be deferred until next Saturday. The request was granted and Salsbury was ordered to appear at 9 o'clock on that morning when sentence will be passed. His bond was fixed at $10,000

Dragging Pains

2825 Keeley St.,
CHICAGO, ILL., Oct,, 2, 1902.

I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Maude Bush

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

LIFE PLANT
Renews Life.
The Very Best TONIC Ever Discovered.

The kidneys are the blood filters intended to remove the waste, and most of these diseases result from overtaxing them with excessive waste. The most frequent cause of kidney trouble is indigestion. LIFE PLANT aids digestion, relieving the kidneys from the very start. Kidney diseases cause more deaths than any other human affliction. They are usually painless at first, the only warnings are shown in the Urine, being cloudy or of high color. It is by neglecting these symptoms that kidney diseases are allowed to progress. An improper treatment is worse than none. LIFE PLANT is the only sure cure for kidney trouble.

Read what a cured one says.

Rev. J. H. Marchant, Pastor M. E. church at Freeport, O., writes:

"I take great pleasure, and do not hesitate to recommend Life Plant as an excellent remedy for Liver and Kidney difficulties. Mrs. Merchant desires to bear testimony to the healing virtues of Life Plant, as a sure and certain remedy for Rheumatism."

The cure of all Kidney trouble must come through the use of LIFE PLANT. GET SOME NOW.

BOUND TO SEE HER

Women Fairly Mobbed Miss Goelet at Her Wedding.

POLICE WERE POWERLESS

Thousands of Curious Thronged the Street—Woman Yanked From Under Canopy by Her Heels — Others Driven From Coal Hole.

New York, Nov. 11.—The marriage of Miss May Goelet, only daughter of Mrs. Ogden Goelet and one of the richest of American heiresses, to Henry John Innes-Ker, eighth duke of Roxburghe, was solemnized Tuesday at St. Thomas' church in this city, Bishop William Croswell Doane of Albany assisted by the Rev. Ernest M. Stires of St. Thomas' church, performing the ceremony.

A company of 250 guests, a small number for an international marriage of such importance, witnessed the ceremony.

Forming in the outer vestibule of the church the bridal party proceeded down the aisle to the chancel steps, the bride on the arm of her brother, Robert Goelet. She was gowned in white satin veiled with point valenciennes lace and trimmed with wreaths of orange blossoms. At the chancel steps the bride was met by the duke and his best man, Hon. Reginald Ward, son of the late earl of Dudley, and the bethrothal service of the protestant episcopal church was read by Mr. Stires. The party then advanced to the altar rail, where the episcopal marriage ceremony was said by Bishop Doane.

Afterwards the duke and duchess went to the home of Mrs. Ogden Goelet on Fifth avenue, where an informal reception, to which only a part of the wedding guests were bidden, was held. It had been intended to make the wedding a more brilliant function, but the death of Sir Michael Herbert, uncle of the bride, caused the change in plans.

Fifth avenue in the vicinity of the church was the scene before and during the ceremony of excitement and disorder unparalleled at any other wedding in New York. From the church to the Goelet residence, a distance of five blocks, the avenue was a surging mob, numbering fully 10,000 persons, mostly women, whom a force of 200 policemen was powerless to hold in check.

Before the service began several hundred women gained entrance to the church and seated themselves in the galleries, from which they were forcibly dislodged by a squad of police a few minutes before the arrival of the bride.

Rushed the Police.

When the carriage reached the canopy leading from the curb to the church the crowd of women banked up twenty-five feet deep on either side, rushed frantically forward, carrying the solid lines of policemen with them, and for a moment choked the entrance. A group of half a dozen women stooped down and lifted the canvas of the canopy leading to the street and crawled under it. Several of them managed to keep their heads under the canvas until the bride had passed up. A patrolman caught one very well dresed woman by one of her ankles and dragged her along the walk, she still clinging to the canvas, until she was forced to loose her hold. She was lifted up smiling and satisfied. She had seen the bride.

On the Fifty-third street side of the church fifteen well-dressed women crawled down into a coal hole leading underneath the chancel. They could not see anything but they could hear what was going on above. Policemen had to get in and drive them out.

After the invited guests had left the mob crowded into the church and proceeded at once to tear the chrysanthemums and lilies from the pew entrances. Before they could be stopped the chucr was despoiled of many of the floral decorations.

Man and Woman Killed.

Easton, Pa., Nov. 11.—James Thomas, a watchman, and Mary Dore, an Italian girl, were killed at Ackermanville, this county, last evening. They were passengers on a Northampton traction company trolley car that was run down and wrecked by a Bangor & Portland railroad freight train on a crossing. The father, mother and a sister of the dead girl, Engineer Chapman and Brakeman Kern of the freight train were seriously injured. The engine was thrown from the track and landed in a ditch six feet below the roadbed.

Infernal Machine In Hotel.

Milwaukee, Wis., Nov. 11.—A Daily News special from Madison, Wis., says: The town of Oregon, Kane county, is stirred up over the finding of an infernal machine in the Grand Central hotel. The package was placed underneath the clerk's desk and contained enough dynamite to demolish the hotel with its sixty guests. The sheriff has started an investigation.

A JURY AT LAST

Holbrook Case Opens With Startling Statements

FROM EX-PROSECUTOR TUTTLE

Will Show Proof of Bribery Arrangements—Says Sutton Will Swear Against His Colleagues—Interesting Trial Promised.

Lansing, Mich., Nov. 12.—A jury was secured in the Holbrook case shortly after 3 o'clock Wednesday afternoon, with only three of the ten additional jurymen who were drawn in accordance with the order of the court after the regular panel was exhausted Tuesday night.

The opening address for the people was made by former Prosecuting Attorney Tuttle, during whose administration the grand jury investigation was made and the several persons indicted by that jury were tried. In the course of his address Mr. Tuttle made some rather startling statements with reference to the alleged connection with the manipulation of the jury, of exSheriff William H. Porter, ex-Chief of Police John P. Sanford, Alderman William H. McKale and ex-Deputy Sheriff Carl Loomis of Mason.

The ex-prosecutor told the jury that the people would show that when Arthur H. Phillips of the township of Alaiedon, who was summoned as a talesman after the regular panel had been exhausted in the Sutton case, appeared in the courthouse to report for jury duty, he was met by McKale, who told him Holbrook wanted to see him before he went on the jury. A few moments later, Tuttle charged, Phillips encountered Sanford, who delivered the same message. Shortly after these messages were delivered court convened and Phillips was called to the jury box.

How Holbrook Bribed.

Phillips will swear, so the ex-prosecutor informed the jury, that he was encountered when on Washington avenue, a couple blocks from the courthouse, by Holbrook, who told him he wanted him to stay on the jury. Phillips is alleged to have replied that he could not do so, as he had been appointed census enumerator for his township, and the trial promised to be prolonged beyond the time fixed by law for taking the census. To this it is alleged Holbrook replied that there would be more in it for Phillips if he remained on the jury than there would be in the census job, three times over. "We want you to stay on the jury," Tuttle said Holbrook remarked to Phillips. "They are trying to convict Sutton, whom I regard as the most innocent man in the crowd. We want an acquittal, but a disagreement is what we are working for." Then, stepping to a pile of paving brick that were piled up on the sidewalk, Holbrook is alleged to have marked "300" on a brick and told Phillips there would be that much in it for him if he remained on the jury.

After relating the incident of Sutton's return from Mexico, Tuttle said: "Sutton will tell you that Holbrook commenced his connection with this matter by hiring a detective to watch Circuit Judge Person and report as to his movements a day or two before the grand jury convened. Through Holbrook, also, the services of Sanford, McKale and Porter were retained. Among other payments made Holbrook by Sutton was one of $25 with which to pay for an entertainment given at the home of one of the grand jurors. Sutton will tell you that he paid Holbrook six or seven hundred dollars. Some of this was paid by check, and he will produce the canceled checks bearing Holbrook's endorsement.

"After the original panel was exhausted in the Sutton trial and the sheriff was directed by the court to summon talesmen," declared the ex-prosecutor, "Sutton will swear that Sheriff Porter beckoned him into an ante room across the hall and offered to summon as talesmen any six men whom Sutton might name. Sutton immediately hurried off to see Holbrook, the deputy commissioner of labor, who after a conference with Lewis Frost, a clerk employed in the bureau, wrote six names on a piece of paper and gave the paper to Sutton, remarking that there were the names of six men who would not convict. Sutton took that paper to the Hotel Downey and gave it to Sheriff Porter.

One name on the list prepared by Holbrook was that of Witness Phillips, and he was subpoenaed to serve on the jury that very day."

Another interesting statement made by Tuttle was that Holbrook arranged with McKale, who was a member of the grand jury, to report what was going on in the grand jury room, tell all about the evidence, who it pointed to and who was likely to be indicted. It was further charged that McKale kept his agreement in this regard and even after the grand jury adjourned went to Detroit and gave information to Sutton.

Lansing Man Dead In Capital.

INSANE MAN'S DEED

Dr. Light of Saginaw Kills Daughther and Himself.

FATALLY WOUNDS HIS WIFE

Pain From Incurable Stomach Disease Drove Him Frantic — Left Letters Giving Reasons For the Awful Deed.

Saginaw, Mich., Nov. 10.—Some time during the night of Sunday or early in the morning hours of Monday, E. W. Light, a dentist, carrying on business in the Heavenrich block and having his home at 813 Jefferson avenue, shot and killed his only daughter and child, Miss Ruby E. Light, shot his wife fatally and himself committed suicide by poison.

There is only one way of accounting for the terrible tragedy, and that is on the theory that the man was insane. He had no reason for his terrible crime, his domestic life having been a happy one, and the devotion of father, mother and daughter, each to the other, being well known.

Disease appears to have weakened the mind of the unhappy man, until the paroxysms of pain unsettled his reason, and he determined to die and take his loved ones with him.

Discovery of the tragedy was not made until nearly 12 o'clock Monday noon, when B. H. Taylor of Bay City arrived in town. He had received a letter from the doctor, written on his office stationery, and so incoherent and scrawingly penned that he at once became alarmed. The letter was dated at Bay City, Nov. 8, and in it Dr. Light said: "My head pained so I could not tell what I was doing. Oh, dear, this terrible pain. It stops for a few minutes at a time, and then how terrible pain haunts me. I can't leave my dear ones to suffer when I am gone. It will be worse than death for them to stay here. It will soon be over. Something tells me I must."

A Terrible Sight.

Upon arrival here Mr. Taylor at once went to the house and sought admission, but there was no response to his knocking and bell ringing. Still more alarmed, he went next door to the residence of Hugh Spence, and with the assistance of that gentleman roisted a ladder against the north end of the house, and with Mr. Spence effected an entrance to a bedroom on the second floor, where a terrible sight met their view as they stepped from the sill to the floor. Upon the bed weltering in her blood, and gasping for breath, lay Mrs. Light. She was totally unconscious, and evidently dying, with a ghastly wound in her head, which had been penetrated by a revolver bullet of heavy caliber. Beside her on the bed and at the foot was the dead body of Dr. Light. He was not killed by shooting, however, as no wound was found on his body. He had taken carbolic acid.

They found the daughter's dead body downstairs by the side of the refrigerator, where she had fallen after being shot. There were two bullet wounds in her head. It was evident she had been aroused by the shooting of her mother and sought to make her escape, being overtaken by the insane man right at the door, through which, had it not been securely fastened, she might have escaped.

Tried to Set Fire.

It was evident that upon completing his work of butchery Dr. Light went upstairs again and took the poison which killed him. Around his head and in the pocket of his nightgown there was a quantity of loose matches, and the gown was scorched, which gives color to the impression that he sought to set fire to himself and to burn up the house after his insane frenzy had expended itself.

Prompt alarm was given, and the police were soon in possession, Coroner English empaneling a jury. The inquest was adjourned to 1 o'clock today. In the meantime Mrs. Light had been removed to St. Mary's hospital, where all that could be was done for her, the doctors expecting that she would live but a few hours.

Two letters were found in the house, written by Mr. Light. One of them was addressed to the sheriff and requested that no inquest or postmortem be held. "I have done this terrible deed myself," said the wretched writer. "I am going insane; I can see it coming from overwork. I am going to take my loved ones with me, for I can't go to an insane asylum and leave them behind to suffer worse than death. No family has lived happier than we have all our lives. Oh, dear! Oh, dear!" The other letter gives instructions to telephone Mr. Taylor at Bay City.

Wrote Obscene Letters.

Galesburg, Mich., Nov. 12.—Mrs. Cornelia Coville, who is probably approaching 60 years of age, was arrested by Deputy United States Marshal Phillips and taken to Grand Rapids to face the United States court on a charge of circulating obscene literature, in the form of letters, through the mails. As alleged, the accused woman became smitten with the charms of her hired man, and becoming jealous of his visits to a neighboring family, finally wrote the husband in the latter a letter in which the fancied relations of his wife and the aforesaid hired man were not only explained very definitely, but were also illustrated. This was only the first, as it is further alleged that letters of similar import from the same source have long ceased to be a novelty, as they are said to be numbered by dozens.

Doesn't respect old age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect Pill. 25c at C. A. Wright's, druggist.

OCTOBER TOO DRY

Wheat and Rye Damaged, but Not Seriously.

NOVEMBER CROP REPORT

Issued by Secretary of State Warner—Corn Crop Resulted Better Than Anticipated—Potato Crop Below the Average—Hog Cholera Prevalent.

Lansing, Mich., Nov. 11.—The Michigan crop report for November, issued by Secretary of State Warner last evening, says:

"The weather during October was warm and dry for that month. There was practically no rainfall in most parts of the state, which made it favorable for harvesting corn, potatoes and sugar beets. It was too dry for wheat and rye, although no serious damage was done.

The condition of wheat compared with an average is 85 in the southern counties, 77 in the central counties, 88 in the northern counties, and 84 in the state. Wheat was sown late again this year, but has made a fair growth for such a dry month. Very little damage has been done by the Hessian fly, so that conditions are favorable at the present time.

The total number of bushels of wheat reported marketed in October at the flouring mills is 307,408, and at the elevators 109,052, or a total of 416,460 bushels.

The estimated average yield of corn in bushels is 36 in the southern counties, 32 in the central counties, 29 in the northern counties, and 34 in the state. Conditions were very unfavorable for corn early in the season. The crop was backward all summer, but favorable weather later ripened corn in most parts of the state. Not only is the quality good, but the fodder has been secured in good condition. The figures are for bushels of corn when shelled and not bushels of ears, as the yield is sometimes estimated in some parts of the state.

The acreage of cloverseed harvested as compared with average years is, in per cent, in the southern counties 63, in the central counties 57, in the northern counties 58, and in the state 61. The average yield per acre in bushels is, in the southern counties 1.06, in the central counties 1.33, in the northern counties 1.84, and in the state 1.16. Owing to unfavorable weather, much of the clover failed to fill properly and was consequently cut for hay.

The potato crop this year will yield below the average. In some parts of the state where the ground was low or the soil heavy, potatoes have rotted badly. They made good growth during the summer on soil particularly adapted to potatoes, but in many places these potatoes were attacked by blight, which materially lessened the yield. The estimated average yield per acre in bushels is, in the southern counties 80, in the central counties 65, in the northern counties 81, and in the state 77.

The average condition of horses, sheep and swine in the state is 97 and cattle 98. Hog cholera is prevalent in many parts of the state and has caused considerable loss to farmers. Pastures have been good, so that stock will go into the winter in good condition.

CUBA PAYS FOR IT.

U. S. Gets a Coaling Station at Guantanamo.

Washington, Nov. 12.—Without any formality, the United States has come in actual possession of the coaling station at Guantanamo. Although the flag-raising has not taken place, it is learned at the navy department that the transfer was effected in a quiet manner several days ago. Under the arrangement, Cuba will pay the owners of the property. It was explained that the moving factor in the transaction was the knowledge that Cuba was without a navy, and as the United States has undertaken the protection of the island against a foreign foe and desires the station as a naval base to protect its own interests, the transfer was made in order that this government might complete its plans mapped out some time ago.

In furtherance of these plans a board of inspection, consisting of Maj.-Gen. Chaffee, General Gillispie and Captain Dayton of the navy left Wednesday for Norfolk, where they will board the cruiser Buffalo, now fitting there, for a visit to Guantanamo and Bahia Honda, the other coaling station granted to the United States under agreement with Cuba.

Saw Jefferson Play In 1856.

Battle Creek, Mich., Nov. 12.—An old man, W. A. Harrington, tottered down to a local newspaper office and asked the influence of the paper to aid him in securing an interview with Joseph Jefferson, whom he saw play "Rip Van Winkle" at the Arch Street theater in Philadelphia in 1856. Jefferson received the aged caller, presented him with an autograph and insisted upon his accepting free tickets to the local performance of the old play.

Fatally Wounded His Sister.

Stephenson, Mich., Nov. 12.—A 13-year-old boy of Andrew Regner, residing eight miles from here, in the absence of his parents took a rifle and shot his six-year-old sister, the charge tearing off the right side of her face, destroying one eye and fracturing the cheek bone, exposing the membrane of the brain. The boy, after the deed, tried to get a cartridge to kill himself, but not finding one he escaped to the woods and has not been found. The girl is not expected to live.

Deafness cannot be cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. FORMAL RECOGNITION

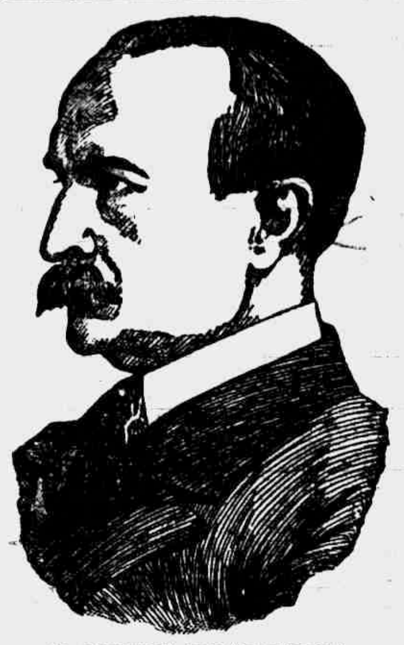
Of New Republic Will Take Place on Friday.

Washington, Nov. 12.—When M. Bunau-Varilla returned from his conference with Secretary Hay last evening he informed the Associated Press that he would be received by the president at the White House on Friday at half-past 9 o'clock as minister plenipotentiary and envoy extraordinary of the republic of Panama to the United States. This hour, he said, will mark the passing of the de facto government to a de jure stage.

M. Bunau-Varilla first will call at the state department, on Secretary Hay, who will accompany him to the White House and make the presentation. The ceremony will occur in the blue room.



M. PHILIPPE BUNAU-VARILLA.
[Panama's envoy at Washington.]

M. Bunau-Varilla announced last night that he would cable his government, advising that it decline to allow General Reyes to land unless he bore full credentials as Colombia's minister plenipotentiary and envoy extraordinary to the republic of Panama.

The state department has decided to request the authorities at Panama to receive General Reyes, who is going to the isthmus on a peace mission from Bogota. It is estimated that he cannot reach his destination within two weeks.

The state department has received a cablegram from Ambassador Porter at Paris, sawying that the sympathies of the French people are with the Panama republic.

Lad Is a Hero.

Grand Rapids, Mich., Nov. 12.—Mrs. F. C. Van Keuren and her four children owe their lives to the presence of mind of her nine-year-old son. The mother had dropped a lamp on the stairway, setting fire to the only regular exit from the second floor, and all would have perished but for the young son, who remembered that a ladder had been left against a rear window. He hurriedly piloted his mother and the four children through the smoke to the ladder, and when they were safely on the ground he followed them.

The undersigned having been appointed by the probate court of said county, commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the Justice office of Sylvester P. Hosmer in the township of Tecumseh, Lenawee county, Michigan, on the 28th day of November, 1903, and on the 27th of April, 1904 at ten o'clock in the forenoon of each of said days.

And that six months from the 27th day of October, 1903, are allowed by said probate court for the creditors of said estate to present their claims to us for examinatinn and allowance.

Dated October 27th, 1903.

SYLVESTER P. HOSMER,
ALFRED JAMES,
Commissioners.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage (whereby the power of sale in said mortgage contained has become operative) dated executed and delivered on the 29th day of September A. D. 1900, by Joseph H. Brown and Annie Brown, his wife, to the Tecumseh State Savings Bank, and recorded in the office of Register of Deeds for Lenawee County, State of Michigan, on the 4th day of October A. D. 1900 in Liber 130 of Mortgages on page 510, and upon which there is claimed to be due at the date hereof the sum of seven hundred sixty-seven and 87—100 dollars, including taxes paid by the undersigned upon said mortgaged premises and interest thereon; and no proceedings at law or in equity having been taken for the collection of said mortgage debt;

Notice is therefore hereby given that, by virtue of said power of sale, I will, on the 1st day of February A. D. 1904, at ten o'clock in the forenoon of said day, at the east front door of the Court House in the City of Adrian, Lenawee County, Michigan, (that being the place where the Circuit Court for said County of Lenawee is holden), for the purpose of realizing the mortgage debt aforesaid, and said taxes, with interest thereon, together with the costs of this proceeding (including a lawful sum as an attorney fee), sell, at public vendue, to the highest bidder, the following lands in said mortgage conveyed, to-wit:—That parcel of land in the village of Tecumseh, County of Lenawee, and State of Michigan, known, bounded and described as follows, viz:—All that part of Block one of Henry L. Hewitt's addition to said village bounded by beginning in the east line of said Block about eighteen rods south from the north-east corner thereof and at north-east corner of lands (formerly owned by Fincham (formerly by Stevens), and running thence north in east line of said Block eighty-six feet; thence west, parallel with north line of land deeded by Teachout to Waters January 17th, 1900, one hundred and thirty-five feet; thence south, parallel with first course, thirty-six feet; thence west, parallel with second course (extended), sixty-three feet; thence south, parallel with first course, fifty feet; thence east, parallel with second course, one hundred and ninety-eight feet to beginning.

Dated, November 5th A. D. 1903.

HELEN ADAIR'S IMPRESSIONS

Of Paris Styles

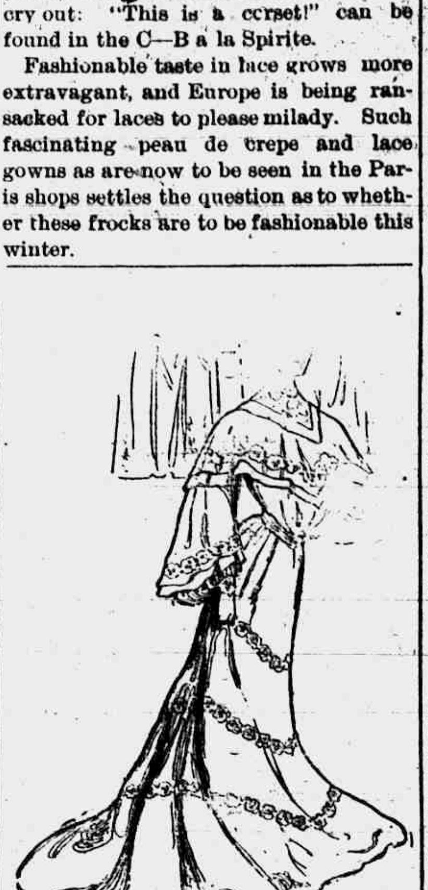
FASCINATING LACE AND PEAU DE CREPE GOWNS.

The Reign of the Separate Blouse.

After a careful study of the models shown in this fashion centre of the world, bright sunny Paris, I have culled the best and most settled features of the leading styles for you, carefully avoiding the over-elaborate and exaggerated styles, which one often sees in so-called fashion plates, and which, if copied, would make the wearing outre enough to grieve all judicious beholders.

Exaggeration in dress expresses self-consciousness, which no fashionable woman wishes to display, and nothing is so marked as the exaggerated styles in corsets, which women wear to their discomfort, believing themselves to be smart appearing when they are only ridiculous. A happy medium that expresses the perfect figure but does not cry out: "This is a corset!" can be found in the C—B a la Spirite.

Fashionable taste in lace grows more extravagant, and Europe is being ransacked for laces to please milady. Such fascinating peau de crepe and lace gowns as are now to be seen in the Paris shops settles the question as to whether these frocks are to be fashionable this winter.



The exquisite gown in my illustration is of cream white Peau de Crepe and Irish lace. The skirt is made over a decidedly flaring white taffeta drop skirt with three full ruffles at the foot. Three bands of lace are set into the skirt at about 12 inches apart, coming to a decided point in front. The waist, with its draped fichu effect and wide elbow sleeve, is a favorite style with Rue de la Paix modistes for this autumn and winter, and one that I predict will be extremely popular with American women for house and theatre wear.

A smart waist was a Forsythe model, French flannel, worn with a skirt of the new earth brown, which was cut with a short train and elaborately stitched with a perfectly matched silk.

The separate blouse has an office not a whit less important than formerly. A glance in the shops as well as at the best gowned women in Paris tells this story. Not only as a morning outdoor garb with the rough tweed "mannish" skirt, but with indoor long "swishy" skirts, it gives a woman a chance to look really smart and yet be very plainly dressed.

For wearing with the two-piece tailor-mades, waists of the French flannels, English wash flannels and Scotch tartans are most popular, while peau de crepes, heavy lace and silk ones will be in the lead with the elaborate coat and skirt suits for musicales, matinees and the like.

As to hats, velvet Gainsboroughs are having great vogue in Paris, both in black and colors to match gowns.

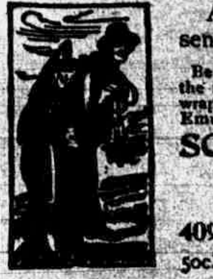
Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.



A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

He was taken to his home in Weston yesterday and it will be some time before he will be able to be around.

The Dr. Jekyl and Mr. Hyde show company booked for the Pontiac opera house last evening failed to appear. The company stranded on the rocks of adversity, yesterday, at Hillsdale and a message was sent here announcing the fact. The company had one of the best advance sales of any show that has been billed to appear here this season. Had they been able to reach Pontiac they would probably have been placed on their feet, for a little longer, at least.—Detroit Free Press, Nov. 12.

El Captain.

Next Tuesday evening, Nov. 17, may be seen at the New Bradley, the Graus' Opera Co., in El Capitan.

This company has been seen in Adrian by many Tecumseh people, in fact some of our people have seen this opera there and it can be said to be one of the best opera's ever seen in Adrian. Everything is first class and Manager Bradley should be congratulated on having secured so good a company for Tecumseh.

The seats will be placed on sale Saturday morning (tomorrow) and as the prices have been placed at 50c, 75c, $1 and $1.50 Any one can secure a seat at what price they choose to pay if they take advantage of the sale at Orr's drug store. These prices are the same as charged in Adrian, Toledo and Detroit and the attraction is every bit as good. Do not miss it.

Postponed Auction.

On account of rain, the undersigned have postponed their auction sale of stock from Nov. 11 to Tuesday, Nov. 17.

The sale includes 6 horses, 6 colts, 4 cows, 44 Shropshire ewes, 52 Shropshire lambs, 1 Shropshire and 1 Lincoln buck, 2 ewes, 1 with 8 pigs by her side, 1 with pig; 2 full blood boar pigs, 1 platform spring wagon, 1 road cart, set light double harness, etc. etc.

The above stock is choice bred, the horses being from imported Percheron stallion.

There will be services at the Universalist church next Sunday conducted by the pastor. The subject of the morning sermon will be "The Prosperity of the Wicked." The evening service will begin at 7 o'clock, standard time, and the subject considered will be "St. Augustine," the greatest of the Roman Catholic fathers. Sunday school at 11.30.

CLUB NOTES.

The Thanksgiving program of the Wit and Wisdom club will be held at the home of Mr. and Mrs. J. H. Smith Monday evening, Nov. 16, with Mrs. Albert Waring as leader.

The Monday club program for Nov. 9 was in charge of Mrs. W. M. Ingersoll, who arranged for an Emerson afternoon. A paper on "Ralph Waldo Emerson and the Emerson—Carlysle friendship" was given by Florence Huey, "Emerson as a Poet and Prose writer" by Mrs Crosby. Quotations from Emerson's essays given by all the members present occupied the greater part of the time. An article on "Nathaniel Hawthorne and a review of the Marble Faun" by Mrs. Hillman closed the literary exercises. Mrs. B J. Garlinghouse had current events in charge and brought out a discussion of the Panama question.

Program for Nov. 16:
The Tariff Question—Mrs. Finch.
Brook Farm, its members, scholars and visitors—Mrs. Wright.
John Greenleaf Whittier—Miss May Taylor.
Selections from Oliver Wendell Holmes—Mrs. J. O. Eaton.
Current Events—Mrs. Eugene Harris.
Leader, Mrs. Cleo Hall.

A News Service without Parallel.

There is ample justification for the claim made by The Chicago Record-Herald that its readers enjoy every day in the week, Sundays included, a news service that is without parallel in range and completeness. In addition to the independent news facilities of The Record-Herald, that paper receives the complete news service of the New York Herald, the New York World and the Associated Press, and when it is considered that its news columns are supplemented by all the special features so popular with its thousands of readers, it will be seen that The Record-Herald holds a unique place among the great newspapers of the United States.

SOCIAL AFFAIRS

A Reception given to Adrian Ladies by the

RESEARCH CIRCLE

Also other Affairs of interest to the Social People of Tecumseh.

One of the most delightful club entertainments of the season was given by the Research Circle Wednesday afternoon, Nov. 11, at the spacious home of Miss Sawyer on Union street, where everything had been prepared for the comfort and entertainment of the Adrian ladies club. The day was a very stormy one, but no inconvenience was suffered by the visitors, number 22, for Mrs. Crosby and Mrs. Farnsworth met them at the station, having in readiness six carriages for their use.

After greetings by the reception committee, which consisted of the president, vice president, and ex-presidents, Mesdames Hurrey, Belcher, Burridge, Freeman, Andrew Wilson and Tiffany, the program prepared was presented. Two piano numbers were graciously rendered by Miss Mills. Two very instructive and pleasing papers were given, "Mrs. Leland Stanford and her work" by Mrs. Cleo Hall, and "The forests of the Amazon" by Miss Christine Wilson. Both clubs indulged in the table talk, "Inventions of Women," creating much merriment.

Then followed Research Circle roll-call, by the secretary, to which members responded with a quotation from Thomas Bailey Aldrich, whose birthday we celebrated. An article upon his life and writings was read by Mrs. Freeman by way of introduction. This closed the literary program.

The house was prettily decorated with chrysanthemums and punch was served before and after the program. Beautifully appointed tables were brought in from which was served a delicious luncheon consisting of two courses.

The carriages were now announced in waiting to convey the visitors to the station and with pleasant goodbyes, departed, saying they would ever retain a most pleasing memory of their entertainment by the Research Circle of Tecumseh and hoped some day to be invited again.

Mrs. Joseph Emery and Mrs. Henry McClure entertained about 40 ladies Tuesday afternoon at progressive pedro at the home of Mrs. McClure. The house was handsomely decorated with palms and ferns. Mrs. Frank Snedicor won first prize which was a pretty handkerchief basket. Mesdames Geo. Field, Garland Gillespie and Teft drew cuts for the consolation, which was won by Mrs. Gillespie, who received a jewel basket. A three course supper was served which brought to a close another delightful afternoon. Mrs. Emery of Adrian, was the only guest from away.

Mr. and Mrs. Tom McCann gave a very pretty military pedro party last Tuesday evening, at their home on Pottawatamie street. There were eight tables, and those at the winning table were Mesdames Emery, of Adrian, Henry McClure, Cleo Hall, Miss Grace Erskine, and Messers Ben Pulver and Rayor Brewer. The prizes were china hair receivers. A three course supper was served. Guests from out of town were Mrs. James Boland and Miss Gertrude Woods of Jackson, and Mrs. Emery of Adrian.

A few friends were informally entertained at cards Wednesday evening by Mr. and Mrs. Chas. Smith at their home on Logan street. After the prizes were awarded to the lucky ones, who were Mrs. Garland Gillespie and Mrs. Guy Belding, refreshments were indulged in and the evening's program brought to a close.

Mr. and Mrs C. A. Wright entertained the King Pedro club at their home last evening. Six tables of Military euchre were played and light refreshments were served. Mrs. Chase of Elmyra, N. Y., was the only guest present from away.

Grau's Opera Co.

The Jules Grau Opera Company will be the attraction at the Bradley Opera House Tuesday, Nov. 17. This celebrated organization is well and favorably known throughout the world to all lovers of musical productions, and it has done more to educate the public to his class of productions than any other management of the present day. Mr. Grau always puts on his productions in the most elaborate style, and his visit to Tecumseh will be no exception to this rule. He will present that great comic opera success El Capitan which created such a furore when first put on the stage, and which is continuing to fill the houses where it is played. Mr. Grau has with him a chorus of picked voices, consisting of a bevy of superbly dressed handsome girls who are sure to win the plaudits of their audiences. Among the principals are Miss Anna Marie Tyler, Ethel Balch, Bessie Fairbairn, Lucca Schott, Lillian Lord, Mr. Jos. W. Smith, John Henderson, Wm. Herman West, Albert and George Lord.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

OUR HENRY'S "PIPE DREAM."

The Honorable H. C. Smith went down to

LIMA, OHIO.

The other day and on the road home indulged in a railroad day dream.

Wednesday afternoon I was in the great Ohio city of Toledo, and as the evening Lake Shore train was somewhat late and we had to wait in Toledo about an hour for the mail, had quite a conversation with the Honorable H. C. Smith, who was on his way home from Lima. He had been to Lima engaged in a law suit for the Page Wire Fence Co., against the Ohio Southern Co., and met there Judge Doyle and other Toledo lawyers and came home filled with railroad rumors, true and otherwise, but which will make quite a railroad story.

It will be remembered that a few weeks since the Detroit Southern trains commenced running into the Michigan Central station in Detroit, and since that time there have been all kinds of talk in railroad circles. There must be something in a move of this kind, that is something beside the using of the Michigan Central station and tracks for the Detroit Southern trains in Detroit, and from one thing to another a rumor has been afloat that the Michigan Central will buy the Detroit Southern and thus in time give the Michigan Central an outlet to the sea. The Detroit Southern now runs to Ironton on the Ohio river, across from which is the C. & O. railroad which is but a step to Newport News and the seaboard. The Michigan Central is today like a ship without a rudder, the road goes from Chicago to Buffal but has no way to get out and Newport News would give it that way.

This yarn is all very pleasant and the Michigan Central with its connections would make for the Detroit Southern a great railroad system and hit Tecumseh in the front rank with connections direct to Jackson, Grand Rapids, Chicago, Mackinaw and Buffalo. On the other hand, if the deal is not made with the Michigan Central, it is a sure thing that the Detroit Southern will build a line from Hamler into Toledo, and as 90 miles is saved in the coal haul between this and the present outlet. the coal will go that way and it looks as if the line from Hamler to Detroit would be like the Dundee plug over the D. T. & M. is today, if used at all.

In talking with "Our Henry" it seems to me more than ever that there are no class of people in this county larger fools than democrats except they are republicans. After two terms of work in Congress the republicans of this district refused to return Smith for the third time when he had commenced to learn how to be useful. According to the present plan the Jackson man will go two terms and then be retired for some new man who will in time retire for men without number hence the second district in Michigan will remain practically without representation for all time to come.

WASHINGTON LETTER

Washington, Nov. 9, 1903.

The fifty-eighth Congress began its session today and from now on until the politicians return home next spring to prepare for the presidential struggle, Washington affairs will monopolize the attention of our public men. The first legislative battle will be over the Cuban reciprocity legislation, and although there is hardly any doubt about the passage of the bill to render the treaty affective, the debates on the subject will be very sharp, especially as they will involve a discussion, on the tariff. The republicans will probably encourage tariff talks as they believe the people are with them on this question and also that it will prevent, to a certain extent, a discussion of the scandals in the Government Departments, out of which the democrats wish to make political capital. Foreign affairs, especially the revolution in Panama and the possible hostility of Columbia to this country may cause some interesting debates in the Senate, which will no doubt consider also the Chinese commercial treaty, the benefits of which are being threatened by Russia's action in Manchuria.

The most interesting members of the Senate from now until the presidential candidates are decided upon will be Hanna and Gorman both of whom since the recent election, are considered to be presidential possibilities.

Secretary Hitchcock has received the report of Sanford B. Dole, ex-governor of Hawaii, on conditions in the territory. The production of sugar continues to increase, but that of rice has fallen off, owing to the competition of new rice fields in Texas and Louisiana and to the diminishing numbers of Chinese in the territory. A slight tariff on coffee is advocated, as the Hawaiian planters cannot compete with the coffee imported from the United States and elsewhere. The population of the territory is very mixed, made up of Hawaiians, Portuguese, Japanese, Chinese, Scandinavians, Spaniards, Britons, Americans and Germans. Intermarriage between white men and Hawaiian women is very frequent and the offspring is as a rule an improvement over the pure Hawaiians in thrift and business enterprise. Unless there is an increased immigration from America there is grave danger from the numerical inferiority of the Anglo-Saxon element. The territory is likely to come into complete control of the Orientals.

Officials of the State Department, as well as all who are interested in the canal negotiations, are watching closely the efforts of Panama to gain her independence. The revolution on the isthmus is now in full progress. The Republic of the Isthmus, as the new state calls itself in its declaration of independence, has established a government under a triumvirate, driven out all Columbian troops who were hostile to the revolution, adopted a flag which is red, white and blue, and is now demanding recognition by this government. The secession of the Isthmus was expected. Its geographical connection with Columbia is a loose one, and the interests of the two sections were antagonistic. When the Bogota government rejected the canal treaty and thereby delayed the construction of the canal which is so desired by Panama, talk of separation become general on the Isthmus and has now been put into effect with every prospect of success. Our consular officers have been instructed to recognize the de facto government and this is the first step in recognizing the sovereignty of the new republic. United States warships are at Panama and Colon, and marines have been landed to maintain an open traffic on the isthmus, as this government is obliged to do by the treaty of 1846, which was signed with New Granada, of which Columbia is the remaining part. Senator Cullom of the Senate Committee on Foreign Relations says that he hopes Panama will establish a government which we can recognize and treat with regarding the canal, and his opinion is shared by all those who believe in the Panama route. Senator Morgan on the other hand, declares that the revolution puts an end to the negotiations with Columbia and that President Roosevelt is now bound by the positive instructions of the Spooner act to take up the Nicaraguan route However it is generally admitted that the quickest and surest way would be to treat with Panama direct. Unless Columbia can put down the revolution quickly, which is very improbable, this country will doubtless recognize the independence of Panama, and establish a kind of protectorate over it. It has a population of only about 250,000 and could hardly hope to exist long by itself. Our treaty obligations of preserving traffic on the isthmus would be sufficient grounds for us to protect the state from outside aggression or even internal disorders. The case presents interesting political possibilities and will bring about much discussion.

In New York City, Tammany succeeded in making the municipal campaign a party contest and the democrats won by a majority so large as to warrant them in believing they can carry the state next year, Tammany was opposed by the entire press of the city with the exception of the Hearst papers, which did everything possible to aid the party which sent Hearst to Congress, and which he hopes will aid him in getting to the White House. The successful candidates have furnished Hearst's papers with written statements of their appreciation of his assistance. and these are being published in his papers in New York, Chicago and San Francisco.

Paine's Celery Compound
Cures
DYSPEPSIA, INDIGESTION, AND STOMACH TROUBLES.

The tortures and evils of dyspepsia and indigestion are experienced by thousands at this time. The dyspeptic's train of evils may be enumerated as follows: feelings of dizziness, languor, nervousness, sleeplessness, headache, distension of the stomach, loss of flesh, difficult breathing, and the action of the heart is seriously affected.

All forms of dyspepsia are quickly banished by the use of Paine's Celery Compound. The use of this marvelous medicine allays the inflammation of the nerves centred about the stomach; it opens up the sewers of the body and removes all waste matter; it cleanses the blood; it makes new nerve fibre; it restores digestive power, and promotes bodily strength and activity. Mr. Fred. Ross, Clarendon, Iowa, briefly writes about his happy experience with Paine's Celery Compound as follows:—

"It gives me great pleasure to testify to the merits of Paine's Celery Compound. I can candidly and honestly say it is the best medicine in the world. Two years ago I was suffering from indigestion and nervousness, and was so run down that I could hardly walk without help. I used two bottles of Paine's Celery Compound and got better almost from the first dose, and have had no use for medicine since. I was completely cured."

MOST BEYOND BELIEF.

If it were not for Tecumseh Indorsement people might be skeptical.

Tecumseh people want local proof.

That's what we have here.

It's not beyond belief because it can be proved.

Read a local citizen's testimony.

Mr. W. C. Witherell, agent for buggies, harnesses and other machinery, place of business southwestern section of Tecumseh, says: "I cannot praise Doan's Kidney Pills highly enough for they have been a great friend to me. Some years ago I was an expert at sheep shearing and did a lot of that work. Everybody knows it is very hard on the back and it finally brought on a severe pain across the loins. Nothing did any good until a friend advised me to try Doan's Kidney Pills. I got a box and the treatment gave immediate relief. When I finished the box the trouble was entirely removed. If I feel any symptoms of a return a resort to Doan's Kidney Pills quickly ward off the attack. They are a reliable remedy and I consistently recommend them." Just such emphatic endorsement is plentiful in Tecumseh. Call at C. A. Wright's drug store and ask him what his customers report.

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

The best remedy for croup.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sal by all druggists.

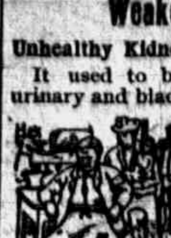
Often The Kidneys Are Weakened by Over-Work.
Unhealthy Kidneys Make Impure Blood.



It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MRS. FLOOD GUILTY.

Convicted of the Murder of John London.

Grand Rapids, Mich., Nov. 12.—Contrary to general expectations, the circuit court jury at 3:30 Wednesday afternoon returned a verdict of guilty of murder in the first degree in the case of Mrs. Nancy Jeanette Flood, charged with the murder of John London on April 21, 1903. The jury was out all night and the greater part of yesterday before it reached an agreement. Mrs. Flood took the verdict without emotion and will be sentenced today.

This case has attracted a great deal of attention throughout the state, because of the nature of the defense made and the testimony brought in. It will be remembered that London met his death while eating at the table in the farmhouse of Barney Fingleton, where Mrs. Flood was housekeeper. She reported the death as an accident resulting from the discharge of a shotgun in London's own hands.

Suspicion finally fastened upon her, however, partially because of a discrepancy between her story and that of Barney Fingleton, who is awaiting trial on the same charge. The prosecution claimed that Mrs. Flood's purpose was to get London's accident insurance of $1,000. The evidence was largely circumstantial.

PORT HURON WINS HONORS.

Woman's Home Missionary Conference in Detroit Closes.

Detroit, Mich., Nov. 12.—The last session of the convention of the Detroit Conference of the Woman's Home Missionary society occurred at the North Woodward M. E. church Wednesday afternoon. The entire day was spent by the various committees in winding up the work which they commenced Tuesday. The convention, the ladies say, has been the most successful one held in many years.

A communication was read by the president, from the national committee requesting the Detroit conference to increase its membership from 3,234 to 4,284, and the secretaries from the following districts pledged the following number of new workers: Detroit, 300; Bay City, 50; Saginaw, 150; Flint, 100; Port Huron, 50; Ann Arbor, 100; Lake Superior, 25; Our Queen Esther circle, 225. The banner and flag which goes to the district that enrolls the most new members and brings in the most subscriptions to the "Woman's Home Missions," a magazine published by the Detroit conference, were both captured by the Port Huron district. The months in which the annual district meetings will be held were set, and on an invitation from Mrs. E. H. Norton, secretary of the Ann Arbor district, Ann Arbor was selected as the place to hold the next annual convention, the date of which was not definitely set.

Dragging Pains
2825 Keeley St.,
CHICAGO, ILL., Oct., 2, 1902.
I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

The Very Best TONIC Ever Discovered.
The blood is a great source of health or disease in the human system. If the blood is pure, the individual is strong and healthy; if the blood is impure or diseased then there is sickness and disease in the whole system.

Impure blood causes such diseases as Eczema, and Scrofula. LIFE PLANT effects its wonderful cures by acting through the blood. It is impossible for that blood poison, uric acid, or any other blood impurity to exist in the presence of our harmless medicine. The phenomenal success of LIFE PLANT in the many forms of blood diseases, warrants us in stating that it is a positive cure for Eczema and Scrofula. Read what Mr. M. P. Hobbs says of LIFE PLANT:

PANAMA LAUGHS

No Heed Given to Colombia's Threats of War.

INHABITANTS FEEL SECURE

Signs of Revolution in Bogota—Strong Feeling Against Marroquin For Not Passing Canal Bill—Minister Beaupre Reports Panicky Conditions.

Panama, Nov. 16.—President Marroquin's statement as conveyed in a cablegram to General Plaza, president of Ecuador, that Generals Reyes, Cabelleros, Ospina and Holguin are now marching on the isthmus to suppress the isthmian traitors," has set the entire population of the isthmus laughing. Protected by the impenetrability of the land and many leagues of coast line separating the isthmus from Colombia and confident that the United States intends to prevent the landing of Colombian soldiers from the sea the isthmians feel that their security is absolute.

The loss of the isthmian territory is, of course, a tragedy for Colombia. The government at Bogota is probably ignorant of the attitude taken by the government of the United States during the last two weeks. In a frenzy "to save its face to appease an angry and disappointed populace and to satisfy the public demand for some appearance of activity and an attempt to save the honor and the territorial integrity of Colombia, the government is no doubt promising and threatening to send forces to the coast and take other aggressive steps.

Well informed people on the isthmus believe that the Colombian government is going through all these forms of organizing expeditions not merely for the foregoing reasons but owing to the necessity of forestalling and awaking the threatened revolutionary outbreak at Bogota.

The growing feeling against President Marroquin is believed to be due to the fact that he did not show sufficient determination to effect the ratification of the canal treaty, which would have saved the isthmus to Colombia.

Washington, Nov. 16.—A revolution in Colombia is not impossible, according to an opinion expressed in a dispatch received at the state department Sunday from United States Minister Beaupre at Bogota. It was dated Thursday, Nov. 12, and at that time Mr. Beaupre described the feeling in the capital city as panicky.

The minister has delivered to the Colombian government his instructions sent to him by the state department on the 6th inst., advising him that the United States has entered into relations with the government at Panama and commending to both governments of Colombia and Panama "the peaceful and equitable settlement of all questions at issue between them."

Mr. Bunau-Varilla, the minister from Panama, continued his efforts Sunday to secure recognition of the new government by the European nations. Twice he saw M. Jusserand, French ambassador, in this behalf, and last night M. Bunau-Varilla expressed the opinion that France soon will accord the recognition desired.

A cablegram Sunday gave authority to Minister Varilla to make representations to the foreign representatives here necessary to effect a speedy recognition of the new republic.

In official circles here the opinion is expressed that the commission, consisting of Generals Reyes, Holguin and Ospina, which, according to the Associated Press dispatches from Bogota, have started on a peace mission to Panama, are embarked on a hopeless task. It is now too late, it is said, for anything in the direction indicated in the dispatch to be accomplished.

DARED HIM TO FIRE.

Young Man Did It and Is Now Charged With Murder.

St. Joseph, Mo., Nov. 16.—Irving McDonald, a young and wealthy business man, was shot and killed Sunday by J. F. Furlong, a traveling man, whose home is given by him as St. Louis. Furlong says his act was in self-defense, as he was assaulted by four men and shot only when he believed his life to be in danger.

In company with Mrs. Lester Myrick and Grace Holt of "The Governor's Son" company, and several other friends, Furlong and McDonald went to an Edmond street cafe after the performance of "The Governor's Son." They are said to have been drinking freely.

After the party left the cafe, according to the police, words passed between the two men, and Furlong drew a revolver. Placing the weapon against McDonald's body Furlong hesitated a moment. McDonald dared him to fire and Furlong pulled the trigger.

The women are held as witnesses. They are said to reside in New York city.

To Sail For North America.

Berlin, Nov. 16—A dispatch from Kiel says the imperial yacht Hohenzollern, has been made ready to go to sea in February. Her destination is announced to be North America, but what personage will sail on her has not been made known.

Detective Stabbed by Thugs.

Detroit, Mich., Nov. 16.—Late Saturday night Railroad Detective Joseph Yeager of the M. C. road, was cut three times while trying to arrest three men who were stealing coal in the West Detroit yards.

A runaway bicycle.

TO VOTE ON TREATY

Cuban Bill Up Before the House This Week.

THEN TO THE SENATE

Upper House to Consider General Wood's Nomination—Senator Morgan Primed For Panama Proposition—Amendment to Be Offered.

Washington, Nov. 16.—It is the intention of the senate leaders to confine as closely as possible the legislation of the present extra session to the bill to carry into effect the Cuban treaty, and with that end in view the daily sessions of the senate during the present week will be brief and another adjournment will be taken on Thursday or Friday until the following Monday.

It is quite well understood that Senator Morgan is prepared for a prolonged discussion of the situation on the isthmus of Panama, but while he seems not to have taken any one into his confidence, the general supposition is that he will defer his speeches until the new canal treaty shall be sent to the senate.

It is expected that the Cuban bill will be received from the house on Friday and it is probable that a session will be held on that day in order that the bill may be referred to the committee on foreign relations, which will begin its consideration at once.

The committee on military affairs will meet during the week to consider the nomination of General Wood, and as soon as practicable, after the committee reports on it, the question of confirmation will be brought before the senate executive session in consideration of other nominations.

Work of the House.

The bill making effective the Cuban reciprocity convention, reported by the ways and means committee, will be taken up in the house today and disposed of Thursday. It probably will be sent to the senate Friday.

Mr. Payne of New York, chairman of the ways and means committee, will ask the house today to begin its consideration. A rule will be reported by the committee on rules, providing for a vote at 4 p. m. Thursday, without intervening motion. On the adoption of the rule the house will go into committee of the whole and discussion of the Cuban bill will begin.

The program of the minority is well defined by the resolution adopted at the democratic caucus last night. A rule cutting off amendments will be opposed in order that an amendment may be offered striking out the differential on refined sugar and eliminating the five-year clause.

FRAUDS IN STAMPS.

Alleged Rare Postage Has Got Into Circulation.

Washington, Nov. 16.—The postoffice department is pressing the investigation of published allegations that rare postage stamps have illegally found their way from the department to stamp speculators.

Postoffice Inspector Fosnes, formerly director general of posts of Cuba and Fourth Assistant Postmaster General Brostow's chief assistant in the postal investigation, and Inspector Williams are in charge of the stamp investigation. They have not only gone through the records of the department but have examined a number of persons in the department and in the bureau of engraving and printing, which prints the stamps, and have examined philatelists, including a prominent dealer in this city, with a view to ascertaining the identity of the persons who have sold stamps to the dealers in those articles.

It has been the practice of the office for a number of years to distribute among department officials and other prominent persons "specimen" stamps distinctly so marked to prevent their use as postage, as an official courtesy, and it is known that a large number of these stamps have found their way into the hands of the dealers. The inspectors are endeavoring to find out who sold them to the dealers. The investigation may be concluded this week.

TERRIBLE RACE RIOT.

Reported Eighteen Negroes Were Killed In Louisiana Town.

New Orleans, Nov. 16.—A special from Kentwood, La., says: Eighteen negroes were killed at Gillburg, a small town twelve miles northeast of this place, in a race riot Sunday. The trouble arose over the lynching of a negro who criminally assaulted a white woman. Fifty or more citizens responded to the call to arms, and the manhunt was on. The posse searched the woods and came upon the negro shortly before noon Sunday and brought him back to the village, where he was fully identified. A rope was placed around the negro's neck and he was hauled up on a branch of a tree.

From all accounts received here, it is evident that the black man was popular with the members of his race. They became angry and showed determination to avenge his death. It is alleged they started the riot with the whites, and it is reported here that eighteen members of their race were killed. Others were wounded in the riot.

Corn Husker Victim.

Coldwater, Mich., Nov. 16.—Orrin Knowles, while at work husking corn with a machine, a mile and a half south of this city, had his left hand caught in the machine and lost two of his fingers, which were amputated by Dr. Cunningham.

Milan, Mich., Nov. 16.—While he was trying to pull out some ears of corn that had become lodged in the rollers, Fred Ports, who lives between here and Raisinville, had his left arm drawn into the corn-husking machine, and before the machine could be stopped his hand was torn into shreds.

REBATING ILLEGAL

Insurance Commissioner Barry Warns the Public

AGAINST COMPANIES DOING SO

Law Provides a Penalty—He Terms It a Gold Brick Scheme—Quotes an Opinion Handed Down by Supreme Court.

Lansing, Mich., Nov. 14.—"My attention has been called," said Insurance Commissioner Barry yesterday, "to the fact, as alleged, that some life insurance companies authorized to transact business in this state have been rebating premiums recently. This is about the time of year that companies desirous of making a great showing of business written during the year are wont to indulge in this reprehensible practice.

"The law provides a penalty both for the agent and the company found guilty of rebating, but for obvious reasons it is difficult to secure the evidence necessary to convict. The citizen who is given a rebate and who obtains his first year's insurance for less than his neighbor is obliged to pay for it and becomes a party to an illegal and fraudulent transaction, is very likely to keep the matter to himself, while the agent who does the rebating is also careful to keep the secret.

"The ordinary business man who is not familiar with the insurance laws and court decisions of this state flatters himself that he is getting a bargain when he purchases his insurance at a nominal cost compared with the premium named in the policy.

"The fact is that he is being gold-bricked. Instead of leaving his family a valuable legacy, as he supposes, he is in all probability bequeathing them a store of expensive litigation and bitter disappointment.

Supreme Court Case.

"The supreme court of this state, in the case of Heffron vs. Daly, which was decided in a unanimous opinion written by Chief Justice Hooker and handed down June 30, 1903, used very positive language in passing upon the validity of a life insurance contract in a case in which the agent rebated one-half of the premium and took the applicant's note for the balance.

"The supreme court refused to enforce the payment of this note, and in reversing the judgment of the lower court used this emphatic language: 'The contract of insurance was prohibited by law, and the act of making it was a penal act. The contract was, therefore, illegal, and being so, the consideration for the note failed.

"The reason why this contract was held to be an illegal contract, and, therefore, void," continued the commissioner, "was that the anti-rebate law of Michigan was violated when it was entered into.

"The reason for the enactment of the anti-rebate law was a desire to preserve the mutuality of policy holders and prevent discrimination between them.

"The policy-holder who is a party to one of these illegal contracts need not think that he can rest secure in the belief that the company will not take advantage of the fraudulent character of the contract and refuse to pay the face of the policy when it matures. Any policy-holder can enjoin the company from paying any claim thereunder. The rebating of a premium puts on the policy a cloud, which no man who desires to leave his family adequate protection in case of his death should permit to exist for the paltry sum which he may be able to save at the outset by accepting a rebate."

Found Poison In His Stomach.

Owosso, Mich., Nov. 14.—The talk about the death of George Leachman, the farmhand employed by Mrs. Carrie Collins, has finally led to the woman's arrest on a charge of murdering him by poison. The man had worked for her the past two years. It was given out that Leachman had died from pneumonia, but it is now claimed that physicians have found arsenic in the dead man's stomach. Mrs. Collins underwent the strain of an hour and a half in the sweatbox and came out of theor deal without incriminating herself.

His Last Drunk.

Benton Harbor, Mich., Nov. 16.—Dan Dolling, a familiar character around town for the past few years, was found dead Sunday morning in the city jail. He had been drinking heavily Saturday and was lodged in jail very drunk. Previous to his arrest the man was seen to fall, striking his head on the stone steps leading to a saloon, and this is believed to have been the cause of death. Dr. Chapin, however, who made the postmortem examination, said the man might have died from over-indulgence in alcoholic drinks, for no marks were found on the skull, indicating injuries from a fall.

For Presents to Officers.

Lansing, Mich., Nov. 16.—In his testimony Eli R. Sutton said that Holbrook told him when the much-talked of $400 was drawn from the bank and given to him that he needed it to pay McKale, Sanford and Abels and to make Deputy Sheriff Loomis a present. He also said that if he had known the charge against Holbrook he would have returned from Mexico to testify against him; in fact, he did not expect to testify against him at all when he returned.

U. OF M. AGAIN.

Defeated Wisconsin at Football by Score of 16 to 0.

Ann Arbor, Mich., Nov. 16.—Fully 10,000 people witnessed the Michigan football team roll up a score against Wisconsin of 16 to 0 Saturday, thus adding another game to the list wherein the team's goal line was not crossed.

Minnesota may find this difficult to equal, but if such is the case the Wolverines will have more on which to base their claims for the western

championship at the close of the season, provided Stagg's University of Chicago eleven is put aside by the Wolverines. The Wisconsin-Michigan game resulted as most followers of western football lore thought it would. Yost's team gave a splendid account of itself and came out of the fray in perfect shape, and if no accident happens from now on will be ready to go up against Chicago in the final game of the season with its best front.

Several important high school games were played in the state, including: Escanaba, 35; Ishpeming, 2. Lansing, 0; Mason, 0. Petoskey, 5; Cadillac, 0. Ithaca, 41; Alma, 0. Grand Rapids, 18; Kalamazoo, 11. Lansing, 11; Charlotte, 11. Howell, 43; Fenton, 0.

Salsbury Confession Secret.

Grand Rapids, Mich., Nov. 16.—While it is generally understood that Lant K. Salsbury has made a full confession of the famous water deal scandals to Prosecutor Ward, no one outside of the prosecutor's office pretends to know just what he has said. It is believed, however, that at least fifty persons are implicated in the deals, and much uneasiness is felt in Grand Rapids in official circles.

For Theft of Diamonds.

Detroit, Mich., Nov. 16.—Harry Rogers was arrested Saturday afternoon on the charge of gaining entrance to the residence of D. Spellman, 34 Hazelwood avenue, by representing himself as a meter inspector, and stealing a valuable diamond ring.

NEW RICHMOND BURNED.

Little Town on Kalamazoo River Literally Wiped Out.

Grand Rapids, Mich., Nov. 14.—A fire has almost entirely wiped the village of New Richmond, Allegan county, from the map, and has crossed the Kalamazoo river and is raging in the forest. Nine buildings have been destroyed, including the postoffice. The loss has already reached $20,000, partially insured. There was no fire protection and a heavy wind was blowing.

Eleanor Lamoreaux, the postmistress, proved herself a heroine, saving all of the property belonging to the government and allowing the little stock of groceries upon which she depended for her support to burn.

New Richmond is a hamlet of 100 population on the Pere Marquette railroad, eighteen miles northwest of Allegan, and its principal industry is the handling of the great fruit crop grown in the vicinity.

Elected Officers.

Grand Rapids, Mich., Nov. 14.—The Young Woman's Christian association state convention Friday morning elected the following officers: President, Miss Mary Stewart, Detroit; vice-presidents, Miss J. W. Finney, Detroit, and Mrs. Herman Scripps, Albion; secretary, Mrs. Elsie R. Fowler, Battle Creek; assistant secretaries, Miss Kimball, Kalamazoo, and Miss King, Albion. The morning session was taken up with committee reports and reports from local associations. The state report showed the association growing in strength, with a new association organized at Battle Creek and others projected.

Did Salsbury Confess?

Grand Rapids, Mich., Nov. 14.—It is believed that Lant K. Salsbury has made a full confession of the famous water scandal. Accompanied by his attorney, Salsbury visited the offices of the prosecuting attorney at 9 o'clock Friday morning and remained until noon. The session was resumed at 2 o'clock and continued until past 6. What was said and done at the sessions is not made public, but it is certain that various former city officials and aldermen and a number of prominent citizens are on the anxious seat.

To Investigate City's Affairs.

St. Joseph, Mich., Nov. 14.—The city council, after a hard fight with obstructionists of the investigation of the city's affairs, voted to engage a bookkeeper to audit the accounts of the city clerk and make monthly reports to the council. There is a question whether the move is legal, but there seems to be no doubt that the difficulty will be bridged. Since St. Joseph became a city there has been no businesslike system of bookkeeping.

Deafness cannot be cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for, ever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Water Shrews.

A pretty little animal, writes a correspondent, occasionally to be noticed at the edge of a stream or pond is the water shrew. The ways of these creatures are most fascinating. I have seen them quietly emerge from the grass, run down the side of the bank into and along the bottom of the stream. While under the water their movements are very rapid. They scrape away on the bottom with their feet, thrusting their long snouts into the mud and under stones and leaves in search of insects on which they feed. They then retire a little way up the bank for a moment or two to take breath and hurry back to their work once more. I have never seen water shrews dive. They simply run in and out of the stream, as if air and water were both alike to them, and they were equally at home in either element. When under the water, they look as if they were covered with minute silver pearls owing to the particles of air adhering to their furry bodies. Land and water shrews are not of the mouse tribe. They have the sharpest and most delicately beautiful teeth imaginable and live entirely on insect food.—London Opinion.

The Williams and Johns.

It would be difficult, if not impossible, to estimate the relative frequency of names prior to the Norman conquest, which created something like a revolution. "William," of course, got a good start, as is shown in "Doomsday Book," where stand 68 Williams, 48 Roberts, 28 Walters and 10 Johns. In 1173 Sir William St. John and Sir William Fitz-Hamon entertained a dinner party at the court of Henry II. The invitations were limited to knights of the name of William, and the company numbered 120.

But the day of "John" was not long to tarry, and in 1347 the common council of London contained 35 Johns, 17 Williams, 15 Thomases, 10 Richards, 8 Roberts, and in 1385 out of 376 names enrolled in the Guild of St. George at Norwich there were 128 Johns, 47 Williams, 41 Thomases. From that day to this John and William have held their ground as the commonest baptismal names in England.

Cleopatra's Musical Voice.

Cleopatra always selected the same lover, the head of the invading army, and always used him to help her in founding, as she hoped, the empire of the east. Her attractive power was probably not her beauty. Her coins do not reveal a beautiful woman, but a broad browed, thoughtful queen, and Plutarch in describing her evidently speaks on the authority of men whose fathers had studied her face. He says: "Her actual beauty, it is said, was not in itself so remarkable that none could be compared with her or that no one could see her without being struck by it, but the contact of her presence if you lived with her was irresistible. The attraction of her person, joining with the charm of her conversation, and the character that attended all she said or did was something bewitching. It was a pleasure merely to hear the sound of her voice, with which, like an instrument of many strings, she could pass from one language to another, so that there were few of the barbarian nations that she answered by an interpreter. To most of them she spoke herself, as to the Ethiopians, Troglodytes, Hebrews, Arabians, Syrians, Medes, Parthians and many others, whose languages she had learned."

Prevention and Cure of Colds.

For ten of the twelve years of his life my son suffered from influenza, which no amount of precaution could ward off, and which, with or without a doctor, was often weeks in running its course, at the end of which time he was about ready for a fresh one. At last I became convinced that an overindulgence in sweets was one fertile cause, and many a box of candy—the gift of unwise friends—was suppressed, and the colds became less frequent. On his tenth birthday he began upon rising in the morning a series of cold sponge baths, followed by friction with a coarse towel. That year his colds were limited to two. When the second began to make its appearance we determined to try heroic measures, and for thirty-six hours he went without food, with the exception of a cupful of hot water and the juice of an orange taken on the morning of the first day's fast. The second morning he awoke without a vestige of cold, and a happier and more triumphant boy it would have been hard to find. As many of my friends and family have tried this with equal success I do not hesitate to recommend it.—Woman's Home Companion.

Uninsured Treasures.

It is startling to think that while almost any tradesman's shop that might be burned down is covered by insurance the British museum, if it were burned down tomorrow, would not cost the insurance companies one halfpenny. Neither would the houses of parliament. They stand for £3,000,000, but not one single sovereign of this vast sum is covered by insurance. Three thousand pounds a year is spent on a force of police and firemen to protect the houses of parliament by day and night, and the British museum pays the rent of a fireman's house in Coram street, but that is the full cost of the precautions against fire in these places. The British museum, believing that prevention is better than cure, has no artificial light on its innermost recesses.—St. James Gazette.

The Monkey's Reasoning Powers.

The monkey's intelligence has never been able to arrive at a point which enables that animal to achieve the untying of a knot. You may tie a monkey with a cord fastened with the simplest form of common knot, and unless the beast can break the string or gnaw it in two he will never get loose. To untie the knot requires observation and reasoning power, and, though a monkey may possess both, he has neither in a sufficient degree to enable him to overcome the difficulty.

Clever Spiders.

I took a large spider from his web under the basement of a mill, put him on a chip of wood and set him afloat on the quiet waters of the pond, says a naturalist. He walked all about the sides of his bark, surveying the situation very carefully, and when the fact that he was really afloat and about a yard from shore seemed to be fully comprehended he looked out for the nearest land.

This point fairly settled upon, he immediately began to cast a web for it. He threw it as far as possible in the air and with the wind. It soon reached the shore and made fast to the spires of grass. Then he turned himself about and in true sailor fashion began to haul in hand over hand on his cable. Carefully he drew upon it until his bark began to move toward shore. As it moved the faster, he the faster drew upon it to keep his hawser taut and from touching the water. Very soon he reached the shore and quickly leaping to terra firma sped his way homeward.

Thinking that he might be a special expert and an exception in that line of boatmanship to the rest of his companions, I tried several of them. They all came to shore in like manner.

Flat Life.

In such a dwelling as the average "flat" of the north and west the privacy of home is reduced to a minimum. The footsteps of the tenants, the rolling of their perambulators, the cries of their children, the varied odors of their breakfasts, lunches and dinners, are omnipresent and not to be banished even by mental science. If they are musically inclined, the others must listen perforce, and have no other redress than to begin counter performances. Some cheerful writer said, "While a man can sing he can work," but the trouble often is that while he is singing other people are unable to work. Such forced participation in the lives of others is irritating and upsetting to the nerves, and though we may be willing to weep with those who weep and rejoice with those who rejoice we would prefer to have some choice in the matter.—New Orleans Times-Democrat.

Basalt Columns In Mexico.

There are columns of basalt in Mexico which may be regarded as one of the natural wonders of the world. They may be seen at Regla falls, and there Alexander von Humboldt saw and admired them when he took his famous journey round the world. As regular and symmetrical these columns are as though they had been fashioned by human hands, and yet they are entirely natural and of volcanic origin. They are of great height, and no one can see them for the first time without becoming greatly impressed.

In Fingal's cave, Scotland, there are columns of basalt somewhat similar to these, and on St. Helena there are others, though the latter, instead of standing erect, are piled together on the ground and look like trunks of trees.

Worked a Problem While Asleep.

An Amsterdam banker once requested a professor of mathematics to work out a very intricate and puzzling problem for him. The professor, thinking the matter good exercise for the intellectual faculties of his pupils, mentioned it to them and requested them to work out the enigma. One of the students, who had pondered deeply over the intricate subject during the day, retired to bed. Some time afterward he arose, dressed, and, seating himself at his desk, worked out the problem accurately, covering sheets of paper with his calculations. He had no recollection in the morning of having done so.

Circus Horses Work Hard.

Traveling with a round top Calico found to be no sinecure. The Grand Occidental, being a wagon show, moved wholly by road. The shortest jump was fifteen miles, but often they did thirty between midnight and morning, and thirty miles over country highways make no short jaunt when you have a five ton chariot behind you. The jump, however, was only the beginning of the day's work. No sooner had you finished breakfast than you were hooked in for the street parade, meaning from two to four miles more. —Sewell Ford in "Horses Nine."

An Odd Fish.

One of the oddest fishes that ever swam in any sea is that known to naturalists under the unattractive name of ophiocephalus. A species of it is found in the sea of Galilee, where it builds a nest which for beauty of design and elegance of workmanship excels the efforts of the majority of feathered nest builders. Its favorite spot for building is in an old root or rock projecting under the water, and the material consists of seaweed, grass and leaves.

Embarrassing.

A settlement worker, having been requested by anxious mothers to address the younger women of the settlement clubs on "heart interest" topics, decided to do so. She talked with the girls earnestly, urging upon them the deep and intrinsic sacredness of all love and marriage relations, the coarseness and vulgarity of indiscriminate flirtations, the great and growing need for high ideals, standards and action on the woman's part. Then, just as she took her seat, it occurred to her that she might have talked a little bit over the heads of her listeners, and she sprang to her feet with an added remark:

"Please believe that what I say is true, my dear friends," she exhorted earnestly, "and please don't think I don't understand my subject. I know what I'm talking about, girls—I really do."

Once more she took her seat, delighted with the air of general interest, and from the rear of the room came the question:

"Please, Mrs. S., how many times have you been in love?"—New York Commercial Advertiser.

The Trajectory of a Thing.

The trajectory of a thing is the path of a bullet or anything else passing through the air from the gun to the place where it strikes. Generally the word is applied only to bullets and cannon balls. In shooting at an object near at hand you aim point blank, because the bullet practically reaches the target before it falls at all, but when you fire at a distant object you must aim above it, so that the bullet may have room to fall and yet hit the object. The desire of every marksman is to get a trajectory as flat as possible, so that the bullet shall have no need of falling very far. A flat trajectory is obtained by increasing the speed of the bullets, by diminishing their size and increasing the powder charge.

Chemistry of a Tear.

A tear from the eye of a representative of the Caucasian races is found to be composed of water, salt, soda, phosphate of lime, phosphate of soda and mucus. From the eye of an African the elements composing the tear are found to be the same as the above, with the single exception of the phosphate of soda and with the addition of a slight trace of ammonia. The Eskimos and the fishing Finns seldom shed tears, but when they do chemists say they are exceedingly salty.

The chemical elements in the Caucasian tear arrange themselves into particles that look like fish bones, those from a negro's tear form a rude cross, while the same process of evaporation leaves the chemicals in an Eskimo's tear in the shape of a bow.

Birds That Make Queer Noises.

The bellbird, or campanero, which is found in South America and also in Africa, can be heard at a distance of three miles. Its note is like the tolling of a distant church bell and is uttered during the heat of the day, when every other bird has ceased to sing and nature is hushed and silent. How the bellbird utters this deep, loud note is not known, though it is supposed that a fleshy protuberance on its head, which when inflated with air stands up like a horn, is in some way the cause of it.

The hornbill, a bird which is widely distributed in India, the Malay archipelago and Africa, has also a very loud note. Its call has been described as between the shriek of a locomotive and the bray of a donkey and can be heard a distance of about a couple of miles. The barking bird also utters a very loud note; indeed, it is impossible to distinguish it from the bark of a dog. Its English name, says Darwin, is well given, for I defy any one at first to feel certain that a small dog is not yelping somewhere in the forest. The toucan has also the same peculiarity.

The Welsh Language.

The quite erroneous idea that Welsh is a language of consonants probably a ises from the number of w's it contains, according to a Welshman in the London News. "W" in Welsh is generally—and always between two consonants—a pure vowel, sounded like "oo" in English. Thus "cwm" is pronounced "koom," rhyming with "boom." What is really one of the most remarkable features about the Welsh language is the number of vowels which can come together. In English three vowels in succession are not often met with. In Welsh it is not uncommon to find four or five—e. g., in "llywiawdwr" (governor). Here each of the five vowels "ywiaw" is pronounced separately in rapid succession. Here are four lines, consisting entirely of vowels, made by Goronwy Owen in the eighteenth century:

O'i wiw wy a weuae,
Ieuau o ia, ai e ly?
Ai o au weuau a we
A'i au i wau ei we wyw?

Laugh and Be Glad.

"If we cannot all have a piazza, every one may feel the sun," says an Italian proverb which is characteristic of that patient, cheerful race.

But, after all, it is the exceptional life which has not in it much of the sunshine. There is always gloom for those who wish to dwell in shadow, but an effort of the will often carries one out of that morbid desire into the clearer, sunnier mood.

Difficulties and troubles, if bravely met, make strong men and women, but endless worry and anticipation of evil cannot fail to weaken the will and the character.

Laugh and be glad now, today. If you wait till you conquer your little world, you will never laugh and be glad. It is better to live in a castle in the air than in the dungeons we allow our low spirits and forebodings to build for us.

Craft Wins.

"How did you ever manage to get on the good side of that crusty old uncle of yours?" asked Fan.

"Fed him the things he liked when he came to visit us," replied Nan. "The good side of any man is his inside."—Chicago Tribune.

ROUND ABOUT US.

A Tecumseh furniture dealer sold 100 footstools in a single day. It shows what a lot of lazy men there are in our neighboring village.—Hudson Post.

The gates were down that is Henry Gates and son, Frank, while shingling their house fell with a rafter about 30 feet and struck a Beem. When the dust had settled and an account of stock was taken it was found that Gates, sr. had increased his by a broken arm. Gates jr. by a broken leg, arm and internal injuries, while the Beem counted up some bad bruises and a broken rib.—Blissfield Advance.

Dundee's council instructs the marshal to notify the saloon keepers that in the "futoor" they must close their saloons promptly at 9 o'clock. The marshall says "you have heard the order of the village dads, as communicated to me by the clerk of the board. Agreeable to his orders let it be done." This enables the saloon keepers, bar tenders to get away for evening meetings at the church and elsewhere, a privilege that has long been denied them and makes it possible for the ordinary toper to get sobered up before it is past time to go to bed.—Adrian Press.

Miss Nellie Plunkett is president. She is not yet 21, and here she gets a position that Wm. J. Bryan failed in two struggles to secure. It's this way. Some of the grammar school girls of Blissfield last week met and organized a 'Fleur de lis' sewing club, and Miss Nellie being an adept, and also an energetic young lady, was elected president. Hazel Crane vice president and Helen Phillips secretary. It does not appear that they need any treasurer, and if they get any money they can "plunk et" into the secretary's pocket. —Press.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

ORIGINAL STORIES.

Written by 4th Grade Pupils of the

WEST BRANCH.

They are Hallowe'en Stories.

A HAUNTED HOUSE.

There was once a house that was said to be haunted, it stood about fifteen rods from Willie's house. One day Willie and Jack said they would stay there all night on Hallowe'en, and catch the ghost. About ten o'clock that night the boys waked, and, much to their surprise they saw plainly a tall white ghost with a lantern in his hand. They had not believed there was a ghost. He took the boys down cellar and tied their hands and feet. The next day some one found them and let them loose and both boys were sick for a long time. The ghost was a tramp, who was hiding from the police.

CLARK HASKELL.

JOHNNIE'S JACK O' LANTERN.

"O dear! I wish I had a great big pumpkin, big as I am, like Harry has, cause then I could get inside and scare those girls out of their toes." This is what John said as he was sitting in the hay mow. John was visiting in the country, he lived in the city. He was going to stay two weeks. He had never been on a farm before, he did not know that pumpkins grew in a cornfield, he thought they grew in a garden all by themselves. That night he went out into the corn field, when a sight to behold met his eyes. Right in front of him was a great pumpkin, as big as he was. Just the size he wanted. It seemed as though the fairies brought it and put it there for him.

He ran home and asked his uncle if he could have it and his uncle said he could have it. It was getting dark now so he had to go and have his supper and go to bed.

The next morning he was up bright and early to get his express wagon and go down where he saw the pumpkins, he took a large board with which to roll it into the wagon. When he got to the field he laid the board on the wagon, when he started to roll it up he fell flat on the board. He went up to it, when he tried to lift it the top came off. He thought this was queer, he discovered that it had eyes, nose and mouth, and it was made of tin. He went home and put five candles in it. After he had done this he got inside and waited but the girls never came or never will.

WILFRED MILLS.

HOW WILLIE CAUGHT THE GHOST.

One night on Hallowe'en Willie was in his house working at some reading he had to recite in school, when he heard something at the door. He got up to listen and heard some one try to bolt the door.

Then Willie opened the door, many boys would have turned and fled at the sight which met his eyes, but Willie was not afraid. He bounded off like a wild tiger, he chased the ghost all over Mr. Brown's yard then the ghost went out in the barnyard and over the fence into an old barn. Willie thought he had lost it but all at once he ran into the ghost and tore off the sheet that was on the ghost. After he got him out in the light he found out that it was no other than Tom Brown, Willie's friend and this was how Willie caught the ghost.

GLENN BOWEN.

Tom, Tom, the piper's son, grabbed the ball and tried to run. The tackle grabbed him by the shoe, the right guard pulled his ear off, too, the center rush, when he was down, came charging up with awful frown, and jammed his face so far within the ground that he could see Pekin.—Chicago Tribune.

An undertaker at Coldwater embalmed a pug dog three months ago, to demonstrate to the skeptic of the efficiency of modern embalming. The dog is lying under the table in the undertaker's office, in a perfect state of preservation and is slowly petrifying. The process was the same as employed on human subjects.—Onsted News.

—When are little secrets like sails of a ship? When they get wind.

—Why is the letter G like the sun? Because it is the center of light.

What is that which every one wishes to have, and which every one wishes to get rid of directly he obtains it? A good appetite.

Someone advertizes in the Monroe Democrat for a Monroe county history and asks "have you one for sale?" We have not but we can write you one for $2.71 that is good enough for anyone to read and a republican would be willing to give more for it than a democrat and we don't blame him for the less said about the true history of Monroe county with the present officers holding places, the better democrats would feel. You have no doubt scratched your head more than once over this puzzle: —Mary is 24 years old, Mary is twice as old as Ann was when Mary was as old as Ann is now? How old is Ann? But G. J. Ziehr is scratching his head over a more complicated puzzle than this. It is, who stole his turkey last Friday night and whether or not he will get a bid to help eat it. Will the thief please send him the wish bone for a watch charm?

Two very bad accidents happened in Tipton last Friday afternoon. Chris Walker, who was working on Eugene Camburn's farm husking corn with a husking machine, was badly hurt, his left arm being caught in the snagging roll Drs. Jenkins and Maddox were sent for, who found it necessary to amputate his arm above the elbow. Walker is about 30 years of age and unmarried. It is not known whether he will live or not. Elliott Wood, who was husking corn for Robert Nortley, about one and one-half miles west and one-half mile north of Tipton, cut his left hand nearly off, by catching it in the snagging roll at the wrist and tearing the flesh off his right arm above the wrist to the elbow. Dr. Rice of Tipton, attended him. He is about 40 years of age, has a wife and child. He is a day laborer and this comes quite hard just at this time.

Rev. E. Sedweek went to Adrian this morning to attend a ministeral meeting of the Ann Arbor district of the M. E. church, which is held there today and tomorrow. Rev. Sedweek reads a paper tomorrow morning on the "Care of the Converts."

The musical and literary entertainment at the hall of Bears' Post and Auxiliary Monday evening was a record breaker. The rooms were crowded and there were two hours of solid enjoyment. Comrade S. P. Hosmer and H. C. Daniels brilliantly portrayed the navy and army. Lucy Train read an original poem of sterling worth, Virginia Daniels Halladay, with much grace and effect recited "Tom and the Star", Raye McKenna captivated the audience with "Swallows" and "In the Dark, In the Dew," Mrs. Mary Shull read effectively Elbert Hubbard's war time memories, Dr. George Howell added to his laurels by a magnetic talk on Yellowstone Park, Rev. E. Sedweek made his first appearance in Tecumseh Grand Army circles and at once sprung into the front rank of favoritism by a masterful talk on Abraham Lincoln. The Sunbeam quartette, Messrs. Dickinson, Maddox, Abrams and Slater, rendered two numbers with their accustomed art and acceptability. Altogether it was a rousing camp fire.

Notice!

A special meeting of the legal voters of School District No. 7 in the township of Tecumseh, called by the district board, will be held in the Central school building, Friday evening, Nov. 20, 1903, at 7:30 p. m., for the purpose of considering a request to Mr. Carnegie to increase his gift for a library building from $8,000 to $10,000, that the plans for the building, obtained by the Board of Education, may be carried out; and to make the necessary pledge therefor.

Dated, Tecumseh, Mich., Nov. 12, 1903.

Billington—Case.

Thursday evening at 7:30 in the presence of some 75 relatives and friends, occurred the marriage of Miss Zora Billington, only daughter of Mr. and Mrs. Alonzo Billington, of Tipton, to Everett Case, Rev. Rose, Congregational minister, performing the ring ceremony, underneath a canopy of myrtle and evergreen. The house was handsomely decorated for the occasion, the walls in the dining room were trimmed in evergreen and myrtle, the tables in flowers. The wedding march was played by Mrs. Leon Allen. The bride was most beautifully attired in cream voile, with garniture of cluny lace.

A three course supper followed the extension of congratulations, and a delightful social time was enjoyed. A number from Adrian and Onsted were present. The bride has been the lady operator at Tipton for the Citizens' Telephone company and has a large circle of friends who esteem her for her real worth. The groom is a son of Eugene Case, of Pentecost, and a hustling young farmer, who, too, has many friends. This was evinced by the choice lot of presents, which included $100 from the parents of the bride. They remained at the bride's home Thursday night, but will reside three miles west of Tipton.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

FOUND

After 25 Years Separation.

MISS FLORENCE PENNOCK

Of Grand Rapids, who has searched for her brother, has found him at Onondaga, Mich.

Following is an article taken from a Grand Rapids paper, which will be read with interest as Miss Pennock is a niece of Alonzo Pennock of Tecumseh, and is well known here:

The statement that "Royal Pennock Vorce of Onondaga, Mich., is the guest of his sister, Miss Florence Pennock, of 232 Turner street," sounds like a simple and very commonplace "personal," but when certain facts connected with the case are known, the ordinary words take on a new meaning full of romantic interest.

Until last Saturday the brother and sister had not seen each other for nearly twenty-five years, and had been almost ignorant of each other's existence during that time. Indeed, the brother, who was adopted by the Vorce family when he was eighteen months of age, had been kept in ignorance of his own family, so that he never knew until very recently whether any of his own blood was living. But the sister, Miss Pennock, who is a little older than her brother, remembered having seen him when he was three years old, and though since that time she had lost trace of him, she always believed she would find him some day.

During her seven years' residence in Grand Rapids, being lonely and without kin, she has made repeated efforts to find her brother, but owing to her vague remembrance of the name of his foster parents, the search was always on the wrong track. She recalled the name as Vorhies and when sometime ago she saw in The Press that a Roy Vorheis was visiting friends here, she called upon him, only to find that the man was an entire stranger.

SEARCH FOR A BROTHER.

She was determined not to give up, however, and some time ago she put the matter before her pastor, the Rev. Charles Donohue, who immediately set to work to assist her. By correspondence with the postmaster at Jasper, where the Vorce family lived at the time Miss Pennock remembers, their right name was traced and also their present residence, which is Onondaga, in Ingham county. Telegrams and letters flew back and forth for a time, and at last a welcome missive to Miss Pennock beginning confidently with "Dear Sister" and stating that the brother would come to Grand Rapids on a certain day to see her.

Miss Pennock replied at once, saying that she would meet him at the Union station and would wear a black suit with white waist, also as a further means of identification, she enclosed a small bow of blue ribbon, saying: "Pin this on your coat and I will wear one like it, so that we may be sure not to miss each other."

MEETING AT THE DEPOT.

When the day arrived, an excited and expectant little woman wearing a black suit and a blue ribbon bow, waited impatiently at the gate for the train from the east to pull in. The gate man's interest was aroused, as she told him about the case, and he had an eye out for a blue ribbon, but she saw the bow first, and before the gatekeeper knew what she was about, she had darted past him and was embracing a tall young man who looked a little dazed, but not in the least displeased. The black jacket over her white waist had mistled the brother, but it did not take him long to convince himself that he had found a sister and one well worth finding.

At present there are not two happier persons in this city than Mr. Pennock and his sister. She is entertaining him for a few days in her cozy rooms on Turner street, and very soon will go to visit him and his family at his comfortable farm residence near Onondaga. She proudly shows to visitors the picture of her brother's wife and little girl, saying with tears in her eyes:

"And to think I am an auntie, and I didn't know it!"

Mr. Pennock urges his sister to make his home her own for the rest of her life, but she prefers for the present at least to be independent, and will content herself with a visit to her brother at Thanksgiving time. It is safe to say that there will be no more sincere thanksgiving in Michigan than theirs, when the happy day arrives.

ARRESTED

Jack Bradd with two other men,

WAS ARRESTED

On Suspicion of having caused the death of Andrew Mowrey.

Jack Bradd, a lineman and formerly of this place, with two employees of Gaffney's saloon in Detroit, was arrested at that place Saturday morning on suspicion of having caused Andrew Mowrey's death, a married man of Ypsilanti.

Jack worked here for A. W. Mills for some time and made many friends, who will regret to learn that bad luck has befallen him.

Chief of Detectives McDonnell had intended to ask for warrants for the three but owing to a statement made by Cavanaug yesterday in which he alleges Kelly, the bartender of the joint, struck Mowrey the fatal blow, has decided to keep them at the police station until Kelly is put in the sweat box.

CLUB NOTES.

A very instructive program was given last Tuesday Nov. 10, at the Research Circle. The afternoon was given to the study of "Ceramics—Foreign and American." Mrs Huey gave a paper on ,,Spodes and Severes." Miss Jennie Gillespie on "Linoges and Dresden," while Mrs. Crosby's subjects were "Wedgewood and Rookwood potteries." All were extremely interesting and other articles on pottery were given by different members. At roll call each member exhibited and described an art specimen.

In seeking the consolations of authorship during her year of retirement from the stage, Miss Julia Marlow is but following the Ciceronian example of Miss Clara Morris. Miss Marlowe ought to be able to add something illuminating to the all too scanty literature of the stage. Her style is fluent and original and she has more ideas about more subjects than the great majority of actresses now before the public have. The people of the theater do not usually take a very broad outlook on life, and their reading is too often limited to the roles they study. Miss Marlowe, on the contrary, is interested in and alive to all matters that appeal to a person of broad culture and fine understanding. She has read much and she thinks all the time. When Miss Morris' autobiography appeared Miss Marlowe read it with great eagerness, and remarked, apropos of the kindly criticisms of the book: "That is a kind of fame worth having."

The Czar of Russia has written the words to a weird, melancholy song, which, it is said, betray his unhappiness. If he will now learn to preach, to write plays, compose dirges, paint pictures, model statues, design his wife's dresses, furnish plans for war ships, command armies, build Noah's arks for the children, write history and do a few other little things that an emperor is supposed to know all about he will be right in WILLIAM'S class.

DIFFERENT TOURISTS.

The president had an informal reception in his office recently, and a number of visitors were presented to him. One lady introduced herself as from Jacksonville, Fla., and said:

"Mr. President, I have come all this way just to see you. I have never seen a live president before."

Mr. Roosevelt seemed much amused.

"Well, well", he said. "I hope you don't feel disappointment now that you have seen one. Lots of people in these parts go all the way to Jacksonville to see a live alligator. I wonder which kind of a tourist feels the most sold?"

THE GREATNESS OF DICKENS.

There never was such another as Charles Dickens, nor shall we see his like sooner than the like of Shakespeare. And he owed all to native genius and hard work; he owed almost nothing to literature, and that little we regret. He was influenced by Carlysle, he adopted his method of nicknames, and of hammering with wearisome irritation on some peculiarity; for example, on Carker's teeth, and the patriarch's white hair. It has been said that, save for Carlysle, Dickens was in letters a self-taught artist, that he was no man's pupil, and borrowed from none. No doubt this makes him less acceptable to the literary class than a man in whose treasure chamber of memory all the wealth of the middle ages was stored, like Scott. But the native naked genius of Dickens, his heart, his mirth, his observation, his delightful high spirits, his intrepid loathing of wrong, his chivalrous desire to right it—these things will make him forever, we hope and believe, the darling of the English people. —Andrew Lang.

MRS. FRANCES HODGSON BURNETT'S DOGS.

When Mrs. Burnett was a child her family lived in Tennessee. There they had, as she expressed it,—"colonies of dogs," many of them disreputable ones, that came and asked to stay, or stayed without asking—any way to insinuate themselves into the household. One of these was dubbed "Pepper," because of his touchy, contradictory disposition, which led to habits and ways that were sources of great amusement to the children. He followed Mrs. Burnett's brother home one day, and intimated that he had come to remain. He pretended to be a dog who was highly strung and sensitive, and that these traits had not been appreciated where he came from, but the children soon discovered that his sensitiveness was but temper.

The moment he was reproved for improper conduct, he went out of the front door and trotted home to the other family, who lived about four miles away. The children would stand on the piazza to watch him till he was out of sight. He had a long hill to trot over, and the intolerant scorn expressed by his tail and little hind legs as he jogged along, never deigning to cast a glance behind, showed in the most scathing manner that, in his opinion, the people he had turned his back upon were people of no refinement of sentiment whatever, and could not be expected to understand the feelings of a dog of real delicacy. He always went away when lectured, and probably came back when the other family did not approve of his actions, because he kept running away and coming back for a year or two, finally, however, deciding that the children were worthiest of his continued patronage.

Maude Adams is a young woman with a gleeful sense of humor. She tells of a Long Island railroad conductor who asked her one day in the third year of the run of "The Little Minister" if she did not tire of playing the same part so long.

"It is tiresome," she confessed.

The conductor leaned upon the back of the car seat for sometime reflecting. Then he burst into a sudden inspiration: "Well, Miss Adams, if I was you I'd try to get another job!"

Like the Abraham Lincoln stories, the alleged whimsies of the late John Stetson are no doubt often pure invention. But here is a bona fide Stetsonism, and one that has never been of the lime-light of types:

Lawrence Barrett was dining with Stetson in Boston during one of the former's engagements in that town, and he steadily refused his host's offerings of meat of every kind. "Don't you know, John," said Barrett in his blandest way (And no man could be blander than he when the fit was on), "that I'm a vegetarian?"

"Hell! no," was the reply, "I allus s'posed you was a Roman Catholic."

Bert Boyd found a bag of oats near Ed Eddy's mail box Thursday and upon opening the box was surprised to find a note instructing him to take the oats home and say nothing about it. As it was unmailable matter Uncle Sam will probably "say nothing about it."—Clinton Local.

Solomon Tate, who resides near Clinton, has begun suit against the Lake Shore railway company to recover the value of 50 sheep that are alleged to have died by reason of not being delivered at Clinton within a reasonable time after being loaded in Chicago.—Adrian Telegram.

There is a man who lives in Adrian in a market he cuts meat, but the product of his cleaver is not always good to eat. Recently it struck the meat block, but he did not think it nice, for the cleaver 'stead of beef steak from his finger took a slice. And he muttered as he gazed upon the finger with a gash, "Wonder whether the last meat cut will be used for hotel hash?"—Hudson Post.

Supervisor John Lutz while driving a hoop on a barrel a few days since was quite seriously injured. The hoop broke and hit him across the eye cutting the ball across the front which is more than probable will lose for him the sight yet he may get part of the vision. The accident comes at a very bad time, when he has his fall work to finish up besides the work of extending the tax roll which must soon be ready for collection.—Saline Observer.

They are telling a good one on Chas. Robbins, who lives southeast of town. He took it into his head last spring to raise some sugar cane and all through the season he pointed with much pride to the promising crop. A few days ago he harvested it and loading up his wagon he drove about fifteen miles to a sorghum mill. On arriving there he was given a terrible shock when the boss of the mill told him that stuff would make better broom than slapjack timber. Charles isn't going out of his way to give pointers on raising broom corn; but he knows how it is done.—Reading Hustler.

HERE'S A BABY

Its Mother is Well.

The baby is healthy because during the period of gestation its mother used the popular and purely vegetable liniment,

Mother's Friend

Mother's Friend is a soothing, softening, relaxing liniment, a muscle maker, invigorator and freshener. It puts new power into the back and hips of a coming mother.

It is applied externally only, there is no dosing and swallowing of nasty drugs, no inward treatment at all.

The state of the mother during gestation may influence the disposition and future of the child; that is one reason why mothers should watch their condition and avoid pain. Her health, that of the child and their lives, depend on keeping free from pain, worry and melancholy. Be of good cheer, strong of heart and peaceful mind. **Mother's Friend** can and will make you so. Bearing down pains, morning sickness, sore breast and insomnia are all relieved by this wonderful remedy.

A HELPING HAND

Is gladly extended by a Tecumseh citizen.

There are many enthusiastic citizens in Tecumseh prepared to tell their experience of the public good. Testimony from such a source is the best of evidence, and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. J. H. Welch, who resides in the south western section of Tecumseh, says: "I wish to express my gratitude for the benefit derived from the use of Doan's Kidney Pills. My back troubled me for a long time with a constant dull aching pain across my loins and when stooping or exerting myself it became very sharp. If I took cold it always settled in my kidneys and in the morning I was so lame and stiff that I could hardly attend to my work. I used several simple household remedies but they did not bring relief. Seeing Doan's Kidney Pills recommended and spoken of so highly I concluded to test their merits and got a box at C. A. Wright's drug store. They took right hold of the cause and in a short time the pain in my back was a thing of the past. I can now straighten after bending or stooping without any inconvenience. Doan's Kidney Pills are certainly a wonderful remedy."

MANY ARRESTS MADE.

Chicago Populace Tried to Prevent Running of Cars.

Chicago, Nov. 16.—A victory, temporary, at least, was scored Sunday by the management of the Chicago City railway against its striking employes. From early in the morning until dark last night the company succeeded in maintaining a regular service on its Wentworth avenue line, which extends from Seventy-ninth street to the down town district, a distance of eight miles.

Twenty-five cars in all were put into service, but the schedule was frequently interferred with by delays caused by obstructions being placed on the tracks and the inexperience of the men in charge of the cars.

More arrests were made during the day than at any time since the strike was declared. The most trouble was experienced between Twenty-second and Thirty-ninth streets. In the blocks bounded by these thoroughfares crowds of men, women and children congregated, and as the first cars passed hooted at the police and nonunion employes. This was soon followed by more violent demonstrations. Huge barricades were piled on the tracks, stones were thrown at the cars and a hand-to-hand conflict between the police and the crowd followed in several instances. Several patrol wagons, which had previously been called, were soon filled with prisoners.

A HERO'S RETURN.

Macedonia's Revolutionary Leader Welcomed by Thousands.

Sofia, Nov. 16,—Boris Sarafoff, leader of the Macedonian revolutionists, arrived here last night and was received at the railway station by thousands of persons, who brought laurel wreaths and flowers and acclaimed Sarafoff as a national hero. The Macedonian leader presented a picturesque appearance. His beard was unkempt, his hald hung in locks and his features were weatherbeaten. After the delivering of patriotic speeches a procession was formed and Sarafoff was borne on the shoulders of his admirers to the house of his parents. On the way Sarafoff halted in front of the cathedral and thanked the crowd for the reception, declaring that the revolutionists were not only unconquered, but that their work was but now beginning.

Boris Sarafoff spent nine months in Macedonia. His life was one of constant peril and he slept mostly in the open air. He went to Monastir with a band of sixty, of whom only eight survive.

POWELL WINS OUT.

San Domingo at Last Agrees to Protocol Offered.

San Domingo, Thursday, November 12.—United States Minister Powell has finally carried his point against the Dominican government that it should agree to the provisions of the protocol regarding the San Domingo Improvement company.

The government informed the minister that it would accede to his request, carry out the provisions of the protocol and appoint arbitrators. This is considered a great victory for the American interests.

The case of the San Domingo Improvement company against the Dominican government has been one of long standing. The improvement company had contracts for making various improvements and for certain harbors, privileges and dues, which contract the Dominican government afterwards took away from the company. The former sought the assistance of this government and asked it to secure its just rights.

There was heavy fighting here this morning. The forts around the city were engaged with the insurgents and there was considerable cannonading on both sides. The town was not damaged and the situation is unchanged.

WAS HE MURDERED?

Unknown Man Found in Dying Condition in Rear of Detroit Saloon.

Detroit, Mich., Nov. 14.—A policeman doing duty in the vicinity of Gaffney's saloon on Michigan avenue about 11 o'clock last night discovered a man in a dying condition in the rear of the drinking place. He was immediately taken to Emergency hospital, where he died while undergoing examination. His death was caused by a fracture of the ribs, which were broken and had pierced the lungs.

The only thing upon his person leading to identification was a Detroit, Ypsilanti, Ann Arbor & Jackson Railway mileage, bearing the address of J. A. Burtiss, Ann Arbor.

Three men have been placed under arrest, Bartender Kelley and two other men who were in the saloon, giving the names of Jack Brant and Frank Cavanaugh.

Kelley says that the man had been drinking heavily and became noisy, whereupon he was put out the back door by Brant and Cavanaugh.

It is known that J. A. Burtiss is not a resident of Ann Arbor, but of Ypsilanti, and that he makes a practice of renting mileage books to individuals who wish to travel over the road, thus confusing the clue that the man is Burtiss.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The best remedy for croup.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It [illegible] patient to "throw up the [illegible] quicker," and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all druggists.

GAVE HOLBROOK MONEY.

Sutton Furnished Funds For Abels, McKale and Loomis.

Lansing, Mich., Nov. 14.—While on the stand Friday afternoon Sutton testified that he had given Holbrook checks for $200, $600 and $35, and the cancelled checks bearing Holbrook's endorsement were produced. The first was drawn four days after the Sutton jury was impanelled, the second the day of acquittal and the third a few days later. Sutton said Holbrook wanted money to pay Detective Abels, Grand Juror McKale, Deputy Loomis and Chief Sanford. Holbrook did not inform the witness as to the nature of the service rendered by these individuals.

The greater part of the afternoon was devoted to documentary proof of negotiations between the prosecutor and the bar committee and Sutton, which resulted in the latter's return from Mexico on a promise that the prosecutor and committee recommend that if he plead guilty to conspiracy to defraud the state he should be fined $2,000 and discharged on the perjury charge and thereby treated just as other persons concerned in the conspiracy were. In return Sutton was to tell all he knew about bribing the jury in his case when called as a witness against the persons accused of such bribery. Cross-examination has commenced and will occupy all of today's session.

M'KALE DENIES IT

Swears He Did Not Tell Grand Jury's Secrets.

AT THE HOLBROOK TRIAL

Could Not Account For His Name in Holbrook's Letters — Others Give Favorable Testimony For Sutton.

Lansing, Mich., Nov. 19.—The principal witness in the Holbrook trial Wednesday afternoon was William H. McKale, who was a member of the grand jury that indicted Sutton. He said that he supposed he is the "Mac" referred to by Holbrook in several letters to Sutton regarding the work of the grand jury. McKale denied having given Holbrook or any one else secrets of the grand jury and could not account for Holbrook's letters to Sutton containing reports of grand jury testimony which he said he secured from "Mac."

Witness admitted calling on Sutton in Detroit after indictment, but denied Sutton's statement that they discussed grand jury matters. Said he went there to have Sutton transact legal business for him. He could not explain how he happened to go to the man he had so recently voted to indict.

McKale also said that when before Judge Weist, when the investigation of the Sutton jury was being made, he did not recall testimony given yesterday, although questioned regarding that particular matter. Denied that his memory was refreshed recently by the defense.

Foreman Brown on Stand.

The first witness sworn in the Holbrook case in the morning was Foreman Fred Brown of the Sutton jury. He swore that no bribe was offered him, that no one talked with him about the case, nor, so far as he knew, to any member of the jury. He also swore that when the jury reached its verdict Deputy Hodge and not Deputy Loomis, as claimed by Sutton, answered to his rap on the jury room door, and to Hodge he simply announced that the jury had agreed.

Brown stuck to the statement made at the trial, that he had never met Sutton up to that time, although admitting that a year or so before he rode in a carriage from Mason to Dansville with Governor Pingree, Sheriff McEwan and a third person, whom he did not meet or know, during a campaign trip of Pingree. The third party, whom Brown did not then know, was admitted to be Sutton.

The witness also admitted that immediately after rendering their verdict the jurors repaired to the Hotel Downey, where he and some of the other jurors were presented with boxes of cigars by Landlord Downey. He did not know why these presents were made, further than that it was explained that "they were some sample boxes."

Juror Samuel E. Clay denied any knowledge of undue influence in connection with the jury. He said that when the jury first retired there were three votes for conviction, and that he was the last juror to vote for acquittal.

He stated, however, that on several occasions he had been approached by a fellow juror named Charles Everett, who stated that he (Everett) had a brother or brother-in-law who knew Sutton and thought him a nice man, and that he did not believe Sutton would do anything wrong.

Clay stated that he had a talk with another juror named Packard, in which the latter stated that he had seen Sutton wearing a Masonic pin, and inasmuch as they belonged to the same order they ought to acquit Sutton.

When Everett appeared on the stand he refuted statements made by Clay as to his having approached the latter several times.

Juror James M. Packard also refuted several statements made by Clayton, one to the effect that he had said nothing to Clay about Sutton being a Mason.

Jurors Robert Collyer and Frederick Crandell swore that they allowed nothing but the law and the evidence in the case to influence their testimony, but that they came in for a share of the Downey house cigars, though they did not know what the gift was for.

Michigan State Teachers.

Ann Arbor, Mich., Nov. 19.—Arrangements are being made for the fifty-first annual meeting of the Michigan State Teachers' association, which will be held here on Dec. 29-31. The meetings will be divided into general sessions and section meetings, the general sessions being held in University hall and the others in the new building. University hall and Tappan hall, the rooms for each meeting being indicated by placards.

Yost to Remain.

Ann Arbor, Mich., Nov. 19.—Fielding H. Yost, Michigan's unbeaten football coach, announced Wednesday his intention to return to Michigan next year to coach the 1904 team. Yost is under contract to coach another year, but the terms are such that he can leave at will. The prospects for 1904 champion team, Yost says, are the best Michigan ever had.

TREATY IS SIGNED

Providing for Construction of Panama Canal.

U. S. GETS COMPLETE CONTROL

Secretary Hay and Minister Bunau-Varilla Attach Their Signatures—Panama to Get $10,000,000—Canal to Be Neutral.

Washington, Nov. 19.—Secretary Hay and M. Philippe Bunau-Varilla, the minister from Panama, at 6:40 o'clock last evening, signed the Hay-Bunau-Varilla treaty providing for the construction of the Panama canal by the United States. The ceremony occurred in Secretary Hay's study. The Panama minister arrived at Mr. Hay's house promptly at 6 o'clock, having made an appointment with the secretary for a conference at that hour. He was surprised to find that the secretary had before him the treaty engrossed in duplicate. The secretary informed M. Bunau-Varilla that he was ready to sign the treaty. The minister read the document carefully and then he and Secretary Hay attached their signatures to it.

The treaty in its text cannot be made public at this moment, for two reasons; first, because of the unwritten law which obliges the state department to await the pleasure of the senate in the matter of publicity, and, second, because the president has not yet determined when the convention shall be submitted to the senate for ratification. His present purpose is to withhold it until there is reasonable assurance that its consideration will not obstruct any of the legislation for which the present special session of congress has been called.

A Perpetual Lease.

But certain facts have been disclosed as to the provisions of the treaty which make it appear that in its general outlines the new Hay-Herran treaty, with the exception that the new convention follows not only the spirit but the letter of the Spooner act. Thus, instead of a lease for a fixed period of the canal strip, this new treaty provides for a perpetual lease of the right of way to the United States. And instead of a complicated provision for courts of mixed composition—half American and half Colombian—to administer justice over the canal strip, the new treaty permits the United States government to exercise the most complete jurisdiction thereupon. [illegible] United States fortify the line and the terminals and it may police it with troops.

Then the two terminal cities of Panama and Colon pass completely under United States jurisdiction—which incidently involves the establishment of a new capital for the republic of Panama outside of the canal strip. The money consideration is understood to be the same, only Panama, instead of Colombia, is to receive the $10,000,000. And the canal is to be neutral and open to all nations on even terms. These are understood to be the terms of the new treaty, which is much simpler in form than the failed Hay-Herran treaty, and has been specially drawn to meet objections urged against the latter.

It is stated that the Panama commission, which arrived here last night, has been empowered to ratify the treaty and this action may occur within the next forty-eight hours or sooner.

APPEAL FROM COLOMBIA.

Throws Herself on Mercy of American People.

New York, Nov. 19.—In response to a request telegraphed to Bogota, with a view to ascertaining the attitude of the press and people of Colombia concerning the isthmian situation, the following, delayed in transmission, has just been received. In part it says:

"Bogota, Nov. 16.—The Colombian people protest and appeal to the American people against the conduct of the government presided over by Mr. Roosevelt. The United States is solemnly obliged by the treaty of 1846 to guarantee the rights of property and the sovereignty of Colombia in Panama. Now the American government has violated its word, and hence, has compromised the honor of the American people. Colombia has wished and wishes that the United States shall open the canal through Colombian territory. The disapproval of the Hay-Herran treaty was due to constitutional obstructions.

"The American government, through Secretary Hay, contrary to the practices of right and international law, immediately recognized a so-called government suddenly arisen in Panama from a coup d' etat, accomplished by acts of treason and by the bribing of the troops.

"The American armed forces treacherously prevented the suffocation of the rebel movement by the loyal Colombian army.

"The American people must decide between the sacred rights of Colombia and the scandalous, notorious interests of the Panama Canal company.

"The Colombian people neither hope to receive nor wish to ask help from any other nation, but trust only in its indisputable right, and expect that these will be upheld by the spirit of fair play and independence of the American people.

"The Associated Press of the United States in behalf of the Associated Press of Colombia.

(Signed) "EL MUEVO TIEMPO."

Galveston, Tex., Nov. 19.—A party of visitors was permitted to board the quarantined steamer Cuban, and it was definitely learned that the three Colombians on board are Dr. Antonio R. Blanco, Donleco Jiminez and Julio C. Zuniga. The three gentlemen are envoys from Colombia to the United States, their purpose being to endeavor to pursuade this government to rescind its action in recognizing the new republic of Panama, and if this is accomplished to open negotiations for a treaty giving the United States authority to construct the Panama canal.

A ROUSING SPEECH

Fordney, of Michigan, Took the House by Storm.

OPPOSES THE CUBAN BILL

Representative Loud Also in Opposition—Delivers His Maiden Speech—Gardner Is Now in Favor of the Bill.

Washington, D. C., Nov. 19.—Four Michigan members Wednesday made speeches justifying their opposition to Cuban reciprocity.

It is no reflection on the other three of the delegation to say that Mr. Fordney of Saginaw made the only talk that caught the house. Fordney is a plain lumber baron, who calls a spade a spade, and he actually disconcerted Republican members of the house by his declarations that no matter if the White House wanted the bill passed, he wanted the whole world to know that he didn't, notwithstanding.

Some of Fordney's statements were positively startling to his own side of the house—the Republicans. When he referred to the assertion of Mr. Grosvenor of Ohio in a speech a few days ago, that it was the intention to have the bill put through exactly as the Republican majority of the committee prepared it and the Republican party was entirely willing to accept parentage of it he, Fordney, said:

"Who are the parents of this bill? I will tell you, an old, snaggled-toothed Democratic freetrader is the mother and a Republican president is the father." He startled the house by designating Mr. Thurber as "A dirty, lying, greasy whelp," and the house roared with laughter.

Mr. Fordney said that with the reduction in the tariff on sugar, which would follow this bill, the trust at its will would reduce the price of sugar to a point with which the beet sugar manufacturers could not compete and, when they had crushed them out, raise the price.

Loud's Maiden Effort.

Messrs. Loud, McMorran and Gardner were the others who made talks. The tenor of all the first two said was that Michigan, being a great sugar producing state, they could not consistently vote for the bill. Loud's friends should be delighted at the good impression he made at this, his first speech. One paragraph of his twenty-minute address is:

"I believe if Cuba needs help, as our ward, it is our duty to help her. If money is needed, Michigan will gladly pay its portion. If the 20 per cent reduction on sugar goes, $8,000,000 must be annually given, and it should go in some way directly to Cuba and not be placed in the pockets of the sugar trust, as your measure in effect provides. I yield to no one here present in my admiration for and loyalty to President Roosevelt. As a citizen, as a soldier, or as president, I love and respect him. I feel certain, however, if he represented the Tenth district of Michigan, or any other district in which this new industry has gained a foothold, in this fifty-eighth congress today he would, with all his strenuous nature and with all his magnificent ability, oppose this measure."

Mr. Grosvenor opened the discussion in advocacy of the bill and spoke for more than an hour.

After Mr. Bell (Dem., Cal.) had spoken in opposition to the measure as a blow at one of the greatest industries of his state, Washington Gardner explained why he had changed his views and now favors the passage of the bill. In the first place, conditions had changed in the last two years. He said the president of a beet sugar plant in his district favored the bill. In conclusion, he said the measure was the policy of the president, of his cabinet, of a majority of the senate and house, and those who stood out against it stood out against a great majority.

SOCIALISM TURNED DOWN.

American Federation of Labor Refuses to Endorse It.

Boston, Nov. 19.—After a long debate, chiefly noteworthy because of the bitter language of President Samuel Gompers in dealing with socialism, the American Federation of Labor Wednesday defeated resolutions pledging it to socialism. Nine resolutions presented by socialists and calling for the adoption of their principles had been reported upon unfavorable by the committee on resolutions and delegates representing a voting strength of 11,282 registered themselves in support of the committee's recommendation, while delegates with 2,185 votes were cast in favor of the resolutions.

The issue was discussed all day as well as part of Tuesday. All the leaders of both sides engaged in the debate. Just before the vote was taken yesterday afternoon considerable excitement was caused by Delegate Carey's condemnation of Vice-President Duncan's attack upon the socialists.

Filed a $250,000 Mortgage.

Ann Arbor, Mich., Nov. 19.—The Washtenaw Home Telephone company has filed in the register of deeds office a trust mortgage for $250,000 to the Luzerne County Trust company of Wilkesbarre, Pa., to secure an issue of bonds. The company has recently commenced work building a plant here and has as yet neither an exchange nor patrons.

Doesn't respect old age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect Pill. 25c at C. A. Wright's, druggist.

PROBABLY NEXT WEEK

Will Arrests of Alleged Boodlers Be Made.

Grand Rapids, Mich., Nov. 18.—Arrests of those implicated in boodling operations by Lant K. Salsbury may not be made until next week. The prosecuting attorney's office is full of work and may not get around to it. Salsbury's confession is being verified in various ways as a safeguard against injuring the innocent and in the meantime rumor is very active in swelling the list of those who will be hit. Some of these rumors, it is believed, are being started by those who were in the ring for the purpose of making their own trouble less conspicuous.

Assistant Prosecutor Ward will go to Lansing tomorrow to appear for the people in the case of Thomas F. McGarry, convicted in the Allegan circuit court of paying the bribe to Salsbury. McGarry has been in Florida since his conviction and is said to have built up a large law business, besides being interested in various business enterprises. If the supreme court affirms his conviction, as is probable, in view of the decision in the Salsbury case, there may be some difficulty in getting him back here to receive sentence.

HUBBY FIXED HIM.

Wife Shot at Alleged Assailant, but Missed the Mark.

Mason, Mich., Nov. 18.—Something like a Kentucky feud exists in Wheatfield township, if the stories told concerning a late shooting affair there be true.

Mrs. Sarah Hillis fired the first shot Monday night at John Hulburt, a well known bachelor farmer, who, she claimed, had persisted in insulting her. She missed, so tried again Tuesday morning, when she and her husband, Fred Hillis, claim that Hulburt made an attempt upon their home with a big revolver.

She missed again, but her husband was more successful, sending fifty shots into Hulburt's right side. He may recover. Mr. and Mrs. Hillis are under arrest. They gave bail to appear for examination Nov. 25.

Michigan Inventors.

Washington, Nov. 18.—Michigan patents were granted Tuesday as follows: Irving A. Brown, Allegan, window lock; Ida V. Case, Detroit, corset; Merton Church, Detroit, wire fence stapling device; Robert B. Emerson, Jackson, cement signs; Leonard A. Goodale, Kalamazoo, register for gas meters; Edwin T. Gorham, Grand Rapids, saw table; John H. Hammer, Marquette, flashlight attachment for cameras; William Harrison, Grand Rapids, knockdown scaffolding; Charles E. Hill, Millington, heating stove; Lawrence J. Husson, Norway, miner's lamp; Frederick F. Ingram, Detroit, machine for printing collapsable tubes; Davis H. Nickerson, Detroit, car wheel; Ernest Ortman, Detroit, photographic reproductive process; Romedius Panzi, Muskegon, acid proof lining for boilers, also composition for acid proof lining of digesters; Charles Puddefoot, Detroit, corrugating machine; John A. Rath, Jackson, harp; William I. St. John, Detroit, surgical chair.

Held on Murder Charge.

Detroit, Mich., Nov. 18.—Jacob P. Kelly, Frank E. Cavanaugh and John Bradd are in the county jail awaiting examination Friday morning on the charge of murdering Orlando Mowrey. The warrants were sworn to by Detective Hugh Kane and issued by Police Justice Sellers this morning. The men were brought in shackles to the court room of Justice Sellers and remanded without bail on the charge of murder. Mowrey was the unfortunate Ypsilanti man who happened into Gafney's joint Nov. 13. He was found dead in the alley in the rear from a terrible beating. The police arrested the three men charged, and have since been working on the case. They insist the beating was done inside of the saloon and the man was thrown out into the alley.

MINOR STATE NEWS.

Port Huron is one of the lucky cities to get one of the branch normal schools.

Donald Nightengale, aged 13, of Norway, was drowned in Lake Mary while skating.

Walter Hicks, a drill boy in the Calumet & Hecla mine at Calumet, fell seventy feet and escaped without injury.

The scarcity of both men and horses is proving a serious drawback to the industrial development of Benton Harbor.

Simon Gilboe, a prominent farmer near Alpena, attempted suicide by cutting his throat with a razor. His recovery is improbable.

Word was received at Port Huron that Eugene Murdock, engineer on the steamer Orion, was killed at Buffalo. He was well-known and resided in Port Huron.

Slot machines are to be abolished in Albion. At the regular meeting of the city council a resolution was passed ordering the city marshal to seize and destroy them whenever found.

A. C. Lester, aged 67, a prominent farmer and insurance agent from Brooklyn, Mich., was found dead beside the road near Alpena. A coroner's jury said that heart disease was the cause of death.

Weigle Victorious.

Grand Rapids, Mich., Nov. 19.—George Weigle of this city was last night given the decision over Kid Lepper of Ionia in ten rounds of fast fighting. Weigle had a shade the better of the fight from the start.

Deafness cannot be cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. COUNTERFEITERS.

New York Police Raid an Alleged Mafia Joint.

New York, Nov. 19.—Secret service agents Wednesday raided the apartments of Mrs. Josie Biondo, who had been arrested for attempting to pass counterfeit coin. They found metal moulds and formulas for the composition of counterfeit coin and also four big sticks of dynamite, weighing six pounds, a coil of fuse and a supply of fuminating caps. The woman's husband was arrested.

Among the papers found in the room was a list of several hundred names, both Italian and American, which the secret service men are inclined to think has something to do with mafia matters.

Biondo, the secret service men say, is acquainted with Morello, the leader of the gang arrested for alleged complicity in the "Barrel" murder.

SOLD HIS EAR.

Remarkable Operation Being Performed in Philadelphia.

Philadelphia, Nov. 19.—Dr. Andrew L. Neldon of New York Wednesday performed the operation of grafting an ear on the head of a western millionaire whose name the surgeon says he is under bond not to reveal. The operation was to have been performed in New York, but District Attorney Jerome is said to have interfered.

Dr. Neldon advertised for a man willing to sell an ear for $5,000 and of 300 applicants he selected a young German who conducts a restaurant in New York.

Dr. Neldon, speaking of the operation, which he said promised to be successful, said:

The two men were placed in opposite directions upon an elongated bed. One half of the volunteer's ear, the upper half, was cut off, together with about four inches of the skin behind the ear. This was twisted around and fitted to a freshly prepared wound upon my patient's head. The half ear was held in place by bandages and the two men bound so they cannot move their heads. They must retain this position for at least twelve days to allow the circulation to come through the flap of skin that still remains a part of the volunteer's scalp. If this half ear starts to unite properly the lower half of the ear will be grafted in the same manner."

Zionism in Paris.

Chicago, Nov. 19.—A Paris cable to the News says: Mrs. Dowie, who has arrived here, says that Paris is going to become one day the greatest stronghold of Zion. "The French are spiritual, high-minded people," she said to the few callers who learned of her presence in the city, who have thus shown their development by throwing off the domination of Rome. "This beautiful city is ready for new truth, which can come only from one source. I look forward to the day when the teachings of Zion will be proclaimed from these hoary temples which have so long housed superstition."

Sentenced to Be Shot.

Salt Lake, Nov. 19.—James Lynch, convicted for the murder of Colonel Jeffrey Prouse, whose petition for a new trial was recently denied by the supreme court, has been sentenced to be shot on January 18 next. The case against L. King, convicted of complicity in the same crime, and who was granted a new trial, was dismissed and King goes free.

Explosion Kills Two Canadians.

Newmarket, Ont., Nov. 19.—Two men were killed and five others injured as the result of a boiler explosion in the plant of the United Factories company, limited, here. The boiler which blew up wrecked three other boilers, and carried away the engine room and machine shop.

Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs.

They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondency.

"I had pains in my back, could not sleep and when I got up in the morning felt worse than the night before. I began taking Hood's Sarsaparilla and now I can sleep and get up feeling rested and able to do my work. I attribute my cure entirely to Hood's Sarsaparilla." MRS. J. N. PERRY, care H. S. Copeland, Pike Road, Ala.

Early Political Platforms.

It is in the seventeenth century that the first beginnings of the platform must be sought, but these early traces of its use are very slight. That there must have been some little employment of it in a demagogic way may be inferred from the "Characters" of Butler, the author of the ever memorable "Hudibras." He describes "a leader of a faction" as one who "sets the psalm, and all his party sing after him. He is like a figure in arithmetic—the more ciphers he stands before the more his value amounts to. He is a great haranguer, talks himself into authority, and, like a parrot, climbs with his beak." It is probable, moreover, that the first form of the platform was the conventicle or meeting house of the Puritan or Dissenter, for Butler, in his character of "The Seditious Man," says that "if he be a preacher he has the advantage of all others of his tribe, for he has a way to vent sedition by wholesale." But the platform at this time was of no practical account. Such attempts as there were outside parliament to influence opinion were made by means of the press, partly by the book, partly by the pamphlet and partly by the journal.—C. B. Roylance Kent in Longman's.

The First Lawbook.

The well known Assyriologist, Dr. Hugo Winckler, published an account of the legislation promulgated by King Amraphel of Babylon, which, so far as is known at present, was the first book of laws ever given to the world. King Amraphel lived 2,250 years B. C. and is mentioned in the Bible as a contemporary of Abraham, so that his statutes were drawn up fully five centuries before the laws of Moses. They number 282 and contain the following:

"If a woman who sells beverages gives bad value for the money paid her, she shall be thrown into water.

"If a wife be a spendthrift or if she otherwise neglect her duties, her husband may put her away without compensation, but if a man put away his wife for no other reason than that she has no children he shall return her whole dowry.

"If a betrothal be rescinded, the man shall pay the woman compensation.

"A widow with grown up children may not marry again without permission from a judge."—London Express.

Two Kinds of Wag.

In an Iowa law court an attorney was arguing with great earnestness and eloquence. In the midst of his argument he paused a moment, says the Green Bag, and said:

"I see your honor shakes his head at that statement. I desire to reaffirm it, although your honor dissents."

"I have not intimated," replied the judge, "how I should construe the evidence or what my decision will be in the case, and your remark is uncalled for."

"You shook your head."

"That may be true," the court replied. "There was a fly on my ear, and I reserved the right to remove it in any manner I saw fit. Proceed with your argument."

Caleb Cushing's Dress.

Caleb Cushing's peculiar manner of dress and his eccentricities were frequently the subject of newspaper articles. Although quite a large and portly man, his clothes always seemed to be two or three sizes too large for him and of the cheapest material. He always during both summer and winter wore a large cloth cap pulled close down on his head and altogether looked anything but the brilliant jurist and diplomat. One day, after reading an unusually caustic comment upon his dress, he remarked to the writer, "I guess by the time that fool is as old as I am he will care more for comfort than fashion."

Seen on an Ostrich Farm.

It is no uncommon thing to see a male ostrich strutting about followed by three or four distinct broods, all of different sizes. When the incubating process is completed, the cock bird leads his young ones off and if he meets another proud papa engages in a terrific combat with him. The vanquished bird retires without a single chick, while the other, surrounded by the two broods, walks away triumphantly.

Gave Himself Away.

After preaching on the occasion of the reopening of a restored church the bishop thanked the churchwarden, an old farmer, for his share in the good work. "And I must thank your lordship for your sermon," was the reply, "but I could not help thinking, as you talked about sin, that your lordship must have been a little wildish yourself when you were a young man."

Contentment.

One who had tried several times to jump across a stream and had repeatedly fallen in finally succeeded, when he said to a friend, "How much better I am than you in having accomplished a difficult feat."

"Not at all," replied his friend. "I am better than you in not wishing to jump across."—St. Nicholas.

The Difference.

"What a luxury a clear conscience is!" exclaimed the high minded statesman.

"Yes," answered Senator Sorghum, "it's a luxury, but it isn't a necessity."—Washington Star.

She Advised.

He—I'm in love with a charming girl, and I'd like to ask your advice.

She—I'm willing to help you all I can.

He—Well, would you advise me to propose to you?

Brass pins were first made by the Saracens in Spain in A. D. 800 and were brought to England by Catharine of Arragon, wife of Henry VIII.

The Marks of Genius.

"He has the stamp of genius on his brow."

"Yes. Also the gloss of genius on his coat."—Chicago Record-Herald.

The Vultures.

The question is mooted whether the vulture knows of its quarry by sight or smell. How does it communicate the news of a feast to its fellows? A tiger had been killed.

Colonel Ramsay ordered the carcass of the skinned tiger to be dragged out from under the thick mango trees into the open. Taking out his watch, he asked us to make a guess as to how long the vultures would take to clean the flesh off the bones. Some one said half an hour. As there was not a vulture in sight, this seemed even betting, but Colonel Ramsay gave them ten minutes, which proved to be correct. There was one vulture at first seen soaring round and round very high up in the cloudless sky. He closed his wings and dropped on to the carcass with a swoop. In two minutes the sky was full of vultures, all concentrating from every side on the spot, and arriving with all the impetus their drop from a great height gave them as fast as it takes to tell the story. Then there commenced a frightful scene of literal carnage, every one tearing with sharp, hooked bill at the entrails first, then at the flesh, all fighting for room to get a piece and tumbling over one another with frantic haste.—"The Forests of Upper India and Their Inhabitants," by T. W. Webber.

What Holds the Novel.

Frank Norris, author of "The Octopus" and "The Pit," was a most virile writer and a man of decided opinions. He was wont to say of the great factors in molding public opinion that "the pulpit speaks but once a week, the press is read with lightning haste and the morning news is waste paper by noon; but the novel goes in the home to stay."

This opinion was aired by Mr. Norris in the lobby of a hotel in a small town in Illinois. Among those present was a country editor, who was prompted to remark that the novelist's views reminded him of his dog Wolf. Wolf persisted in running away from home, killing chickens and annoying children in the community. At last a method was adopted by which the dog was confined to his own homestead.

"Chained him, eh?" was the thought voiced by several of the company.

"Yes, sir," declared the editor. "And if your modern novel goes into the home to stay let Wolf remind you that it's on account of the binding."

Political Economists.

While great fortunes and great industries have almost invariably been created by uneducated men, parvenus unembarrassed with learning, who taught themselves what they found necessary to know, we find, on the other hand, that those men who have made commercial science, political economy, their study have not shown any success in business and have remained theorists. Most political economists have had to live on their pen. Mr. Cobden went bankrupt in business. It is true that Ricardo was well off, but he was a stockbroker by trade, and with him political economy was only a hobby, not a serious result. It is strange how few business men of the first rank have a good word to say of political economy.—Nineteenth Century.

Pocketing a Fee.

For a whole year the famous English physician, Dr. Radcliffe, attended a friend without a single fee passing between them. As he was leaving after his last visit the patient said: "Here, doctor, is a purse in which I have put every day's fee. You must not let your kindness get the better of my gratitude; so please take it." The generous physician put out his hand to reject the purse, but the chink of the gold was too much for his amiable resolution, so he put it in his pocket, saying, "Singly, sir, I could have refused them forever, but all together I am afraid they are irresistible."

The Roman Aqueducts.

The Roman aqueducts were marvels of architecture. The Ahio was forty-three miles long; the Martio forty-one, of which thirty-eight were on 7,000 arcades seventy feet high; the Claudia was forty-seven miles long; the arches 100 feet high. The Roman aqueducts brought 40,000,000 cubic feet of water daily into the city, and the various sections of the metropolis were supplied with water by 13,504 pipes.

Helping Him Along.

"Then there is such a thing as heart failure, is there, doctor?" said the handsome young widow.

"Certainly, madam," responded the bashful young physician. "The records of the profession are full of"—

"It's a perfectly unnecessary disease, isn't it, doctor?"

A Noteworthy Race.

The population of St. Kilda, the most westerly of the inhabited Scottish isles, is a unique one in many respects. The people are the most lonely in the United Kingdom, there being very little communication with the mainland and sometimes not for months at a stretch. Socially the islanders are practically a commune. If the head of a household is injured or loses his life among the rocks, his widow and family share in the proceeds of their labor as if he were there to take part in it. If family illness prevents any one joining in the day's work, he is asked to stay at home, and his interests will not be lost sight of. All questions, complaints, etc., are determined by their mode, or local parliament, whose judgment is final. Early morning conferences usually determine the day's tasks.

St. Kildians are a most industrious and active as well as a religious people, and on the island at any rate the vexed problem of church attendance has been solved. Every man, woman and child capable of leaving the household goes regularly to church, and only some serious disability will keep any person at home.—Scottish American.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

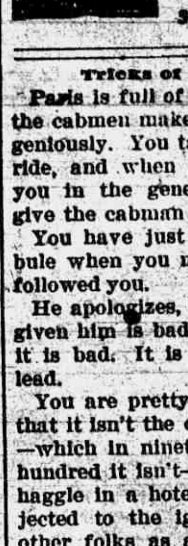
When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.



We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Tricks of Paris Cabmen.

Paris is full of counterfeit coins, and the cabmen make use of them quite ingeniously. You take a two franc fiacre ride, and when you reach your hotel you in the generosity of your heart give the cabman 3 francs.

You have just got within the vestibule when you notice the cabman has followed you.

He apologizes, but the coin you have given him is bad. You look at it. Yes, it is bad. It is nothing but a bit of lead.

You are pretty certain in your mind that it isn't the coin you gave the man—which in ninety-nine cases out of a hundred it isn't—but you don't care to haggle in a hotel corridor and be subjected to the ignominious glances of other folks as a foreigner who gives poor French cab drivers bad money. So you take the bit of lead and give a good coin.

Of course the cabman has changed the coin. You gave him a perfectly good three franc piece at the start, which he has in his pocket, and he has bluffed you into giving him another 3 francs in exchange for a useless bit of lead. To visitors to Paris let this be a warning.

The First Iron Ship.

The first iron ship has more reputed birthplaces than Homer, according to Chambers' Journal. Both the Clyde and the Mersey claim pre-eminence in this respect. Sir E. J. Robison of Edinburgh designed an iron vessel in 1816, which was not launched till three years later, and it is said that an iron boat was worked on the Severn even as far back as 1787. Steel was not used in the construction of merchant ships' hulls until 1859. Old salts were not alone in their belief that wood was meant by Providence to float, but iron to go to the bottom. A naval constructor of some repute once said: "Don't talk to me of iron ships. They are contrary to nature." Now none but small craft are built of wood in England.

The Poor Dog.

A Parisian clothes dealer kicked a dog out of his shop. The dog shot out with some rapidity and knocked over a woman with a jug of milk. The woman broke the jug and upset an elderly gentleman, and the jug cut both of them. At that moment a cyclist arrived and was thrown off his machine by the prostrate figures, and simultaneously a cart came up and smashed the bicycle. The magistrate blandly advised the entire squad to proceed against the dog, and they are now looking for it.—London Globe.

Plenty on Hand.

"You would get along a great deal better if you didn't get so excited," said the calm man to his irascible friend. "Can't you learn to keep your temper?"

"Keep my temper! Well, I like that!" retorted the other. "I'd have you understand that I keep more temper in one day than you have in your possession during a whole year!"

Carrollton Man Missing.

Bay City, Mich., Nov. 19.—The aid of the police has been asked by the relatives of William H. Stone, Jr., second engineer of the Valley Sugar company at Carrollton, in finding him. Young Stone left Bay City Tuesday morning, went to Carrollton, drew his two weeks' pay and then disappeared. There is no known cause for him leaving home. He is 20 years of age and was recently married. None of his relatives report his domestic relations as anything but of the most pleasant character.

Sugar Factory at Menominee.

Menominee, Mich., Nov. 19.—Menominee's big $850,000 beet sugar factory, the first in the upper peninsula of Michigan and northern Wisconsin, began operations at 5:20 o'clock last evening, and beet slicing is now well under way. The factory will run steadily night and day from now till all beets contracted for have been turned into sugar. The plant has a capacity of 1,000 tons of beets a day.

Editors Out For a Time.

Battle Creek, Mich., Nov. 19.—Today noon 125 members of the Eastern Michigan Editors' association will arrive in the city from Detroit to be the guests of the Business Men's association for about three hours. Special cars will meet them at the depot and take them to various points of interest about the city. They will leave at 3:55 for Chicago, where they will remain four days.

Insurance Rates.

The new rate of insurance for the News office of $1.66 per $100 is without a doubt due to the fact that they use a gasoline engine and are located next to the laundry. Also the laundry that according to the News has been raised from $1.15 per $100 to $2.58 per $1.00 is no doubt due to the fact that they use a steam boiler and engine and not due to defective electric wiring. It is a fact that the inspectors have condemned some of the wiring in the business places, wiring that was installed 13 years ago by C. C. Traver the electrician, who first installed the plant and at that time according to the underwriter's instructions the extra rate charged for the old wiring is about 12½c per $100 and not 40 to 50 per cent as stated by the News. The Tecumseh Electric Co. are willing to make such changes as are required by the inspector to prevent a raise in rates.

G. H. CHURCH,
Supt. of Tecumseh Electric Co.

Macaroni Plant.

M. L. Trenaman of Detroit, and Vincent Elfias of Pontiac, were in Tecumseh a few days since looking up the idea of establishing a macaroni plant here. The gentleman desire to buy the steam mill, starting a stock company and the employment of 30 people in the mill. There are only a few plants of this kind in the country and the farmers are just commencing to raise Macaroni wheat. It would be a good thing for Tecumseh.

El Capitan.

The comic opera, El Capitan, was finely presented at the opera house last Tuesday evening. The whole entertainment was fine, play was well staged, company finely costumed. Voices fine and last, but not least, a bunch of fine looking ladies, in fact best ever seen in Tecumseh. Manager Bradley is to be congratulated on securing for Tecumseh so fine a company. Every patron of the house was delighted.

Wisner—Greer.

Taylorsville, Ky., Nov 7.—Miss Mattie Watts Greer and Mr. Carl V. Wisner will be married at the residence of the bride Wednesday, November 25. The bride-elect is the daughter of Mr. R. J. Greer, a prominent farmer near Bloomfield, and is an attractive and popular young woman. Mr. Wisner lives near Chicago, Ill., where he enjoys a lucrative practice in the law.—Louisville Kentucky Times.

Mr. Wisner is a son of Mrs. A. B. Wisner of Franklin.

Mrs. L. M. Ide.

Died, at her home in Detroit on Sunday November, 15, Catherine Drew Ide, wife of Lavern M. Ide in the 42 year of her age.

Catherine Drew was born in Pittsburg Pa. and lived in that state until she was a young lady. August 5, 1884, she was married in Pittsburg to Lavern M. Ide of Detroit, and from that time until the day of her death she has spent every day one of love and care and devotion to her husband and daughter.

Some years ago she suffered a slight stroke of paralysis and from that time has never been a strong woman. She was never closely affiliated with any church society but lived a patient loving, cheerful christian life for her family. She had many loving friends at her home and at the time of her death was remembered by any number of floral tokens of esteem. She leaves her husband and only daughter, Margaret, to mourn her loss.

The funeral services were held in Tecumseh on Wednesday at the home of Mrs. William Ide and there were present from away Mr. and Mrs. Humphrey and Mr. and Mrs. Chester Haines of Adrian, Mr. and Mrs. F. E. Crossman of Jackson, Mr. and Mrs. Herbert Drew of Dundee, L. M. Ide and daughter Margaret, and Mr. and Mrs. Edgar Ide of Detroit.

E. W. Goheen.

E. W. Goheen was born in Groveland township, Livingston county, N. Y., Nov. 18, 1822, and departed this life on the anniversary of his birth, 1903. At the age of nine years he came to Michigan with his parents, becoming one of the pioneers of this section of the state. He was married to Charlotte T. Niblack the 18th day of March 1849, who passed away May 9, 1894. Six children were born to them, one dying in infancy.

When yet a young man Mr. Goheen purchased the farm where he lived all the rest of his life and by hard work and economy built a comfortable home for his declining years. He was the eldest of eight children and only two live to mourn his loss, V. and Miranda E. Goheen.

The funeral was held at his late residence Nov. 19, Rev. Curry of Clinton, officiating.

THE CHURCHES.

Rev. E. Sedweek will preach at the union Thanksgiving service next Thursday morning at 10 o'clock, in the Presbyterian church.

The Thursday division of the Missionary society met with Miss Harriet Hurry last evening and the Friday division will meet tonight at the M. E. church.

The pastor will preach in the Presbyterian church Sunday morning on the subject, "Supposing Christ were only a man." Evening subject, "The strength of being clean," a sermon for young people.

The morning service at the Methodist church Sunday will be devoted to the reception of new members and the administration of the Holy Communion. The evening subject will be "The young man lost and found." Any person holding church letters are requested to hand them in this week.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

WASHINGTON LETTER

Washington, Nov. 16, 1903.

Among the long list of appointments sent to the Senate by the President, that of Leonard B. Wood to be Major General and of Dr. W. D. Crum to be collector of the port of Charleston are causing a great amount of comment. The enemies of General Wood are going to make a vigorous fight against his confirmation, when the subject is decided upon by the Senate Committee on Military Affairs, which will hold a public session to hear complaints against the nomination. There are two distinct forces at work against General Wood. Major Estes G. Rathborne, formerly director general of posts in Cuba, and who is backed by Senator Hanna, has a personal grudge against Wood, who was instrumental in procuring Rathborne's conviction for postal frauds in the island; and many army officers, over whose heads Wood has been promoted and have won Senator Teller as a champion, are doing everything in their power to prevent him from being made a major general. They see that in case General Wood's confirmation is accomplished, he would become head of the army in 1908 and owing to his age might remain such until 1924, thus excluding many older officers from holding the much coveted position in turn for much shorter periods. General Wood was formerly Colonel of the Rough Riders and is a great friend of President Roosevelt. Wood's real advancement however came when he was appointed a brigadier general by President McKinley, and his present advancement is merely the result promoting him one grade according to seniority. At the out break of the Spanish war, General Wood was an army surgeon, with rank of Captain. This fact tends to increase the hostility of the regular officers to him. It is believed that a majority of the Senate is in favor of confirming the nomination, and it is doubted that either Rathborne or the army officers can sustain any charges against the fortunate general.

Dr. Crum's nomination comes to the Senate for the third time. Twice it was not acted upon, and the negro collector was then named as a recess appointment. Despite the hostility of the South Carolina Senators and white people of Charleston, the President is determined to keep Crum in his place unless the Senate refuses to confirm the nomination.

M. Philippe Bunau-Varilla, the duly accredited Envoy Extraordinary and Minister Plenipotentiary of Panama to the United States was officially received by the President last Friday, and the infant republic of Panama was thus recognized by this government as one of the sovereign nations of the world. This recognition is complete and unqualified, and unless there is serious opposition to the President's course on the part of Congress, negotiations for the building of the canal will begin at once. For this purpose three commissioners are on their way here from Panama to assist M. Varilla. The Panama government favors granting us a perpetual lease of a strip ten miles wide across the Isthmus. The new government has called a constitutional convention and expects to be permanently established under a constitution similar to that of Cuba, in about thirty days. Large bodies of Colombian troops are said to be hurrying toward the Isthmus, but as our warships will not let them land at either Panama or Colon it will be difficult, if not impossible, for them to attack Panama. In fact it would seem to follow logically from our recognition of the new republic, to which we shall have to apply the obligations of the treaty of 1846, that our government should forbid the Colombian troops from approaching the territory reserved for the canal.

Opposition to the President's haste in recognizing the Republic of Panama is brewing in Congress, especially among democratic members. It is believed that Senator Hoar also will oppose the Administration, although he refuses to commit himself until further information is at hand. That part of the President's annual message to Congress which referred to the canal negotiations will have to be changed on account of the new state of affairs on the Isthmus; but the statement as originally written has been made public and will cause much comment. The President says that, "We can no longer submit to trifling or insincere dealing on the part of those whom the accident of possession has placed in temporary control of the ground through which the route must pass; that if they will come to an agreement with us in a straightforward fashion we shall in return act not only with justice, but with generosity; and that if they fail to come to such an agreement with us, we must forthwith take the matter into our own hands."

Many petitions have been received by the Senate from every part of the country, asking that Senator Reed Smoot of Utah be expelled from the Senate, because he is an apostle of the Mormon church, which claims supreme authority to control its members in civil as well as religious affairs, and has taken an oath of highest allegiance to a government other than that of the United States of America. The petitions have given up hope of proving that Senator Smoot is a polygamist, and have adopted this latter ground for demonstrating his ineligibility. The petitions show that thousands of printed blanks were distributed throughout the country with instructions to sign and them to United States Senators. The phraseology in many instances is identical, showing that they emanated from the same source. The case is referred to the Committee on Privileges and Elections, and Senator Hoar claimed that as the question was a judicial one, the petitions were as much out of order, as if they were sent in a case pending in the Supreme Court. Senator Dubois of Idaho, denied, saying, "I contend that these various organizations of Christian men and women have a right to petition the Senate and that it is their duty to do so. They represent the moral thought of the country and should not be discouraged." Most of the signers of the petitions were members of the Daughters of the American Revolution, the Women's Christian Temperance Union, and other women's and religious organizations. There is a very slight chance of forcing Senator Smoot to give up his seat.

CLUB NOTES.

Monday Club program Nov. 23:

The Mexican War—Mrs. M. A. Zimmerman.

American Engravers—Mrs. James McCann.

James Russell Lowell, Poet and Critic—Mrs. Albert Waring.

Horace Greely, Author and Editor—Loana Stacy.

Leader, Mrs. Linton.

Current Events—Mrs. Holdridge.

The Research Circle met, as usual, in their Club rooms, Tuesday afternoon and listened to the following papers on South America: "Romantic Peru", by Miss Edith Gray; "Physical Description of Chili, People, Government, and Climate," by Mrs. Smeltzer. After these topics had been discussed by the members, Mrs. Andrew Wilson produced the third chapter of the original story. All were attentive and eager while she unravelled some of the mysteries which had been troubling her audience since the presentation of the previous chapter by Dr. Wilson; but were again thrown into despair by the story being left at a critical point.

Next Tuesday afternoon, Nov. 24, Mrs. Belcher will bring out Chapter 4, Mrs. Holdridge will treat of "The Land of Stand Still", Mrs. Kennedy will give "The Life of Helen Keller." The Discussion will be upon the essentials and non-essentials of good housekeeping with Mrs. Joseph Crosby as leader for the afternoon.

Mighty Hunter Who Tackles Devil and Other Wild Things.

Owosso, Mich., Nov. 19.—Special.—Rev. J. P. Varner of the First M. E. church of this city, does something more than hunt the devil out of the spiritual forest. Just now he is several miles out of Wolverine in the upper peninsula with a party of deer hunters. A few days ago he went out after a deer, but found a couple of cubs instead which he chased into a hollow tree. He did not wish to shoot them, so he blocked up the hole in the tree. That was Saturday afternoon. He would not go after them Sunday, but early Monday morning he went with friends and got the animals. He will probably give them to the zoo in McCurdy park, Corunna.

Rev. Mr. Varner once resided in West Virginia, where his training with a rifle began in the mountains. Later he preached in Laramie, Wyo., where he was accustomed to going after elk, mountain lions and bears. He had a pastorate in the upper peninsula for several years, and his fondness for hunting was again gratified. "He is a true sportsman."

With rifle or rod he is an expert and he knows when to quit. He does not attempt to clean out the forest or stream but when he gets enough he quits for the time. At night, he needs neither blanket nor pillow. He stretches himself on a sand heap and forgets he is not in bed. He covers so much ground every day on a hunt that his companions have to camp on alternate days to recuperate from the effects of keeping up with him.

Mr. Varner is a six-footer, and well proportioned. He is in his fifth year with the First church.—Detroit Tribune.

It Wasn't All in Him.

"Johnny," said his mother severely, "some one has taken a big piece of gingerbread out of the pantry."

Johnny blushed guiltily.

"Oh, Johnny!" she exclaimed, "I didn't think it was in you."

"It ain't all," replied Johnny; "part of it's in Elsie."

Two Problems.

"Dorothy always begins a novel in the middle."

"What's that for?"

"Why, then she has two problems to be excited over, how the story will end and how it began."

Paine's Celery Compound
CURES RHEUMATISM.

Rheumatism, which does its terrible work in the muscles, joints, and tissues, is caused by uric acid which gathers in the blood. To get rid of this poisonous acid which produces the irritations, pains, agonies, inflammations, and swellings peculiar to rheumatism, Paine's Celery Compound should be used without delay. No other medicine gives such prompt, cheering, and happy results. It is the only medicine that prevents a return of the dreaded disease. Paine's Celery Compound braces the nerves, the blood is quickly cleared of all irritating poisons, tissue and muscle are built up, and the digestive organs perfectly toned. Do not treat with indifference the slightest rheumatic symptoms; the early use of Paine's Celery Compound will save you weeks and months of suffering. Mr. S. D. Conway, St. Louis, Mo., was permanently cured by Paine's Celery Compound after repeated failures with other medicines and physicians; he says:—

"I am 64 years of age, and have lived in St. Louis 27 years, and all this time with the exception of three years, I have served in the Engineers' Department as Inspector. Last winter I contracted rheumatism and was laid up. I tried all remedies and doctors, but all failed until I struck Paine's Celery Compound, which has made a permanent cure in my case. I have recommended it to many, and they have used it with the same result."

A HELPING HAND

Is gladly extended by a Tecumseh citizen.

There are many enthusiastic citizens in Tecumseh prepared to tell their experience of the public good. Testimony from such a source is the best of evidence, and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. J. H. Welch, who resides in the south western section of Tecumseh, says: "I wish to express my gratitude for the benefit derived from the use of Doan's Kidney Pills. My back troubled me for a long time with a constant dull aching pain across my loins and when stooping or exerting myself, it became very sharp. If I took cold it always settled in my kidneys and in the morning I was so lame and stiff that I could hardly attend to my work. I used several simple household remedies but they did not bring relief. Seeing Doan's Kidney Pills recommended and spoken of so highly I concluded to test their merits and got a box at C. A. Wright's drug store. They took right hold of the cause and in a short time the pain in my back was a thing of the past. I can now straighten after bending or stooping without any inconvenience. Doan's Kidney Pills are certainly a wonderful remedy."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Why is the milkman like Pharoh's daughter? Because he draws a little profit out of the water.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

Addition to Detroit P. O.

Washington, Nov. 19.—The supervising architect of the treasury Wednesday submitted an estimate to Representative Lucking that an addition can be built on the north side of the Detroit postoffice site, of the same height and general appearance of the present structure, extending to the Lafayette avenue line, for $650,000. To be sure there will be enough Lucking introduced a bill to make the appropriation $750,000.

TREATED TO A CURE

Though Bent Double With Pains and Aches From Rheumatism.

If you will, we will put you in the way to cure yourself by enabling you to treat yourself until you are cured.

You can watch your own symptoms and note how you respond to treatment. Buy a bottle of Athlophoros at any druggist's.

Note carefully its effect on Rheumatism and bowels. If the latter are kept open and your Rheumatism is better, keep taking Athlophoros according to directions until you are cured, or until no improvement is visible, then write us your symptoms and we will tell you (without cost) what to do next. You can be cured without doctor's expense. We can relieve your pain quickly, and show you how to entirely drive Rheumatism out of your system. We are doing it every day, and have enabled thousands of cripples to go about their business.

It is simply driving the Uric acid out of the blood and keeping it out. You can prove this yourself. If your druggist doesn't have it send $1 to The Athlophoros Co., New Haven, Conn.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The best remedy for croup.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all druggists.

IN LEACHMAN'S STOMACH

It Is said Five Grains of Arsenic Was Found.

Owosso, Mich., Nov. 19—Dr. Moses Domberg of the University of Michigan, who analyzed the contents of George Leachman's stomach, has reported the presence, it is said, of five grains of arsenic. To become operative, arsenic must be absorbed, so Dr. Domberg had no means of knowing how much had been administered to Leachman, as the latter was dead from the effects of the drug in his system. It is said that in normal persons more than one-sixth of a grain will ordinarilly produce death, so the murderer of Leachman made sure he had enough.

Mrs. Collins is cool as the proverbial cucumber. She ate heartily today, worked away contentedly at crocheting and entertained one visitor, a Corunna lady.

Wants $10,000 Damages.

Ann Arbor, Mich., Nov. 19.—Two suits have been begun here by William Lanskey, a junk dealer, against William Gauntlett, deputy sheriff, and Horace G. Prettyman. The suits grew out of the arrest and imprisonment of Lanskey last June in connection with the larceny of $2 89 worth of groceries from Prettyman's boarding house, for which Fred Von Kaul was later convicted. Lanskey claims that Gauntlett falsely arrested and imprisoned him, and that Prettyman assisted in the arrest and afterwards by his testimony caused Lanskey to be held in jail for examination. Ten thousand dollars' damages are claimed in each

LIFE PLANT
Renews Life.
The Very Best TONIC Ever Discovered.

The kidneys are the blood filters intended to remove the waste, and most of these diseases result from overtaxing them with excessive waste. The most frequent cause of kidney trouble is indigestion. LIFE PLANT aids digestion, relieving the kidneys from the very start. Kidney diseases cause more deaths than any other human affliction. They are usually painless at first, the only warnings are shown in the Urine, being cloudy or of high color. It is by neglecting these symptoms that kidney diseases are allowed to progress. An improper treatment is worse than none. LIFE PLANT is the only sure cure for kidney trouble.

Read what a cured one says.

Rev. J. H. Merchant, Pastor M. E. church at Freeport, O., writes:

"I take great pleasure and do not hesitate to recommend Life Plant as an excellent remedy for Liver and Kidney difficulties. Mrs. Merchant desires to bear testimony to the healing virtues of Life Plant as a sure and certain remedy for Rheumatism."

The cure of all Kidney trouble must come through the use of LIFE PLANT. GET SOME NOW.

OVER 300 KILLED

Army Under General Wood Battle With Moros.

ENEMY LITERALLY DESTROYED

Five Days of Fighting—Major Scott Led Into An Ambuscade and Wounded—No Americans Killed—Five Wounded.

Manila, Nov. 23.—Three hundred Moros are known to have been killed and many more were carried off or wounded as a result of five day's fighting in Jolo between American troops under General Leonard Wood and the insurgents. Major H. L. Scott, of the Fourteenth cavalry and five American privates were wounded.

General Wood landed near Siet Lake in Jolo Nov. 12. The Moros were soon located and fighting began immediately and continued until Nov. 17.

Major Scott was taking Panglima Hassen, the Moro leader, who was taken a prisoner, to Jolo. While en route Hassen asked to be allowed to see his family. His appeal was granted and he thereupon led Major Scott into an ambuscade, where the American detachment was fired upon. Major Scott was shot in both hands. Hassen succeeded in escaping during this unexpected attack, but is supposed to have been killed the following day.

The fighting took place in a country covered with swamps and rocks. The Moros wer driven across the country from Siet Lake to the town which Hassen had made his headquarters and where it was reported the Moros were 2,000 strong.

The rebel position was attacked in the flank by the American troops, who occupied the town and inflicted a loss of fifty killed on the Moros. Hassen, with a small party, surrendered. The rest of the Moros went into the swamps out of which they were driven on Nov. 16, leaving seventy-six behind them. On Nov. 17 the American forces renewed the attack on the remaining Moros, of whom forty more were killed.

The rebel forces have been literally destroyed by these operations and Gen. Wood says the indications are that there will be no extension of the uprising, which was handled without difficulty.

On Nov. 18 General Wood started on an expedition against a body of 3,000 Moros who are in the mountains back of Tablibi. No news has as yet been received as to the result of this movement.

General Wood has under him two battalions of the 28th regiment, one of the 23rd regiment, a platoon of Captain George S. Satley's battery, two troops of the 14th cavalry and a detachment of engineers.

Major Scott, assisted with a force composed of three companies of the 17th infantry, a plattoon of Captain D. J. Rumbough's battery and a troop of the 14th cavalry.

Oil Monopolists Boost Prices.

Vienna, Nov. 23.—Much indignation is expresed here over the steadily increasing price of oil. Since the formation of the Austro-Hungarian petroleum cartel prices have been advanced 50 per cent., with the prospect that they will go still higher as soon as the present stocks become exhausted. The advance inflicts the greatest hardship on the pooreer classes, especially on the thousands of tailors and dressmakers, who work in their own homes. The local authorities of the several districts have taken the matter up and are urging the city council to use every means to break up the oil monopoly.

Fell Dead After Preaching.

Lynn, Mass., Nov. 23.—After preaching a sermon of unusual vigor and eloquence Rev. James Minto Pullman, D. D., pastor of the First Universalist church in this city and a clergyman widely known in that denomination, died suddenly of apoplexy at his home Sunday. At the conclusion of the morning service he said that a feeling of illness had almost overcome him in the pulpit. When he reached his home a messenger was dispatched for a physician, who had arrived just as Mr. Pullman fell dead on the stairs leading to his chamber. Rev. Mr. Pullman was a brother of the late George M. Pullman, the millionaire car builder.

Two Killed In Wreck.

Philadelphia, Nov. 23.—Two persons were killed and a half dozen others were injured late last Saturday night in a wreck near Gwynedd, a short distance from this city on the the Philadelphia & Reading railroad. The dead are: C. L. Custer, aged 57 years, a passenger who lived in this city, and Harry Roderick of Doyleston, Pa., fireman of the wrecked train. While the injuries to some of the passengers are serious all will recover. The railroad officials believe the accident was due to a deliberate attempt at train wrecking. The train was a local one from Doyleston and had just passed the station at Gwynedd when the engine jumped the track and went over an embankment followed by one car. An investigation, the railroad officials say, showed that spikes had been drawn from a plate connecting the track and the rails had been spread apart.

Shot at Alfonso's Tutor.

Madrid, Nov. 21.—An unknown man fired three times with a revolver Friday at Senor Briesta, one of King Alfonso's tutors, who was slightly wounded. The attempt on the tutor's life is believed to be the outcome of a private quarrel.

PUT UNDER ARREST

Harvey King of Davison May Be Charged With Murder.

STRUCK A RICHFIELD BOY

Lad Was Unconscious For Week, Then Died—Previous Wound May Have Hastened His Death—Other Boys Implicated.

Flint, Mich., Nov. 23.—Ralph Shales, aged 18, a son of Jesse Shales of Richfield, died Saturday night at the farm of Joseph Comstock in that village, where he has been working and Harvey King of Davison is under arrest on suspicion of having caused his death and will be held pending the inquest to be held at Davison next Friday.

Shales and King had a fight on the street at Davison a week ago on Saturday night and King struck Shales in the right eye and knocked him down. Shales went home and was about work as usual until Monday noon, when he became prostrated and complained of pain in the head. He soon became unconscious from which he never recovered.

Five years ago Shales was thrown out of a meat cart and his skull was farctured, but he never regained his normal condition and was of slight physical build. It is supposed that the blow in the eye opened up the fracture and caused his death. King claims Shales struck him first, but there is another story to the effect that King and three other young fellows who were in the village provoked the fight by following Shales.

A post mortem examination will be made to establish if possible the cause of death.

BLISS DENIES IT.

Says He Didn't Ask Resignation of Freeman and Sayre.

Saginaw, Mich., Nov. 23.—Governor Bliss emphatically denies the truth of the Lansing story in the Freeman and Sayre matter.

"I never demanded their resignations," he said this morning to a reporter. "It is not true that Freeman made any threats, or that he mentioned anything about my connections with railroads. There were unquestionably interviews regarding the matter of affidavits, and my view of the matter has been stated before. I have nothing to add, and as far as I am concerned the incident is closed. I certainly never asked for the resignations of either Mr. Freeman or Mr. Sayre."

The governor said there was nothing new to announce in regard to pardon board appointments.

BLLEW HIS EYES OUT.

Boy Carelessly Dragged Gun Toward Him, Muzzle First.

Coldwater, Mich., Nov. 23.—Ellsworth Smith, a boy 17 years of age, while hunting Sunday afternoon accidently shot himself, the charge striking him in the face, destroying the sight of both eyes and probably fatally disfiguring him. He had been lying down and when he tried to get up he pulled the gun towards him, the hammer catching in some grass and discharging the gun with the muzzle so close to his face that the powder burned it to a crisp. He is conscious, but Drs. Wood and Gamble, who attended him, have but little hope of his recovery.

Men Killed by Exploding Boiler.

Saginaw, Mich., Nov. 23.—At 3:30 o'clock Saturday the boiler at the shaft of the Carbon Coal company, two miles and a half from Verne, in Albee township, this county, exploded with terrific force, blowing the engine house and boiler into atoms, killing two men and wounding five others. Two of the latter will likely die, and the others are severely hurt. The dead are: August Mortina, miner; August Moshner, miner, both badly mangled.

Shot Companion In Leg.

St. Joseph, Mich., Nov. 23.—Willie Shrader, a 12-year-old lad was the victim of a gun in thehands of another small boy Sunday afternoon while out hunting. The boys were fooling with the gun in a careless manner when it was accidently discharged and Shrader received the contents in the calf of his leg. He was taken home and will be laid up several days but physicians fear no serious consequences.

Civil War Veteran.

Adrian, Mich., Nov. 23.—Colonel Charles Rose, aged 66, for many years a resident of Adrian and Hudson, died here Sunday. He enlisted in 1861 as lieutenant in company I, First Vermont infantry, and has been a sufferer almost continuously since the war from wounds received in the service.

Anarchists Arrested.

Geneva, Switzerland, Nov. 23.—Under orders of the federal council, a raid was made on the headquarters here of a group of anarchists and two Russians were arrested. The prisoners will probably be expelled from the country.

Silk Mills Girls Strike.

Hazelton, Pa., Nov. 21.—Nearly 250 of the 400 girls employed in the Dupin silk mill struck Friday because of a reduction of 7 cents on each "ticket," the equivalent of the price paid for the weaving of ten yards of silk, by which method the wages are computed. After leaving the mill the girls marched around the building shouting and cheering and carrying a United States flag, banners and a portrait of John Mitchell, president of the United Mineworkers. The wage reduction, the employers say, was made on account of dullness in the silk trade.

SEVENTEEN ARRESTED.

Those Whom Salisbury Says Were In Boodling Scheme.

Grand Rapids, Mich., Nov. 23.—The storm that has been hanging over the political structure of Grand Rapids for a couple of weeks burst Saturday morning when there was a rain of seventeen warrants for men who are now in office or have held city positions of trust.

Since then one alderman, Adrian Shriver, has made a complete confession of his own complicity in the water deal. He not only confirmed Salisbury's story as to himself, but after agreeing to plead guilty, also said he would testify against two other men who were arrested. Another, a former alderman, Abraham Ghysels, also practically acknowledged his guilt, though he made no formal confession.

With Salisbury's confession confirmed by such evidence, it begins to look very much as if some of the officials arrested will land in prison and that the state and the nation will be given a wholesome object lesson as to the risk of the prevalent crime of municipal boodlery.

Most of the men concerned had borne good reputations. Several were prominent in churches, and the effect of the arrests was calculated to destroy confidence.

It is alleged that ex-Mayor Perry got $3,300, while that received by aldermen and others range from $350 to $500.

The list is as folows:

George R. Perry, former mayor; David E. Burns, state senator; Corey P. Bissell, former member of board of public works; James O. McColl, former alderman; Jacob P. Ellen, former alderman; Peter De Pagter, alderman; Malachi Kinney, ex-alderman; John Muir, former alderman; Adrian Shriver, alderman; John T. Donovan, former alderman; Abraham Ghysels, former alderman; James Mol, alderman; Charles T. Johnson, alderman; Reyner Stonehouse, former alderman; Daniel E. Lozier, former alderman; John M. McLachlan, former alderman; Clark E. Slocum, former alderman.

Michigan Corporations.

Lansing, Mich., Nov. 23.—The following corporations filed articles of association with the secretarry of state during the past week: Wolverine chemical and Manufacturing company, Detroit, $20,000; Hatt Polish Manufacturing company, Grand Rapids, $10,000; Hastings Roller Mill company, Hastings, $12,000; Alpena Gas Light and Fuel company, Alpena, $100,000; Star Carpet Beating, Cleaning and Rug Manufacturing company, Detroit, $5,000; Sturgis Cheese company, Sturgis, $2,450; Universal Berry Box company, Grand Rapids, $25,000; Brooks Boat Manufacturing company, Bay City, [illegible]; Adrian Basket and Veneer company, Adrian, $10,000; A. Mrs. Collins Is Feted.

Owosso, Mich., Nov. 23.—The supreme nerve displayed by Mrs. Caroline Collins and her constant cheerfulness is gaining her many admirers in both Owosso and Corunna. Today two fine dinners were sent to the jail by Corunna friends and even Mrs. Collin's good appetite is not equal to all the dainties that are provided for her table.

Clerks Will Be Uniformed.

Mt. Clemens, Nov. 23.—Postmaster Folsom has decided to put all employes of the postoffice here in natty uniforms, becoming tired of seing his clerks in short sleeves waiting on women patrons at the office. The force will start to wear the uniforms on May 1. They will be of dark blue serge, with the coat cut in military style, straight front and standing collar. The clerks welcome the uniform.

Boy a Corn Shredder Victim.

Birmingham, Mich., Nov. 23.—Ernest Lutes, 15-year-old son of William Lutes, of this place, had his right arm caught in a corn shredder while at work on Adam Reed's farm near this place, and it was mangled in a horrible manner.

Doesn't respect old age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect Pill. 25c at C. A. Wright's, druggist.

DURING REGULAR SESSION.

Will Senate Vote On Cuban Reciprocity Bill.

Washington, Nov. 23.—The senate will begin the week in a state of uncertainty as to whether a final adjournment of the extra session will be secured during the week or the regular daily sessions continued. A majority of the senators are anxious to bring the session to a close and to this end an agreement has been practically entered into for a vote Dec. 16 on the Cuban reciprocity bill.

The present understanding is that a proposition to fix a day for adjournment will be made by the senate on Monday or Tuesday whereupon it will be formally conveyed to the house. This will form a basis for negotiation as thus far there has been no conferences between members of the houses on the adjournment question. The understanding in the senate is that the day for taking a vote on the Cuban bill will be fixed without regard to the adjournment of the extra session. The bill will then be reported by Senator Cullom, chairman of the committee on foreign relations, and he will ask that a day be fixed for the vote, whereupon Dec. 16 will be named if the present plan is carried out. When the Republican senators secure this agreement they will be comparatively indifferent as to whether the senate remains in session or not. They think it preferable that the extra session should come to a close as many senators desire to visit their homes before the regular session begins, but if an adjournment is not had there will be a general agreement among senators which will render it unnecessary for a majority to remain in Washington. If any considerable number of senators desire to meet for the purpose of making and listening to the Cuban question they will be allowed the privilege with the knowledge that no other business shall be taken up. If there are no speeches to be made the senate will take frequent adjournments for three days at a time, as permitted by the constitution, without reference to what the house may do. There are a number of senators who desire to discuss the Cuban bill, but it is probable that most of them will postpone their speeches until after the beginning of the regular sesion, Dec. 7.

After being reported today the Cuban bill will lie on the table for a day unless there is unanimous consent tha tits consideration shall begin immediately.

The house will meet Tuesday. Having disposed of the Cuban bill it has no business before it, and unless an agreement is effected by which the called session is to be brought to an early close an adjournment probably will be taken until Friday and then an adjournment until Monday or Tuesday. It is suggested that it is extremely doubtful if there will be a quorum Tuesday and that if the point of no quorum should be raised it would be imposible to act on a concurrent resolution providing for an adjournment, even should one be brought over from the senate.

TWELVE MINE VICTIMS.

Frightful Accident in the Diggings of a Pennsylvania Town.

Connellsville, Pa., Nov. 23.—"Hill Farm Mine," the ill-fated, Saturday night added ten more victims to its black record. Just as the day shift had about completed its labors and were about to leave the Ferguson mine at 6:30 o'clock, a terrific explosion rent the interior of the mine and nineteen miners who were working in the vicinity were thrown in all directions, the roof came tumbling down and the close air of the mine became stupefying.

The men fled in every direction seeking escape, but only nine reached the pit mouth alive. The others perhaps never regained consciousness after the disaster.

Their bodies were found lying in all shapes horribly burned when the rescuing party reached them.

It is believed by mining experts that the fire which has been raging in the Hill Farm mine since the disaster of 1890 broke through the walls which had been erected between the Hill Farm mine and Ferguson mine and caused an explosion of gas.

Sunday was a sad day in the little mining settlement of Ferguson. When the books of the company were consulted to determine the identity of the dead and injured in the explosion it was found there were twenty-one men in the mine at the time of the catastrophe. Ten bodies were taken from the mine Saturday night, of the ten injured one died and one man is missing whose body is supposed to be still in the mine. All day long the trolley cars have been crowded with curious people going to and from the scene of disaster. Hundreds have stood for hours around the little blacksmith shop which was turned into a morgue, where the ten bodies of the unfortunate miners were prepared for burial.

Asks Governor for Troops.

Salt Lake, Utah, Nov. 23.—Sheriff Wilcox of Carbon county has appealed to Governor Wells to call out the state troops to protect the coal mine district of his county, which are included in the recent strike order issued by the United Mine Workers of America. In his telegram to the governor Sheriff Wilcox says: "The local police authorities and deputy sheriffs are not sufficient and are powerless to cope with the lawlessness and protect life and property and maintain law and order.

Shot for Murder.

Salt Lake, Utah, Nov. 21.—Peter Mortensen, the convicted murderer of James H. Hay, was shot to death in the yard of the state prison at 10:31 Friday morning. Mortensen was executed for the murder of James R. Hay on the night of Dec. 16, 1901.

Corsets

The best and only warranted line of corsets in town. The guarantee reads this way: "Every pair will be replaced with a new one, if after four weeks' trial, there is any defect." Liberal isn't it. Our prices are 47c, 50c, 97c and $1.00. Our styles—Girdles, short, medium and long, in white, drab, pink, blue, black and fancy. Enough to suit all tastes and pocketbooks. We also have the best 25c corset ever put on the market. It is made of heavy jeans and well stayed. Look our line over before buying and you will soon be convinced that we have the best assortment you have ever been shown, and that our prices are the lowest.

Skirts

(WALKING SKIRTS)

Ladies' walking skirts play an important part in her general appearance, nowadays, so that they require special study in style, finish and workmanship. The dealer who does not follow the dictates of Fashion even to the minutest detail, is likely to get left when it comes to the selling point. Most of our skirts are of exclusive design with us, and many new ideas will be found in our line this season which is larger than ever. Walking skirts range in prices from $2.00 to $7.00.

(UNDERSKIRTS.)

We also carry an extensive line of black sateen petticoats and can surely suit you in style as well as price if you will but let us try. We were the first to introduce a dollar petticoat in town, always before you were asked to pay either $1.25 or $1.35 for this same skirt. This is but another proof that we save you on a basis of from 20 to 30 per cent on purchases here. You ask how we can do this? **It is cash** that does the business. We buy and sell strictly for cash so we are not forced to put an extra profit on our goods to make good what is lost by **trusting** as the merchant must who carries on a credit business. Petticoats from 79c to $3.50. Many handsome styles to choose from.

For the Kitchen

We handle tinware, granite ware and nickle-plated ware along with every conceiveable little article which aids the housewife in her work.

Watches

Not talking loud but selling lots. Such an extra good watch for so little money that they are doing their own advertising. Jewelry stores ask from 50c to 75c more for same article and nine times out of ten don't stand back of them at that. Our watches are stem wind and stem set with various styles of cases, and are all warranted by the manufacturers for one year the same as our clocks. Why pay $10 for a ladies' Chattelaine watch with pin when you can get it for $6.98. The New York Store will carry them during the Xmas season at that reasonalbe price, also a line of men's and boys' watches at equally low prices. The repeating alarm clock costs but $1.35 and $1.45 at the New York Store, not $1.75

Tennis Flannel

We were lucky to get our flannelette in early, before the trouble in the mills began, so we have all first class material and at lowest possible price, quality being considered. Many patterns in dark plaids and stripes, also light combinations, plain white, pink, blue and red. Prices 5c up to 12c. We also carry a line of Tennis flannelette night robes for men, women and children, at prices ranging from 50c to $1.25.

Christmas

is coming. So is the largest assortment of Holiday novelties ever unpacked and put on display in this town or any other town in the county. Don't take our word for it, but come in when the time comes—yes, come in before that time—pick out your gifts, make a deposit on them and we will lay them away until you call for them. You are sensible; you know we cannot enumerate this department. Thousands of articles all at bargain prices, can't be crowded into a small space. Therefore we forego the price printing part and trust to your appreciation of genuine price cutting.

Another time we will tell you of other articles that we carry. A small space only enumerates a few of the many things but will be pleased to show our goods at any time.

Deafness cannot be cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

M. F. STEIN

THE FAMOUS OPTICIAN of Detroit,

The eye, when properly cared for affords the keenest delight because of the pleasures we are able to enjoy through its medium. When not cared for and its warnings are unheeded, it becomes an instrument of torture. Headaches, eye pains, burning, itching sensation, strained vision, nervous troubles and many bodily ills are the results accruing from over worked eyes, eyes that need help. My examination reveals all hidden troubles, and it is my province to fit the right glasses to any and all defects of vision.

Special School Meeting.

At the special school meeting called for last Monday evening at the Central school building but few persons were present, but the following resolution was passed:

WHEREAS, This school district did on the 3d day of March last, pledge to Mr. Andrew Carnegie of New York City that it would raise by taxation $800.00 annually for the maintainance of its public library on condition that Mr. Carnegie donate $8,000.00 for the erection of a suitable building, and as said arrangement with Mr. Carnegie has been consumated, but the Board of Trustees finds that such building as it desires can not be erected for said $8000.00, and as said Board desires to secure from Mr. Carnegie $2000.00 more, making $10,000 in all, with which to complete a library building according to plans now in its possession, therefore,

Resolved, that this school district number seven of Tecumseh, Michigan, lawfully assembled in special school meeting, hereby pledges that it will annually raise by taxation upon the taxable property of said district $1,000 for maintainance of said library and building, for all time to come, on condition that Mr. Andrew Carnegie increases his donation from $8,000 to $10,000 as stipulated above.

German Syrup.

We want to impress on our readers that Boschee's German Syrup is positively the only preparation on the market to-day that does relieve and cure consumption. It contains the specifics, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasm of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing four times as much, 75 cents. At all druggists. G. G. GREEN, Woodbury, N. J.

It's like a "dip in the fountain of youth." Touches the cheek so gently that youth lingers on the face of old age. That's what Rocky Mountain Tea does. 35 cents. J. J. ORR.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

The CELEBRATED CASE Of SUPERVISOR GARLINGHOUSE vs THE CIRCUIT JUDGE Of Lenawee County.

A matter of considerable interest to all the tax payers of Tecumseh has taken place in the past few weeks and of which the HERALD has taken pains to learn the history for the benefit of its readers.

It has long been known that in many of the townships of this county where material improvement has taken place in the value of the farming lands their assessed valuation has constantly been held as nearly as possible to the forest and swamp valuations of early years, by which means the townships older in settlement have been compelled to bear an unjust portion of state and county taxes.

In the course of their work through the state the Board of State Tax Commissioners visited this county in the latter part of September of the present year and held a general review of all the assessments of the county, and acting upon such information as they had been able to acquire by an investigation of real estate transfers and by personal inspection of lands during the past year, made a material increase in real estate valuations in every assessment district. Tecumseh valuations were raised 10 per cent and in every other district the increase ranged from about 40 per cent in a few cases to over 80 per cent in others.

When the supervisors were first called together the rolls of all the districts except Seneca and Tecumseh were surrendered to the tax commissioners who carried the rolls to Lansing, where the changes that met the judgment of the commissioners were made at their leisure, and in the absence of the supervisor. The Supervisor of Tecumseh, vigilant in the interest of our tax payers, vigorously resisted this course. In this stand Mr. Garlinghouse was joined by Mr. Dean, the Seneca Supervisor, and they insisted that under the law such changes as the commission should make in the rolls must be made within this county and where the supervisor might be heard and might submit evidence in every assessment considered.

Upon this proposition the contest was pretty warm between the Tax Commissioners and these gentlemen and their attorneys and took up considerable time, but these rolls were finally reviewed in the city of Adrian, where these supervisors could be present and could, and did submit such evidence as they were advised was proper. The result was, so far as this township is interested, that the commissioners became satisfied that the increase of 25 per cent for which Tecumseh had been slated, would be unjust and Tecumseh was raised 10 per cent instead. The additional 15 per cent would have meant a further increase in the real estate valuation of this township of $200,000.

Under the law, the Board of Supervisors, in its October session, for a basis of apportionment of the state and county taxes among the different townships and city wards, equalizes the totals of the assessment rolls by deducting percentages from some and adding percentages to others, thus, theoretically at least, bringing them to equal valuation. The present board in its October meeting proposed to equalize the rolls by deducting an average of 20 per cent from all the rolls except that of Tecumseh, leaving Tecumseh's valuation as fixed by the Tax Commission. Mr Garlinghouse, believing such action to be manifestly unjust to the people he represented, strenuously opposed this course, contending, that, where all the rolls of the County have so recently been reviewed by the Board of State Tax Commissioners, and where the assessment of every parcel of real estates in the County had been fixed at its true cash value by this the highest power in the state, the assessments throughout the County were already at true cash value and were already equalized, leaving the Board of Supervisors nothing to do but to apportion the State and County taxes upon the basis of the valuations by the Tax Commission. Mr. Garlinghouse was again joined by Mr. Dean, and the matter was frought before the Board for over a week, Mr. Garlinghouse finally applying to the Circuit Judge for relief. The relief asked was denied by the Court, but by the vigor of the opposition he had made Mr. Garlinghouse was, on the day the matter was decided by the Court, successful in obtaining a reduction of 10 per cent for Tecumseh, all others being given 20 per cent, this 10 per cent reduction meaning hundreds of dollars in reduction of the taxes to be paid by Tecumseh.

The matter having gone this far, the question being one of deep interest to all tax payers in Michigan, and as the additional expense would not be serious the Township Board determined to have the case passed upon by the Supreme Court, hoping that the remaining 10 per cent might be so saved, the question being an entire new one in the law. This case was lost, the Court in effect holding that in creating the Board of State Tax Commissioners the Legislature had not yet gone far enough to deprive the Boards of Supervisors of their former right to equalize the rolls, however logical and proper it might be for the legislature to do so at a future session.

The taxpayers of Tecumseh have just cause to be thankful to their supervisor for the able manner in which he has watched and protected their interests and for the money he has saved for them in keeping their assessments and share in State and County taxes down so closely to the just and equitable amounts, even though unsuccessful in the Courts upon the novel question involved, the litigation having become necessary to bring about the results obtained.

A little Belton (Mo.) girl, who is at present in LaGrange, Oregon, went to church while a revival was in progress recently. While one of the brethren was offering a prayer, the preacher clinched the strong points from time to time with hearty "Amens." At home that night the little girl said: "Mother, I think Mr. Smith isn't polite. He tried to stop Mr. Jones from praying five or six times."—Western Publisher.

A school teacher, not a thousand miles from Ortonville, received the following note from the mother of one of her pupils: "Deer Mis. you writ me about whipping Sammy. I hereby give you permission to beet him up any time it is necessary to learn lessons. He is juste like his father—you have to learn him with a club. Pound nolege into him. I wante him to get it, and don't pay any attenshion to what his father sais. I'll handle him."—Ex.

Arthur Flint, who works for Charley Allen, hung himself up to dry for sure the other day. He went to jump from a barn doorway to the ground, about eight feet, but the caboose of his breeches caught on a spike and he forthwith commenced a contortion stunt that would make an acrobat envious. He couldn't get up, neither could he get down, but he could yell and he did till Mrs. Allen came to the rescue.—Reading Hustler.

A prisoner in Adrian jail, Calvin Ott by name, asked permission to use the jail phone. Sheriff Sheppard let him out and while he was locking the other prisoners in, Ott skipped out through the office into the street. The sheriff gave chase and raising his arm called "halt" Ott looked around into the shining barrel of a "gun" and straight way surrendered. The sheriff smiled as he lowered the big front door key to the jail and Ott looked like a cheap skate as he walked back to his cell.—Blissfield Advance.

It is clamed that Mrs. D. J. Strang, editor and proprietor of the Weston Kodack, took her husband for a drive to Sand Creek last Saturday, and returned in the evening, ere the old moon rolled on with its sweet, silvery light, they were so engrossed in matters of moment that they did not guide the horse along the road and ere they were aware, he had them in a cornfield. A sense of "lostness" came over them and a shout went up for succor. Some one came with a lantern and the Press will never publish the conversation that took place. The Kodack will do business however as usual.—Adrian Press.

The "Railroad Conductor," a magazine for trainmen prints the following joke on Lake Shore Engineer Joe Nopper, one of the best known throttlemen of this peninsula. Nopper is still alive, and still running. Even the joke failed to kill him. Here it is:

It happened one day as a drag was waiting at Chase for orders, that a funeral procession was crossing the track. Bobby Waters, the head shack, dropped to the ground and, going to the front of the engine, leaned against the pilot beam to watch it pass. There seemed to be no end, and as far as the eye could reach the solemn procession was moving.

"Must have been a man of considerable importance—pretty well known," said Bobby to a citizen.

"Yes, he was quite well known. His name was Nopper—he was an engineer."

"Not Joe Nopper?"

"The same."

"Well, I'll bet if old Joe could run his knot out of that box and could see that string behind him, he would double into the cemetery."—Adrian Telegram.

Loss of Flesh

When you can't eat breakfast, take Scott's Emulsion. When you can't eat bread and butter, take Scott's Emulsion. When you have been living on a milk diet and want something a little more nourishing, take Scott's Emulsion.

To get fat you must eat fat. Scott's Emulsion is a great fattener, a great strength giver.

Those who have lost flesh want to increase all body tissues, not only fat. Scott's Emulsion increases them all, bone, flesh, blood and nerve.

For invalids, for convalescents, for consumptives, for weak children, for all who need flesh, Scott's Emulsion is a rich and comfortable food, and a natural tonic.

Graceful Women

A Desire for a Perfect Figure is Inseparable from a Love of the Beautiful.

The scent of the violet or rose is as precious as the lovely flowers whose breath they are, and while the lives of flowers are brief and we can only enjoy them for a day, the beautiful woman gives the pleasure of her fragrance to us as a permanent blessing. The soft fragrance of a beautiful woman suggests purity, health and elegance; she is the refinement of civilization; an index always of good taste and an unerring badge of gentility.

BRADFIELD'S Female Regulator

in regulating the lunar periods in woman permits of no wrinkles, pale cheeks or tortured nerves and shapeless figures. It is Nature's remedy. The druggist may offer something else and call it "just as good" but the menstrual organs will not be deceived, and permanent injury may result. Try our Regulator. Of all druggists $1. Our treatise on "Woman" mailed free. THE BRADFIELD REGULATOR CO., ATLANTA, GA.

There is said to be a woman in this place who has attained her greatest possibilities in the culinary art. She knows how to roast her husband.

IT'S FOOLISH

To ignore such convincing proof as this Tecumseh citizen gives you here.

You may differ from your neighbors in many important questions of the day Your opinions may coincide with those of the minority or those of the majority and still you may be in doubt. But you can hardly be skeptical about the merit of Doan's Kidney Pills when you read such emphatic local endorsement as the following:

Mrs. J. W. Owen, wife of the well known carpenter, living in the south eastern section of Tecumseh, says: "I am very well pleased with Doan's Kidney Pills. I procured a box at C. A. Wright's drug store and they did me a lot of good. I had heart trouble and my kidneys did not perform their proper duties. This condition existed for some time. I tried different remedies which were recommended to me but received little if any benefit from them. I will cheerfully say this for Doan's Kidney Pills. I received more permanent relief from their use than from any other medicine I ever used. I am pleased to testify in their value."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Why are fowls the most profitable things to keep? Because for every grain they give a peck.

Ten thousand demons gnawing away at one's vitals couldn't be much worse than the torture of itching piles. Yet there's a cure. Doan's Ointment never fails.

Why is coal charities the best of all charities? Because it makes the receiver's rate full(grateful).

"Cure the cough and save the life." Dr. Wood's Norway Pine Syrup cures coughs and colds, down to the very verge of consumption.

When a man sees a woman fondling a pet dog, he thinks he is a regular Solomon for remaining a bachelor.

Mrs. C. E. Roberts, San Francisco. Cal. Would not be without Rocky Mountain Tea in our house. It's a great remedy. Makes and keeps us well. J. J. Orr.

If you listen to gossip you have no right to complain when you are its subject.

You cannot measure a man's usefulness in life by the epitaph on his tombstone.

When a young man gets wrong himself he tries his best to think he is right and everybody else is wrong.

The best remedy for croup.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all druggists.

ONLY A FRIENDLY ACT.

Holbrook's Object in Keeping Sutton Informed, He Says.

Lansing, Mich., Nov. 21.—Holbrook completed his cross-examination late Friday afternoon. He explained the letters to Sutton, relative to the proceedings of the grand jury, by insisting that he was simply doing a friendly act in keeping him and the governor advised as to what was going on so far as he could ascertain in a legitimate way. He insisted that he never paid, or caused to be paid, a penny to anyone for improper use in connection with either the grand jury or Sutton jury.

On cross-examination by Tuttle, Holbrook was forced to make qualifying statements in explaining these letters, and declared that he got no jury secrets from Grand Juror McKale, and in explaining references in his letters to Sutton of information furnished by McKale, said he was endeavoring to strengthen information in Sutton's mind by making it appear that he got it from one of the jurors. His purpose in doing this was to make Sutton more active in advocating his appointment as state oil inspector.

WARRANTS READY.

Claimed Those Against Boodlers Are to Be Served at Once.

Grand Rapids, Mich., Nov. 21.—It is claimed by those who say they know, that fourteen warrants will be issued today for the arrest of parties implicated by Salsbury's confession in the waterworks boodle operations three years ago. The warrants will be for those who occupied positions either as aldermen or city officials during the boodling period, and no private citizens will appear just now.

The prosecuting attorney's office will not give out any information on what is to be done, and refuses even to tell when the warrants will be placed in hands of officers or how many there will be of them. It is believed the list will take in twelve aldermen and two city officials.

Perhaps Drowned.

Saginaw, Mich., Nov. 21.—Robert Meachan and Claude Campbell, Sebewaing fishermen, are believed to have been drowned on Saginaw bay some time Thursday or that night, as up to last evening no tidings had been received of them, and efforts to find them were fruitless. They left Sebewaing Thursday morning to set their nets, taking a boat, a sled, ice having formed on the bay, blankets and lunch, expecting to stay that night on Lone Tree island. Not returning, yesterday afternoon a party went out to Lone Tree island and found the blankets and lunch of the men in a shanty, but the men were nowhere to be found, and no trace could be found of them. Meacham is 50 years old and has a wife and three children; Campbell is 23 and has a wife and baby.

Opposed to the New Law.

Ionia, Mich., Nov. 21.—Judge F. D. M. Davis roundly opposes the indeterminate sentence law, claiming that it prevents a judge from exercising his best judgment in accordance with the testimony. Only this week a 16-year-old lad pleaded guilty to a petty crime, but this new law required the judge to send him to prison for an indefinite number of years. Rather than do this the court suspended sentence altogether. It is in this feature that the law is becoming obnoxious to circuit judges.

Back to Oil Lamps.

Three Rivers, Mich., Nov. 21.—As a sequel to the recent fight for electric light franchises in this city, all street lights and all lights in city offices, jail, pumping station, both fire department houses were cut out last night. The city clerk and city marshal are using lanterns in their offices and oil lamps have been placed in the fire houses and pumping station. No light is looked for before March 1.

Victims Number Thirty.

Johnstown, Pa., Nov. 23.—Two of the Italians who were burned in the lodging shanty fire at Lilly Saturday morning died at a hospital here today. This brings the total death list up to thirty. Ten other victims of the disaster at the hospital here are in a serious condition, four of whom may die. The victims were Italians and most of them leave families in the old country. The scene of the fire was visited today by hundreds of people. The bones and pieces of charred flesh, all that remained of twenty-eight men, having been gathered up and placed in twelve caskets. They will be buried today.

Willing to Be Annexed.

St. Johns, N. F., Nov. 23.—United States Senator Lodge's recent declaration respecting St. Pierre and Miquelon becoming a part of the American republic has excited great interest in St. Pierre. That colony has had the worst fishery season in its history. Trade there is depressed and the outlook is gloomy. The people are ready to welcome any settlement of the fishery dispute that will ensure them prosperity and the feeling in favor of annexation to the United States finds much favor.

Illness Saved the Ministry.

Paris, Nov. 23.—Waldeck-Rousseau, the famous statesman who steered France safely through the storms of the Dryfus case, is ill. Recently he had two spells of syncope and has been compelled to abandon active politics temporarily. Everything had been prepared for the overthrow of the Combes ministry, and the members of the new cabinet had been selected, but just before the coup was to be made Waldeck-Rousseau fell ill, thereby prolonging the life of the Combes ministry.

It is a household favorite for throat and lung troubles and as it contains no opiates or other poisons, it can be safely given. J. J. Orr.

South Haven, Mich., Nov. 23.—Ten arrests of South Haven druggists was the outcome of the grand jury investigation of the local option violations.

King Sets the Style.

London, Nov. 23.—London society is now spending week-ends in town. The king set the example by remaining in town from Friday to Monday. Society followed, thereby delighting theater and restaurant managers. Nearly all prominent families now come to town to spend week-end instead of remaining in their country houses. As a result, the theaters are crowded, tables in fashionable restaurants are reserved days in advance, while church parade on Rotten Row Sunday mornings is larger than for years past.

Shot Himself Through Mouth.

Grand Rapids, Mich., Nov. 23.—Fred. McKee, of New York city, committed suicide here by shooting himself through the mouth. He was 35 years old and a foreman carpenter. When found a few moments after the shooting on the corner of Canal and Fairbanks streets he was dead. He had made several threats to end his life, but gave no reason for the act.

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

98 IN EVERY 100

The medical societies of the world disclose the astounding truth that 98 persons in every 100 suffer from some form of Kidney and Bladder Trouble, or some irregularity, disorder or symptom of those terrible diseases.

These are vital facts—facts which should appeal to you and be given your immediate and deepest thought. Think of it, only two persons in every hundred free from these diseases: Ninety-eight persons in every hundred drifting on to the dire consequences which always follow these subtle and serious afflictions unless their development be checked at once. Nature is trying to warn you—we ask you to heed its warning before it is too late. You need not suffer longer—You can be cured. Don't delay another day. Attend to this at once.

Dr. Gossom's Kidney and Bladder Cure IS GUARANTEED TO QUICKLY, POSITIVELY AND PERMANENTLY CURE Bright's Disease, Backache, Dropsy, Gravel, Diabetes, Rheumatism, Gout, Weak Heart, every Urinary Disorder, Aching Pains over the Hips and Kidneys, Dimmed Vision, Periodical Headaches, Pain in Urethra, Despondency or "Blues," Sallow Complexion, Foul Breath, Bad Taste in the Mouth, in fact all Irregularities caused by and associate symptoms of Bladder and Kidney Trouble in any form. No matter how terrible your affliction may be, Dr. Gossom's Kidney and Bladder Cure will cure you. It eradicates totally and completely any irregularity or symptom of Kidney and Bladder Trouble and puts those most vital organs in as perfect and healthy condition as in childhood.

No matter how much you suffer nor of how long standing your disease may be, perfect health will be yours, if you use Dr. Gossom's Kidney and Bladder Cure, which has a record of forty-two years of curing—which never fails and cures even after all other medicines and physicians have failed.

Disease fastens itself upon you through neglect, nothing else. This infallible remedy attacks and destroys the very roots of disease. It kills disease germs of every kind and fortifies the system against them. It tones up, renews and invigorates the entire body. It completely drains out of the blood every particle of Uric Acid, Urates, Lithates, etc., which cause these diseases; no other remedy in the world does this. It is purely vegetable, perfectly harmless and leaves no disastrous "after-effects."

Cured by Dr. Gossom's Kidney and Bladder Cure After Doctors and Other Medicines Had Failed.

I had been suffering for the past ten months with pains in my back and stiff joints. *I could get no relief from anything.* I tried many doctors and used many medicines. I am happy and thankful to say that three boxes of Dr. Gossom's Kidney and Bladder Cure *entirely cured me.* I can always cheerfully speak a good word for this wonderful remedy.

FEMALE WEAKNESS

542 1-2 Congress St.,
PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Wilhelmina Snow
Treasurer, Portland Economic League

Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches mean female weakness. Secure a $1.00 bottle of Wine of Cardui today.

LIFE PLANT Renews Life.
The Very Best TONIC Ever Discovered.

The blood is a great source of health or disease in the human system. If the blood is pure, the individual is strong and healthy; if the blood is impure or diseased then there is sickness and disease in the whole system.

Impure blood causes such diseases as Eczema, and Scrofula. LIFE PLANT effects its wonderful cures by acting through the blood. It is impossible for that blood poison, uric acid, or any other blood impurity to exist in the presence of our harmless medicine. The phenomenal success of LIFE PLANT in the many forms of blood diseases, warrants us in stating that it is a positive cure for Eczema and Scrofula. Read what Mr. M. P. Hobbs says of LIFE PLANT:

Wilmot, O., Jan. 9, 1903.
The Life Plant Co., Canton, Ohio.

Gentlemen:
Two years ago I contracted a very aggravated case of Eczema. I tried many kinds of medicine called sure cures, but all failed. I was pursuaded by a friend to give LIFE PLANT a trial, and by taking two bottles was cured. To get the real truth of this statement try LIFE PLANT and be convinced.
Yours truly,
M. P. HOBBS.

Better get LIFE PLANT next time. It's a wonder.

WRECKED ON COAST

Captain and Ten of the Crew May Have Perished.

FOUR SAILORS ON A RAFT

Managed to Reach Shore—Crew Made Desperate Effort to Save Themselves — Ship Was French Bark "Coppee"—On Pacific Coast.

San Francisco, Nov. 24.—A raft containing the first mate and three sailors of the wrecked bark Francoise Coppee came ashore in Tomales bay Monday afternoon and the men, after securing succor at a neighboring ranch, were driven to a railway station and reached this city last night. The survivors are all Frenchmen, and the story told disproves the earlier suspicions of a mutiny on board, their statements being borne out by corroborative circumstances. According to their narrative, the Coppee had been sailing in a fog for three days on a dead reckoning, and Captain Irneye Friday night believed that he was on the San Francisco side of the Farallone islands when, as the disaster proved, he was near the coast line.

The four men have a very vague idea as to the place where the ship struck on the rocks in Tomales bay. They say that the night was very dark and stormy and huge waves were dashing violently against the ship after she struck. It was deemed advisable to launch two small boats first. These were lost in the angry seas, but fortunately they had no occupants. Then the big life boat was provisioned and successfully launched and held fast with a rope, but when nine men had been lowered into it the rope broke. The lifeboat was then in danger of being dashed to pieces, and there was no way of getting back to the ship, and for self-preservation the nine men were compelled to pull away. They were later picked up by the Scotia. The four men who came to San Francisco then constructed a raft and took the chance of being washed ashore. What became of the captain and eight sailors yet unaccounted for the first mate could not say.

Says Sailors Quarreled.

A small boat containing two pairs of oars, a life preserver and a hat drifted ashore in Tomales bay yesterday afternoon. The boat was from the Coppee. This is believed to be one of the small boats that was lost in the launching. Edward O'Neil, one of the survivors, later furnished a statement of the wreck that puts a different phase on the conduct of the nine men in the lifeboat. He said the men were fighting and clamoring among themselves and, refusing to listen to the commands of the captain to stand by the ship, pulled away. Fifteen men were then left on the ship, and when daybreak came she was fast going to pieces. It was then found that land was 100 yards away and the captain gave orders to swim ashore. Only four reached the land, the captain and ten others were not seen again. One body was seen as it was being dashed against the rocks.

Rumor of Royal Elopement.

Berlin, Nov. 24.—Die Morgen Post prints a rumor from Dresden that the Princess Alice, wife of Prince Frederic of Schoenberg-Waldenburg, disappeared two weeks ago and that her coachman disappeared at the same time. The people of Dresden, Die Morgen Post says, believe that the princess and the coachman have eloped. Inquiries at the residence of the princess elicit the answer that she is traveling and that her present whereabouts is unknown. The princess is the youngest daughter of Don Carlos of Bourbon, pretender to the Spanish throne.

Ought to Work or Starve.

Washington, Nov. 24.—The annual report of Commissioner of Indian Affairs Jones advocates the education of the Indian in the rudiments of English language and that he be taught that he must work or starve. The commissioner thinks this policy in a generation or more will regenerate the race and that the Indian should be protected only to the extent that he may gain confidence in himself, leaving nature and civilized conditions to do the rest. There were 257 Indian schools in operation during the year.

Moving the Embassy.

St. Petersburg, Nov. 24.—The American embassy is moving this week from the palace on English Quay, occupied by Ambassador McCormick, as the palace has been sold to the Grand Duke Andre Vladimirovitch. The embassy will occupy the Leuchterney palace, a handsome structure overlooking the Neva owned by Prince Kotchoubey. Former Secretary Riddle, who has been appointed consul-general at Cairo, Egypt, leaves Nov. 27 for home, sailing Dec. 2.

Odds in Favor of Fitz.

San Francisco, Nov. 24.—The contest between Bob Fitzsimmons and George Gardner for the lightweight championship will be brought off at the Mechanic's pavilion in this city Wednesday night under the auspices of the Yosemite club. The men will meet at 168 pounds and both are said to be in excellent condition and confident of victory. Fitzsimmons is favorite in the betting at 10 to 6.

A FUTILE STRIKE

Big Street Railway Conflict In Chicago Settled.

COMPANY IS VICTORIOUS

One Small Concession Made the Strikers—Arbitration of Scale to Be According to Wages Paid Outside of the City.

Chicago, Nov. 25.—The strike of the employes of the Chicago City Street Railway was settled at an early hour this morning at a conference between the mayor, the aldermanic peace committee, President Hamilton and E. R. Bliss, counsel for the company, and the executive board of the local union of the strikers.

The basis on which the settlement was reached is a complete victory for the company, as far as the original demands of the men are concerned. The agreement reached will be ratified at a meeting of the men today, and it is expected that traffic on all the lines of the company will be resumed at once.

The only important concession made by the company was an agreement to reinstate all the strikers, including the outside unions who went out in sympathy with the trainmen, with the exception of those who resorted to violence during the trouble.

The arbitration of the wage scale is to be according to the wages paid outside of Chicago and not on the basis of the local street railways. These are the two points that have been the stumbling block to a peaceable adjustment of the strike for the past week. The company has insisted that it pays higher wages than any similar corporation in the country. The men were fearful that the arbitration on the scale paid in other cities would decrease their wages, and they fought stubbornly for their point.

Ever since the inauguration of the strike, thirteen days ago, the company has been gradually gaining the upper hand of the men. Under police protection traffic was opened on the Wentworth avenue branch of the system twenty-four hours after the strike was declared, and the service has been gradually increased ever since until a total of five lines had been operated with non-union crews while the strike was on.

Mayor Harrison said after the conclusion of the conference: "I think that there is not the slightest doubt that the men will ratify the agreement which their officers have reached with the officials of the company, and it is as certain as anything in the future can be that this strike is a thing of the past."

TO INVESTIGATE.

Committee May Go to Cuba to Look Up Wood's Record.

Washington, Nov. 25.—Two sessions were held Tuesday by a sub-committee of the senate committee on military affairs which is investigating the charges against General Leonard Wood, nominated by the president to be major-general. An adjournment was taken until Friday at 11 o'clock, when Major J. R. Runcie will be the first witness.

Opponents to the confirmation of General Wood openly express the opinion that the military affairs committee will report the nomination favorable to the senate, but declare that when this course is taken some charges will be presented to the senate which the committee has excluded from the testimony.

From the attitude of senators opposed to the nomination of General Wood, it is certain a demand will be made for the appointment of a subcommittee to go to Cuba to inquire personally into several of the charges. Major Rathbone reiterated his determination to go to Cuba at the same time for the purpose of pointing out sources of information which form the basis of many of his charges.

Michigan Inventors.

Washington, Nov. 25.—Michigan patents were granted Tuesday as follows: James B. Allen, Detroit, perforating and round-cornering machine; Wilmont Bills, Dowagiac, disk furrow opener; Fred E. and H. Cummings, Detroit, adjustable table; Frank Goodsell, Jasper, hay or stock rack; Amos D. Hill, St. Joseph, heating system; Erwin B. Jepson, Grand Rapids, file and file case; Ernest Kimmich, Detroit, fumigating candle; George M. Kingsbury, Cassopolis, grain drill; G. W. Marble, Buchanan, power translating device; Henry McMaster, Detroit, cement post; John C. Miller, Jackson, block mold; Duclus F. Mills, Ionia, apparatus for destroying vermin on poultry, birds, etc.; Joseph D. Paldi, Brockway, fence post; Frederick C. Runge, Jr., Houghton, silk floss holder; David B. Saltsman, Dowagiac, grain drill; William H. Scovill, Kalamazoo, printers' quoin; Louis A. Sherman, Detroit, tool for truing abrading wheels; Sadie Stratton, Three Oaks, skirt formers; Morris S. Tyler, Lansing, coin-controlled venting machine; Christian Wagner and C. J. Barnes, Jackson, felly retainer; W. H. Warner, Jr., Allegan, folding coop for poultry.

Moody Praises the Marines.

Washington, Nov. 25.—Secretary Moody has addressed a letter of commendation to Commander John Hubbard of the cruiser Nashville and the men under him in connection with recent events in Colon. In part it says: "Your actions throughout appear to the department to have been discreet, judicious, prompt and decided, to a marked degree. The men who were landed from the Nashville deserve much praise for their coolness, fortitude and firmness, under provocation, when opposed by a greatly superior force during several hours."

NOT TO DETROIT

Will Supreme Tent Headquarters Be Removed.

BOYNTON TALKS TO PRESS

Cleveland Maccabees Come Forward With Liberal Offer—Michigan Headquarters of Great Camp Likely to Remain in Port Huron.

Detroit, Mich., Nov. 25.—"Father" Boynton, by which endearing term the great commander of the Michigan Maccabees is known to members of the order, accorded a reporter an interesting interview last night on his arrival in the city to attend the initiation of a large class of candidates at the Light Guard armory. On the question of removing the supreme tent headquarters from Port Huron to Detroit, the major expressed himself quite freely.

"Detroit will be a great many years older before it will ever get the supreme tent headquarters," he said. "The reason advanced was that Detroit has not a large enough membership in the supreme order. If the headquarters are ever removed from Port Huron, which I am inclined to believe it will soon be, it will go to some city outside of this state. I understand that the Cleveland Maccabees have offered to take the Port Huron temple off their hands at the original cost, which was about $87,000, and build for them in that city a magnificent temple which they will have the privilege of purchasing any time they desire within five years from the time they occupy it. This offer will undoubtedly be taken up."

Three-Fourths Satisfied.

As to the probability of the Great Camp of Michigan headquarters being removed from Port Huron, the major declared there was not the least likelihood of any such move ever being made. "We recently submitted that question to the various tents throughout the state, to be voted upon," he stated, "and when I left home we had heard from 600 tents, three-fourths of which number favored leaving the headquarters where they now are."

Major Boynton further declared that the erection of a new temple in Port Huron would in all probability be begun within the next year, and the great order of Michigan Maccabees will have a home of which they may be proud.

Of the Michigan Maccabees' fight against the supreme tent outside of Michigan, the major spoke very encouragingly. He stated that since the first of last January, when the great camp left the confines of this state, no less than 10,000 new members have been added to the roll of that great order. Tents have been established in states as far west as San Francisco and the outlook for the future is brighter than ever.

Last night was strictly Maccabee night, and the disciples of the ancient Judas Maccabeus reveled in all their glory. The initiation of a class numbering no less than 1,000 candidates was the occasion of the great festival.

Old Couple Burned to Death.

Grand Rapids, Mich., Nov. 25.—Fire broke out at 3 o'clock Tuesday morning in the farmhouse of George Smith, four miles south of this city, and attracted the attention of neighbors. They hurried to the scene, but could not extinguish the flames. The old people were missed, but could not be found until soon after 7 o'clock, when Deputy Sheriff Gates found their bodies in the ruins. They were over 60 years old, and it is believed they were suffocated by smoke. Neighbors have suspicions of murder. One neighbor says that Mrs. Smith said last Saturday that her husband had repeatedly threatened to kill her. They believe that the old man killed her and then committed suicide after setting fire to the house.

Grand Jury on New Tack.

South Haven, Mich., Nov. 25.—The Van Buren county grand jury is investigating the tarring and feathering of Mrs. Samantha Gage, which took place near Gobleville about two months ago. Reports had got abroad that Mrs. Gage was keeping a man named Dwan, while his wife and children were about to apply to the county for aid. The men of the neighborhood swore themselves to secrecy, went to her home, and after breaking all the windows and doors took the woman out and applied a coat of tar and feathers. Nearly every man in town has been subpenaed in the hope of finding out the guilty ones.

Passed "Ticker" Ordinance.

Chicago, Nov. 24.—The "ticker" ordinance, by means of which Mayor Carter H. Harrison hopes to prevent handbook gambling in Chicago, was passed last night by the city council. The ordinance provides for the licensing of all tickers, the fee being $1 a year, and before being granted a license each applicant must file a bond of $1,000 not to violate any city ordinance. It is further provided that the tickers so licensed shall not be used to transact any racing news, betting odds or other information for the purpose of making bets or wagers on horse races, or any other information for the purpose of gambling. It is estimated that if the ordinance shall be strictly enforced, 2,000 tickers now used in Chicago saloons and other places will become useless.

AFTER SWELL HUNTERS.

Turtle Lake Club In Trouble For Hunting Deer With Dogs.

Alpena, Mich., Nov. 25.—The sacred precincts of the swell Turtle Lake Fishing and Shooting club were Tuesday afternoon invaded by no less a personage than Sheriff Jones of Alpena county, who was armed with warrants for the arrest of Ed H. Gilman and [illegible] Bagley of Detroit, Dr. T. J. Langlois of Wyandotte, W. F. McSweeney of Mt. Clemens, Harry C. New of Indianapolis and John C. Merrill and Barton Pardee of Lock Haven, Pa. The complaint is hunting deer with dogs. Deputy Game Warden C. K. Hoyt of Grand Haven worked up the case.

Today it is expected that the notables will be arraigned in justice court and while there is probability that they will be speedily bailed out, the first complaint will certainly be followed by others in case there is the least ground for belief that the dogs are still being used.

The issuing of the warrants is only another chapter in the long war which has been waged between the Turtle Lake club and the residents of Alpena county. The club, by securing so large a tract of land, largely, it is claimed, through a "pull" with the state officials, forced a lot of tillable land out of the market, raised cain in politics and otherwise disturbed the existing order of things. A lively time is looked for.

Up here the offense with which the men are charged is regarded as merely nominal. Hunting of deer by anyone without dogs is really the exception, but it proves a fine method of getting even with the unpopular visitors.

An effort was made to get the whole membership of the Turtle Lake club into the meshes of the law, but this failed through the vigilance of the trespass agents of the club, who keep a close watch on all outsiders who try to get entrance to the preserve.

TO THE JURY.

Holbrook Case Placed In Their Hands at Last.

Lansing, Mich., Nov. 25.—The arguments in the Holbrook case, which were commenced shortly before 9 o'clock Tuesday morning, were completed at 9 o'clock last night, three arguments having been made on each side. Judge Wisner immediately charged the jury, which retired at 9:15 to consider the case. A disagreement is generally looked for.

The apparent joy with which Eli R. Sutton received the announcement Monday night that he was excused from longer service as witness in the Holbrook case was of short duration, for it developed yesterday that before he had proceeded far from the courtroom he was served with an order, recently issued by the supreme court, directing him to show cause why he should not be disbarred. The order was granted on the petition of Deputy Attorney-General Chase, acting on information and complaint made by the committee on grievances of the State Bar association.

The statement was made by the clerk of the Hudson house, where Sutton stopped during his stay in this city, that he left last night for Sodus, N. Y., where he will join his family. Assistant Prosecuting Attorney Tuttle says he will not be asked to come back here on any charge so far as he knows.

As to possible future perjury charges Sutton tied the hands of both prosecution and defense, as the prosecuting officers cannot impeach their witness, and he testified that Holbrook is innocent, so far as he knew, of an effort to bribe Phillips, a prospective juror in the Sutton conspiracy case.

SUIT AGAINST DOWIE.

Attachment Placed on His Beautiful Summer Home.

Muskegon, Mich., Nov. 25.—A. C. McClurg & Co., publishers of Chicago, began suit here Tuesday against Dowie, Elijah the Second, by attachment against Ben McDhui, the palatial summer home of Dowie on White lake, near Montague. The amount claimed is for books for the magnificent library and is about $1,000. Other claims of McClurg & Co. against the property here amount to near $7,000.

The appraisement on the building was $20,000, but that does not include all his property at White Lake, for it is thought to be the most beautiful and costly summer home in the state, comprising hundreds of acres of land, much of which is laid out and planted to shrubbery and flowers, while much of the grounds are lighted by electricity generated on the grounds. Those who have been lucky enough to have seen the inside of Ben McDhui say it rivals a king's palace.

Train Cut His Head Off.

Detroit, Mich., Nov. 25.—Charles Kline, a section hand, met a dreadful death near the Fort street crossing of the Michigan Central railroad Tuesday morning. Hammer in hand, Kline was at work on a fishplate, a flat piece of iron which holds the ends of the rails together. His head was close to the track and he was intent on his work when passenger engine No. 182, which was backing towards the roundhouse, struck him. The wheels passed over Kline's neck, severing his head as completely as though by the knife of a guillotine.

Boodling in Milwaukee.

Milwaukee, Nov. 24.—Upon complaint of James K. Ilsley, chairman of the citizens' committee of ten, Robert L. Rudolph, a former alderman, was arrested last night on a charge of soliciting and accepting a bribe of $1,000 for securing the passage of a side track ordinance for the Milwaukee Malting company. Rudolph was released on $5,000 bail and will appear in court today.

Deafness cannot be cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Not a sick day since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass, of Fremont, N. C., writes. Only 50c at C. A. Wright's, druggist.

JUST WHAT YOU NEED

Chamberlain's stomach and liver tablets.

When you feel dull after eating.

When you have no appetite.

When you have a bad taste in the mouth.

When your liver is torpid.

When you have a headache.

When you feel bilious.

They will improve your appetite, cleanse and invigorate your liver and bowels. Price 25c per box. For sale by all druggists.

If a man is only half-way right the other half is sure to be wrong.

It's like a "dip in the fountain of youth." Touches the cheek so gently that youth lingers on the face of old age. That's what Rocky Mountain Tea does. 35 cents. J. J. Orr.

What is that which every one wishes to have, and which every one wishes to get rid of directly he obtains it? A good appetite.

A policeman's testimony.

J. N. Patterson, night policeman of Nashua, Ia. writes: "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's honey and tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." J. J. Orr.

—Why is snow more easy to be understood than any other sort of weather? Because it is the only one of which you can see the drift.

It adds spice to dreary life, encourages the human heart, lifts one out of despair, breaths new life and confidence. That's what Rocky Mountain Tea will do. 35c. J. J. Orr.

—Why does a cook make more noise than a bell? Because one makes a din and the other makes a dinner.

For sick headache try Chamberlain's stomach and liver tablets; they will ward off the attack if taken in time For sale by all druggists.

—Why are your nose and your chin constantly at variance? Because words are constantly passing between them.

"I suffered for months from sore throat. [illegible] Oil cured me in twenty-four hours." M. S. Gist, Hawesville, Ky.

—Why are stars the oldest astronomers? Because they have studied (studded) the heavens for ages.

Builds up the system; puts pure, rich blood in the veins; makes men and women strong and healthy. Burdock Blood Bitters. At any drug store.

When a man sees a woman fondling a pet dog, he thinks he is a regular Solomon for remaining a bachelor.

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists.

MORE WARSHIPS

Belonging to British Ordered to West Indies.

London, Nov. 25.—It is announced that a cruiser squadron, consisting of the armored cruiser Good Hope, flying the flag of Rear Admiral Sir Walter Fawkes, the armored cruiser Monmouth, the armored cruiser Donegal and the armored cruiser Kent, will proceed to the West Indies to join the British North American squadron for alleged fleet practice.

Bogota, Nov. 21, via Colon, Nov. 25.—A prominent politician here, who is close to the government and thoroughly posted in the affairs of the administration, speaking to the Associated Press correspondent today, characterized the action of the United States on the isthmus of Panama as most unjustifiable. He added:

"Colombia has hope that the reasonable and fair-minded people of the United States will bring such pressure to bear on the government at Washington that the result will be the saving of the isthmus to Colombia and the protection of Colombia's unquestioned rights there. All Colombians protest, as would the people of other nations, against this aggression of the United States. Colombia is confident that justice will be done her, and all Colombians are unanimously resolved to sustain and defend the national integrity even at any sacrifice. The Bogota government is receiving the support of all political parties, and there are daily made generous donations of gold and jewels to meet such expenses as may become necessary.

"The French colony resident at Bogota has unanimously offered the government its services and property, while the German and English colonies have manifested extreme sympathy with Colombia's cause.

"The interior of the country remains tranquil in the expectation of a favorable issue of the peace mission on which Generals Reyes and Holguin are now proceeding to Washington."

MYSTERY CLEARED UP.

Prisoner Confesses Robbery and Murder in Chicago.

Chicago, Nov. 25.—The mystery surrounding the holdup of the cashier's office of the Chicago City railway last August, during which two of the employes of the office were shot and killed without warning, was cleared up yesterday by the confession of Gustave Marks, who was arrested last Saturday night for the murder of Detective John Quinn, whom Marks shot down while trying to escape arrest.

Harvey Van Dine and Peter Neidemeier are named by Marks as his accomplices in the car barn murders. According to Marks, the three men went to the office of the railroad company for the purpose of robbery. Marks says that when he ordered the men to throw up their hands they obeyed, but Neidemeier burst in the window of the office and commenced shooting. Van Dine then broke down the door with a sledge hammer, Marks says, and went in the office and took all the money he could find.

In all $2,250 was secured and Marks says the money was evenly divided between the three men. The next day Marks and his two companions went to Denver, where they remained but a short time. From Denver they went to Cripple Creek and in a week they came back to Chicago, since when, according to Marks' confession, they have been implicated in a number of holdups and shooting affairs.

Warning to Turkey.

London, Nov. 25.—A dispatch to the Central News from Vienna says it is authoritatively announced there that if Turkey does not accept forthwith the Austro-Russian demands the two powers will proceed with their own forces to establish order in Macedonia. All the signatory powers of the treaty of Berlin, it is added, will first be asked to cooperate.

LATE NEWS IN BRIEF.

Two distinct shocks of earthquake were felt in Salt Lake City Tuesday. No serious damage was done.

Signor Luzzatti, the minister of the treasury, has increased to $130,000 the appropriation for Italy's participation at the St. Louis exposition.

Private advices from Pekin are to the effect that General Yuan Shi Kai, governor of Chili province, has informed the emperor that he is prepared to declare war against the Russians in Manchuria.

The Associated Press is informed that the Austro-Hungarian government has decided to recognize the republic of Panama and that instructions to this effect will be given to the Austrian ambassador at Washington.

A court marriage took place in Florence, Italy, Tuesday between Miss Cornelia Scovel, daughter of Mrs. Roosevelt-Scovel, and Count Arturo Fabricotti. United States Consul Cramer and Count Bastogi were the witnesses.

New Imposition.

Harris—Walters has been looking pretty sad since his daughter got married, hasn't he?

Correll—Yes. You see, he had no sooner got his daughter off his hands than he found he would have to put her husband on his feet.—Town and Country.

Short and Long Courtships.

Young ladies in Russia are not at all averse to long engagements and use all sorts of artifices to stave off the wedding day as long as possible, while in Siam, where old maids are unknown, as all girls marry, the recognized length of an engagement is one month. If an engaged man in the Argentine Republic dallies beyond a reasonable time in leading his fiancee to the altar, he is heavily fined, and if a resident of the republic should fail to marry he is taxed until he reaches the age of eighty. In no country in the world are courtships so abnormally long as in Bohemia, where engagements commonly last from fifteen to twenty years. In fact, there recently died at the age of ninety-nine an old man who had been courting for seventy-five years and who was married on his deathbed.

A Marble Slab.

A writer in London Nature describes a white marble slab 2 inches thick and 35 by 70 inches, which is supported on stone posts and sags in the middle three inches out of level. It furnishes evidence that marble is in reality a fluid of enormous viscosity. This has some bearing on the question of the frigidity of the rocks composing the crust of the earth and the gradual adjustment of the earth's contour under gravity. The slab was placed in its present position in 1853.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are uneasiness after eating, fits of nervous headache, and disagreeable belching.

"I have taken Hood's Sarsaparilla at different times for stomach troubles, and a run down condition of the system, and have been greatly benefited by its use. I would not be without it in my family. I am troubled especially in summer with weak stomach and nausea and find Hood's Sarsaparilla invaluable." E. B. HICKMAN, W.Chester, Pa.

George J. Siegle Dead.

Flint, Mich., Nov. 24.—George J. Siegle, supreme recordkeeper of the Maccabees of the World, died at Oak Grove sanitarium Monday. Siegle was brought here about three months ago to receive treatment for mental ailment. His condition did not seem to improve to any great extent, and the end came at 3:30 in the morning. The body will be taken to Buffalo for burial.

New Theater Opened.

Grand Rapids, Mich., Nov. 24.—The new Majestic theater was opened last night with David Higgins and Georgia Waldron in "His Last Dollar" as the attraction. The theater is located at the corner of Park and North Division streets and has a seating capacity for 1,800 people and cost about $100,000. Colonel J. M. Wood was the designer, and the house is thoroughly modern in every particular.

Taken at His Word.

He (after marriage)—What! You have no fortune? You said over and over again that you were afraid some one would marry you for your money.

She—Yes; and you said over and over again that you would be happy with me if I hadn't a cent. Well, I haven't a cent.

Idle Talks.

Industry is the foundation of everything worthy, yet there are a great many idle people. An idle man or woman is a bad advertisement for any community. Investigation will reveal that it is the idle people who engage in bad scrapes.—Atchison Globe.

Read the Signs.

The Young Man—I have known for a long time past that you cared for me.

The Lady—Really! How is that?

The Young Man—From the fact that your people put themselves out of their way to snub me.

A Wasted Ornament.

Old Graybeard—It's a pity to keep such a pretty bird in a cage.

Mrs. De Style—Isn't it a shame? How perfectly exquisitely lovely it would look in a hat!—New York Weekly.

Subordinate.

Mr. Byrnne Coyne—Ah, sweetest one, may I be your captain and guide your bark down the sea of life?

Mrs. Berrymore (a widow)—No, but you can be my second mate.—Detroit Free Press.

Disappointed.

"Her marriage was a great disappointment to her friends."

"Indeed."

"Oh, yes. They all predicted it would turn out unhappily, and it didn't."

Reason In Lowly Brains.

Bees know the time of day. Experimenters who feed them at a certain time each day find that they make no mistake in the hour.

The pigeons of St. Mark's, Venice, can tell tourists, who feed them as a matter of duty, from natives who do not. How? By their loitering? By their red guidebooks?

American horses driven without "blinders" are said to be less liable to fright than English horses which are made to wear them.

Each Wanted Seances.

Flint, Mich., Nov. 25.—Spiritualism has put a stop to the matrimonial happiness of William R. Alger, whose wife is suing him for divorce and alimony. According to the bill of complaint filed by the plaintiff, Alger some time ago took to spiritualism and began to hold seances, and when they did not pan out just as the directions said they should, he claimed that his wife, who is a Methodist, interfered with the workings of the spirits. She, on the other hand, decided to hold a meeting of her kindred spirits, the Methodists, but her husband objected so strenuously that the social failed to come off. Then, she claims, he left her without provocation. He is said to have a 260-acre farm besides some city property. The couple were married in Detroit in 186*.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage (whereby the power of sale in said mortgage contained has become operative) dated executed and delivered on the 29th day of September A. D. 1900, by Joseph H. Brown and Annie Brown, his wife, to the Tecumseh State Savings Bank, and recorded in the office of Register of Deeds for Lenawee County, State of Michigan, on the 4th day of October A. D. 1900 in Liber 130 of Mortgages on page 510, and upon which there is claimed to be due at the date hereof the sum of seven hundred sixty-seven and 87—100 dollars, including taxes paid by the undersigned upon said mortgaged premises and interest thereon; and no proceedings at law or in equity having been taken for the collection of said mortgage debt;

Notice is therefore hereby given that, by virtue of said power of sale, I will, on the 1st day of February A. D. 1904, at ten o'clock in the forenoon of said day, at the east front door of the Court House in the City of Adrian, Lenawee County, Michigan, (that being the place where the Circuit Court for said county of Lenawee is holden), for the purpose of realizing the mortgage debt aforesaid, and said taxes, with interest thereon, together with the costs of this proceeding (including a lawful sum as an attorney fee), sell, at public vendue, to the highest bidder, the following lands in said mortgage conveyed, to-wit:—That parcel of land in the village of Tecumseh, County of Lenawee, and State of Michigan, known, bounded and described as follows, viz:—All that part of Block one of Henry L. Hewitt's addition to said village bounded by beginning in the east line of said Block about eighteen rods south from the north-east corner thereof and at north-east corner of lands (formerly) owned by Fincham (formerly by Stevens), and running thence north in east line of said Block eighty-six feet; thence west, parallel with north line of land deeded by Teachout to Waters January 17th, 1900, one hundred and thirty-five feet; thence south, parallel with first course, thirty-six feet; thence west, parallel with second course (extended), sixty-three feet; thence south, parallel with first course, fifty feet; thence east, parallel with second course, one hundred and ninety-eight feet to beginning.

THE FAMOUS OPTICIAN of Detroit,

The eye, when properly cared for affords the keenest delight because of the pleasures we are able to enjoy through its medium. When not cared for and its warnings are unheeded, it becomes an instrument of torture. Headaches, eye pains, burning, itching sensation, strained vision, nervous troubles and many bodily ills are the results accruing from over worked eyes, eyes that need help. Entertaining Fiction.

One advantage of reading a serial story in a daily newspaper is that an installment of convenient length is received every day that does not consume an undue amount of the readers time. An installment of a high grade serial story appears in every issue of The Chicago Record-Herald, a popular feature of that enterprising Chicago daily. Among the successful stories enjoyed by the Record-Herald readers are "Soldiers of Fortune," by Richard Harding Davis; "The Thrall of Leif the Luckey," by Ottilie Liljencranz; "Tristcam of Blent" by Anthony Hohe: "Alice of Old Vincennes," by Maurice Thompson, and "Graustark," by George McCutcheon. Every issue contains also a short illustrated "human interest" story on the editorial page. Readers of the Record-Herald can depend upon a never-failing source of pleasant entertainment in the noteworthy fiction that is always to be found in its columns.

THE CHURCHES.

There will be preaching services at the Universalist church Sunday, Nov. 29. Morning service will be devoted to memorial exercises with a roll call of our translated comrades in the church work; and special music appropriate to the occasion. Subject of evening discourse, "Character not Creeds." Sunday school at 11:30.

Subjects at the Methodist church Sunday will be, morning "The World of St. John." Evening, "The once for all struggle."

The morning subject at the Presbyterian church will be "Search the Scriptures." The evening subject will be "A Reasonable Religion."

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

THANKSGIVING

Was remembered by the Children of the WEST BRANCH SCHOOL

Wednesday afternoon. The Pupils of Miss Richardson's and Miss Cowan's rooms consolidated.

The children of the first, second, third and fourth grades of the West Branch school presented a fine program remembering Thanksgiving to about 60 guests last Wednesday afternoon. This program was under the supervision of the teachers, Miss Richardson and Miss Cowan, and was as follows:

Hymn by Miss Richardson's pupils, entitled "We Thank Thee." A recitation by Eunice Orr; song by the boys of Miss Richardson's room, and a recitation by Hazel Mobbs were all good. The Indian March and Drill by Miss Cowan's little ones. The boys were dressed as Indians, three of them were chosen to build the camp fire, while their chief told an old Indian legend. This was followed by a recitation by Florence Smith "The Puritan maiden," solo, by Margaret Ayers, and a song by Miss Cowan's pupils.

The pumpkin exercise, which was given by the following ten little girls, Bertha Cummins, Zela and Zora Dickinson, Lillian Kennedy, Pearl Fink, Pauline Simmons, Bart Dove, Margaret Rubadou, Merl Stevenson and Mable Skinner was the feature of the program. A chorus by the girls of the third and fourth grades was followed by a dialogue entitled "A Great Fright" by Pauline Simmons, as Betty; Ida Cummins, as Betty's mother, and Harold McClure as Birdie; each one of them were well chosen for the different parts. This was followed by a corn dell drill by the girls in the third and fourth grades, and a song entitled "The Seasons" with Frances Peters as Spring, Anabel Ross as Summer, Naomi Derby as Autumn and Gertrude Hazlett as Winter.

The today and yesterday pantomine was acted by twelve little girls; the six puritan maidens were Josephine Stevens, Vie Temple, Bertha Cummins, Gladys Bowen, Florence Smith and Lillian Kennedy and the girls of today were Ruth McKinney, Edna Sedweek, Zora Dickinson, Mable Skinner, Eunice Orr and Fern Nobles. The musket drill was next in order and with Glenn Bowen as captain, the boys did some fine work and promise to make brave soldiers.

Miss Bessie Poole then gave a solo, which was followed by a song by the pupils of Miss Cowan's room.

A queer feast was given by Leon Bras, Dewey Bower, Geraldine Orr and Catherine Henderson, each one carrying some eatable for the Thanksgiving dinner. With Miss Eva Satterthwaite as the Thanksgiving queen, the pupils of the third and fourth grades represented a Thanksgiving dinner as follows:

Turkeys were represented by Wilfred Orr, Herman Babcock, Harold McClure and Clyde Mitchell. Potatoes—Herbert Orr, Clark Haskell, Glen Bowen and George Kanouse. Cucumbers—Helen Bates, Naomi Derby, Florence Fink, Gertrude Hazlett and Vera Ripley. Red peppers—Bessie Poole, Margaret Ayers, Hessie Orr, Geraldine Orr, Anabel Ross and Francis Peters. Pumpkins—Roy Hannam, Fred Franks, Fred Holmes and Johnnie Towle. Corn—Hazel Mobbs, Ida Cummins, Pauline Stevens and Doris Towle. Apples—Wilfred Mills, Clarence Gates, Harry Creger, Ray Franks, Willie Babcock, Fred Holmes and Frank Cummins. As their queen introduced them they stepped to the front and either sung or spoke some piece pliable to the part they were representing.

The sandman by the following little girls, Mable Skinner, Zela and Zora Dickinson, Pearl Fink, Pauline Simmons Tommy Boyd, Clarence Mitchell, Margaret Rubadon, Eunice Orr, Fern Nobles and Seymour Orr as Sandman, completed the afternoon's program and the teachers are to be congratulated on their success in being able to render so nice a program with so many little ones.

Hanford—Smalledge.

(24)

The home of Mr. and Mrs. George Hanford was the scene of a quiet home wedding Tuesday evening when their daughter, Nina Eloise, was united in marriage to Frank Edward Smalledge.

The rooms were decorated with palms, ferns and cut flowers. Yellow chrysanthemums was the feature of the dining room and white of the other rooms. The ceremony was preformed by Rev. S. Louisa Haight, of Benton Harbor, a former pastor of the contracting parties. The ring service was used, and after its conclusion a three course dinner was served.

There was present only the immediate family and Miss Allie B. Haines, a cousin of the bride. Many elegant gifts from out of town relatives and remembrances from home friends were received as well as a substantial money gift from the bride's father, and another from the father of the groom. The bride's going away gown was plaid etemine trimmed in Roman lace.

Mr. and Mrs Smalledge left on the 8:16 evening train for a trip through Indiana and the west and will return to make Tecumseh their home, soon.

Mr. F. E. Smalledge is a son of Wm. Smalledge of Tecumseh, and except for an absence of a few years when he made a trip around the world, has always resided in Tecumseh. The bride is also a resident here and well known and liked by a large circle of friends who are glad to know that Tecumseh is to be their future home.

Mr. and Mrs. Ed. Smalledge will reside in Mrs. John Heck's house on Chicago street.

WASHINGTON LETTER

Washington, Nov. 26, 1903.

Secretary Hay has signed a canal treaty with M. Varilla, the minister of Panama, by which the United States acquires absolute sovereignty over a strip of territory five miles wide on each side of the canal, the right to inforce sanitary regulations and public peace in the cities of Panama and Colon, possession of four islands in the vicinity of isthmus, and the monopoly of any system of communication between the oceans either by canal or railroad. In return our government guarantees the independence of the Republic of Panama, pays that country $10,000,000 and beginning nine years from date of treaty, an annual rental of $250,000. The Panama commissioners arrived in Washington several hours after the Hay-Bunau-Varilla treaty was signed by the new minister. They expressed great satisfaction at the terms of the treaty, and one of them will carry the document to Panama for ratification. It is thought that the assent of Panama will be obtained about Dec. 10, and the treaty will then be sent to the Senate, where it is sure to be ratified. The republicans need two democratic votes in order to get a two-thirds majority to approve a treaty, but in this case most of the democrats will support the Administration. The position of the minority senators was expressed by Senator Bacon of Georgia, who said that although they opposed the haste and disregard for international law, displayed by the President in recognizing Panama, they would not allow themselves to be put on record as opponents of a treaty which hastened the construction of a canal. The canal is much desired in the Southern states and this accounts ror the attitude of many Southern Senators who would otherwise gladly oppose the Administration.

The Panama government is about to be recognized by the European powers although they declare that the new republic should assume an equitable portion of Colombia's debt, which amounts to about $15,000,000. Probably our government will pay an indemnity to Colombia for the loss of the isthmus.

With the ratification of the new treaty Panama will become pratically a part of the possessions of the United States. The right to police the cities and to dictate sanitary laws gives us virtual control of Colon and Panama, and we shall doubtless make use of our right to fortify the canal.

The Cuban reciprocity bill passed the House of Representatives by a vote of 335 to 21, and has been referred to the Committee on Foreign Relations in the Senate. Unless some of the Democratic Senators decide to obstruct the bill, it may be passed in time to adjourn the extra session by Thanksgiving. As two-thirds of the Senators are on record as in favor of the Cuban treaty, there is of course not the slightest chance that the bill which is to render the same effective, will fail to pass the Senate. The speeches of the democratic Senators will probably be explanatory rather than in opposition to the bill, and there may be a general debate on the tariff.

In the House the debate lasted several days, but as the majority refused to allow the democrats to submit any amendments, the speeches were principally denunciations of the tariff policy of the republicans and of their refusal to grant larger concessions to Cuba.

The President, Attorney General and politicians generally are deeply interested in the case of Senator Charles E. Dietrich, republican from Nebraska, who has been indicted by the Omaha Grand Jury on the charge of bribery and corruption, in connection with the appointment of Jacob Fisher as postmaster of Hastings. The Senator and his friends declare that the charges are the result of a political conspiracy, while others say that the investigation will bring forth many and serious charges of bribery in the appointment of Nebraska postmasters. The United States District Attorney who had charge of the case has been summoned to Washington to give the President and the Department of Justice full details as to the charges made. The Senator has been trying to have the district attorney removed on the ground that he permitted unjust charges to be made, yet it has been shown that this very attorney received a reprimand from Attorney General Knox for asking if he should suppress charges in which Senator Dietrich was involved.

From the information so far at hand it seems that the Senator erected a building in Hastings and induced the Post Office Department to transfer to it the local office which was in a building owned by a branch of the Grand Army. The Grand Army men owned the fixtures in the office and regretted the loss of the outlay they had made for them. The Senator had asked as rent for the office, more than he finally agreed to accept. A new postmaster was to be appointed and Fisher, it is said, received preference over the other applicants for the Senator's indorsement, by agreeing to buy the post office fixtures from the Grand Army and to pay Senator Deitrich the difference between what he asked and what he received as rent. Fisher got the appointment, and made the payments for several months until the Senator realized the irregularity of the transaction and refunded the money. Senator Dietrich will waive the immunity from arrest given him by the Constitution and will return at once to Omaha for trial.

Cuba will be invited to join the Union as a State if the joint resolution just reintroduced in the Senate by Senator Newlands of Nevada passes Congress. The resolution provides that Porto Rico shall become a county of the State of Cuba, that the President and vice-president of the republic shall be the governor and lieutenant governor of the new state, and that the present bonds about to be issued by Cuba shall be given out as bonds of the state.

In support of his resolution Senator Newlands explained that as Cuba desires free trade with this country the best way for her to get it is by joining the Union; that as a sovereign state of the United States her sugar would be freed from the payments of all custom duties, which would increase her receipts about $35,000,000; and that the present is a fitting moment to make such an offer as the affairs of Cuba are now before Congress. He says that we should make it clear to Cuba that we offer her sisterhood, not annexation; that she would become one of us, and not subject to us. He said the argument for Union was strong and would surely prevail if kept before the people of each country.

ROUND ABOUT US.

Fire broke out in North's clothing store in Brooklyn last week Wednesday, and burned a large portion of the $5.000 stock. A $3,000 insurance was carried on contents.

A mining Gazette reporter happened to be endeavoring to get the Houghton central the other day when the wire from the Calumet office got crossed with that of an adjoining office. The reporter listened to a conversation which sounded something like this:

"Hello, my dear, give me No. 303 North," please."

"What right have you got to call me dear?" came back the young lady who does the hello act.

"Well, guess I have a deer license."

"Yes, but the season hasn't opened yet. You're a little previous," and the man got 303 without any more explanation.—Houghton Mining Gazette.

Here is a story which, although being printed widely in Missouri, has not been vouched for. A traveling man showed a watch to a friend in central Missouri the other day, which, he said, was over 100 years old. "My grandfather bought this watch when he was a boy," the traveling man said. "One when he was in a tree getting some apples the watch slipped from his pocket and was swallowed by a calf. When the calf was killed, three years later, the watch was recovered, and was found to be still going. It is supposed that the watch lodged in the calf's throat, and the action of the muscles when the animal swallowed wound it up. The watch lost just three seconds in the three years that it was in the calf's throat."—Kansas City Star.

Marvelous Escape from Death!

PAINE'S CELERY COMPOUND

Does a Wondrous Work for a Lady Who Was Almost Crazed with Pain and Suffering.

It is well known that terrible rheumatism, sciatica, and neuralgia cause more helplessness, acute suffering, and agony, than any of the other diseases that afflict humanity. The great medicinal virtues of Paine's Celery Compound make it the only trustworthy specific for the cure of all forms of rheumatism and neuralgia. Thousands of strong testimonial letters from the most prominent people of the land, prove that Paine's Celery Compound has banished these terribly fatal troubles when all other treatment has failed. Mrs. Margaret Bethel, of Brainerd, Minn., after thirty years of agonizing tortures had a desire to end her life, if it was the will of Heaven; she almost prayed for the time to lay it down. Heaven-directed, she made use of Paine's Celery Compound, and is enjoying true life once more. She says:—

"For thirty years I have been a great sufferer from neuralgia in the head, and also with rheumatism in the whole body. I began taking Paine's Celery Compound and soon found I was much better. Before taking the Compound, my life was such a burden that I almost prayed to lay it down. I was bedfast every two weeks with horrible pain in the head, back, and neck, until I was almost crazed. I am able to do harder work and more of it today than for twenty-five years. I am really enjoying life again, thanks to Paine's Celery Compound. I am satisfied that my life has been prolonged many years by its use."

IT'S FOOLISH

To ignore such convincing proof as this Tecumseh citizen gives you here.

You may differ from your neighbors in many important questions of the day. Your opinions may coincide with those of the minority or those of the majority and still you may be in doubt. But you can hardly be skeptical about the merit of Doan's Kidney Pills when you read such emphatic local endorsement as the following:

Mrs. J. W. Owen, wife of the well known carpenter, living in the south eastern section of Tecumseh, says "I am very well pleased with Doan's Kidney Pills. I procured a box at C. A. Wright's drug store and they did me a lot of good. I had heart trouble and my kidneys did not perform their proper duties. This condition existed for some time. I tried different remedies which were recommended to me but received little if any benefit from them. I will cheerfully say this for Doan's Kidney Pills. I received more permanent relief from their use than from any other medicine I ever used. I am pleased to testify in their value."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Why are fowls the most profitable things to keep? Because for every grain they give a peck.

Two Hundred Persons Drowned.

London, Nov. 24.—A telegram has been received at the Indian office from the viceroy of India, Lord Curzon, saying that according to reports received at Madras, a flood in the Palar river Nov. 12 destroyed half of the town of Vanizambadi, in the Salem district. Two hundred persons were drowned. The floods, the telegram says, have now subsided.

The best remedy for croup.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all druggists.

DO YOU GET UP
WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful

cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Mr. and Mrs. Taft of Logansport, Ind., were guests of his sister, Mrs. John Schwab, the first of the week.

The condition of Mrs. Wm. Calhoun has changed for the better and it is now thought that she will recover.

Jennie Bartholomew and Pauline Schyler spent Wednesday and Thursday with friends in Blissfield.

Mr. and Mrs. Earl Macham and sons of Deerfield visited at the home of his brother, A. D. Macham, Sunday.

Web Calhoun, who was called home from Morenci by the serious illness of his mother, returned Monday morning.

Quickly Wedded.

Owosso, Mich., Nov. 24.—Justice Robert McBride Monday married a couple in his office at Corunna in nine seconds, actual time, or seventy seconds, elapsed time, and claims the world's record for speed in this line. Clark Harris and Delia Anderson of Rush stepped into McBride's office, which is in the front part of his second-hand store, and bashfully made known their desire to wed. That was exactly at 10:30. The justice stepped to the door and called witnesses from across the street, and when they arrived said to the bridal couple: "Stand up, do you take one another for husband and wife, by virtue of authority vested in me as justice of peace I pronounce you man and wife. Witness kiss the bride." This speech took nine seconds. At 10:31 the papers had been duly signed and Mr. and Mrs. Harris were in the street with their honeymoon begun.

Robbed Their Friend.

Ann Arbor, Mich., Nov. 24.—Leon Nixon was robbed of $18 and a gold watch by a couple of strangers whom he had befriended. He met the men and, being slightly acquainted with one of them, listened to their tale about having no place to stay over night and invited them to remain with him. In the morning they left the house before he was up and afterwards discovered that he had been robbed.

New School For Quincy.

Quincy, Mich., Nov. 24.—At a special school election of district No. 2, held here Monday, it was voted to bond the village for $8,000 for the purpose of building a new schoolhouse. The bonds date from June 1.

A Card.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded.

Charged With Practicing Peonage.

Savannah, Ga., Nov. 24.—Charged with having held negroes in a condition of peonage, twenty-six indictments have been returned by the federal grand jury against seven citizens of southern Georgia. The negroes against whom the indictments have been returned are prominently connected, one of them, Edward McRee, being a member of the state legislature.

Crowded Off the Platform.

Chicago, Nov. 24.—In sight of scores of people, a man supposed to be D. L. Buckner of Macedonia, Ia., last night was crowded from the platform of Forty-third street station of the South Side Elevated railroad and crushed to death by a passing train. In a pocket was found a bank book showing deposits of $5,000, receipts for cattle sold and other papers.

98 IN EVERY 100

The medical societies of the world disclose the astounding truth that 98 persons in every 100 suffer from some form of Kidney and Bladder Trouble, or some irregularity, disorder or symptom of those terrible diseases.

These are vital facts—facts which should appeal to you and be given your immediate and deepest thought. Think of it, only two persons in every hundred free from these diseases: Ninety-eight persons in every hundred drifting on to the dire consequences which always follow these subtle and serious afflictions unless their development be checked at once. Nature is trying to warn you—we ask you to heed its warning before it is too late. You need not suffer longer—You can be cured. Don't delay another day. Attend to this at once.

Dr. Gossom's Kidney and Bladder Cure IS GUARANTEED TO QUICKLY, POSITIVELY AND PERMANENTLY CURE Bright's Disease, Backache, Dropsy, Gravel, Diabetes, Rheumatism, Gout, Weak Heart, every Urinary Disorder, Aching Pains over the Hips and Kidneys, Dimmed Vision, Periodical Headaches, Pain in Urethra, Despondency or "Blues," Sallow Complexion, Foul Breath, Bad Taste in the Mouth, in fact all Irregularities caused by and associate symptoms of Bladder and Kidney Trouble in any form. No matter how terrible your affliction may be, Dr. Gossom's Kidney and Bladder Cure will cure you. It eradicates totally and completely any irregularity or symptom of Kidney and Bladder Trouble and puts those most vital organs in as perfect and healthy condition as in childhood.

No matter how much you suffer nor of how long standing your disease may be, perfect health will be yours, if you use Dr. Gossom's Kidney and Bladder Cure, which has a record of forty-two years of curing—which never fails and cures even after all other medicines and physicians have failed.

Disease fastens itself upon you through neglect, nothing else. This infallible remedy attacks and destroys the very roots of disease. It kills disease germs of every kind and fortifies the system against them. It tones up, renews and invigorates the entire body. It completely drains out of the blood every particle of Uric Acid, Urates, Lithates, etc., which cause these diseases; no other remedy in the world does this. It is purely vegetable, perfectly harmless and leaves no disastrous "after-effects."

Cured by Dr. Gossom's Kidney and Bladder Cure After Doctors and Other Medicines Had Failed.

I had been suffering for the past ten months with pains in my back and stiff joints. *I could get no relief from anything.* I tried many doctors and used many medicines. I am happy and thankful to say that three boxes of Dr. Gossom's Kidney and Bladder Cure *entirely cured me.* I can always cheerfully speak a good word for this wonderful remedy.

FEMALE WEAKNESS

542 1-2 Congress St.,
PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Wilhelmina Snow
Treasurer, Portland Economic League

Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches mean female weakness. Secure a $1.00 bottle of Wine of Cardui today.

LIFE PLANT
Renews Life.

NOT ONLY DOES IT PURIFY THE BLOOD, BUT IT RESTORES THE VITAL ELEMENT IN THE BLOOD.

There are hundreds and thousands whose systems are loaded with uric acid poison preparing the way for Rheumatism, Eczema, etc., and prompt action is necessary or serious pain and disease are sure to ensue. The first symptoms of any of these diseases are so slight as to pass unnoticed. A slight stiffness or soreness in the joints and slight twinges in the back point to a serious condition against which prompt measures should be taken. Many remedies have been proposed for the cure of Rheumatism, Eczema, Catarrh, etc., but so far only one has proven of any real value and that one is LIFE PLANT.

It has been very successful in curing these diseases, so successful that we sell it with a positive guarantee. Take LIFE PLANT, take it now.

CRIME A PASTIME

One of Chicago's Bandits Confesses Other Crimes.

HIS PECULIAR MOTIVE

He Will Confess All if Rewards Offered For Him Are Given His Mother—Says Innocent Men Are Being Punished.

Chicago, Nov. 30.—Peter Neidermeyer, one of the members of the quartet of young bandits who for the last six months have terrorized Chicago, in another confession Sunday added several more crimes to the long list already charged against him and his companions, Van Dine, Marx and Roeski. With parental love uppermost in his mind, Neidermeyer offered to tell Chief of Police O'Neil of a score of train holdups, burglaries and other crimes that he has committed if the rewards offered will only be given to his mother.

"I want to know that my mother will be cared for after I am 'hung,'" said the 21-year-old boy, who is now the self-confessed murderer of five men. I am guilty of crimes of which you know nothing and for which innocent men are now suffering. There are rewards offered for my capture and conviction. If you will guarantee me that these rewards will go to my mother I will convict myself. I will confess crimes that will startle you."

In order to make his word good, Neidermeyer told of a few crimes which he claimed to have committed. He outlined them in such a manner, Chief O'Neil declared, as only one who was concerned in them could do. Neidermeyer refused, however, to divulge the names of his partners in the crimes referred to, pending proof that his mother would get the reward.

A Few of Them.

A few of the additional crimes he claims to have participated in are as follows:

Robbery of the Illinois Central limited express at Paducah, Ky., in which Barnes, one of the robbers, cut his throat while surrounded in a swamp. The others escaped.

Holdup of a stage coach a mile from Butler, Nev., two years ago and robbery of the mails. No one was shot and robbers escaped without recognition.

Holdup and robbery of Chicago & Northwestern passenger train near Boone, Iowa, six months ago.

Holdup and attempted robbery of Baltimore & Ohio train at Edgemoor, Ind., four years ago.

Minor holdups and robberies in and out of Chicago were mentioned by Neidermeyer.

When Neidermeyer went back to his cell it was with the assurance that his mother would be bettered $500 financially. Special Agent W. Riley of the Chicago & Northwestern railroad promised him that Mrs. Neidermeyer should be given the reward of $500 for the arrest and conviction of the Clybourn station robbers after Neidermeyer detailed the robbery to them and exonerated a man named Dollo of St. Louis, who is now under indictment. W. Dougherty and Ticket Agent Lathrop, the victims of the robbers in the Clybourn holdup, were present during Neidermeyer's confessions, going over with him in detail the robbery and the shooting of Lathrop.

Neidermeyer detailed the Paducah, Ky., holdup perfectly, refusing to tell names for the reasons that none of the Illinois Central detectives were present.

The police have been so appalled by Neidermeyer's confessions that they hardly give credence to all his assertions. It is thought that his anxiety over his mother's welfare has prompted him to make himself the author of crimes he did not commit.

From the assertions made by Neidermeyer and Van Dine it is said by the police that more arrests will be made.

Old Newspaperman.

Coldwater, Mich., Nov. 28.—Former Mayor Albert A. Chandler died here Friday morning at the age of 8[illegible]. Mr. Chandler was the founder of the Michigan Statesman, at White Pigeon, the first paper in St. Joseph county, and was also founder of the Kalamazoo Gazette and the Coldwater Sentinel, the former in 1834 and the latter in 1841.

Banker's Son a Thief.

Battle Creek, Mich., Nov. 28.—W. L. Roach, who was arrested here Wednesday for relieving Dr. William E. Bessey of Grand Rapids of more than $200 in jewelry, has made a confession, in which he claims to be the son of Banker Roach of Hamilton, Canada, where he was reared in a luxurious home and given a college education.

Big Ben at St. Joseph.

St. Joseph, Mich., Nov. 28.—The sea lion, "Big Ben," that escaped from the Lincoln Park zoo, Chicago, three weeks ago and was shot at in Racine, Wis., harbor Wednesday, put into this port Friday afternoon. After going up the river a short distance the beast turned and put out again into Lake Michigan, taking a southerly direction.

Many Animals Burned.

Onaway, Mich., Nov. 28.—The dairy plant of Thomas Shaw, the finest in the northern part of the state, was totally destroyed by fire. Before the animals could be released the flame enveloped the building and thirty-one head of finely bred cattle and eleven horses were cremated. The loss will reach $9,000, with no insurance.

GROWTH A MARVEL

Latest Report Shows Wonderful Increase in Schools.

BIG SHOWING OF U. OF M.

Were No High Schools in 1853—Per Capita Apportionment Increased From 23 Cents to $2 62 in Fifty Years.

Lansing, Mich., Nov. 30.—The current report of Superintendent of Public Instruction Fall embodies some very interesting statistics which show the marvelous growth of the educational system of Michigan. For example, the report of the regents of the university shows that the estimated expenses of that institution for the year 1849 were $11,259 41; the estimated receipts for the ensuing year, $12,000; the number of professors is given as seven, with the additional statement that "there is no tutor employed." The salary of the professors was $333 33 each term, there being three collegiate terms in the year. A total of eighty-four students were reported in attendance.

In marked contrast with the above is the report of the treasurer of the board of regents for the fiscal year ending June 30, 1901, which shows that the receipts of the university for that year amounted to $588,423 15, and the disbursements to $565,953 54. The latest calendar of the university gives the names of 262 members of the faculty and officers, and an aggregate attendance of 3,712 students.

On the side of the rural schools the contrast is equally as interesting. The whole number of children of school age in the state in 1853 was reported to be 118,272, while in 1902 the number was 738,184. The amount of primary school interest apportioned among the counties of the state in 1853 was $39,013 59, a per capita distribution of 33 cents. In 1902 the amount apportioned was $1,909,459 44, a per capita of $2 62.

It should be borne in mind that in 1853 there were no high schools in Michigan; that is to say, high schools recognized by law. The only institutions for education beyond the common schools were a few academies, the normal school and the university. The law giving the people the opportunity to establish and maintain high schools was enacted in 1859, and at the present time there are in the state 552 graded districts having high schools. In addition to these note must be taken of the numerous denominational colleges, normal schools and business colleges in considering the increased educational facilities given the young people of Michigan at the present time.

Superintendent Fall says that these figures show but poorly the great advance made in educational matters during the past fifty years.

"In order to fully comprehend this," he says, "it will be necessary to take into account the conditions existing at that early period and compare them with the conditions existing now, because present conditions are largely made possible through the growth of educational sentiment and educational opportunities."

Established an Alibi.

Owosso, Mich., Nov. 30.—George Collard, the Owosso man arrested in St. Johns Saturday for complicity in the Lainsburg bank burglary, is undoubtedly innocent of that crime. He has established an alibi regarded as satisfactory by Sheriff Gerow. However, as Collard is wanted in Owosso on a charge of obtaining money under false pretenses, another trip to the Detroit house of correction may be in store for him.

Shot Himself While in Custody.

Detroit, Mich., Nov. 30.—While being searched in Police Captain McDonnell's office by Lieutenant Sadler, Herman C. Barnes, general agent for the Union Casualty & Surety Co. of St. Louis, Mo., accused of stealing a team of horses, committed suicide by discharging a revolver he had in his right overcoat pocket, the ball passing through the abdomen. In less than ten minutes afterward he was dead.

Deserted His Son.

Kalamazoo, Mich., Nov. 30.—Kalamazoo officers are looking for William Pitts, a Grand Rapids man who came here two weeks ago and deserted his 10-year-old son at the City hotel. He was arrested in Grand Rapids several months ago on a similar charge, but released on promise of good behavior. Another child was deserted by Pitts in Grand Rapids recently. The case will be pushed here if Pitts is arrested.

Ran From Man He Wounded.

Marquette, Mich., Nov. 30.—Melvin Sykes, a Munising man, was shot by an unknown hunter and seriously wounded. On discovering it was a man instead of a deer he had hit, the nimrod ran away and his identity is not suspected. The bullet struck Sykes in the thigh, making a hole as large as a man's fist.

Went Through the Ice.

Mt. Clemens, Mich., Nov. 28.—Edward Hatzenbuhler, aged 12 years, was drowned in the Clinton river Friday near his father's home, in Harris township. It was known that he was skating on the river, and when some boys found his hat on the ice near a hole they gave the alarm. The body was recovered. He was a son of John Hatzenbuhler, supervisor of Harrison township.

Fall Caused His Death.

Ann Arbor, Mich., Nov. 28.—Edward Werner, aged 18, is dead as the result of a skating accident at Weinberg's park. He was swinging on some flying rings when his hands slipped and he fell, striking the back of his head on the ice, fracturing the skull. The boys had been warned against using the rings, as they were only for use during the swimming season.

FRAUDS LAID BARE

Bristow's Report of the Postoffice Investigation.

MUCH CORRUPTION EXISTED

Prominent Men of Nation Implicated—Mayor Maybury of Detroit Charged With Contributing—Rotten Dealings Shown on All Sides.

Washington, Nov. 30.—The report of Joseph L. Bristow upon the frauds in the postoffice department was made public Sunday.

It gives an appalling array of details, showing that the crimes unearthed have been going on for years and that many well known and hitherto highly respectable people were engaged in paying public servants for highly profitable government contracts.

The report in full covers many pages. It begins by taking up the case of August W. Machen, commencing at the time he entered the service, and reciting in full the many cases in which he is alleged to have defrauded the government, and which have been so thoroughly aired since indictment has been brought against him. Mr. Bristow mentions the methods employed by Machen and gives details of the contract schemes.

The report deals at considerable length with a letter box contract in which William C. Maybury of Detroit was interested. The report says:

"One of the most important contracts for free delivery supplies is that for street letter boxes. These contracts are let periodically, every four years. In February, 1893, the contract was awarded to Maybury & Ellis of Detroit, Mich. Machen became superintendent of free delivery in the following September, six months after the contract had been executed.

"Maybury states that not many months after Machen's appointment Eugene D. Scheble, a dentist of Toledo, O., called on him and interested him in a patent he had acquired for a new letter box. Maybury agreed to give Scheble a 25 per cent interest in the contract which he then held. Maybury, when asked why he gave Scheble an interest in this contract, stated that he thought there was merit in Scheble's box and that it might in the future become a troublesome competitor.

It Seems Strange.

"It is not reasonable to suppose that a man of affairs like Maybury, who had at that time served two terms in congress and is at present mayor of the city of Detroit, should voluntarily deliver to a stranger from Toledo, O., one-fourth of his profits in so valuable a contract because he feared that two or three years hence that man might become a dangerous competitor for another contract.

"During the first year, that is, before Scheble had interested himself in the contract, there were 2,740 boxes ordered, for which the department paid $8,189 40. Maybury's profits, as near as can be estimated, amounted to $3,425 on that year's business. During the second year, after Scheble became interested, 16,400 boxes were ordered, at a cost of $52,526 25. The total profits of the second year's business was $20,500, of which Maybury received three-fourths, or $15,375, and Scheble one-fourth, or $5,215.

"In 1897, when a new contract was to be made, the box which Maybury had acquired from Scheble, known as the Scheble box, was the one selected, and as a result Maybury & Ellis were required to give him a 50 per cent interest in the new contract. The evidence shows that Scheble remitted one-half of his profits in this contract to Machen."

It seems at this time that Solomon C. Wynn came forward with a letter box which he agreed to furnish at a much less price, but Machen, on the excuse that a relative of him was interested in its manufacture, influenced the postmaster-general to turn down the bid, stating that he did not think it proper for a contract to be awarded to a firm in which a relative to the superintendent of free delivery was interested.

Machen and Scheble were indicted by the federal grand jury in the District of Columbia, Sept. 8, 1903, for conspiracy and fraud.

Another case of singular importance is that in which a San Francisco concern began the manufacture of what was known as the Montague indicator, a device attached to mail boxes telling when mail was collected. It is alleged that in order to secure prestige and a contract with the government to furnish these, stock in the company was distributed gratis among the postoffice officials, G. W. Beavers receiving some, likewise Machen.

The evidence in this case was submitted to the United States attorney for the District of Columbia, and Beavers, Machen and Erwin were indicted on Sept. 8, 1903, for conspiracy to defraud the government. The district attorney decided that the evidence against Heath was not sufficient to justify his indictment.

Salary and Allowance.

The investigation into the salary and allowance division is quite as startling as that of the free delivery department. The report says:

"In August, 1897, George W. Beavers was appointed chief of the salary and allowance division. Beavers' methods have been reckless and without rule or regularity. Increases of allowances for clerk hire in postoffices were made as matters of favor, regardless of the necessities of the service. Promotions were frequently made without consideration of the merits of the clerk promoted. Long-time leases for postoffice premises were canceled and the rent increased upon the recommendation of prominent political leaders, sometimes without regard to the rental value of the premises."

Innumerable cases are cited where seeming extravagance and crookedness was carried on.

Machines and mailing devices were often installed in postoffices throughout the country, and when one or two were all that were necessary to perform the services often several would be sent on and the office ordered to pay for them. This same reckless waste is perceptible in a hundred other things.

The report also deals relentlessly with Assistant Attorney-General Tyner and his assistant, Barrett, showing the many crooked deals promulgated by them.

In closing, Mr. Bristow says:

"As a result of the investigation 4 officers and employes of the department have resigned and 13 have been removed. Forty-four indictments have been found, involving 31 persons, 10 of whom have been connected with the postal service. Attached to this report is a list of those who have been separated from the service by resignation and removal; also a complete list of the indictments and the persons involved.

"I cannot speak in too high praise of the industry and intelligence of the inspectors and their loyalty to the interests of the service.

"In closing permit me to express my most sincere appreciation of the cordial support I have received from you during the progress of the investigation. The hearty cooperation of First Assistant Postmaster-General Wynne, whose bureau has been so largely involved, and of Assistant Attorney-General Robb, has been of great value."

ROOSEVELT'S COMMENT.

Says Those Implicated Shall Be Punished With Utmost Vigor.

Washington, Nov. 30.—In conjunction with the report issued by Fourth Assistant Postmaster-General Bristow President Roosevelt issues a memorandum, recapitulating the long list of crimes and giving his opinion as to the necessary steps to correct the evils.

The statement is quite long, reciting much that is contained in Bristow's report, but closing with these statements:

"I heartily approve of the recommendation of Messrs. Conrad and Bonaparte, that the statute of limitations be extended in the case of government servants to a period of at least five years; for the persons who in such positions of trust engage in corrupt practices can ordinarily conceal their guilt for a longer time than is covered by the present short statue of limitations. This recommendation has been laid before the congress in the report of the attorney-general, and it is earnestly hoped that it will be acted upon favorably. Moreover, our experience shows that outsiders claiming political influence sometimes sell their influence to candidates for office, or in other words, blackmail these candidates. There should be legislation which will permit of summary dealings with such offenders.

However, the prime need is not new legislation, but the punishment of those who offend against existing laws. The postoffice department is making certain changes in the methods of administration, notably in the method of inspection, by which the service will be improved and the chance of corruption existing without discovery be minimized; but the only way to meet the real evil is to punish the offenders, by removal in any event, and where possible by prosecution under the criminal statutes.

"The immediate reformation of the service by the turning out of the offenders is not in itself enought to meet the demands of justice. The cases against both those within and those without the postoffice department, who by their acts have brought themselves within the grasp of the law, will be pushed with the utmost vigor. Every effort must be made to see that both the delinquent official and the outsider who shares his guilt are punished to the limit of the law."

Hobson Has Big Scheme.

Washington, Nov. 30.—Former Commander Richmond Pearson Hobson of the navy has prepared a bill which he has requested Representative Wiley of Alabama to introduce in the house on the convening of the regular session of congress for the purpose, as he says, of making the United States the first naval power of the world during the next eighteen years. The bill makes a total appropriation of $2,750,000,000, a certain portion of which is to be used each year for new ships. Fifty million is made available for the present fiscal year, sixty million for the next and so on, increasing by ten million each year up to 1915, when a lump sum of $1,500,000,000 is made to carry on the program to 1925.

Women Now Admitted.

Washington, Nov. 30.—James H. Worman, United States consul-general at Munich, Germany, has reported to the state department that the University of Munich has opened its doors to women students. "Hitherto no women were permitted to matriculate in the German universities," he said.

It Saved His Life.

Bay City, Mich., Nov. 28.—Alfred Lepage, a bellboy at the Frazer house, rushed into the elevator shaft Friday when the car was up. Throwing out his right arm in descending, it caught on the nut of the starting cable, which broke the fall. The nut tore a hole through his clothing to the skin. Otherwise he would have had bones broken and probably have been killed among the wheels and machinery at the bottom of the pit.

Bismarck and Grant.

Sidney Whitman in his "Personal Reminiscences of Prince Bismarck" says:

"Bismarck's intimate friendship with Motley, the historian, is well known. He was also particularly attached to George Bancroft, so that when it became a question of Bancroft being recalled from his post of United States minister at Berlin Bismarck wrote specially to his friend Motley and begged him to intercede with the president to allow Bancroft to remain, and he did remain.

"Bismarck told me that when General Grant came to Berlin he accompanied him to see one of the reviews at the Tempelhofer feld. Grant was not well that day, and they had to drive out in a closed carriage. Grant looked downcast and told Bismarck that it worried him to think that he was to meet the Prussian soldiers sitting cuddled up in a carriage like any ordinary civilian. 'Never you mind that, General Grant,' Bismarck said. 'You may sit here hidden from view, but our soldiers are well aware what sort of fighting man is in this closed carriage.'"

A Parable Impeached.

The parable of the wise man who built his house upon a rock and of the other man who built on the sands was uttered before the "house with modern improvements" had made its appearance or modern sanitary science had been evolved. A rock foundation is unimpeachable for stability, but it may be very bad when it comes to a matter of drainage, whether it be for the disposal of sewage or of surface or ground water. A cellar excavated in the rock is usually a wet cellar, because the water leeches through the crevices and seams in the rock, and it is both difficult and expensive to trench and drain properly about the walls of a building in a medium so hard to excavate. To be sure, if the rock drops away quickly on a sharp grade this difficulty may be altogether a minor one. A good gravel soil is one of the best to build upon in respect both to drainage and to the stability of the house, and compact sand, if not subject to the action of running water, is a most excellent foundation and a thoroughly good medium.—Cosmopolitan Magazine.

Influence of Children.

Childhood in its weakness is often a strength that resists the strain of all the passions, and that holds even when deep hatred exerts its power to drive asunder.

"If it were not for the child, I would not live with you another day," I heard an angry husband say to his wife, when righteous indignation drove him nearly to distraction.

That was quite a number of years ago, and now they have two more children to strengthen the bond between them. This little episode of domestic infelicity was recalled by some statistics that recently emanated from Berlin and which speak volumes.

These statistics have been carefully gathered from the divorce courts, and show that out of 1,000 divorces 540 were granted where there were no children, 214 where there was one child, 139 where there were two children, 60 where there were three children, 25 where there were four children, 12 where there were five children and 10 where there were six children.—New York Herald.

He Wasn't Too Deaf.

Deafness is largely a matter of habit, says a writer in the New York Press. I know men who cannot hear you two feet away, though you bawl at them, yet at the distance of a block they will grasp your faintest whisper. Some are deaf for convenience, some for fraud, some for hypocrisy. Beware of the deaf man. One of the noted deaf men was old Matt Griffin, long ago an assemblyman from Griffin's Corners, Delaware county, N. Y. By courtesy deaf members receive front seats in the assembly, while others usually draw lots. When old Matt was excused from drawing a fellow member hotly protested. "But the old man is as deaf as a post," said the house leader. "Deaf!" exclaimed the protestant. "Matt Griffin deaf! Why, bless your honest soul, he could hear a ten cent shinplaster rattle in a bag of feathers!"

English Manners.

An English innkeeper was found in bed one morning with his throat badly cut. "Why did you do it?" they asked. He replied: "For amusement. I had nothing else to do."

This chimes in curiously with an old French epigram on English manners and customs:

Here lies Sir John Plompouding of the Grange,
Who hung himself one morning for a change.

LITERARY NOTES.

In the December McClure Miss Tarbell takes up again her History of the Standard Oil Company. In her tranquil, passionless way, so tranquil indeed that, in contrast with the stupendousness of its revelations it takes at times the air of cold irony, she continues to make revelation after revelation, backed by unimpeachable documentation: and day after day her picture of that dread, weird, omniscent Power, the Standard Oil Company, becomes more vivid and more awful. Miss Tarbell's work is beginning to assume proportions almost epic.

"Mother Love," always a touching theme but never more sacred than at this season, is exquisitely pictured in reproductions from noted paintings in the December Designer, and the "Bethlehem Star," a full-page illustrated poem by Aloysius Coll, carries out still further the beautiful idea. "Christmas at Bear Tooth," by Lillian C. Pascha, is a stirring story of the West, while "Heart of Gold" by Ada Marie Peck, is another holiday romance.

The Christmas number of the Critic, this year will be the finest number of that magazine ever issued. As I have edited the Critic since its foundation in 1881, I ought to know whereof I speak. If there is anything in compelling text and striking illustration, the Christmas Critic of 1903 should make a sensation, and it will. JEANNETTE GILDER.

Short stories with real Christmas atmosphere seem almost to have died with Dickins, but in the Holiday number of Lippincott's Magazine there is a pleasant revival of this cheery sort of tale in "The Reward of Virtue," by Guy Wetmore Carryl, and in "A Redwood Santa Claus," by Jerome Case Bull. The first introduces a fashionable Xmas-tree and ends in the triumph of true love; the second is scented with the odor of the Western forest.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

Hood's Sarsaparilla

Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

There is a special timeliness in the art papers contributed to the Review of Reviews for December. Mr. Ernest Knaufft gives an account of the famous Carnegie Institute annual exhibits at Pittsburg, with reproductions of several of the most distinguished paintings of those exhibits, while Mr. Frank Fowler writes suggestively on portrait shows, illustrating his article with photographs of representative paintings in the portrait exhibition now in progress in New York.

The December Atlantic continues the Atlantic series of papers commenting upon American life of to-day, with a powerful paper on The Church by Rev. Theodore T. Munger, in which he discusses some immediate questions;—the needs and necessities of the church; what its present stage of developement is, and what its future.

In view of the prospective nomination of President Roosevelt next year, Chas. M. Harvey discusses under the title of Some Second Term Precedents, some suggestive feature, of past national history as affected by presidential re-elections.

WASHINGTON LETTER

Washington, Nov. 30, 1903.

"I appeal to you in the very memorable words of Thomas B. Reed in a democratic congress; "For Heaven's sake show your competency to attend to public business. If you haven't any trust and confidence in yourselves in the name of God whom do you expect to have any confidence in?" cried John Sharp Williams, the minority leader in the House, as he taunted the majority with keeping congress in session without transacting any business. Mr. Payne, republican, replied that the house would be organized in good time and that when it met in December it would have plenty of business to do. Then the debate turned on the question of reciprocity with Canada. Mr. Williams had introduced a resolution saying that congress would view with approval any step the President might take to reconvene the joint high commission for the purpose of negotiating a reciprocal treaty with Canada and demanded to know why the committee on ways and means was not considering this and other important measures. Mr. Payne said that it was not a good time to negotiate a treaty, while Canada was annoyed by the Alaskan boundary decision, but that the subject would be taken up at the proper moment.

Congress is in session because of the unanimous agreement of the senators to postpone the vote on the reciprocity bill until December 16 and because of Speaker Cannon's determination that congress shall not adjourn until it has taken action on the measure for which it was called together in extra session. The senate wished for a vacation before the beginning of the regular session, on December 7, but as neither branch of congress can adjourn for more than three days without the consent of the other, the house had forced the senate to remain in session. Mr. Williams has given his list of minority committee appointments to speaker Cannon, and it is believed that the committees will be announced in time to get some work done before the regular session. Several thousand bills have been introduced and are waiting to be sent to the different committees.

In some quarters the action of the senate in postponing the vote on the Cuban bill until the regular session is regarded as a slight to the President for having called the extra session.

The Junta at Panama will lose no time in ratifying the new treaty. It has sent word to Minister Varilla that the document will be signed quickly and returned to Washington. This promptness was urged by Minister Varilla and is in marked contrast to the slowness of Colombia in taking any action on the treaty.

The Colombia peace or war emissary, General Reyes, has arrived here, and if he shows that he is duly accredited, will be received by the President. He has, of course, no hope of saving Panama to Colombia for as the Panama minister expressed it, "Panama has served the meal, and it has been eaten." Neither will he be able to make the administration look seriously upon Colombia's threat of war. He may succeed in getting a money indemnity for Colombia and in forcing Panama to take over her share of the Colombian debt. This question will be presented to our government by the new British embassador, Sir Henry Mortimer Durand, who will press the claims of the English bondholders, that the new republic should assume a pro rata portion of the common debt. After such an agreement is reached, England will no doubt recognize the republic. Much of this debt was incurred by Colombia during the war of liberation from Spain, started in 1819. Panama took part in the war, but did not sign the papers uniting her to Colombia until 1825. From this fact the Panamese argue that they are not bound by the debt.

There have been several discussions in the Senate on Cuba affairs. The latest was a speech by Senator Carmack in which he attempted to ridicule the President's message urging the passage of an act to render the treaty valid. "He told us that we must ratify it to save our honor and help our trade. It was an opportunity to worship God and get your money back; to be diligent in business while serving the Lord. He presented the Cuban treaty in the aspect of a bargain counter and a missionary box. You put a nickel in the slot for sweet charity's sake and get more than your money's worth of chewing gum and cigars. Six months ago, he said, there was a cry raised for, "Roosevelt, reciprocity and revision." "The Trinitarian propaganda has been overwhelmed by the Mohammedan war cry of Allah, Allah. Roosevelt is great and the Senator from Massachusetts is his prophet." He ended with a plea for tariff revision. "The reactionary movement in England derived its strength from the hostile tariff of the United States. This would be a staggering blow to our agricultural industries, but the beginning of a more liberal policy shown by the democratic party in the next election in the United States would put an end to Mr. Chamberlain's schemes at once."

Senator Newland's resolution asking Cuba to come into the Union was the subject of several debates. The republican Senators Lodge, Hale and Platte opposed the resolution, arguing that an invitation to Cuba would be looked upon as a command and would arouse suspicion of the motives of the United States, and that it would weaken the hands of the present Cuban government which was about to enter on difficult financial undertakings. In his speech, Mr. Platte, the author of the Platt amendment, denied that we exercised a protectorate over Cuba, or that Cuba was in any way our ward. Senator Teller said that without wishing to enter into the debate, he wanted to declare that Cuba was in no way a dependency of this country, and that any international lawyer would set such a contention down as absurd.

German Syrup.

We want to impress on our readers that Boschee's German Syrug is positively the only preparation on the market to-day that does relieve and cure consumption. It contains the specifics, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasm of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing four times as much, 75 cents. At all druggists. G. G. GREEN, Woodbury, N. J.

RUTS

The walking sick, what a crowd of them there are: Persons who are thin and weak but not sick enough to go to bed.

"Chronic cases" that's what the doctors call them, which in common English means—long sickness.

To stop the continued loss of flesh they need Scott's Emulsion. For the feeling of weakness they need Scott's Emulsion.

It makes new flesh and gives new life to the weak system.

Scott's Emulsion gets thin and weak persons out of the rut. It makes new, rich blood, strengthens the nerves and gives appetite for ordinary food.

Scott's Emulsion can be taken as long as sickness lasts and do good all the time.

There's new strength and flesh in every dose.

We will be glad to send you a few doses free.

Over the door of every man's heart there is a sign which is either "Come in" or "Keep out." What is the sign above your heart?—Chicago Record-Herald.

Well, ours is reversible. If a chap comes along arguing for gold standard and protective tariff or with a bill against us for coal, the sign reads "keep out," with the accent on "keep." If it is a fellow who owes a years subscription, the door is enlarged and the sign is plain—"Come in." That's the kind of a hairpin we are.—Adrian Press.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. For sale by all druggists.

The Rev. Irl R. Hicks 1904 Almanac.

The Rev. Irl R. Hicks Almanac for 1904 is now ready. It will be mailed to any address for 30 cents. It is surprising how such an elegant, costly book can be sent prepaid so cheaply. No family or person is prepared to study the heavens, or the storms and weather in 1904, without the wonderful Hicks Almanac and Prof. Hicks splendid paper, WORD AND WORKS. Both are sent for only ONE DOLLAR A YEAR. WORD AND WORKS is among the best American Magazines. Like the Hicks Almanac, it is too well known to need further commendation. Few men have labored more faithfully for the public good or found a warmer place in the hearts of the people. Send orders to WORD AND WORKS PUBLISHING CO., 2201 Locust St., St. Louis, Mo.

ARRESTED

In Detroit for stealing a team of G. B. GARLINGHOUSE

Of this place. Such was the fate of Herman C. Barnes, who afterward killed himself in police station.

"Lillie House,
Tecumseh, Mich.,
Gentlemen:

"If you do not have a livery in connection, will you please turn this over to your best liveryman.

"I will be there on Friday and wish to engage a team from Friday until Saturday about noon. I wish to drive about fifteen miles in the country to look up a relative of mine.

Yours very truly,
W. G. MARSHALL."

Hermann Barnes, the writer of the above, came here last Friday and engaged a team and carriage of G. B. Garlinghouse, went back to Detroit, drove to the horse market kept by Jacob Kolb, and sold both horses for $90 and the buggy for $7. The proprietor of the establishment became suspicious and notified the police. In the Hunt street station, where the prisoner was taken, he gave his name as Geo. Ransom of AnnArbor, and claimed to have bought one of the horses three years ago and the other a year later.

As customary, the police questioned him and then started to search him to see if anything could be found to reveal his identity, when the prisoner put his hand in his coat pocket, where he carried a revolver, shot himself and died almost instantly.

Barnes came here last Friday morning on the 10:40 from Detroit and rented the rig of Mr. Garlinghouse. He registered at the hotel from Syracuse, N. Y., and claimed to have a relative, whom he thought was living near Saline, and who was heir to some property in New York and he was looking them up.

Saturday noon when the horses had not been returned, Mr. Garlinghouse began to get anxious and on reading in the Evening News Saturday night, that a fellow had been arrested on suspicion in Detroit while trying to sell a team and rig, and by the description of the man, made up his mind that it was his team. Mr. Garlinghouse, in company with E. C. Brown, went to Detroit Sunday and identified the team, taking with them the letter which Barnes wrote to Mr. Blocher, and on the strength of which he was allowed to have the horses. Mr. Garlinghouse sent a man to Detroit yesterday morning, who arrived home last night with the team.

Barnes, according to his brother, Harry, with whom he was in the insurance business, had a sunstroke when he was a boy and since then, has at times acted queerly. He has served time twice before this, once in Jackson, and once at Ionia. He leaves a wife, and an aged father and mother, who are nearly crazed with grief.

Mrs. Henry C. Smith.

Mrs. Henry C. Smith, wife of Hon H. C. Smith, died Thursday afternoon at her home in Adrian, after an illness of three weeks. She died from the effects of the closing of the aesophagus. Mrs. Smith was one of the five children of Col. and Mrs. Richard Watts all of whom are dead, except one son, R. H. Watts, of the Adrian State Savings bank. She was educated in Adrian, and was one year at school in Painsville, Ohio. She was married to Mr. Smith in 1887 and since that time, with the exception of four years at Washington, she has resided in Adrian, where she was dearly loved by all who knew her. One child was born to them, Katherine, who died at the age of five years.

During the four years that Mr. and Mrs. Smith resided in Washington, Mrs. Smith gained many valuable friends. She was a member of the Washington Literary Club and was a persistent reader of valuable literature. She was a member of one of the confirmation classes of Christ Episcopal church some years ago, but was never confirmed. The funeral took place from the house Saturday afternoon. Burial at Oakwood.

Mrs. Smith was a charming woman, cheerful, loving and helpful to everyone. Her place in society and amongst her many friends cannot be filled, and to her husband she is a loss forever. It is hard to become reconciled for the loss of one in the prime of life, but death seems always to choose the brightest mark. The whole community mourns with family and friends.

A "FOWL" DEED

One of our young business men attempts to give a DUCK SUPPER.

His plans are spoiled by certain members of the Smart Set.

One of our quiet and sedate young business men thought to entertain a few young friends on Thanksgiving night with a dinner in which roast duck should be the chief feature. Accordingly he procured a couple of the birds and took them home to be prepared. When the time came to put them in the oven they were nowhere to be found.

Now, this young man once before attempted to give a feast, and the vituals had mysteriously disappeared, and having located the marauders before, he was not slow to suspect them again. Consequently the next day he telephoned to one of the young ladies of the Smart Set, claiming to be one of her crowd, asked her when and where they were going to eat the ducks and received for a reply that they would eat them that night, at her country home, which is but a short distance from town. Now, this young man had no idea of giving [illegible] second time, consequently he, in company with others, drove out there, resolved to get those ducks. Arriving, they found the house all dark and no one at home. On looking around for a place of entrance they saw a man driving in, and supposing it to be the owner of the house, they went to consult him about their deferred supper, and ask his assistance in getting back their property.

It proved however to be a neighbor, who, after hearing their tale of woe, gave them the desired information. They proceeded to follow directions, but not being familiar with the inside of the house and the arrangement of the furniture, they had not succeeded in finding the object of their search when the Smart Set appeared on the scene, and they were obliged to leave without accomplishing their design, and returned home in no very pleasant frame of mind.

After reaching home and thinking this matter over they decided not to give up so easily and be beaten out of their contemplated feast. Accordingly they drove back, determined to get the ducks by hook or by crook. But as the doors were locked against them, they saw no way to gain the prize. They then boldly demanded the ducks, which being refused, threatened to visit the henery. On being told to go ahead, they proceeded to the hen house, each filled his arms with two squawking fowls and started for home.

Meanwhile the victorious party telephoned the owner of the chickens, who happened to be in town, that thieves were in his hen house, who on receiving the message secured the aid of the village marshal and started for home at a rapid pace. When they neared the cemetery they met the three young men driving rapidly toward the village vainly endeavoring to quiet their frightened chickens. So eager were they to reach home and eat their hard earned supper that they heeded not the warning of the marshal "to stop" but urged their horse to its utmost speed, closely followed by the marshal and his companion, until they reached the village where matters were adjusted.

Perhaps it would be interesting to some of our readers to know that the ducks were eaten at the home of our village marshal last Saturday night. The chickens have been returned to their owner and the ducks are to be settled for by the Smart Set.

It is safe to say that when this young man starts out to give another feast certain members of the Smart Set will know nothing about it.

MONDAY CLUB

Give a Plantation Day at the home of MISS ADDIE BUTRICK

Guests are delightfully entertained, several out of town guests being present.

The Monday club gave an open day yesterday afternoon at the home of Mrs. Chas. Kemp, Miss Butrick being the hostess of the occasion.

It was Plantation Day and every emblem of the old south available was brought into service both in the decorations and in the menu. Old Glory floated over the lawn and on the front porch the familiar smiling face of our fellow townsman "The Onyx" boy beamed upon all comers as if he entered into the spirit of the occasion. A charming well behaved little Topsy opened the door to all arrivals and when the rooms were well filled and every body seated a smiling Dinah in red satin waist, yellow sash and an abundance of jewelry passed a tray of water mellon slices which were found on the reverse side to contain the program.

Mrs. Howland called the meeting to order and announced the first number to be an instrumental solo by Stella Zimmerman. This was followed by a paper by Mrs. James McCann on "John Brown and his work for Negro Emancipation," Mrs. Richard Mead kindly leading the singing of "John Brown's body lies a mouldering in the grave" all joining in the chorus. Miss Hairo read a newspaper clipping on the same subject and Mrs. Shull followed with a paper on "Plantation Life and Melodies."

Miss McKenna, accompanied by Mrs Look at the piano, sang some coon songs delightfully. Mrs. Albert Waring gave a paper on "Booker T. Washington and his work for the Negro Emancipation" Miss Mae Garlinghouse recited one of Whitcomb Riley's poems, and Miss Carol Kemp gave an instrumental performance on the piano which closed the literary exercises.

The guests were ushered into a candle lighted dining room which was unique in decoration and in colored waiters. Southern pines was the motif throughout, every archway and door and portiere was decorated with this greenery. The table was trimmed in festoons of pine, the center piece was a huge pumpkin fruit dish filled with southern fruit. The table was lighted with candlabra resting on a bed of pine. Smilax trimmed the reception room where Mrs. Ben Garlinghouse and Mrs. W. D. Reed served after dinner coffee, Mrs. Corey presiding at the urn. The dining room was in charge of Mrs. Geo. N. Stacy and the [illegible] served by Mrs. Joseph Crosby, Mrs. Willis Smith, Mrs. Zimmerman, Miss Jennie Gillespie and Naomi North. Souvenir postals from New Orleans were presented to guests as they left the dining room. Mrs. Jolly catered.

The other ladies of the committee giving the entertainment were Mrs. S. W. Temple, Mrs. Cleo Hall, Mrs Jas. McCann and Mrs. E. D. Brown. This is the second of the Monday club entertainments of the season and was pronounced by all to be a very unique and pleasant affair.

Among the guests present were Mrs. W. C. Burns of Honeye, N. Y., and Miss Willa Spillard of Cincinnati.

Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. [illegible] druggist. Price 50c and $1.00. Trial bottles free

Skunks are plentiful in Hillsdale. A short time ago one was removed from a sewer, and two others were killed in the city. The odoriferous animals are so plenty that when a resident of the place is returning home on a late train, he raises the car window and is enabled to determine when he nears Hillsdale by the smell.—Hudson Post.

Commissioner Hensel desired a teachers' reading circle organized at Onsted, and on the day set for the gathering but two teachers put in an appearance, and even these were not enthusiastic. When it comes to organizing a reading circle, Onsted teachers are not round.—Adrian Press.

A Hudson lady had a valuable diamond ring, and as she was always looking for a man, she feared when she visited in the country the dreaded fellow would appear in the night and rob her. Her greatest valuable was the ring, so she slipped it on her toe, and sweetly slept till morning.—Hudson Post.

ARE YOU A COMING MOTHER? ARE YOU EXPECTANT?
MOTHER'S FRIEND
makes childbirth easy by preparing the system for parturition and thus shortening labor. The painful ordeal is robbed of its terrors, and the danger lessened to both mother and child; the time of confinement is shortened, the mother rested, and child fully developed, strong and healthy.
Morning sickness, or nausea arising from pregnancy, is prevented by its use.
As pregnancy advances, the breasts enlarge, become swollen and hard. Long before the child is born, they are preparing for the secretion of milk. It is important that they receive early attention. Mother's Friend softens the skin and facilitates the secretion of **Life Fluid.** Undeveloped breasts, hard-caked shortly after delivery, are the result of non-treatment, and likely to culminate in Mammary Abscess, from which so many suffer excruciating pain and are left with these organs permanently impaired.
Softness, pliability and expansion are given to the muscles and sinews, thus bringing comfort and causing an easy issue of the child. Try it. Of druggists $1.00. Our book "Motherhood" free.

THE PERFECT WAY.

Scores of Tecumseh citizens have learned it.

If you suffer from backache,
There is only one way to cure it.
The perfect way is to cure the kidneys.
A bad back means sick kidneys,
Neglect it, urinary troubles follow.
Doan's Kidney Pills are made for kidneys only.
Are endorsed by Tecumseh people.

Mr. C. Patterson, the well known sexton residing in the south eastern section of Tecumseh, says: "For over a year I had a soreness and pain in the small of the back at times quite severe more especially if I did a hard day's work or took cold, for it always settled in my kidneys. The kidney secretions were also discolored and irregular and I had all symptoms of aggravated kidney complaint. I heard several people praising Doan's Kidney Pills so concluding to try them I got a box at C. A. Wright's drug store and commenced the treatment. I found it just suited my case for it helped me right from the start. It stopped the pain in my back and regulated and cleared up the kidney secretions. I have no hesitation in recommending Doan's Kidney Pills to any one having any difficulty with their kidneys."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Ship Canal Projected.

Laporte, Ind., Nov. 30.—P. A. McCormick of Columbus, Ind., has formulated a plan for a huge waterway stretching across Indiana from Michigan City to the Ohio river, a distance of nearly 300 miles. The canal as projected is capacious enough for large lake steamers and its route is to pass through Indianapolis, Logansport, Columbus and Seymour, terminating at New Albany, below the falls of the Ohio. The scheme is to employ the state convicts in the construction work and for the state to own the improvement and pay the cost.

Ex-City Clerk Lamoreaux Makes Confession.

IN GRAND RAPIDS DEAL

His Name Had Not Previously Been Mentioned—More Arrests Likely Next Week—Some May Demand Examination.

Grand Rapids, Mich., Nov. 28.—Ex-City Clerk Isaac F. Lamoreaux is the latest to see virtue in making complete confession. He received a share of the boodle fund from Salsbury, but how much and under what circumstances is not made public. His name has not been publicly mentioned in connection with the scandal thus far. It is understood his statement corroborates Salsbury's story in important details.

The announcement was made last night that further arrests in connection with the water case will probably not be made until next week. The aldermen arrested last Saturday are booked for examination Monday, and this will keep the prosecutor's office busy for several days. Most of these aldermen it is thought will waive examination and be bound over to the superior court, but it is believed that some will demand examination for the purpose of developing what the prosecution has up its sleeve. Senator Burns will be among this number.

Salsbury will be the chief witness against the respondents in the examination, and the story he tells in open court may force the hand of the prosecutor in serving additional warrants.

Broke Through and Drowned.

Battle Creek, Mich., Nov. 28.—Elton Dewey, aged 12 years, was drowned at 4:40 o'clock Friday afternoon in Lake Goguac, two miles south of the city, while running and coasting on thin ice. He was warned by his playmates not to venture out too far, but nevertheless he kept on running and jumping on his sled and sliding on the ice, which broke, letting him down to death in twenty feet of water. The body was recovered.

Drake Will Found.

Des Moines, Ia., Nov. 30.—The last will and testament of the late General F. M. "I am an old soldier," writes Mr. Geo. Watson, of Newton, Ia., "and I have been a great sufferer from nervousness, vertigo and spinal trouble. Have spent considerable money for medicine and doctors, but with little benefit. I was so bad my mind showed signs of weakness. I began taking Dr. Miles' Nervine, and I know it saved my life."

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

FRANKLIN.

Mrs. Chas. Lewis was on the sick list last week, but we are glad that she is now better.

W. A. Beebe and son have sold their wheat to the Detroit Milling Co. and are now loading a car.

Clarence and Cora Burtless of Toledo, spent Thanksgiving with their parents, Mr. and Mrs. John Burtless.

The center school house has been repapered and some other repairing done during the Thanksgiving vacation.

The dance at Lewis' Hall Wednesday evening was a success. There were forty four numbers sold and a good time was enjoyed by all.

Mrs. Wm. Hones and daughter, Alice, returned yesterday from Addison, where they spent Thanksgiving with her daughter Mrs Wm. Linton.

The second meeting of the Franklin Literary Club was held at the home of Mr. and Mrs. L. M. Dibble last Saturday night. There was a good attendance and the interest taken bids fair to sure success. The next meeting will be held at the home of Mr. and Mrs. Leon Allen.

Bryan In Ireland.

Dublin, Nov. 30.—Lord Mayor Harrington Sunday gave a luncheon at the Mansion house in honor of William Jennings Bryan. The guests included Archbishop Walsh, John Redmond and John Dillon. Mr. Bryan delivered a brief speech, in which he alluded to the strong infusion of Irish blood in the United States and said he believed that the greatness of his country was due to the composite character of its people, and, continued Mr. Bryan, "They are going to develop a civilization in advance of anything the world has ever seen." Mr. Bryan will visit Belfast today.

HORRIBLY MANGLED.

Old Lady Killed By Train Near Fowlerfield.

Three Rivers, Mich., Nov. 30.—The horribly mutilated body of an aged woman was found a short distance south of Fowlerfield station on the Lake Shore railway, seven miles north of this city, in the evening, with the head completely cut from the body and both arms cut off.

The body was brought to this city. An inquest will be held in order to get the engineer and fireman of the passenger train going north in the evening at the time the woman is supposed to have been struck. They made no report at Fowlerfield, consequently it is supposed that they never saw her at all.

The body is mangled beyond recognition, but it is thought to be that of Mrs. Courtland Daniels, an old resident of the vicinity, who started for Vicksburg Saturday morning, getting off at Schoolcraft to connect with the Grand Trunk train.

LOTS OF SNOW.

Sleighing Will Soon Be Order In Michigan.

Benton Harbor, Mich., Nov. 30.—It has snowed here every day since Wednesday. Street car and railway traffic was impeded Sunday and the storm was renewed last night with increasing vigor, accompanied by northwest wind. This is the worst snowstorm so early in the season for years.

Three Rivers, Mich., Nov. 30.—Snow fell most of Saturday and is over eight inches deep. If the weather does not turn warmer sleighing will soon be in full blast.

Niles, Mich., Nov. 30.—Six inches of snow on the level has fallen here during the past twenty-four hours, and it is still snowing. Local trains are late.

Michigan Corporations.

Lansing, Mich., Nov. 30.—The following corporations filed articles of association with the secretary of state during the past week: International Land & Improvement Co., Jersey City and Sault Ste. Marie, $125,000; Manistique Opera House Co., Manistique, $5,000; Garand Hyde & Dietrich Co., Saginaw, $20,000; Swift & Co., Chicago and Detroit, $25,000; Detroit Color Card Co., Detroit, $3,000; Midway Co., Ltd., South Haven, $30,000; Detroit, Flint & Saginaw railway, Detroit, $1,000,000; Red Cross hospital, Detroit, $5,000. Killed Himself With Rifle.

Beulah, Mich., Nov. 30.—Fred H. Neill, a wealthy farmer, 50 years old, shot and killed himself at his home, two miles northeast of Benzonia, at 8 o'clock Sunday morning. His wife had gone out for a few minutes to the barn when she heard two shots fired, and hastening back to the house found him breathing his last. Two gaping wounds, one in the jaw and one just below the heart, and a rifle lying on the floor indicated the manner of his death. No reason can be assigned for

LIFE PLANT Renews Life.
The Very Best TONIC Ever Discovered.
The kidneys are the blood filters intended to remove the waste, and most of these diseases result from overtaxing them with excessive waste. The most frequent cause of kidney trouble is indigestion. LIFE PLANT aids digestion, relieving the kidneys from the very start. Kidney diseases cause more deaths than any other human affliction. They are usually painless at first, the only warnings are shown in the Urine, being cloudy or of high color. It is by neglecting these symptoms that kidney diseases are allowed to progress. An improper treatment is worse than none. LIFE PLANT is the only sure cure for kidney trouble.

SMALL INCREASE

In Rural Carriers Salaries Recommended by Bristow.

WOULD MAKE MAXIMUM $750

Suggests Doing Away With Express Package Business—Certain Practices Deprive Government of Revenue—Number of Carriers Resigned.

Washington, Dec. 3.—The annual report of Hon. Joseph L. Bristow, fourth assistant postmaster-general, makes a slight concession to the rural free delivery carriers, but does not go anywhere near as far as seems just to those most familiar with the hard work performed by these carriers.

He acknowledges that nearly 3,000 carriers have resigned during the past year, but can not see his way clear to recommend more than a maximum salary of $750 for the carriers, with the longest routes.

His report says:

The resignations of 2,879 carriers were accepted during the year; about 19 per cent of the whole number.

Salaries.

Under the law, the salary of rural carriers cannot exceed $600 per annum, and no other allowance can be made, but it is provided that they shall not be prohibited from doing an express package business, if it does not interfere with the discharge of their official duties. The department has, in its discretion, graded the salaries according to the work performed. The following schedule, based upon the length of the route served, has been usually followed:

Routes not less than 20 miles....	$600
Under 20 and not less than 16....	500
Under 16 and not less than 12....	400
Under 12 and not less than 8....	300
Under 8 and not less than 4 miles	200

Since July 1, 1903, where the establishment of a route of 20 miles or more which would serve less than 100 families was justified, the number of families has been considered in fixing the salary.

Express Business.

The provision of law under which rural carriers are permitted to do an express package business was intended by congress to provide a means of additional compensation, but it is so broad in its terms that the way has been opened for a serious loss of revenue to the postal service. The department has endeavored to restrict the express matter carried by rural carriers to such as is mailable as fourth-class mail matter, but advantage is taken of the law by business firms to secure the distribution of large quantities of advertising matter by the rural carriers. Such matter is shipped by express or freight to the carrier or some agent, who arranges with the carrier for its distribution. Thus rural carriers, employes of the department, are delivering to patrons on their routes matter which would otherwise be mailed and become a source of postal revenue.

As a result of the express package business, complaints frequently come to the department that carriers are soliciting business for one firm to the disadvantage of others.

The ultimate result of permitting carriers to transact express package business is great loss of revenue to the department and constant annoyance from complaints of merchants and publishers. If carriers are to be permitted to do an express package business, then the entire system of compensation should be changed to the contract system, the same as the star-route service.

It is therefore recommended that rural carriers be restricted to the discharge of their official duties the same as city carriers, as prescribed by the department, and to provide a compensation commensurate with the service performed, the maximum salary should be raised to $750 per annum for a route of 25 miles.

Killed by Savages.

Victoria, B. C., Dec. 2.—The steamer Iro Maru, just arrived from the Orient, brought Captain and Mrs. Hoestadt of the wrecked American ship Benjamin A. Sewall. Captain Hoestadt confirms the report that ten of the crew were killed by savages off Tobago island, off the Formosan coast. Searching parties found two of the men belonging to the mate's boat, which had fallen into the hands of the natives. These men, William Rejswald and Julian Calco, had been kept alive to carry wood, and when found were naked, their bodies sore and blistered. The clothing belonging to the others, and identified by Captain Hoestadt, was found in a savage village, where all had been killed.

Bliss Grants Six Paroles.

Lansing, Mich., Dec. 2.—Governor Bliss signed paroles in the cases of the following convicts Tuesday: Frank Ashley, from Wayne county, to Jackson May 11, 1901, for three and one-half years for receiving stolen property; George J. Bogart, from Ionia county, to Ionia prison Jan. 25, 1902, for three years for forgery; Charles Benedict, from Lake county, to Jackson Oct. 28, 1898, for twelve years for manslaughter; Daniel S. Coons, from Midland county, to Jackson Aug. 29, 1900, for ten years for rape; Thomas Ridge, from Oceana county, to Ionia Sept. 12, 1902, for two years and nine months for assault with intent to do great bodily harm less than murder; Charles Wilson, from Cass county, to Marquette Oct. 18, 1900, for four years for breaking and entering a box car.

DOWIE IS "BROKE"

Zionists and Their Leader In Serious Financial Straits.

JUDGE APPOINTS RECEIVERS

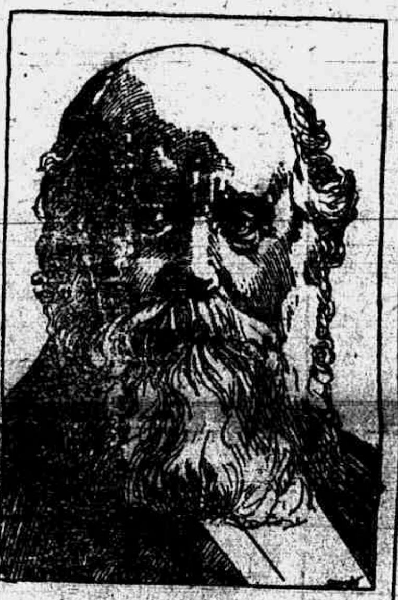
"Elijah II." Hard Pressed by Creditors—Dowie Industries Do Not Pay—Restoration Host to New York Caused Downfall.

Chicago, Dec. 2.—Financial difficulties, which began during the crusade of John Alexander Dowie, the self-styled "Elijah II.," and his restoration host to New York a month ago and which have been rapidly increasing since Dowie's return, culminated last night in the federal courts taking possession of all the property controlled by Dowie in Zion City, Ill. This town, which was founded two years ago by Dowie, has a population of over 10,000, is the general headquarters for Dowie's church and is said to represent an expenditure of $20,000,000.

Fred M. Blount, cashier of the Chicago National bank, and Albert D. Currier, a law partner of Congressman Boutell, were appointed receivers of the property. Their bonds were fixed at $100,000 by Judge Kohlsaat of the United States district court, who made the appointment on the petition of several creditors.

The receivers left for Zion City last night to take possession of the property. Dowie has been hard pressed by his creditors, and especially since it was announced that his recent mission to New York had proven unsuccessful financially.

Dowie is known to have accumulated a large sum as the head of the Christian Catholic church, the assets of the organization being estimated at between $20,000,000 and $30,000,000. There was a large outlay of money, however, when Zion City was started. Then lace and candy industries were started, and as both of these ventures have never been a paying investment a great deal more money was tied up. Dowie's differences with his brother-in-law, Stevenson, over the management of the lace factory cost more than $100,000, and other suits recently begun in Lake county by creditors are said to aggregate a large sum.



JOHN ALEXANDER DOWIE.

Last Wednesday Dowie's first confession of weakness was made at a rally in the tabernacle at Zion City.

"A lot of you people have cash in your pockets," Dowie said to his followers. "Dig down and get it out. It is God's, and we need it in his work. You're cowards if you don't give it up. Deposit it."

Dowie talked in the same strain for more than an hour, tears glistening on his cheeks, and he told of the financial straits in which the Zion industries found themselves. Instead of frightening many into depositing this appeal sent a long line of people to the bank on Friday, drawing out their money. A. W. Graham of Waukegan tried to withdraw his account of $300 and was told he would have to give thirty days' notice before he could get his money.

Must Have $500,000.

Monday another appeal was made by Dowie for funds, but the depositors who appeared were few and the deposits were chiefly in trivial amounts. Yesterday Dowie asked the members of Zion more urgently than ever for money. He declared that he must have $500,000 without delay. In the efforts to remedy the condition of affairs at Zion City hundreds of letters were sent out daily to Dowie's followers in other parts of the country. In these letters, in which glowing prospects of Zion City's future were painted and in which Dowie himself is quoted as praying that all those who believe in him will "follow the lord," all Dowieites are urged, almost commanded, to sell their farms, stores and everything else and come at once to Zion City and take up the work of the church. All of those who have money in banks near where they now live were asked to draw that money out of the local banks and send it for deposit at Zion City.

It is declared to be a fact that the employes of the manufacturing industries have not been paid in from four to six weeks. What little they have received is said to have been paid entirely in the Zion City coupon books.

Its Future Uncertain.

Philadelphia, Dec. 3.—Uncertainty hangs over the future of the $100,000,000 Consolidated Lake Superior company. Its fate is now in the hands of Speyer & Co., bankers of New York, who have the right to sell the property under foreclosure proceedings on Dec. 15, because of the inability of the corporation to pay off a loan of $5,050,000. A lengthy conference has just been held here between counsel for both interests, and the Speyer representatives stated at its conclusion that they will notify the reorganization committee in a few days what course the banking house will pursue.

Is Said Plans Were Laid to Sell Municipal Lighting Plant—Prosecutor Places Confidence in Salsbury's Statements.

Grand Rapids, Mich., Dec. 3.—Suffering from nervous prostration, ex-City Attorney Lant K. Salsbury was confined in bed in his home all day Wednesday, and in consequence the examination in the case of Alderman Ellen of the First ward, charged with accepting a bribe of $350 in the water deal proposal, was postponed in police court until today.

Five of the number arrested a few days ago appeared in court Wednesday, waived examination and were held to the superior court for trial at the present term, which will end Dec. 14. Those who waived examination are:

Ex-Aldermen John Donovan, Clark E. Slocum, John McLachlan, Reyner Stonehouse and ex-member of public works, Corey P. Bissell. Each was held in $2,000 bonds for his appearance in the court above.

It was reported that if Salsbury does not take the witness stand today that warrants will be issued for the arrest of some of those implicated by Salsbury in the conspiracy part of the deal, and it was partly confirmed by Assistant Prosecuting Attorney Ward, who has the case in hand.

An attorney who is friendly with the prosecutor's office is authority for the statement that there will be fourteen in the list, and that one of the cases will have to be tried in Ottawa county, as it grows out of the Nichols case, which was tried in that county.

It is expected that when Attorney Walker resumes his cross-examination of Salsbury in the Ellen case he will open up the matter of the attempted amendment of the first railway franchise, and another line of sensational developments is expected.

Still another sensational chapter is the history of attempted crimes which is promised for the trials is relative to a plan to sell the municipal lighting plant of this city. It is said that Salsbury had a plan to create a prejudice against the plant, on the ground that it was expensive and poorly managed, and have a bill passed by the legislature to allow the board of public works to sell it. His plan included the purchase of the plant by a stock company to be organized and a consolidation with the Edison company and two water power companies in this vicinity.

Prosecutor Ward stated last evening: "We have evidence in a number of our cases to corroborate the story told by Mr. Salsbury. We have much evidence of this sort in some cases; none in others as yet. We are perfectly satisfied of the truth of every detail of the story related by the witness, and have reason to believe that his sworn statement alone would justify the issue of warrants."

It is reported that those who waived examination yesterday will plead guilty in the superior court of having accepted a bribe from Salsbury and that they will be used as witnesses by the prosecution in the trial of those who insist on a hearing. This report was substantiated by Attorney McDonald, who said yesterday that he understood they intended to plead guilty. In this connection it was also stated that those who plead guilty will be let off with a fine, without imprisonment, when they go into the superior court.

WITH A GOLD PEN

The Treaty Was Signed in Panama With Much Celerity.

Panama, Dec. 3.—With a gold pen, purchased for the occasion, the canal treaty was signed at 11:30 a. m. Wednesday, without amendment.

Minister of Foreign Affairs Esprilla arrived here from Colon Tuesday with the treaty. Senor Esprilla drove immediately to the government palace, where the chest containing the treaty was placed on a table in the main office. At 4 o'clock in the afternoon members of the junta and of the ministry assembled in the grand saloon of the palace. Surrounded by the spectators, who were seated about the table, Senor Esprilla opened the chest and withdrew the cotton wrappers, finally bringing to light the treaty, enveloped in the Panamaian flag.

When every preparation had been completed for the actual signing of the treaty a government decree was adopted setting forth that:

"Whereas, Celerity is indispensable to secure an efficacious and immediate fulfillment of this obligation on the part of the United States and the junta of the provisional government formed by the unanimous will of the people of the isthmus and possessing full, sovereign powers over the isthmus territory, be it

"Resolved and decreed, That the treaty be approved in all its parts."

Washington, Dec. 3.—Two telegrams, one from the junta and the other from the minister of foreign affairs of the republic of Panama, announcing the approval of the Hay-Buena-Varilla treaty were received by Minister Buena-Varilla from Panama.

The treaty as approved and signed by the Panama junta will be promptly returned to Minister Buena-Varilla at Washington.

SOIL NOT INJURED

By Raising of Sugar Beets, Says Secretary Wilson.

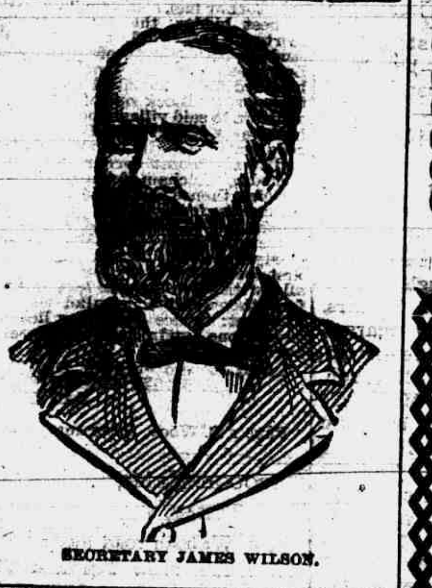
JUNKET FROM WASHINGTON

Inspecting Sugar Beet Factories of State—Wilson Encourages Farmers to Raise Beets and Utilize Bi-Products From Factories.

Saginaw, Mich., Dec. 2.—Secretary of Agriculture Wilson, with the congressional sugar beet party, arrived here late Tuesday afternoon by special train.

Rochester was the first place visited after leaving Detroit, and there Secretary Wilson delivered a speech in which, in substance, he repeated at other places visited. Secretary Wilson talked chiefly of the possibilities of the soil and the importance of seed selection. He stated he had made up his mind since beginning the trip to next year send to the vicinity of every sugar factory in Michigan expert soil physicians to look over the ground, conduct investigations and report to his department.

He counselled the farmers not to be alarmed at statements that the cultivation of beets would ruin the soil. On the contrary, he said, it would be found beneficial with proper and systematic rotation of crops, bringing in grass every few years. He declared that Michigan soil would stand the cultivation of sugar beets indefinitely. He also pointed out the importance of using pulp for feed, and regarded it as a valuable bi-product, which should not be allowed to go away to outside markets that are opening for it.



SECRETARY JAMES WILSON.

From Rochester the run was made to Caro, where dinner was taken, and where Secretary Wilson spoke much along the same lines. From Caro the run was made to this city and a visit paid to the Saginaw factory and also the sugar beet works at Carrollton.

The factories at Sebewaing, Bay City and Saginaw will be inspected today. This evening a banquet will be tendered by the East Saginaw club. Thursday the party will visit factories at St. Louis and Alma. The plan is for the party to inspect on Friday factories at Owosso and Lansing.

Caro, Mich., Dec. 2.—Secretary Wilson, in a 25-minute talk to farmers on his visit yesterday to the sugar beet factory here, said he had come to Michigan to see the sugar beet factories, but had no idea of finding them on the extensive scale of this one. He told the farmers how carefully his department at Washington was watching every phase of the beet sugar proposition.

He expressed the greatest surprise to find that the beet pulp here was not being utilized, which, he said, from the 1,200 tons of beets which were daily being converted into sugar was worth $1,000 per day. He said it tempted him to resign his job in Washington, give up his farms in Iowa and locate in Caro, that he might utilise this waste, and that it would pay him far better than the jobs above referred to.

MARRIED BY PROXY.

Beautiful Cuban Girl Joins Her Hubby in New York.

New York, Dec. 3.—Mrs. Rafael Lopez, a Cuban of unusual beauty and some wealth, arrived in New York Wednesday from her native land to greet her husband, to whom she had been married by proxy on Nov. 19 last. Rafael Lopez, the groom, was at that time in this country and she was in Cuba. Lopez met the young woman while on a visit to his father's home in Cuba.

She was Anna Rosa Fernandez y Wegener, an orphan. They became engaged and plans were made for a wedding, which was to have taken place several months ago. Owing to deaths in the family of the young girl the wedding had to be postponed and young Lopez was forced to return to the United States. Then it was decided to have the marriage ceremony performed in Cuba, the groom's father acting as his proxy and giving the usual pledges and signing the marriage contract for his son. Young Lopez is a mechanical engineer, employed in Paterson, N. J.

SALSBURY CONFUSED.

His Memory Faulty on Certain Dates and Transactions.

Grand Rapids, Mich., Dec. 2.—Although the features of the examination of ex-City Attorney Lant K. Salsbury in the water boodle cases in police court Tuesday were lacking in sensational disclosures, his testimony at times was interesting because of voluntary statements made by the witness while under cross-examination. His testimony implicated no new names with the scandal, but his eagerness to volunteer information of a character he desired to place before the people and his lapse of memory regarding corroborative evidence were prominently noticeable.

Salsbury's testimony was completed during the morning session of court in the cases of Alderman Depagter and ex-Aldermen Muir and McCool, but that against Aldeman Ellen occupied the attention of Judge Haggerty all the afternoon, and the cross-examination was not completed when court adjourned.

The direct examination was brief in each case, it being confined by Assistant Prosecuting Attorney Ward to the payment of money by Salsbury to the aldermen for their vote and influence in carrying the water deal through the council.

At the afternoon session, after Salsbury had told his story of passing the boodle fund to Alderman Ellen, Attorney H. H. Walker put him under a rigid cross-examination and kept him under fire several hours. Salsbury's memory was faulty regarding time and place of certain important conversations and transactions in his boodle scheme of 1900, and Mr. Walker took advantage of this weakness to embarrass the witness in all vital points of the case.

It was reported last night that ex-Alderman Donovan, Aldermen Mol, Johnson, Stonehouse, Slocum, McLachlin and Losier and Carrey P. Bissell, who are now under arrest, will go into court today and waive examination. In this case they will be held to the present term of the superior court for trial. This will conclude the preliminary examinations of the batch arrested through Salsbury's confession.

It is expected that the prosecuting attorney will issue warrants at once for the arrest of a few of those who were implicated by Salsbury Monday. The prosecution refuses to state who will draw the next prizes, but it is said warrants are already prepared.

MRS. M'KNIGHT'S TRIAL.

Money Her Motive For Murder, Charges the Prosecutor.

Cadillac, Mich., Dec. 2.—That both Mrs. John Murphy and her babe, also, came to their death through strychnine poisoning, administered by Mrs. Mary McKnight, was openly charged by Prosecutor Smith in his opening address to the jury Tuesday afternoon. He declared that Mrs. McKnight forged the mortgage given by John Murphy on his homestead for $200, raising the amount to $600. This he cited as one motive for the crime.

Murphy, furthermore, had an insurance policy for $1,000 in the Maccabee order. That Mrs. McKnight might come into possession of the homestead and also become the beneficiary in his policy by putting Mrs. Murphy and her babe out of the way. The prosecutor, however, made no reference to the so-called confession which had been so prominently mentioned during the early stages of the case.

During the greater part of the day Mrs. McKnight sat with head bowed as usual, and with her fingers to her ears, presumably to prevent her hearing of any of the testimony.

DEFENSE MAKE SHOWING.

Red Letter Day In McKnight Murder Trial.

Cadillac, Mich., Dec. 3.—The second day's trial Wednesday of Mrs. Mary McKnight was somewhat of a red-letter day for the defense.

In the first place, the people failed to show, as they stated they would in their opening address to the jury, that there were no mice in the Murphy home, which would serve as a pretense for Mrs. McKnight purchasing strychnine.

The prosecution put Dr. Pearsall on the stand again and he flatly contradicted his statement of Tuesday. He now states that a person can take only such a maximum dose as will produce the poisonous effect on the system, and that maximum dose depends entirely upon condition of the system

This latter statement was corroborated by Dr. Reed.

By the prosecution's own witnesses the defense showed that the defendant had always borne the very best reputation in the community in which she had resided, and further brought out the fact that Murphy had been bothered with asthma for three or four years; that his ailment continued with such spells and that he would almost smother until relieved by a medicine which he was taking.

Dan Murphy and James Murphy, also brothers of Mrs. McKnight, swore to John's severe ailment with asthma. The witnesses further stated that Mrs. McKnight and her brother were always on the best of terms and that they were as affectionate as brother and sister usually are. The Murphy boys have the utmost confidence in their sister.

Badly Injured by a Fall.

Owosso, Mich., Dec. 2.—Andrew Deboer, foreman on the new schoolhouse at Elsie, was probably fatally injured Tuesday. He fell from the front gable of the building to the ground, a distance of sixty-four feet, and sustained a compound fracture of each leg, beside internal injuries.

State Treasury Balance.

Lansing, Mich., Dec. 2.—The balance in the state treasury at the close of the month Nov. 30 was $1,395,564 08. The heavy payments to counties on account of the semiannual apportionment of primary school interest money accounts for the reduced balance.

Another Grade Crossing Victim.

Mrs. Hodge Died In Hospital.

Salt Lake, Dec. 2.—Mrs. Aurora Hodge, the young woman awaiting trial for the murder of William X. Ryan in this city last July, died at a hospital last night from the effects of an operation performed Sunday night. Mrs. Hodge's home was in Dennison, Iowa. A few months ago she startled the police authorities of Grand Rapids, Mich., by appearing at police headquarters in that city and announcing that she wished to be arrested for the murder of a man in Salt Lake. At the preliminary trial in this city, however, she entered a plea of not guilty.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage (whereby the power of sale in said mortgage contained has become operative) dated executed and delivered on the 29th day of September A. D. 1900, by Joseph H. Brown and Annie Brown, his wife, to the Tecumseh State Savings Bank, and recorded in the office of Register of Deeds for Lenawee County, State of Michigan, on the 4th day of October A. D. 1900 in Liber 130 of Mortgages on page 510, and upon which there is claimed to be due at the date hereof the sum of seven hundred sixty-seven and 87—100 dollars, including taxes paid by the undersigned upon said mortgaged premises and interest thereon; and no proceedings at law or in equity having been taken for the collection of said mortgage debt;

Notice is therefore hereby given that, by virtue of said power of sale, I will, on the 1st day of February A. D. 1904, at ten o'clock in the forenoon of said day, at the east front door of the Court House in the City of Adrian, Lenawee County, Michigan, (that being the place where the Circuit Court for said county of Lenawee is holden), for the purpose of realizing the mortgage debt aforesaid, and said taxes, with interest thereon, together with the costs of this proceeding (including a lawful sum as an attorney fee), sell, at public vendue, to the highest bidder, the following lands in said mortgage conveyed, to-wit:—That parcel of land in the village of Tecumseh, County of Lenawee, and State of Michigan, known, bounded and described as follows, viz:—All that part of Block one of Henry L. Hewitt's addition to said village bounded by beginning in the east line of said Block about eighteen rods south from the north-east corner thereof and at north-east corner of lands (formerly) owned by Fincham (formerly by Stevens), and running thence north in east line of said Block eighty-six feet; thence west, parallel with north line of land deeded by Teachout to Waters January 17th, 1900, one hundred and thirty-five feet; thence south, parallel with first course, thirty-six feet; thence west, parallel with second course (extended), sixty-three feet; thence south, parallel with first course, fifty feet; thence east, parallel with second course, one hundred and ninety-eight feet to beginning.

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. A Winter in California.

The idea that it requires a small fortune to spend the winter in California is abandoned by those who know how comfortable and inexpensive the trip across the continent is today. A double berth in tourist sleeping car Chicago to California costs only $6. A ticket via the Chicago, Milwaukee & St. Paul and Union Pacific line Chicago to San Francisco, Los Angeles, or to any one of many other important California points, costs only $33. This rate will be in effect until November 30. It is advisable, therefore, to write today for complete information. ROBERT C. JONES, Michigan Passenger Agent, 32 Campus Martius, Detroit, Mich.

THE CHURCHES.

Consecration will be observed at the Christian Endeavor Society Sunday night. Roll call. The presence of every member is desired.

Subject of sermon at the Methodist church Sunday morning will be, "Walking with God." Evening, a song sermon, subject, "The teaching of the old hymns." A special invitation is extended to young men.

The pastor will preach in the Presbyterian church Sunday morning on the theme, "Life and Love." Evening subject. "Christian Optimism."

The Universalist society last Sunday morning held a memorial service which was of especial interest to the older residents and entertaining to the whole congregation.

It was an appreciative audience which listened to the appropriate and effective music rendered by ladies quartette composed of Misses Nina McClure, Edith Majors, Lora Leonard and Edna Gaston with Miss Bessie Bates as organist.

After the reading of the first Psalm by the pastor, the purpose of the occasion was appropriately set forth followed by a brief historical sketch of fortunes of Universalism in Tecumseh. Music followed by reading of the "Honor Roll" of promoted members with brief and appropriate comment so far as possible, on each one and the lesson from their lives of loyalty and efficiency for the benefit of those remaining. An exquisite and touching tribute prepared for the occasion by Mrs. A. J. Whiting, a former long member of this church was read and greatly enjoyed. Services closed with singing "Nearer My God to Thee" by the quartette augmented by congregational singing.

It was throughout a very interesting service. Several former members of the parish were in attendance, among these was Wm. Bowen of Kansas, a nephew of Mrs. Wightman. Particular credit is due the choir management under Miss Bessie Bates for the beautiful music.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. Postmaster

CHARLES BIDWELL

Died at his residence Wednesday morning of

HEART FAILURE.

Death occurred at six o'clock.

Wednesday morning when the news was heard that Postmaster Charles Bidwell was dead no one could think he had heard straight. Tuesday noon the HERALD reporter heard that he was better, that in a few days he would be at the postoffice again and on Tuesday evening he was cheerful, in good spirits and planned what would be done the next day. For two weeks he has been ill with pleurisy, but for the last few days had been free from pain and steadily gaining in strength each day. Wednesday morning he was attacked with heart failure and at six o'clock passed away to the surprise and sorrow of every one.

Charles Bidwell was born in the state of New York in May 1831, making him 72 years old at the time of his death. Came to Tecumseh when a young man and has resided here for years, except the interim when he was sheriff and lived in Adrian, but he was always a Tecumseh man, known and respected by everyone. In Feburary of last year he accepted the appointment of postmaster, since holding the office and before that at different periods has been justice of the peace, sheriff and deputy sheriff.

Charles Bidwell was a good, honest man, a strict republican, always loyal to his party and in every instance loyal and outspoken for his friends. He was always of a cheery and cheerful disposition and thought much of by those who knew him best. The HERALD never had a better friend than Charles Bidwell and he will be sadly missed for years by a large number of Tecumseh people. His postoffice business was run for the benefit and accommodation of the people and according to the letter in every way.

He leaves a wife and two children, Charles J., of Tecumseh, and William of Jackson. He was a member of the Masons and G. A. R. societies. The Masons will attend the funeral in a body, but it will not be held under the auspices of that society. The funeral was held at two o'clock today, conducted from the house by Rev. W. F. Jones.

THE ELECTRIC ROAD

Which will run primarily from

TOLEDO TO JACKSON

Will be commenced early in the spring and perhaps yet this winter.

Mr. S. A. Foster of Toledo, who is interested in the project of the new electric road, was in Tecumseh yesterday and informed the HERALD that the project is progressing nicely. Mr. Foster was with the Toledo & Western company until the cars were in operation. Assisted in securing the right of way and says this line will be built equal to and very much like the Toledo & Western, and at the same time that the line is being built from Toledo to Jackson it will be built from Manchester to Adrian and from Petersburg to Adrian and Petersburg to AnnArbor.

A road with all these connections will be a great thing for Tecumseh and the work cannot commence too soon.

Mrs. Adah Case.

Mrs. Adah Armstrong—Case died at her home Wednesday, Nov. 25, after suffering terribly for a few days of cancer of the stomach. Mrs. Case was the daughter of Elvira and Augustus Armstrong and was born Dec. 11, 1857. She was married Dec. 3, 1874 in Chelsea to Norton S. Case. Of this union four children were born, Jessie, who is now Mrs. Max Richman of Chicago; Clifford C., of Washington; Isabelle and Bayard, who were with their mother at the time of her death.

Mr. Case died in Manchester, March 8, 1890 and scarcely a month after, Mrs. Case moved her family to Tecumseh, where she has since resided, following profession as nurse. The funeral was held Sunday, Nov. 29 at the house, followed by services at the Episcopal church of which deceased was a member, Rev. C. C. Kemp officiating.

Mrs. Case was well and favorably known to nearly every one in Tecumseh, who all extend sympathy to the bereaved children. Those who attended the funeral from away were Mrs. Max Richman of Chicago, Mrs. A. A. Hawkins of Detroit, Mrs. Jane Warren of Battle Creek.

CARD OF THANKS.

We desire to extend thanks to the friends, who so kindly assisted us during the sickness and burial of our mother.

MRS. MAX RICHMAN.
MISS ISABELLE AND
BAYARD CASE.

CLUB NOTES.

The program for the Monday club for Monday, Dec. 7 is as follows:

The Omnibus Bill and the Kansas-Nebraska Bill—Mrs. N. A. Howland.

The fugitive slave law. The under ground railroad—Mrs. G. R. Gillespie.

The Dred Scott decision. The abolitionists—Miss Mae Garlinghouse.

The Beecher Family—Mrs. Huey.

Current events—Miss Phelps.

Leader—Mrs. Weller.

The Research Circle met at their usual hour Tuesday afternoon, December first. Mrs. Delmar Finch gave a paper entitled "A Cruise in the West Indies on a Hamburg-American Line Steamer." Mrs. Crosby read Chapter V, the conclusion of the original story, which has been very interesting all through. A discussion of questions on South-America was conducted by the leader, Miss Christine Wilson. Quotations from Michigan writers were read in response to the roll call.

Jealousy in a husband is more often a sign of self love than of wife love.

The

SCHOOL BOARD

Received an answer from

MR. CARNEGIE

Yesterday.

In which he accepts the propositon of the school board of Tecumseh and will make a gift for the public library of $10,000 instead of $8,000 and the board will now be able to build the building as desired.

Tecumseh is in favor of this gift from Mr. Carnegie with the exception of about three persons, who are generally opposed to anything which will benefit the town. Hudson does not desire it, because it has no library at the present time, and some of her citizens would have to put up for books, so they will still live in the dark.

Tecumseh has always been fortanate in matters of this kind, and now give proper credit to the school board for prompt and judicious action in this matter.

NOTED PEOPLE

Little Clippings about persons we all of us know

SELECTED

From different Newspapers.

Herbert Spencer's autobiography was finished and put in type some twenty years ago. Two years ago the veteran philosopher revised it and made some additions, and it was laid aside again to await his demise. Now rumor states there is a likelihood that it may be published before Mr. Spencer's death, the reason being that he is deeply interested in the educational controversy now in progress, and he deals with this subject quite extensively in his work, he thinks it possible publication might influence the public mind.

Mrs. Hugh Fraser, sister of Marian Crawford and widow of a former British minister to Japan, has just published a novel which promises to have great success. It is based upon one of the most interesting incidents in Japanese history, and is called "The Stolen Emperor." Mrs. Fraser was born in N. Y. but has spent most of her life in England and Japan, where her husband was connected with the British legation for twelve years.

Mme. Rejane, the French actress, has secured a divorce. The finishing touch has now been applied to her art.

CONDENSED ACCOUNT.

Commander Wainwright, who was on the ill-fated Maine at the time of her destruction, says that after the terrible catastrophe a number of the survivors were conveyed by the Bache to the quarantine hospital at Key West.

It appears that one of the wounded jackies was questioned as to what he knew of the frightful explosion.

"Well, sir," replied the sailor, "I can't say that I know much of it, I was a corking it off in me hammock, sir, when I hears a h— of a noise! Then sir, the nurse says, "Sit up and take this."

WILLING TO OBLIGE.

As is well known, Senator Boies Penrose is intensely loyal to the party organization regardless of his personal predilections or desires. An amusing instance of this was recently furnished by his colleague, Senator Quay. Mr. Quay says that in a friendly spirit of chaff he once intimated to the junior senator that he ought to go in more actively for social honors at the capital during the season. "Furthermore," added the senator, "you ought, my dear Penrose, to get married. Really, you ought. A senator of your age should not remain unwed. For the sake of the organization, you should at once select a wife; indeed, your chances for re-election would be greatly increased should you marry some clever girl who would help you socially."

Mr. Penrose took the matter very seriously. After a moment or two of deep reflection, he asked quite blandly:

"A thing like that really count?"

"It certainly does," responded his colleague.

"Very well then," replied Mr. Penrose; "let the organization select the young woman and I'll marry her!"

MRS. ANTHONY HOPE.

Quite the sensation of the London literary and theatrical worlds was the recent marriage of Miss Elizabeth Sheldon and Anthony Hope Hawkins, the distinguished novelist who, under the pen name of Anthony Hope, wrote the "Prisoner of Zenda;" "Dolly Dialogues" and other popular books.

Mrs. Hawkins, who has just turned twenty-one, is the daughter of Charles H. Sheldon, lessee and manager of Carnegie hall, New York, and sister of Suzanne Sheldon, the actress. Her brothers have been famous Yale athletes.

Mrs. Hawkins is a beautiful blond with Titian red hair and a superb figure. Her early life was spent in Rutland, Vt., where she was born. She is an accomplished musician and is fond of outdoor sports. Anthony Hope is tall, slender and quite bald.

* * *

Henry Sienkiewicz, the Polish author, who until recently was the idol of his compatriots, the entire Polish people having celebratrd the twenty-fifth anniversary of his entrance into literature, when they made him a present of a magnificent castle surrounded by a park, seems to have suffered a permanent eclipse in public esteem. Not long ago a Warsaw paper asked Sienkiewicz what in his opinion was the best Polish drama of recent years. The author replied that all Polish literature was worthless. This reply caused a tremendous sensation and a great revulsion of feeling against the author and since then he has been the object of violent attacks in the Polish press. Sienkiewicz's most famous book, Quo Vadis, which was translated into many languages, was published in 1896.

Stitt—Whelan.

The marriage of Miss Minnie A. Stitt and Fred L. Whelan, of Franklin, was solemnized at the home of the bride's parents, Mr. and Mrs Fred Stitt, Wednesday afternoon, Dec. 2.

The bride was gowned in pearl grey satin verbia and carried bride's roses. The groom wore the conventional black. They were unattended and at six o'clock, the appointed hour, they took their places beneath a bower of smilax and cut flowers, where Rev. E. D. Rose spoke the words which made them man and wife. A three course supper was served. They received many beautiful presents.

The bride is well known to Tecumseh people, having attended school here, and is well liked by all who know her. Mr. and Mrs. Whelan will reside in Adrian. There were about 60 guests present and among those from away were Mr. and Mrs. S. D. Smith, Fred Smith and wife, of Onsted; Jas. Osborne and wife, Byron Osborne, of Genevia; Mr. and Mrs. W. J. Taylor, of Britton.

Mrs. Maria Washington.

Mrs. Maria J. Washington died between four and five o'clock Thursday morning, Dec. 3, at her home, No. 8 River street. Death was caused by congestion of the stomach. She had been confined to her bed since August 5 last.

Maria J. Bayes was born Jan. 22, 1828, in New York state. She was married 41 years ago in Tecumseh to George Washington, who, with one son, William, survives her. Since her marriage she has been a resident of this city. She was a consistent Christan woman and for many years a member of the M. E. church.

The funeral services will be held at the residence tomorrow afternoon at 2 o'clock by Rev. J. I. Nickerson. The burial will be at Oakwood.—Adrian Times.

Fight will be bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free

Paine's Celery Compound

Permanently Cures Sick and Nervous Headaches that Make Life Miserable.

Sick and nervous headaches are amongst the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life bearing a load of misery and wretchedness that is terrible to think of.

Headaches as a rule, result from a disordered condition of the nervous system. Mental excitement, loss of sleep, bodily fatigue, and disordered digestion are exciting causes. When the brain becomes tired and debilitated, the whole nervous system is weakened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headaches invariably follow. To cure and prevent headache, the nervous system must be strengthened and vitalized. The most persistent cases of headache, nervous feebleness, and sleeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructant of the nervous system. Mrs. Henry Westrick, St. Clair, Mich., tells of her release from suffering as follows:—

"I have been troubled with dyspepsia and sick headache for a number of years. About every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

THE PERFECT WAY.

Scores of Tecumseh citizens have learned it.

If you suffer from backache,
There is only one way to cure it.
The perfect way is to cure the kidneys.
A bad back means sick kidneys,
Neglect it, urinary troubles follow.
Doan's Kidney Pills are made for kidneys only.
Are endorsed by Tecumseh people.

Mr. C. Patterson, the well known sexton residing in the south eastern section of Tecumseh, says: "For over a year I had a soreness and pain in the small of the back at times quite severe more especially if I did a hard day's work or took cold, for it always settled in my kidneys. The kidney secretions were also discolored and irregular and I had all symptoms of aggravated kidney complaint. I heard several people praising Doan's Kidney Pills so concluding to try them I got a box at C. A. Wright's drug store and commenced the treatment. I found it just suited my case for it helped me right from the start. It stopped the pain in my back and regulated and cleared up the kidney secretions. I have no hesitation in recommending Doan's Kidney Pills to any one having any difficulty with their kidneys."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

Genuineness is genius.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE OLD FOLKS HAD IT

It was as Common in Olden Times as Now to Have Rheumatism.

Don't "grin and bear it" any longer. It's all right to bear pain heroically when you have to, but it's unnecessary in this case. If you don't believe it let us tell you what we are doing for others. It's in your blood. Uric acid does it. We can drive it all out of your system. We have been at it twenty years, in a quiet way, and have made thousands of friends by doing them good.

Our doctors have discovered a secret. Athlophoros will act right on the Uric acid, and you will be surprised to see the aches and pains gradually leave you. The twinges and cricks will become less and less, and you will find yourself going about your work naturally.

You will feel brighter, happier, and as if a big load had been taken away. One bottle of Athlophoros, from your druggist, will show if it is to help you, and would be cheap at ten times the money if it relieves your suffering. Send $1 to The Athlophoros Co., New Haven, Conn., if your druggist shouldn't have it.

PINE ROOT COUGH SYRUP CURES

HEALTH

"I don't think we could keep house without Thedford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakened kidneys

No Doctor

is necessary in the home where Thedford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Thedford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhœa, constipation, colic and almost every other ailment because the stomach, bowels liver and kidneys so nearly control the health.

LIFE PLANT

Renews Life.

The Very Best TONIC Ever Discovered.

The blood is a great source of health or disease in the human system. If the blood is pure, the individual is strong and healthy; if the blood is impure or diseased then there is sickness and disease in the whole system.

Impure blood causes such diseases as Eczema, and Scrofula. LIFE PLANT effects its wonderful cures by acting through the blood. It is impossible for that blood poison, uric acid, or any other blood impurity to exist in the presence of our harmless medicine. The phenomenal success of LIFE PLANT in the many forms of blood diseases, warrants us in stating that it is a positive cure for Eczema and Scrofula. Read what Mr. M. P. Hobbs says of LIFE PLANT:

Wilmot, O., Jan. 9, 1903.

The Life Plant Co., Canton, Ohio.

Gentlemen:

Two years ago I contracted a very aggravated case of Eczema. I tried many kinds of medicine called sure cures, but all failed. I was pursuaded by a friend to give LIFE PLANT a trial, and by taking two bottles was cured. To get the real truth of this statement try LIFE PLANT and be convinced.

Yours truly,
M. P. HOBBS.

Better get LIFE PLANT next time. It's a wonder.

TYNER PROTESTS

Thinks President's Charges Extraordinary and Dangerous.

ADDRESSES LETTER TO TEDDY

Merely Wants to Go On Record—Declares Bristow Garbled, Misquoted and Falsified in His Report—Has Faith in Barrett.

Washington, Dec. 7.—Mr. James N. Tyner, who was assistant attorney general for the postoffice department until deposed on account of matters connected with the postoffice investigation, has sent a letter to President Roosevelt. In part it says:

"1471 Kenesaw avenue, N. W., Washington, D. C., Dec. 2, 1903.

"The President. Sir: In your official statement as president of the United States, addressed to the American public, in connection with the report of Fourth Assistant Postmaster-General Bristow, on the alleged postal frauds, you make certain statements concerning my supposed connection therewith, which I take the liberty of answering in order that I may properly go upon your official records.

"I do not desire to question your good faith or sincerity in accepting the conclusion of your subordinate, Mr. Bristow, and in dignifying them with the weight of your high official position, but has it occurred to you that pending the trial of the three indictments against me, based on the allegations of the report, and without having heard one word from me in my defense, your premature and unwarranted announcement of my assumed guilt and your call to the court and jury to indorse the same is, to say the least, extraordinary and dangerous?

Denies Every Charge.

"I desire again specifically to deny every one of the veiled charges made by Mr. Bristow in his report and to call your attention to the fact that not one direct or specific charge is made against me in the conduct of my high office, nor has, nor can, one cent of gain be traced to me. If my life is spared I shall fully refute all the surmises and insinuations of Mr. Bristow and shall be able to show the reasons which led him to withhold from you full data and to garble, misquote and falsify that which he did submit to you.

"I also desire to state that if any of 'the friends of Tyner' have, as you alleged, advanced the theory that in this case the chief offender was 'my nephew Barrett,' and that my alleged offenses were due to my failing mental and bodily powers, they did so without my knowledge or assent. I am confident that the relations of Mr. Barrett with me and my department were as innocent and honorable as I am sure were all my motives and acts.

"I have ried by forty odd years of faithful service to my country to prove my zeal for faithfulness and honesty in the public service, I now say to you, the president of the United States, my chief accuser, as if it were the last word I shall ever utter, that in your well-recognized and honorable zeal for the public good you have allowed yourself to be deceived and imposed upon; and while I cannot hope for a hearing at your hands, I shall at least give myself the wretched solace of having denied these wrongs and of having demanded that hearing which right and justice ought to accord me.

"Very respectfully,

"JAMES N. TYNER."

NOT BE NEEDFD

Neither Protection or Tariff, Says Secretary Wilson.

WHEN PROBLEMS ARE SETTLED

Use of Bi-Products and Cultivation to Produce Heaviest Tonnage—He Is For Protection—Addressed Owosso Citizens—Fordney Talks.

Owosso, Mich., Dec. 5.—"I came to Michigan to learn two things," said Secretary of Agriculture Wilson Friday in his speech to the crowd at the local beet sugar plant. "The first thing I wanted to learn was the most economical method of feeding the bi products of the factories, and the second thing was the best method of cultivation to insure the heaviest tonnage. When these two problems are solved by you, you won't need protection nor a tariff. Your representatives in congress are fighting like bulldogs for that protection, and I am with them."

The secretary spoke of the relative nutritive value of pulp and corn as a fattening feed and of the fact that the department is trying to solve the problem of raising good seed instead of sending out of the country for it, and expressed the hope that success is not far in the future. He also said he had learned a great deal from his trip through the state, and his concluding words clinched his hold on the hearts of Shiawassee county farmers.

"I am only your hired man," he said, "and work for you for my board and clothes, and, maybe, my washing thrown in. I'm going back to Washington now to put in my time in an office. By George, that is where the headaches are! I don't get any headache out here in Michigan. Good-bye and may God bless and prosper you."

Ovation to Fordney.

The visit of the party to this city was intended to be in the nature of an ovation to Congressman J. W. Fordney, who was with the sugar beet junketers, as the farmers are grateful for his gallant fight in the last congress for beet sugar. They wanted to hear him talk, and, partially to give Mr. Fordney a chance, Senator Burrows during his speech at the sugar plant was notified that there was but ten minutes before the train left. Mr. Burrows, however, used the time and Mr. Fordney was forced to relinquish his desire to thank Mr. Wilson publicly for coming to Michigan.

Congressman Fordney was informed that Thurber, of the United States Export association, had answered Mr. Fordney's recent denunciation in the house of representatives.

"Thurber," exclaimed the congressman contemptuously. "That fellow? You know that United States Export association of which he is president? Well, that's a high sounding name, but how much do you suppose is its capital stock? Just $500. This association leads people to believe that it should have some say in this Cuban business because of its large dealings with that republic. I have searched the records at Philadelphia, New York and Baltimore, and I fail to find any record of where they have shipped 15 cents' worth to Cuba or anywhere else. Thurber, huh!" and the congressman fairly snorted his disgust.

STATE CAN'T INTERFERE.

Judge Wanty Declares U. S. Law Supreme in Fish Case.

Grand Rapids, Mich., Dec. 5.—In United States court Friday Judge Wanty made short work of Warden Chapman's contention that the state law was paramount to the federal statutes in the matter of catching fish for hatchery purposes in Lake Superior.

The decision given was in the injunction suit of the government against State Game Warden Charles E. Brewster, and the judge continued the temporary injunction restraining them from interfering with the work of the United States fish commission in the state. It will be some time before the final hearing.

The case was brought before the court because of the arrest of S. P. Wires, superintendent of the hatchery at Duluth, and some of the men employed by him, for refusal to allow Brewster to superintend the fishing as provided in the state laws.

Brewster boarded the tugs used by the government at Marquette and confiscated the fish and the tackle used.

"The United States cannot undertake any work where it is not supreme and a government officer could not, in any legitimate function of the government be under the direction and control of a state officer. If the federal statute by which it was intended to confer on the commissioner the right to take, or cause to be taken in the waters of the lakes, such fish as in his judgment is needful for the proper conduct of his duties, is constitutional, that legislation is exclusive, and any act of any state, so far as it conflicts with that legislation, is void."

Wants a New Trial.

Lansing, Mich., Dec. 5.—John E. Muste, the Grand Rapids saloonkeeper who is serving time in Jackson prison for killing a man as the result of the council's refusal to approve his bonds, has appealed his case to the supreme court, a writ of error having been granted Friday.

She Raved, Prayed and Cried.

Owosso, Mich., Dec. 7.—Mrs. Clariss Humphrey Mullins, the noted Chicago spiritualist medium, who was brought here Saturday night by Sheriff Gerow on the charge of kidnaping 12-year-old Hazel Wallace, spent a turbulent Sunday in the county jail at Corunna. The woman petitioned Owosso spiritualists to furnish bail for her, but they refused and Mrs. Mullins raged, prayed and cried, between times making efforts to convert the jail attendants to her religious belief. She will be given an examination today on the kidnaping charge.

BRAVE AMERICANS

Little Band Held 450 Columbians at Bay.

STORY OF PANAMA'S FALL

An Exciting Incident in Bloodless Revolution—Appearance of Battleship Dixie Prevented a Terrible Fight on Colon's Wharfs.

[Correspondence of Associated Press.]

Colon, Republic of Panama, Nov. 23.—There were two days at Colon when a few Americans, under the command of Lieutenant-Commander Witzel, U. S. N., faced a desperate chance and looked it calmly in the face, the happenings here on Nov. 4 and 5. Few Americans know the story.

On Nov. 2 the United States gunboat Nashville, Captain John Hubbard, came into Colon. The next morning, Tuesday, Nov. 3, the Colombian gunboat Cartegena unexpectedly steamed into Colon with 450 Colombian troops on board. At once there was nervous excitement and some of the conspirators were for quitting, declaring there was no chance of success with 450 Colombian soldiers in Colon, and that the opportunity had been lost. Those who advocated secession finally prevailed, however, and Tuesday, Nov. 3, is now known as the "day of independence of the republic of Panama."

With the gunboat Cartagena came two Colombian generals, Amaya and Tovar, and Colonel Torres. They landed from the gunboat early on Tuesday morning and took the 8 o'clock train for Panama, suspecting nothing. Later in the morning the 450 soldiers were landed in Colon and took up their quarters in the old railroad passenger station, Colonel Torres being in command.

Late Tuesday evening Generals Amaya and Tovar and Senor Obaldia, Colombian governor of Panama, were arrested and placed in jail, the declaration of Panama's independence was made and the directing council, or junta, composed of Senores Arango, Arias and Boyd, was duly appointed. The news of the arrest of Amaya, Tovar and Obaldia was not generally known in Colon until Wednesday morning.

Capt. Hubbard Stopped Them.

On Tuesday, shortly after the two generals had left for Panama, Colonel Torres requested the Panama railroad to transport his men across the isthmus. Torres telegraphed for an order from the governor and the railroad officials had a train made up in readiness to move the soldiers as soon as it should be received. The order finally came, but by this time it was too late. Wednesday morning Captain Hubbard, acting upon the obligation of the United States, gave orders that no troops whatever be moved over the railroad.

That morning the news of the arrest of Amaya and Tovar was brought to Colon. The 450 men at once became restive, but at this moment Porfirio Melendez, then agent of the Panama junta, approached Colonel Torres and tried to negotiate with him for the quiet withdrawal of the troops of his command, but his efforts were futile. The Colombians would not agree, and shortly before noon they threatened to attack Colon and kill every American here unless Generals Amaya and Tovar were liberated by 2 o'clock that afternoon.

The Nashville was at once signalled that the presence of Captain Hubbard was needed on shore. The landing force at Captain Hubbard's command was woefully small. Only forty men and two one-pounder guns from the Nashville were landed and sent to the freight house of the Panama railroad. This force was in command of Lieutenant-Commander Witzel. All the entrances to the freight house were fortified with bales of cotton and the guns mounted; this was done by 2 o'clock. But the Colombians did not carry out their threat.

It was agreed between Captain Hubbard and Colonel Torres on Wednesday night that each should withdraw his troops until morning, and they did so.

A few words describing the theater of the events are necessary. The shore end of the Royal Mail pier joins the land thirty feet west of the seaward corner of the freight house. It is only thirty steps from the center entrance of the freight house to the gates of the pier.

Early Thursday the forty men and the two guns from the Nashville again came ashore and took up their positions of the day before. A score of Americans, residents of Colon, had also joined the defenders.

Bought Off Col. Torres.

Thursday morning was spent by Senor Melendez in further negotiations with Colonel Torres, and finally for $8,000 gold Colonel Torres promised to embark his troops on board the Royal Mail steamer Orinoco, then in port, and be transported to Sovonilla. This sum was to be paid when the troops were on board the Orinoco. At 4 o'clock his men obeyed his orders and began to gather on the Royal Mail pier, where the Orinoco was moored.

Melendez supposed the soldiers were on board the Orinoco when he turned over the money, but he was mistaken; they had not embarked and were still on the pier. Torres returned to his men with the money. The soldiers at once emphatically refused to board the steamer unless their two generals went with them. This sudden development called for decisive action on the part of the Amricans in the freight house, now numbering some seventy men, and there was no hesitation. The step taken was dangerous and provoking but one that the circumstances demanded. The line of cotton bale defences was quickly swung out from the freight house and reconstructed, facing the pier. This line was not more than forty feet from the wooden gates at the shore end of the pier, and the Colombians were fairly cornered. They had sworn not to board the Orinoco without their leaders, and they were ready enough to fight.

The Americans, lined up behind the barricades, guns in hand and eyes straining to notice that first aggressive act on the part of the enemy which would force the beginning of an engagement, felt that the serious time of the day had come. A fight could only result in fearful slaughter on both sides. The Colombians still called for their generals and at the same time began edging along toward the short end of the wharf. Still the Americans did nothing but watch and wait.

The two forces remained watching each other thus for an hour. Darkness came while they were still facing each other. The danger of a fierce close range conflict was as real as ever, but not a man of the small American garrison flinched.

At 7 o'clock a steamer's lights were seen rapidly approaching Colon. It was the Dixie, with over 400 American marines on board. All day long she had been awaiting with anxiety, now she was coming in the nick of time. The Colombian soldiers, too, saw the lights of the Dixie and at once commenced, with common accord, to file on board the Orinoco. Men breathed more freely at the sight. In less than an hour 200 marines were on shore. Then the situation was safe, and the two days at Colon, the dangerous incident of the bloodless revolution, were over. At 8 o'clock the last of the Colombian soldiers had passed up the Orinoco's gangway, the steamer's lines were cast off and slowly she warped away from her pier.

DOWIE SQUARES HIMSELF.

Establishes Harmony With Creditors by Showing His Wealth.

Chicago, Dec. 7.—By a stroke of diplomacy, John Alexander Dowie has established harmony between Zion, its receivers and its creditors in and out of court. He proposes to settle with his immediate creditors, to arrange with others on a reasonable time basis and to end the receivership.

At a conference Sunday between the attorneys representing the heaviest creditors, Dowie showed the lawyers a statement setting forth Zion's estate at $14,000,000 above all liabilities. He exhibited large orders for lace and candy. He showed a draft for $50,000 from a well-wisher and declared he could draw for $200,000 more on one of Zion's friends in Wisconsin.

Dr. Dowie's present display of figures and his offers of settlement were satisfactory to the attorneys.

Alleged Murderer Captured.

Morristown, N. J., Dec. 7.—After an all-night chase by a posse over the mountains near here Frank Bectasa, a Hungarian miner, was captured Sunday and placed in jail here, charged with killing Minnie Root, the 10-year-old daughter of Daniel Root, foreman of a mine at Hibernia, N. J. Bectesa was discharged from the mine a week ago. Saturday night while intoxicated he visited the house where the Roots lived and was ejected. A few minutes later two shots were fired through the window, one of them striking the daughter in the head and fatally wounding her. A posse immediately started in pursuit.

Myers and His Canary Free.

Jackson, Mich., Dec. 7.—Charles Myers, the convict with the much-written-of canary, which he trained during his incarceration, was released from the prison Sunday on expiration of his sentence. He desired to receive a pardon from Governor Bliss to take along with his bird, but was sadly disappointed. He would have willingly remained in prison for some time beyond his sentence if by so doing a pardon could have been secured. Myers looked upon a pardon as an exoneration and thought it would have made it easier to obtain employment.

LATE NEWS IN BRIEF.

John Spires of Albuquerque, N. M., aged 30, killed Lina Perkins, a school girl, aged 15, with a dagger and then killed himself. Jealousy was the motive.

Fire early Sunday partly destroyed the Union block in Newark, O., burning out the Powers-Miller company's department store and entailing a loss estimated at $123,300.

The Miami military institute, located in Germantown, O., burned Sunday. The loss is $30,000. Temporary quarters were secured for about fifty young men, so as to continue the school until the holiday vacation.

While King Alfonso of Spain was hunting at Casa Campo a gamekeeper fired, killing a shepherd. The king was so affected by the incident that he returned immediately to the palace. The gamekeeper declared that the killing was accidental.

At the close of a three days' convention of the Christian and Missionary alliance in Binghamton, N. Y., Sunday night eighteen young people of that city and vicinity volunteered to go as missionaries to China, South Africa and other mission fields.

Sutton Writes Stories.

Lansing, Mich., Dec. 7.—All the criticism of Colonel Eli R. Sutton's actions before and after his sojourn in Mexico has not killed his literary ambitions, and the threat to disbar him from practice in the courts does not deter him from entering literary circles, from which his legal opponents, at least, have no power to exclude him. The December number of a magazine published in Battle Creek contains a story entitled "The Lover's Letters."

How's This?

We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm

WEST & TRUAX, wholesale druggists, Toledo, O.

WALDING, KINNAN & MARVIN, wholesale druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Hall's Family Pills are the best.

You cannot make clouds for others and live in the clear light yourself.

Revolution imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by C. A. Wright, druggist.

A good push will scare the devil more than a whole lot of preaching.

To improve the appetite and strengthen the digestion, try a few doses of Chamberlain's stomach and liver tablets. Mr. J. H. Seitz of Detroit, says, "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." There are people in this community who need just such a medicine. For sale by all druggists. Every box warranted.

I'd just as lief promise to obey a man as to promise to love and honor him. It's as easy to do one as the other, and sometimes a great deal easier.

A faded out, care-worn woman of about 40, with a spruce up-to-date husband, should take Rocky Mountain Tea. Brings back that youthful girlish beauty. Keeps the old man from going to the lodge. 35 cents. J. J. Orr.

A man can sometimes gain his point in an argument by allowing the other fellow to talk himself out.

Report from the Reform School.

J. G. Gluck, Superintendent, Pruntytown, W. Va., writes: "After trying all other advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform School. I find it the most effective and absolutely harmless. J. J. Orr.

There is nothing a man hates to do worse than to pay his wife's dental bills.

Makes assimilation perfect, healthy blood, firm muscles, strong nerves. Quickens the brain, makes and keeps you well. Great medicine. Rocky Mountain Tea. J. J. Orr.

Marrying in haste is no worse than any other kind of marrying.

A glass or two of water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggists.

Brigham Young was merely the man who had the opportunity.

Coughs, Clds and Constipation.

Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and will not constipate. J. J. Orr.

There is bound to be a squint in the sermon when it has one eye on the creed and the other on the money.

Croup instantly relieved. Dr. Thomas' Eclectric Oil. Perfectly safe. Never fails. At any drug store.

The man with a tender heart does not need to demonstrate it by the softness of his head.

Burdock Blood Bitters gives a man a clear head, an active brain, a strong, vigorous body—makes him fit for the battle of life.

The editor of the Press was called to Chicago last week on account of the death of a large turkey, the last sad rites being conducted on Thanksgiving day. The journalistic responsibility fell upon the shoulders of a mental emloye whose sole qualification for the job was his former experience in the lay ministry of the Methodist church, poor schooling indeed for the duties of democratic editor. He would however, have carried the thing through quite gracefully except for these words constantly ringing in his ears: "Ye cannot serve God and Mammon."—Adrian Press.

Itching Skin

Distress by day and night—

That's the complaint of those who are so unfortunate as to be afflicted with Eczema or Salt Rheum—and outward applications do not cure. They can't.

The source of the trouble is in the blood—make that pure and this scaling, burning, itching skin disease will disappear.

"I was taken with an itching on my arms which proved very disagreeable. I concluded it was salt rheum and bought a bottle of Hood's Sarsaparilla. In two days after I began taking it I felt better and it was not long before I was cured. Have never had any skin disease since." MRS. IDA E. WARD, Cove Point, Md.

Hood's Sarsaparilla and Pills

rid the blood of all impurities and cure all eruptions.

Here is the opinion of a young man given to one of our exchanges. Twenty dollars a month on a farm is better than thirty-five or forty dollars a month in the city. As a general thing at the end of nine months the farmer boy has $150 in cash, three pairs of overalls and a straw hat, while the city chap has an ice cream suit, an imitation Panama hat several pairs of decorated socks a package of cigarettes and thirty dollars worth of unpaid bills.—Onsted News.

THE
ATLANTIC
MONTHLY
1904

EMERSON'S JOURNAL

A series of contribution of extraordinary interest, drawn from the hitherto unpublished private journals of Ralph Waldo Emerson, and edited by his son.

The First Serial for 1904 will be

THE COMMON LOT

By ROBERT HERRICK

ITS scene is laid in Chicago. It is the strongest and best sustained imaginative work of this notable writer. It begins in January.

Colonel T. W. HIGGINSON

WHOSE Cheerful Yesterdays were among the most readable reminiscent papers ever printed, has written for the Atlantic six new articles in the same vein under the title Part of a Man's Life.

MODERN ADVERTISING

NOVEL discussions, by experts, of severa phases of contemporary advertising. The first paper, The Psychology of Advertising, is by Professor W. D. Scott. It will be followed by The Abuses of Public Advertising, by Charles Mulford Robinson.

THE ETHICS OF BUSINESS

A group of trenchant inquries into the right and wrong of present business methods. The first article, Is Commercialism in Disgrace? has been written by John Graham Brooks.

SPECIAL OFFER TO NEW SUBSCRIBERS

In order to introduce the Atlantic Monthly to new readers, the publishers offer three issues, as a special trial subscription, for 50 cents. Upon receipt of $4.00 they will mail the October, November and December numbers, and the magazine for the entire year of 1904, to new subscribers.

ROUND ABOUT US.

If the city installs a clock there is one thing about it that the editor of the Post can safely imitate. It will have its hands over its face.—Adrian Press.

Adrian people are overjoyed because it is expected the city will have a town clock. A committee has been appointed and if it does not strike before the clock does the mayor will be enabled to call time.—Hudson Post.

Richard Volmer of Franklin township, has just returned from an extended visit to his old home in Germany. While he had a good time among old friends he says that America and Michigan and more especially Lenawee county, is good enough for him.—Adrian Telegram.

During a recent class scrap the Freshmen at Hillsdale College captured two Sophomores and took them to the fair grounds where they broke into the dining hall and building a fire, proceeded to entertain the prisoners. Some one told the sheriff that a gang of tramps had gone into the buildings on the fair ground; he took some deputies along, arrested the freshmen, locked them in jail and released the sophs—Correct too, Mr. Sheriff.—Ex.

A young man representing himself to be a student of the U. of M., hired a room and settled his possessions therein and to all appearances everything was going along all right, next day he stripped the room of its valuables and disappeared. He then went to another house in the city to engage a room but one of the young men of the family read the notice in the paper and as this man tallied with the description of the sneak thief, he was reported to the police and arrested and placed in jail.—Saline Observer.

Joseph Patterson, who lives this side of Devils lake on the turnpike, is in a critical condition brought on by a hard fall last Thursday. While climbing to a hay mow to get out some hay he lost his hold on the beam and fell some 12 feet to the barn floor striking upon one hip. The hip bone was shoved through its socket, breaking the bones and causing great damage. He is a gentleman well along in years and Dr. Town, the attending physician, has small hopes of his recovery.—Onsted News.

Sam Shutt will be at the service of all Tecumseh taxpayers and relieve them of the danger of losing their earnings by theft, if they will mortgage their premises and pay their taxes. He expects a cheerful smile from them indicating their undisguised pleasure to contribute to the state fool fund, swelled to bursting by a republican legislature. Mr. Shutt won't shut the door against them, however, even if they do swear a bit.—Adrian Press.

It is said that a woman, while engaged in a domestic brawl in a western village, bit off a piece of her husband's ear. The magistrate characterized the assault as a degrading and disgusting case; but as the woman had no previous conviction, added that he would merely bind her over to keep the peace, to which she replied that she was sorry she couldn't do that, as she had given it to the cat.—Ex.

The New Idea in Journalism.

A new and pleasing innovation in the great metropolitan Sunday newspapers has been introduced by The Chicago Record-Herald in giving away with its Sunday edition The Chicago Record-Herald Sunday Magazine. In The Sunday Record-Herald Magazine readers of The Sunday Record-Herald will recognize the advent of a new epoch in journalism. On December 6th The Sunday Record-Herald began furnishing its readers without extra cost a magazine that surpasses the best illustrated weeklies in the beautiful execution of its color pages and equals them in every other particular. The magazine having a minimum size of sixteen pages will be printed on heavy enameled paper. At the present time eight pages will be in colors, four of which will be suitable for framing.

The beautiful highly illustrated pages in colors must be seen to be appreciated. Any newsdealer handling Chicago Sunday papers will be glad to show you a sample of the magazine and the advance pages for next Sunday if you will give him an opportunity to do so.

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A naval officer engaged in ordnance duty on a home station was given to talking in his sleep. One night he awakened his wife by starting up in bed and exclaiming in accents of pitying distress:

"She must have a new jacket! I must manage to get one for her!"

The wife, knowing her husband's slumbers had never before been disturbed by the requirements of her wardrobe, became vastly agitated and gripped him by the arm.

"William! William!" she breathed earnestly into his ear, hope meanwhile rising high in her breast. "Who is she?"

"My three inch gun!" sighed the over-taxed ordnance man —Ex.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. Adrian, Mich., December 6—(Special) —Congressman Townsend finds himself up against quite a proposition in selecting a successor to the late Charles Bidwell as postmaster in Tecumseh. Among the possible candidates are Henry McClure, present deputy postmaster; Charles Bidwell, son of deceased; John Nyland, H. W. Stevens, ex-Postmaster J. W. Wightman, Herbert Waring and a half dozen other good citizens. The last four postmasters have been veterans of the civil war and if this policy is to be pursued by the new congressman, Coroner Henry W. Stevens, who was a member of the Eighteenth infantry, seems to be in line for the plum. Several of the candidates have been in Adrian during the last few days bringing to bear the influence of the prominent Republicans here upon Congressman Townsend.—Detroit Free Press.

HUDSON DESIRES

The Gift of Mr. Carnegie with which to secure the

PUBLIC LIBRARY

Building and the Mayor and other Public Spirited Citizens propose to have it.

In which he accepts the proposition of the school board of Tecumseh and will make a gift for the public library of $10,000 instead of $8,000 and the board will now be able to build the building as desired.

Tecumseh is in favor of this gift from Mr. Carnegie with the exception of about three persons, who are generally opposed to anything which will benefit the town. Hudson does not desire it, because it has no library at the present time, and some of her citizens would have to put up for books, so they will still live in the dark.

Tecumseh has always been fortunate in matters of this kind, and now give proper credit to the school board for prompt and judicious action in this matter.—TECUMSEH HERALD.

In reply to the above little article printed in last Friday's HERALD, the HERALD yesterday received the following letter from Mayor Frensdorf of Hudson. It seems that Tecumseh is not alone with men who "kid" about public improvement. Hudson and all other towns have them, but it is wonderful how rapidly a report like this spreads. The HERALD heard that Hudson was opposed to the gift of Mr. Carnegie, printed it and no doubt other state papers printed a like item, but the forethought of Mayor Frensdorf stops the report so far as Tecumseh is concerned. In fact Hudson is a bright little city and much of its enterprise can be attributed to the work and thoughtfulness of Mayor Frensdorf.

Hudson, Mich., Dec. 7, 1903.

Geo. Stacy, Esq., Tecumseh.

FRIEND STACY:—Where did you obtain so much information as to Hudson's adverse action on the library question?

You retract that statement otherwise I will order out my Militia, consisting of a broom brigade from the three Ladies' Literary Clubs of our city to take possession of your misguided press. These women are about to chastise a wouldbe obstructionist, and will then turn their attention to editors about the county, who have bad imaginations.

The facts are, Mr. Editor, the question of accepting the Carnegie proposition has been submitted to the city council; then to our Business Men's Association (to which every business man in our city belongs) then to the Board of Library Trustees—composed of nine most representative citizens and largest tax payers—and in each case was unanimously favorably acted upon.

Later a pair of cheap Politic'ans, who have been beaten in every move they have made in several years, are taking their worthless time to engender in feeling and dissatisfaction, in hopes it will be a means to divide our voters who have stood for progression in past few years and thereby get back into office, or at least secure the election of such men as they select and can control. But I think our voters are onto these obstructionist and knowing them as they do, will not be entraped by the game they are playing.

Too bad we can't make up a colony of kickers and unprogressive and establish them in the South Sea Islands.

Just imagine how much better such towns as Tecumseh would be without these disturbing, quarreling, always displeased few. Rest assured Hudson will have the library, all kinds of reports not withstanding,

Yours Resp.,
EDWARD FRENSDORFF.

The young people indulge in a turkey dinner, followed by a dance at the armory.

Last evening the young people, who had been cheated out of their duck supper, gave an eight o'clock turkey dinner at the armory, the guests participating in a dance afterwards.

The table was beautifully decorated with a large centerpiece of carnations, with a chrysanthemum at each place. Covers were laid for 24, who were, the Misses Julia Lowry, Ethel and Mae Garlinghouse, Hurlbut, Ella Potter, Edith Cotton, Crego, Mary Mills, Naomi North, Anna and Luella Williamson, Lena Smith, Mrs. Ella Hodges, Messrs. Floyd and Lester Heesen, Charles and Floyd Williamson, Louis Sheldon, Ben Pulver, Raynor Brewer, Herbert Temple, Wade Jones and Floyd Ager.

They were served by Geo. Adamson, Don Heesen, Stella Zimmerman and Eola Brown, Mrs. Cook catering. After the dinner the guests indulged in dancing until a late hour. This was strictly a dress affair, the carriage calling for the guests. Herbert Temple of Detroit, was the only guest present from away.

Fight will be bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

An amusing incident occurred here recently which is expected to end happily. An Oxford belle was awaiting the arrival of her best fellow when a mouse crept into the room. With a shriek the young lady leaped on the table and shouted for some one to save her. Just then the young beau entered the room, frightened the ferocious mouse away and rescued the young lady from her perilous position. Just how it happened neither can tell, but something caused him to ask the all important question which had been uppermost in his heart for many a week. Something also caused her to whisper "yes" to the fateful question. Now it is said that wedding bells will soon ring in Oxford.—Oxford Leader.

The Christian is sure to be lean if he keeps his manna laid up in a museum.

E. A. CODDINGTON,

One of our old

TECUMSEH BOYS,

Is now located at Huntington, Ind. Holds a good position in the Express business.

We clip the following from the Daily News-Democrat at Huntington, Ind

George Reynolds' connection with the local express office was severed today by the arrival of his successor, E. A. Coddington. The Huntington office is run jointly by the Wells Fargo and the Pacific companies. Many years Mr. Reynolds has been in the Huntington office and has been largely responsible for much of its business. A disagreement arose a few months ago between the two companies as to whether or not Mr. Reynolds should be retained. It be remembered it was in this city that the Wells-Fargo express company's car was discovered opened by marauders and the two miscreants were arrested by Officer Jacobs, greatly assisted by two employes of the local office. Soon after this the police of the city received a reward from the company for catching the robbers, Marshal Nevins receiving $25 and Officer Jacobs $25. No acknowledgement was made of the services of the express employes, who had entered the car and forced one fellow to surrender at the point of a gun.

Shortly after this Mr. Reynolds took a vacation and while away met a friend of his who was also employed by the express company. He stated he did not believe his men had been treated right and this friend took occasion to write influential friends in the main offices, telling of the situation. The route agent for the Wells Fargo people said the distribution had been made properly and as much as demanded that Mr. Reynolds be discharged. In the meantime the Pacific insisted that Mr. Reynolds remain. Several days the matter has been under consideration. At one time the proposition was on to separate the offices, but this did not seem the proper thing, owing to the expense incurred. Mr. Reynolds offered to resign, but the Pacific company would not listen to this. The result is that Mr. Reynolds relieved and will be given a place by the Pacific company to be determined later.

Mr. Coddington, the new agent, is a very pleasant gentleman and has been in the express business eight years. To him can be attached no ill feeling on the part of any one. He comes under orders from the company has been in no way mixed up in the unpleasantness. He and his wife will board a short time before going to housekeeping. C. L. Bunting, who has been in charge of the local office several weeks, returns to Chicago to resume a superintendency in the offices in that city. During his stay he made friends among the business public.

Capt. Charles Bidwell.

Captain Charles Bidwell, postmaster of Tecumseh, whose death occurred Dec. 2, was one of the popular officials of this county, and a most amiable and companionable man, yet he never "fawned" on anybody for favor, though serving in the various capacities of town marshal, justice of the peace, deputy sheriff, two terms sheriff and finally postmaster. Tender as a child in his social relations, as a soldier and civil officer he was lion-hearted and knew no fear. His equanimity was rarely disturbed by incidents that commonly vex the soul of the county sheriff, but on one occasion he lost hold of himself. He had a man under arrest for cruelty to a horse which had been left in a mudhole in the road over night, and ice was seen around the edges of the puddle in the morning. The prisoner secured an adjournment and was baled by a prominent church man. Sheriff Bidwell, who loved horses, was anxious to jail the fellow till the trial and did not relish his temporary releaser "I want to direct my deputies now," said the sheriff angrily, "to make no more arrests of this kind. Just so sure as it is done, just so sure long comes some God-fearing Christian to bail the criminal till his trial. I've got tired of it. I beg the court's pardon," he added apologetically, "but the brute ought to go to jail now, and after his trial."—Detroit Journal.

DON'T FORGET THEM.

The Party Call and the Bread and Butter Letters.

Do not forget your party call and your bread and butter letters. They are in their way, just as important as the party and the visit themselves, and mean much to your hostess.

"Five weeks ago," said a woman to me the other day, "I gave an evening affair to which fifty guests were invited. Out of these, only one has paid me a party call. Of course I know that it is not indifference or ingratitude that has caused the omission, but I cannot help feeling it a little." The bread and butter letter, too, is not a mere functory matter, but a real demand with which we should comply. Every hostess is interested in the welfare of the guest who has lately been sojourning under her roof, and whom she has just speeded with good will on her way. She wishes to know if the guest has arrived home safe and well, and not to comply with such wish shows one lacking in common courtesy. Yet it is a mistake which excellent people often make. Few people forget to call upon a bride, but how many remember the call due the bride's parents, as the persons who extended the invitation to the wedding? Yet one is as binding as the other, except, of course, in cases where the bride's new home is at a great distance from that of her girlhood.

And the Division headquarters here also. About 30 men came here Sunday and will make headquarters here.

The Detroit Southern shops, which have for sometime past been located in at Napoleon, O., were moved back here last Saturday. This changes the headquarters of the Division back also, and many of our old conductors and engine men came back yesterday. It is believed that this is the last change. A great deal of the work for the road has been going on here right along, in fact all of the repairing and over hauling of engines, as such work could not be done in Napoleon, causing a great expense to the road, therefore train master Burtch ordered the removal. The machinery at Napoleon will be sent to Lima and the work will be divided between Tecumseh, Lima and Springfield. They will, of course, in time employ more men in the shops.

Among those who came here Sunday are D. Klainpse, Geo. Still, Pillsbury, Sipe and T. J. Watt, all conductors, and about 25 or 30 more will be here in a few days though they will probably not move their families here before spring.

Cure Catarrh by Nature's own Method—Every Breath of Hyomei brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but $1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

C. A. Wright has sold a great many Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

SECRETS
At the Price of Suffering.

Woman on her way to semi-invalidism caused by pregnancy suffers much pain. Ignorance prompts her to suffer alone in silence and remain in the dark as to the true cause—motherhood.

Mother's Friend takes the doctor's place and she has no cause for an interview. She is her own doctor, and her modesty is protected. Daily application to the breast and abdomen throughout pregnancy will enable her to undergo the period of gestation in a cheerful mood and rest undisturbed.

Mother's Friend

is a liniment for external use only. It would indeed be shameful if the sacrifice of modesty were necessary to the successful issue of healthy children. All women about to become mothers need send only to a drug store and for $1.00 secure the prize childbirth remedy. Healthy babies are the result of useing Mother's Friend. TO BE DEPENDED ON

Because it is the experience of a Tecumseh citizen and can readily be investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it's like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with endorsement; we doubt the sayings of people living at distant points because we can't investigate, but the public expression of local citizens can be depended on, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute.

Postmaster J. W. Wightman, well known to every reader of this statement, says: "I have no hesitation in endorsing Doan's Kidney Pills procured at C. A. Wright's drug store. They have been used in my family and the most satisfoctory results followed the treatment. They proved to be a remedy of merit. You can use my name to that effect if you think proper."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

What Defense Will Do.

Cadillac, Mich., Dec. 7.—The people completed their case in the Mary McKnight trial Saturday. The defense in opening, said they expected to prove Mrs. McKnight innocent because there was no motive for committing the crime; that her character was above reproach; that the alleged confession was not of her own free will; that John Murphy was ill and addicted to the use of medicine, and that Mrs. McKnight was mentally unbalanced.

SALARY TOO SMALL

Rural Carriers Unable to More Than Cover Expenses.

MEETING HELD AT YPSILANTI

Southern Michigan Free Delivery Employes Organize—Express Package Delivering Not Paying Branch of Business—Officers Elected.

Ypsilanti, Mich., Dec. 7.—The meeting here Saturday night of the Washtenaw County Rural Letter Carriers' association marked another step taken by these faithful agents of the government in their effort to improve the mail service Uncle Sam is giving his country cousins, and at the same time to better their own condition.

It was one of the most successful meetings of carriers ever held in the state.

The desire to improve the service, a spirit of appreciation of efforts made in their behalf, and a decided tending to be reasonable in making demands were noticeable features of the gathering. There were no kickers there. Every man was in earnest.

A pretty thorough canvass of the meeting failed to show the carrier who would say he thought the present salary, $600 a year, adequate.

"It isn't enough to live on," was the general sentiment.

President Buland expressed the sentiment of the meeting, to all appearances, when he said:

"We want to better the service," said he, "and the only way to do this, it seems to me, is through the carriers. The men in charge at Washington cannot do it themselves, for they are not in touch with conditions.

"I began at a salary of $400 a year and have been raised to $500 and now $600 with the rest. I get besides a pension of $12 a month from the government, and I've sunk all that and haven't a dollar to show for my work today."

G. Cody of Grass Lake expressed similar sentiments. Continuing, he said:

"Some people talk about the amount carriers make by delivering express packages. I don't believe any carrier here has made $10 in the past year by carrying packages. I've carried a lot of them but have never taken a cent for it.

"We don't want to complain, and we don't blame anyone, but the fact remains that a man is doing mighty well if he comes out even on the year under present circumstances.

Needed Regulations.

Besides the salary question several other matters of interest were discussed informally. Several carriers spoke of the need of a regulation requiring that all letters be stamped before being placed in the box for the carrier to gather up. Patrons are in the habit, it seems of leaving money in the box, expecting the carrier to affix the stamps.

"I opened a box today," said one carrier, "and took out three letters. Six pennies had been laid on the letters, but I could not see them, and they fell into the snow. I was cold and in a hurry, so I went on and left them and stamped the letters at my own expense. It wasn't much, but I've had the same thing happen more than once."

"And so have I," echoed half a dozen of the carriers.

It was an enthusiastic meeting. Carriers were present from Ypsilanti, Ann Arbor, Chelsea and Saline in Washtenaw county; from Grass Lake in Jackson county, and from Plymouth in Wayne county.

Up to this time the association had never been able to secure the presence of any but the Ypsilanti and Ann Arbor carriers, with one or two others, and it was decided to let the old organization die a natural death and form a new one, retaining the old officers, who are: President, L. M. Buland, Ypsilanti; vice-president, Walter Clark, Ann Arbor; secretary, Arthur Sherwood, Ypsilanti; treasurer, K. D. Perry, Ann Arbor.

President Walker of the Wayne County Rural Carriers' association was asked to speak and told briefly the objects of the Wayne organization and read its constitution. This latter was adopted, with the necessary changes in name, as the constitution of the Washtenaw association.

Mystery of Woman's Foot.

Menominee, Mich., Dec. 7.—The mystery surrounding the finding of a woman's foot at Spalding Oct. 24 still deepens, and it is now thought that it may be part of the dismembered body of Miss Bessie Bridges, the 19-year-old daughter of Samuel Bridges, a prosperous farmer of Waucedah, who has been missing since Sept. 20 and who it is feared has been murdered. The foot was found by Mrs. Oliver Lafond in her front yard, where it was being gnawed by a dog.

Michigan Railroad Earnings.

Lansing, Mich., Dec. 5.—Commissioner Atwood reports that the Michigan earnings of railroad companies for October were $4,678,179, an increase of $1,220,711 over October of last year. The aggregate Michigan earnings for the first ten months of this year were $42,071,981, an increase of 10.25 per cent over the same period

Mr. and Mrs. Allen are royal entertainers and it is needless to say that a good time was enjoyed by all. A good program was carried out at the close of which Rev. Rose presented them with a beautiful mahogany music cabinet, as an appreciation of Mrs. Allen's services as organist at the Congregational church. Refreshments were served.

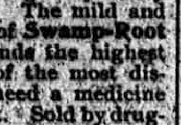
Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.



Home of Swamp-Root.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

BELIEVE IN SALSBURY.

Few Doubt Now as to Truth of His Statements.

Detroit, Mich., Dec. 7.—For the past week sentiment has been rapidly shifting, and now only a few of the downtown politicians still declare that Lant K. Salsbury has been lying, and even they concede that the ex-city attorney has told the truth in regard to most of the men he implicated.

During the week since Salsbury made his confession on the stand he has been subjected to the most severe cross-examination, which have failed to shake his story in any essential feature, while every development has tended to show that he told the truth as nearly as he knew how. The feeling that Salsbury was truthful was strengthened by the fact that so many of the men he accused confessed, and their statements corroborated Salsbury in every particular.

Saturday six of the men accused by Salsbury pleaded guilty of accepting bribes, making seven altogether who are now awaiting sentence. Another has waived examination, with the likelihood that he will plead guilty. Several of those not yet arrested, but for whom warrants will be issued, have confessed to Assistant Prosecuting Attorney Ward, and with such things staring them in the face the average citizens of Grand Rapids sorrowfully concede that Salsbury has shown their city to have been the scene of one of the greatest boodle schemes ever uncovered in the country.

Michigan Corporations.

Lansing, Mich., Dec. 7.—The following corporations filed articles of association with the secretary of state during the past week: Robeson Chemical Co., Port Huron, $50,000; Wyandotte Portland Cement Co., Wyandotte, $1,000; Froebel Institute, Grand Rapids, $1,000; Bullard Corn Harvesting Machine Co., Jackson, $6,000; Marengo Portland Cement Co., Detroit, $1,500,000; Bay City United Electric Co., Bay City, $10,000; Saginaw United Electric Co., Saginaw, $10,000; Rogers Construction Co., Jersey City and Detroit, $20,000; Wees Harness Co., Port Huron, $10,000; Eye-Fix Remedy Co., Detroit, $50,000; Cheboygan Wood Inversion Co., Cheboygan, $100,000; Rice & Co., incorporated, Grand Rapids, $10,000; Howard Furniture Co., Port Huron, $35,000; Gill & Crary Fruit Co., Ltd., South Haven, $1,000; Detroit & Sautee Mining Co., Detroit, $50,000; Volcanic Mining & Smelting Development Co., Marquette, [illegible]00,000; Northwestern Telephone Co., Canandaigua, $1,400; Bay City Traction & Electric Co., Bay City, $1,500,000. Non-capitalized corporations: St. Paul's Evangelical Lutheran church, Stevensville.

Queer Allegan Character Dead.

Allegan, Mich., Dec. 7.—Lorency Cornelius, a unique character, is dead at the Allegan county poorhouse. She was 96 years old and was admitted from Wayland township Oct. 25, 1866, when the county charges were auctioned off to the lowest bidder who cared for them. She never wore shoes, but would pick every shoe placed on her feet to pieces in a few minutes. No relatives survive.

Express Struck His Wagon.

Ann Arbor, Mich., Dec. 7.—Frank Anderson, a farmhand, was killed by a Michigan Central train at Delhi. He was driving across the track when the westbound express struck his wagon, throwing him about fifty feet, smashing the wagon and killing one of the horses. Anderson's death was instantaneous. He was a single man and about 30 years of age.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

A Pack of Cards.

The ordinary playing cards of today are derived from a stick game supposed to have originated in this country. Fifty small sticks are a pack. The "game" was originally for the player to divide the sticks rapidly with his two hands, the opponent guessing which hand held the larger number.

Owners of sticks spent rainy days in carving them. The Asiatics borrowed the game and carved more elaborate counters out of ivory. Those with different carvings grew to have different values. Arranging them in groups of fours made it necessary to add two to the original number. Then thin slabs of ivory began to be used.

For centuries after this all playing cards were hand painted, at first on ivory or metal, afterward on cardboard. The pictures, at first legendary heroes and ladies, gradually became the fixed, wood faced caricatures we now know, and these, coming back to America in their westward journey around the world, find our Pacific coast Indians still juggling the same kind of sticks their forefathers used.—New York World.

The Word "Starvation."

The word "starvation" was introduced into the English language by its coiner, Henry Dundas, afterward Viscount Melville. It was originally used by him in a speech in parliament on the American debate in 1775 and was immediately caught up and applied to himself in a political nickname, so that he was known thenceforward as "Starvation" Dundas."

"I shall not," such was his declaration, "wait for the advent of starvation from Edinburgh to settle my judgment."

Before the time of Dundas "starve," "starving," "starved" and "starveling" were in use, but hunger or famine represented the state of starvation.

Although this word has now an established place in our vocabulary, it was at first vigorously opposed by many, and on just grounds, as of hybrid formation. The root "starve" is old English, while the ending, "ation," is Latin. It does not appear in any English dictionaries until the year 1809.

Deep Sea Fish.

Great forests of seaweeds cover the bottom of the ocean and reach from the greatest depths to the surface. In these forests there is life more diversified than in the primeval forests of the tropics. Spiders and wormlike animals of enormous size, infusoriæ, crabs, sea urchins, shells, crustaceans, starfish, turtles and millions of other living things of all kinds find their food in the equally varied plant life of the deep sea.

A curious circumstance connected with deep sea fish is that none of these has ever been brought up alive. Recent deep sea explorations [illegible] fact that the ocean still contains immeasurable treasures which await development and utilization by human inventiveness. The most fertile acre of cultivated land is a sterile desert compared with one acre of the surface of the deep sea bottom.

Wet Shoes.

The usual—and the wrong way—of treating wet boots is to take them off and put them on the fender or the radiator to dry. This method spoils the boots. Too much heat cracks and hardens leather.

Another wrong way is to stand them on their soles anywhere to dry.

The proper way is to place the boots, soles upward, near enough to the fire to dry slowly and properly, but not to steam during the drying.

The soles should always be turned upward, even when the boots are only a little wet, for this way enables the air to reach the wettest part of the leather first.—American Queen.

The Colossus of Rhodes.

The Colossus of Rhodes, a bronze statue, was 105 feet high. It was made by Chares, who, aided by an army of workmen, consumed twelve years in its construction. It remained in position in the harbor of Rhodes for sixty-six years and was thrown down by an earthquake B. C. 224. It lay on the ground 894 years and was sold to a Jew for old metal. He carried away 900 camel loads, or about 720,000 pounds, of bronze.

AN APPEAL FOR AID

Burgess of Butler, Pa., Calls on American People

TO CONTRIBUTE $100,000

To Fight Typhoid Pestilence—People Alarmed at Breaking Out of the Disease in Nearby Town—Situation More Discouraging.

Butler, Pa., Dec. 10.—The fever situation seems more discouraging in Butler than it has been during the past four or five days. Three deaths occurred Wednesday and twelve new cases were reported.

A new feature in the fever situation and one which is causing great alarm among those who have knowledge of it is the report that there are four or five cases of typhoid fever at Greece City, ten miles north of Butler, on that branch of the creek on which the Boydstown storage dam is located. The state board of health officers will investigate, and if there is any possibility of future pollution from this source the danger will be promptly removed.

Burgess William Kennedy last night issued a general appeal to the American public for aid. He wants $100,000 more to stamp out the epidemic and earnestly urges the support of the people of the United States. The burgess has issued this appeal after holding the matter under advisement for several days. The letter is addressed to the American public. It reads:

"In justice to all, in behalf of the borough government and the entire people of Butler, I beg leave to state that so far we have been able to help our people without a general call for outside aid. W[illegible] $8,000 to the relief fund and outside cities raised this amount to $16,000. We have been carefully using this since Nov. 10. Now we are forced to admit our funds are getting low.

"We feel, as a committee for the relief of our suffering people, that necessity compels us to issue a general appeal for outside assistance. We have been criticized in various ways. We wish to assure the public that we have been doing our very best to relieve suffering, sorrow and want. We were inexperienced in an epidemic scourge such as this. We are now thoroughly organized and working together as a committee, doing all in our power to relieve the suffering and needy ones.

"It is stated that it will take $100,000 to carry us through this siege of disease. We cannot raise it. Necessity compels us to issue a general appeal for outside aid and assistance.

"We as a people are thankful for the aid already received and for the great sympathy shown us. If need be we will accept the criticism also. And we appeal as a stricken people, unable longer to help themselves, for aid in our distress.

"WM. KENNEDY, Burgess."

State Health Officials Meeting.

Ann Arbor, Mich., Dec. 10.—The seventh general conference of health officials of the state of Michigan will be held in the new medical building of the university on Thursday and Friday, Jan. 7 and 8, 1904, under the auspices of the Michigan state board of health. The health board of every city, town and village in the state is requested to send at least one delegate to the conference.

A frightened horse.

Running like mad down the steet dumping the occupants, or a hundred other accidents, are every day occurrences. Colombia Declares She Will Combat Panama's Independence.

AN AUTHORIZED STATEMENT

From Bogota Government—Americans There Are Secure—Cruiser Atlanta Continues to Watch For the Enemy Off San Blas Coast.

Bogota, Dec. 7, via Colon, Dec. 10.—A prominent and well-informed politician, who is close to the government, when questioned today by the Associated Press correspondent declined to give any expression of conferring the ratification of the canal treaty by the government of the republic of Panama. The following expression of the attitude of the Colombian government, however, is authorized, the strict censorship preventing a fuller report:

"The statement issued by United States Secretary of State Hay in explanation of the violent happenings on the isthmus of Panama has produced a most unfortunate and disastrous impression in political and diplomatic circles here by reason of its contradictions and its lack of sincerity and logical arguments.

"The Bogota press has answered Secretary Hay's statement in the most convincing manner. The central government is acting, and will continue to act, with dignity and honor, but it has decided to combat the independence of the isthmus most determinedly and without cessation. Americans here continue to enjoy complete security despite the indignation of the people."

Colon, Dec. 10.—The United States cruiser Atlanta is still patrolling the eastern end of the San Blas coast and keeping an outlook for any attempt on the part of the Colombian government to land troops on the isthmus, which the Atlanta would prevent. The Atlanta is also endeavoring to ascertain if the Indians know anything of the movements of troops from the interior across the frontier and is also seeking information confirming the alleged concentration of Colombian troops at the mouth of the Atrato river, on the Gulf of Darien. The Atrato river, being in Colombian territory, the Atlanta of course could not interfere with any movements of Colombian troops there.

The report brought to La Guaira, Venezuela, by the French steamer Versalles from Savanilla to the effect that Colombian steamers have landed 1,100 men near the mouth of the Atrato river to open a way over the Darien mountains to the isthmus cannot be confirmed here. The movements of the Atlanta are entirely of a precautionary nature and for the purpose of securing information. The United States gunboat Bancroft left today to patrol the western end of San Blas coast in cooperation with the Atlanta. It is expected the latter vessel will return here in a day or two to report.

BLOODY THUMB MARK

May Lead to the Identity of a Murderer.

Menominee, Mich., Dec. 10.—The efforts of Sheriff Stiles to discover the murderer of Gus Adams, the Nathan saloonkeeper who was found dead in his place of business the night of Sept. 30, have led into intricacies that rival the thrilling tales of Conan Doyle.

Sherlock Holmes' celebrated "bloody thumb" clue is entering into the case and causing even more speculation than has heretofore been rife. After the crime became known an account book which Adams was known to have had on his person at the time of his death was missed. A careful search was made for it, but nothing resulted at the time. Recently it was found in a place where the officers had searched several times. Several leaves had been torn out, destroying leaves on which Adams is said to have kept accounts with relatives.

But the gruesome feature that enters the case here was the presence on one of the pages of the imprint of a bloody thumb. The lines of the thumb, that of the left hand, were plainly shown, and Sheriff Stiles at once went to Nathan and compared the impression with the thumb of a relative of the dead man.

It is said the imprint tallied exactly, but the members of the suspected man's family all swear he was at home on the night of the murder and no arrest has been made. The officers are still hard at work on the case.

Fought With Knife and Hatchet.

Memphis, Dec. 10.—In one of the largest Front street wholesale groceries, George Rawlins and Kirk Allen killed each other in a hand-to-hand fight, one being armed with a knife and the other with a hatchet. Both men were negroes and employed in the wholesale house.

Hanged Herself In Attic.

Detroit, Mich., Dec. 10.—Mrs. Henrietta Winterfeldt, wife of William Winterfeldt, a road boss in the employ of the department of public works, committed suicide by hanging herself from a rafter in the attic of her home at 532 McKinstry avenue. Mrs. Winterfeldt was 59 years of age, but appeared much older. She had suffered from heart disease and despondency.

Money to Clear Away Glidden.

Washington, Dec. 10.—The secretary of war has honored the requisition of General Gillespie, chief of engineers of the army, for a further allowance of $27,000 to complete the work of clearing the Glidden wreck from the St. Clair Flats canal. The money will come out of funds of the department, and no action by congress is necessary.

Town Nearly Consumed.

Hillsboro, Tex., Dec. 10.—The town of Abbott, eight miles south of here, was almost wiped out by fire Wednesday. Fifteen buildings were destroyed, entailing a loss of $75,000.

IT BROKE IN TWO

Airship, Invented by Langley, Again Failed to Fly.

TIME AND MONEY WASTED

Operator Manly Given an Icy Bath—Inventor Appeared Crestfallen After Catastrophe—Wreck of Machine Almost Complete.

Washington, Dec. 9.—Under weather conditions which were regarded as perfect, the Langley airship, or aeroplane, Tuesday was given a second trial a short distance from Washington down the Potomac, the result being the complete wreck of the airship. Everything has been in readiness for the trial for some days, so that it was felt all that was needed for the test was the right sort of wind and weather. In the afternoon these conditions presented themselves and the test was made under auspicious conditions.

On the word being given to launch the aeroplane it glided smoothly along the launching tramway until the end of the tramway was reached when, on being left to itself, the aeroplane broke in two and turned completely over, precipitating Professor Charles M. Manly, who was operating it, into the icy water beneath the tangled mass.

A number of launches, containing newspapermen and others, immediately steered for the spot, but before they could reach Professor Manly one of his assistants leaped overboard and brought him aboard the houseboat, on which the launching tramway was laid. Professor Langley was present to witness the test and appeared crestfallen when he saw the product of months of study and labor, combined with an enormous expenditure of money, disappear beneath the water, close to where he was standing aboard a tug.

At 4:40 o'clock, when all was ready and with darkness fast approaching, Professor Langley called his chief assistant, Mr. Manly, aside and gave him his last instructions. The latter then donned his life-jacket and entered the car. After a few moments he set the machinery in motion and the propellers rapidly revolved. Then he gave the signal and an instant later there was a crash, the after part of the ship fell upon the deck of the houseboat, while the forward part, in which Professor Manly was seated, was seen to rise slightly, then turn completely over and drop into the water a few feet away, without having flown even the slightest distance. The failure to fly was total and the wreck of the aeroplane was almost complete.

Found With Their Throats Cut.

Cincinnati, O., Dec. 9.—The dead bodies of Pearl Stapleton and her four-year-old adopted daughter, both colored, were found at their home in East Front street last night with their throats cut from ear to ear. John Shawl, with whom the woman had been living, is under arrest, but declares he is innocent. Shawl claims he returned home late last night, found the door locked, and after forcing his way into the house saw a negro named Bush escape through a window. Bush, who, it is said, was recently released from the Michigan penitentiary, has not been captured.

Given 1,000 Years' Sentence.

Houston, Tex., Dec. 9.—In the district court of Cherokee county Allen Brown, a negro, convicted of attempted criminal assault, was sentenced to 1,000 years in the penitentiary. Under the law, the jury could not impose a death sentence. At the time of his arrest Brown narrowly escaped being lynched.

Tragedy Near Marietta, Ohio.

Marietta, O., Dec. 9.—At Bells Run, three miles east of Marietta, last night Seph Kinney, an oil driller, shot and killed his sweetheart, Minnie Srinkle, and then killed himself. No one witnessed the double tragedy. It is supposed the couple had quarreled.

Romulus Farmer's Heavy Loss.

Romulus, Mich., Dec. 9.—A barn belonging to James HcNutt, living four miles northeast of this village, was burned together with seven cows, three horses, hay, grain and tools. One horse, which was taken out, ran back into the fire and was incinerated. Loss $3,000.

Michigan Customs Receipts.

Washington, Dec. 9.—Reports just compiled by the treasury department show that customs receipts at the five Michigan ports of entry for the last fiscal year were: Detroit, $1,265,998 43; Port Huron, $384,0[illegible]6 90; Grand Rapids, $91,711 94; Marquette, $91,273 74; Grand Haven, $4,890 06.

Highwayman Reed Sentenced.

Flint, Mich., Dec. 9.—Arthur Reed, convicted of highway robbery, was sentenced by Judge Wisner to Jackson prison for five to fifteen years, under the indeterminate sentence law.

Drove Strike-Breakers Away.

Stockton, Cal., Dec. 10.—Armed with clubs, a mob of about fifty strikers fro mthe Royal mine at Hobson turned back forty strike-breakers who were under armed escort Wednesday near Milton, marched them down the track about a mile and ordered them out of the vicinity. The order was obeyed with alacrity. The men had been employed at San Francisco to take the places of strikers. More trouble is expected.

MONEY FOR JURORS

Salsbury Says He Attempted Bribing Those On His Case.

THROUGH FEW OF HIS FRIENDS

Does Not Believe, However, It Was Used—City Railway and Telephone Companies Give Him Funds—Newly Accused Ones Give Bail.

Grand Rapids, Mich., Dec. 9.—A sensation developed in the examination of Salsbury Tuesday during the taking of testimony in the case of Alderman James Mol of the Sixth ward. Salsbury told how he had planned to bribe the jury in his trial in the superior court, implicating persons who had not been brought into the case through his former statements. Beginning with the water deal scheme, Salsbury said he talked with Alderman Mol some time before the application for a water contract was made to the council. He explained to Mol that parties were in the city to obtain a contract, that they had money to spend and that he could have some of it if he wanted to help put the deal through. Witness promised him $1,000 and he said it would be satisfactory.

Soon after election Salsbury said he paid Mol in all a total that might have been $465.

Referring to his statement that he gave the aldermen money in the spring of 1901 for their campaign expenses, Salsbury said he gave some to McCool of the First ward, Kinney of the Fourth ward, Schriver of the Fifth ward, Ghysels of the Sixth ward, Johnson of the Seventh, Beck of the Tenth ward, Lozier of the Eleventh, and McLachlin of the Twelfth, but could not state the amount he gave to each.

"You had paid out all of the boodle fund before that and you were pretty hard up, weren't you?" asked the attorney.

"This was not all my money," said Salsbury. "Some of it was contributed by outside parties to help elect aldermen who would vote for me. The street railway company contributed $1,000 and the Bell Telephone company put up some money, but I do not remember how much the telephone company contributed. Both companies paid the money through J. Clark Sproat of the Democrat.

Gave Money to Bribe Jurors.

A new sensation was here brought to light by Salsbury by his own admissions. For the first time he made public the statement that he had placed money in the hands of several persons to bribe jurors who were to try his case in the superior court.

He said he gave Alderman Mol $150, asking him to see Juryman Meyers, a relative of Mol's; he gave W. D. Pugh $200 to see another juryman, and he gave John Kramer, formerly disbursing officer of the city poor department, $100 for the same purpose. So far as witness knew, none of the men used the money as intended. They said they did not, and considering results he believed they stated the truth. Witness said Mol returned $75 of this bribery fund. Pugh gave back $100 and Kramer returned about $50.

On cross-examination Mr. Ward asked Salsbury if he spoke to anyone else about seeing jurymen who sat in his trial whom he did not give money and witness replied:

"Yes, sir; I spoke to Deputy City Marshal Ed Wierenga about it. I asked him to see Juryman Gelock," said Salsbury.

This concluded the examination and the case was adjourned for one week.

Appear and Give Bail.

Without service of warrants and on information by telephone from police court, seven of the eight persons for whose arrest warrants were issued Monday evening in connection with ex-City Attorney Salsbury's water deal conspiracy, appeared in court Tuesday, entered their plea and furnished surety as demanded by the court.

Judge Haggerty fixed the bond for those charged with conspiracy at $2,000 and in the perjury cases at from $3,000 to $5,000. They waived examination and were held to the next term of the superior court, which begins Dec. 14.

Ex-City Clerk Isaac F. Lamoreaux, who is charged with conspiracy, is on his cattle ranch in Lake county, and when informed by telegraph that a warrant had been issued for his arrest replied to the prosecuting attorney that he will report to the court today.

Believe Bessie Bridges Lives.

Menominee, Mich., Dec. 9.—Officers believe that Miss Bessie Bridges, daughter of Mr. and Mrs. Samuel Bridges of Waucedah, who has been missing since Sept. 29, still lives and has made her residence in Milwaukee ever since. The officers say they now have proof that she is in Milwaukee. They give no credence to the report that the foot found at Spalding is that of Miss Bridges.

Sutton Did Not Show Up.

Lansing, Mich., Dec. 9.—Tuesday was the day set by the supreme court for Colonel Sutton to show cause why he should not be disbarred. Nothing has been heard from Sutton, and it is not expected that he will make answer to the petition. No action will be taken until the court is again in session.

Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs.

They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondency.

"I had pains in my back, could not sleep and when I got up in the morning felt worse than the night before. I began taking Hood's Sarsaparilla and now I can sleep and get up feeling rested and able to do my work. I attribute my cure entirely to Hood's Sarsaparilla." MRS. J. N. PERRY, care H. S. "Concerning the Kingdom of God."

2 Tim. 4:2 — THY KINGDOM COME — 1 Cor. 9:16

THESE WERE MORE NOBLE THAN THOSE OF THESSALONICA IN THAT THEY RECEIVED THE WORD WITH ALL READINESS AND SEARCHED THE SCRIPTURES DAILY, WHETHER THOSE THINGS WERE SO. ACTS 17:11.

By arrangement with the editor I am permitted to open a department in the HERALD which is to be devoted to setting forth the Gospel according to Jesus Christ. It is obvious that by this means I shall be able to address many whom I could not hope to reach in any other way.

The need is imperative. The great majority of even professing Christian people today have no proper understanding of the principles of the Christian Religion. A Bishop of our Church, one of the leading men of the United States, recently affirmed that not one in a hundred has the essentials of a Christian education. Is it any wonder if Christianity seems scarcely able to hold her own?

Disagreement among the teachers of Religion has been to a large extent responsible for this state of things. Confusion on the part of the teachers themselves has most naturally issued in confounding the people in general, many even to turning away in disgust and unbelief.

I should certainly hesitate to come thus publicly forward to challenge attention in this extremity were it not that I believe I have something new to offer. Not a new Religion indeed, God forbid, but new light upon the old truths; light that glows from the concept of the Kingdom of God.

The concept of the Kingdom of God is fundamental to the understanding of the Gospel of Jesus Christ. The Gospel of Jesus Christ is, indeed, nothing other than the Gospel of the Kingdom of God. (a) Jesus Himself preached the Kingdom of God (Matt. 4:17, 23; 9:35; 13:11, 25, 31, 33, 44, 45, 47; etc., etc., etc.) (b) He sent His disciples to preach the Kingdom of God (Matt. 10:7; Luke 10:9.) (c) His disciples preached the Kingdom of God (Acts 8:12; 19:8; 20:25; 28:23, 31; etc.) To preach the Gospel of Jesus Christ is, therefore, to preach (to state, to define, to explain, to prove, to commend) the Kingdom of God. Yet in our modern "Gospel" preaching the concept of the Kingdom of God has to a large extent disappeared from view; so that, whereas Jesus preached the Gospel of the Kingdom of God, we have been preaching a Gospel with the Kingdom of God left out.

I do not claim to have discovered the concept of the Kingdom of God. For the last twenty-five years that concept has been prominently before the Church; BUT IT HAS NEVER YET BEEN PROPERLY APPLIED TO THE TEACHING OF THE CHURCH—IN PULPIT OR SUNDAY SCHOOL. To give an illustration: A large influential committee of our own Communion has been engaged of late in preparing a new course of instructions for our Sunday Schools. In the lesson on Acts 20:17-38 the only reference made to St. Paul's teaching at Ephesus is in the question, What does he say were the two great subjects of preaching? The reference is doubtless to verse 21; yet in verse 25 and in verse 8 of the preceding chapter we are told most explicitly that the one great subject of St. Paul's preaching at Ephesus was the Kingdom of God. (Obviously, Faith and Repentance came in for mention as the preparation for entering into the Kingdom of God. That is, they derive their mention from their relation to the Kingdom of God—which was the one great subject of St. Paul's preaching, Cf., also Acts 28:23, 31.) It looks—does it not?—as if some people have not yet heard that the concept of the Kingdom of God has been discovered! Test the International Lessons, or the Blakeslee, or any other system of Sunday School lessons by the same concept (look for ANY MENTION of the Kingdom of God) and you will realize how utterly the Church has failed as yet to apply the concept of the Kingdom of God in her teaching of the Gospel.

In setting forth in this column the principles of the Gospel of Jesus Christ, I shall *approach with the concept of* the Kingdom of God; and thus I hope to be able to throw new light upon the subject.

I do not court controversy; yet I am not anxious to avoid legitimate discussion. There is no way of vindicating the truth other than by fairly meeting and overcoming the objections which obscure it. I hope that those who shall be unable to accept any important statements I may make will express themselves to me. And I should be glad to receive questions. Communications may be sent to me without signature, and I shall try to give them such courteous treatment as their importance and the space at my disposal will warrant.

A Woman's Complexion.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists. G. G. GREEN, Woodbury, N. J.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. CHAS. BIDWELL JR.

Has received the Nomination of POSTMASTER

To succeed his late Father and will soon be appointed.

Wednesday's Detroit papers contained the news that Congressman Townsend had sent in the name of Charles Bidwell, Jr. to be postmaster at Tecumseh in place of his late father and the recommendation pleases every republican in Tecumseh but one.

There has really been no opposition to the appointment of Bidwell. Even Henry McClure who has made a very able and well liked deputy and could not well avoid making a run, hardly thought to get the office, as against Bidwell for every one in Tecumseh thought that on account of the shortness of his father's time, Charles Jr. was really entitled to the office if he desired it, for he is a capable and well liked young man and would make a good postmaster.

By this appointment, Congressman Townsend has showed remarkable good judgment, not only in selecting the man for the place, but in making the recommendation and doing it quickly so as to give little time for a number of men to wake up to the fact that they were entitled to it. Besides this many democrats are pleased at Townsend's fairness as in Tecumseh there is always a certain spirit of fairness that always looms up above party or selfish desire of any kind.

Tecumseh is well pleased and will have a good postmaster.

Charles Bidwell will still be postmaster at Tecumseh, even if Charles Bidwell has passed from earth. Yesterday Congressman Charles E. Townsend headed off the wild stampede for the office that has been started since "Uncle" Charlie Bidwell died, by appointing the son of the late lamented, Charles Bidwell, jr. Now the tear-up in the village in northern Lenawee can subside. Nearly every Republican of prominence in Tecumseh has been getting into the race, and the scoring has been carried on with true jockey instincts. Hon. J. D. Shull seems to have been the local chamberlain of Congressman Townsend. At least he is credited with dictating who should be post master. Of course "Jim" Wightman, who was postmaster before the late Mr. Bidwell, wanted it again. Then there Henry McClure, H. W. Stevens, Bert Waring, O. E. Hawkins; etc., ad lib., besides Charles Bidwell, jr.

It was charged by the enemy that Bidwell, jr., was a supporter of the gallant Fred Wood in the late unpleasantness in the Second Congressional district, but it is evident that the charge was filled with wet powder and only developed a squib.

Mr. Townsend has saved himself no end of trouble in settling the difficulty early, and when the wounded have been carried off the field, everybody will be satisfied except possibly a few who wear scars.—Adrian Telegram.

This morning's Detroit Tribune says that Congressman Townsend has recommended the appointment of Chas. Bidwell jr. for postmaster at Tecumseh. Mr. Townsend has made a great mistake in this appointment, for he has turned down the real party workers here and his friends who not only worked for him last fall, but have endorsed him for years.—Tecumseh News.

For a new member, Representative Townsend has shown a wise spirit in settling the Tecumseh postoffice fight before the whole list of republican voters filled list for applications for the job. The applications have been coming by every mail ever since Uncle Charley Bidwell, whom Hank Smith had appointed postmaster last spring, died a week ago. Mr. Townsend has chosen Charles Bidwell, son of the dead postmaster for the vacancy.—Detroit Tribune.

CLUB NOTES.

Miss Gertrude Bower entertains at flinch at her home this evening.

THE CONCERT

Given at the PRESBYTERIAN CHURCH

Proved very entertaining to a good house.

The concert given in the Presbyterian church last evening proved very enjoyable to those fortunate enough to be there. That it was home talent added much to the attraction.

The music was all of a high order and finely executed. The mandolin and piano duets made a pleasing change in the instrumental music. The solos were all fine and well rendered each with a style peculiar to the singer. The male quartette were at their best and kindly responded to an encore with "Simple Simon."

The ladies' trios were excellent and were duly appreciated by the audience. "The Little Girls' Drill" by sixteen little girls from the west branch school with their dolls called forth great applause, also the boys' drill with their muskets. They responded to the encore and were cheered long and loud. Miss Mingay charmed all by her pleasing manner and after the recitation, "The Guardian Angel" was called back again and again. Three times she returned and at last was obliged to retire from the room to quiet the enthusiasm her powers had called forth.

It is seldom so many beautiful and varied selections are given in one entertainment and the *most critical* could find no fault but went home feeling they had been well entertained for an entire evening at small expense.

Little Raisin Drain.

J. N. Sampson and J. L. O'Mealey of Adrian, met with Fred Wood Wednesday and took the testimony of Frank DePuy, which will be used in the chancery case next Tuesday in the circuit court.

The case, which is that of the townships of Clinton, Macon, Tecumseh and Raisin vs. County Drain Commissioner Franklin D. Teachout, was filed Sept. 6, 1901 and has been on every calendar since that time. Although every effort has been made to have the case tried at each term, it has just been reached.

The action is brought to have the proceedings of the drain commissioner relative to the Little Raisin drain, which runs through the several townships, set aside. The commissioner planned to widen and deepen the lower end of the drain in Ridgeway and the other townships objecting to the assessment, which they claimed would be levied for something from which they would not be benefited, procured an injunction restraining the proceedings. As a result of the tie up Ridgeway farmers state that many have lost whole crops during the last two seasons by reason of the summer floods.

Attorneys O'Mealey and Bird of Adrian, and W. B. Hatch of Detroit, represent the townships, while Prosecuting Attorney Joslin and J. N. Sampson of Adrian, and John Riley of Blissfield, represent the commissioners.

COUNCIL PROCEEDINGS.

Council Chamber, village of Tecumseh. Regular meeting held Dec. 7, 1903.

Resolved that report be accepted and order directed drawn for labor account. Carried.

The committee to whom was referred the matter of considering the proposition of the Tecumseh Electric Co. for a new contract to run five years, make the following report.

In as much as your committee has heard a great many complaints about the lights and that some of them are out more or less every night and are very unsteady, and believing that they are not up to the specifications of the old contract, we do not feel like recommending the renewal of any contract until the lights are improved; we therefore wish to refer the matter back to the Council without recommendation.

Tecumseh, Mich., Nov. 2, 1903.

ALFRED JAMES.
JOSEPH MARSH.
C. H. HECK.

Fight will be bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

DO NOT DOSE THE STOMACH.

Cure Catarrh by Nature's own Method—Every Breath of Hyomei brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but $1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

C. A. Wright has sold a great many Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

TO BE DEPENDED ON

Because it is the experience of a Tecumseh citizen and can readily be investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it's like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with endorsement; we doubt the sayings of people living at distant points because we can't investigate, but the public expression of local citizens can be depended on, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute.

Postmaster J. W. Wightman, well known to every reader of this statement, says: "I have no hesitation in endorsing Doan's Kidney Pills procured at C. A. Wright's drug store. They have been used in my family and the most satisfactory results followed the treatment. They proved to be a remedy of merit. You can use my name to that effect if you think proper."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

SENSATIONS YET TO COME.

Prosecutor Ward Has Not Yet Shown His Entire Hand.

Grand Rapids, Mich., Dec. 10.—The water scandal cases were devoid of any sensational features Wednesday, most of the time in police court being taken up in the reading of Salsbury's testimony for correction and having it signed.

Much interest is being manifested in the probable features of the trials to come in the higher court. It is evident that the prosecutor has not yet shown his entire hand in the examinations, as he has only put in enough testimony to get the cases held for trial. It is alleged that the revelations are only well started and that several sensations are yet to come, involving other persons. Mr. Ward, however, refused to discuss the matter at all.

It is now well assured that there will be none of the water cases tried in the superior court until after the first of January. It is equally sure that there will be an immense amount of trouble in securing a jury in any of the cases, as every man, woman and child has read of the cases and formed more or less of an opinion. If the trial of any case should be started next week, whether or not a jury was secured, the talesmen or jurors would have to be locked up, with the chances of remaining in custody over Christmas and New Years, and this the court will not permit. For this reason the cases will be held off until after the first of the year.

Student Committed Suicide.

Ann Arbor, Mich., Dec. 10.—Russell H. McWilliams, a junior "lit" in the university, from Kansas City, Mo., committed suicide early in the morning in his room at the Sigma Adpha Epsilon fraternity house by shooting himself through the heart with a 32-caliber revolver. McWilliams was 19 years old and considered one of the brightest students in his fraternity. The reason for McWilliams' suicide cannot be ascertained. He left no note explaining his actions, nor did he ever express any intention of taking his life. His fraternity brothers noticed that he had been rather quiet during several days. He purchased the revolver the day before with which he shot himself. Showing it to some of his friends, he said: "I'm going to give this to a fellow for Christmas."

More Trouble For Dowie.

Chicago, Dec. 10.—Settlement of the Dowie receivership may not pass as quietly as the order signed by Judge Kohlsaat Tuesday indicated. Attorneys for one of the creditors served notice today on representatives of all the other interested parties that a motion would be presented before Judge Kohlsaat to strike out that part of the order providing for payment by Dowie of all expenses of the receivership. The point will be made that Dowie has no right to agree to pay these costs until he is proven solvent.

Kaiser Is Grateful.

Washington, Dec. 10.—The Associated Press is requested by Baron von Sternberg, the German ambassador, to say to the people of the United States that the emperor is profoundly touched by the many and sincere expressions of sympathy which have come from America to Berlin regarding his majesty's illness. The ambassador returned to Washington Tuesday night from a visit to Germany. He brings personal messages from his majesty to the president.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N.Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

LIFE PLANT

Renews Life.

The Very Best TONIC Ever Discovered.

The kidneys are the blood filters intended to remove the waste, and most of these diseases result from overtaxing them with excessive waste. The most frequent cause of kidney trouble is indigestion. LIFE PLANT aids digestion, relieving the kidneys from the very start. Kidney diseases cause more deaths than any other human affliction. They are usually painless at first, the only warnings are shown in the Urine, being cloudy or of high color. It is by neglecting these symptoms that kidney diseases are allowed to progress. An improper treatment is worse than none. LIFE PLANT is the only sure cure for kidney trouble.

SPIRITED DEBATE

In House Over Panama's Birth and American Recognition.

ADMINISTRATION ASSAILED

By Densmore of Arkansas—Representative Hitt Comes to Rescue—Williams Thinks President Is Going to Override Spooner Law.

Washington, Dec. 12.—The birth of the Republic of Panama and its recognition by this government was the subject of a spirited debate in the house Friday. Mr. Dinsmore (Dem., Ark.), during consideration of the pensions appropriation bill, severely criticized the administration in connection with the canal and Mr. Hitt (Rep., Ill.), chairman of the foreign affairs committee, replied in a vigorous defense of the president and his Central American policy.

After reviewing the history of the act of congress and the negotiations with Colombia and the sending of a treaty to Bogota, Mr. Hitt said the people of Colombia thought the United States was so bent on having a canal on the isthmus that the game was easy. They had $10,000,000, but $20,000,000 would be better, and Colombian papers had urged those charged with power to hold out for great sums of Yankee money.

Mr. Hitt continuing said the people of Panama had organized a government which had the cordial support of every one who lived there. That, he said, is proven by the fact that a man would have been an unnatural being if he had not wished to separate himself from such a cumbrous government as had weighed upon them so hard. Referring in this connection to the government at Bogota, he said "that distant center, coldly plotting to get hold of the great spoil they hoped to get from the United States, deliberately threw away the treaty and ten millions in the hope of getting still more, utterly regardless of the great peril to which they put the people of the province of Panama."

Dems. Want a Canal.

Mr. Williams, minority leader, following, charged that this was the first time that this government had interfered in the domestic affairs of a South American country. The Democrats want a canal, he said. They wanted the Nicaraguan canal, but if they could not get the canal where they thought it ought to be, they would take it where they could get it [illegible]

After some further remarks on the same line, Mr. Williams closed as follows: "If the president refuses to obey the plain words of the Spooner act, approved by him, perhaps suggested by him; if he is going to override the law; if after having waited a reasonable time to enter into a new treaty with Colombia he now refuses to obey the language of that law and proceed to try and negotiate a treaty with Costa Rica and Nicaragua, then in God's name hurry up your canal."

MacArthur Must Explain.

Washington, Dec. 12.—At the meeting of the cabinet Friday General MacArthur's interview, in which he predicted war between the United States and Germany, it is said, was discussed, as a result of which it seems likely that Secretary Root will in the interest of fairness to General MacArthur call upon him for an explanation upon his arrival in the United States the latter part of this month.

AGAIN FOR PRIMARY

Resolution Unanimously Passes the State Grange.

OTHER REFORMS ADVOCATED

Radical Changes in Matters of Extension of Grange—State to Be Divided Into Districts Under Supervision of General Deputy.

Lansing, Mich., Dec. 12.—The Michigan State Grange last night completed its annual session after putting in a solid afternoon of business, in which reports of the twenty odd standing committees were heard and acted upon and reforms, social, political and agricultural, recommended.

The event of Friday afternoon was undoubtedly the adoption [illegible]ly and practically without debate, of the report of the committee on legislation, containing a resolution for primary election reform, the purport of which cannot be doubted. It was no equivocal declaration, but embraced a provision for the drawing up and presentation to the State Grange next year of a comprehensive primary bill.

Chaplain-elect Perry Mayo gave a ringing primary reform address. There was a show of hands without a dissenting vote being cast, and the grange was again unanimously on record.

This resolution, and including others presented by the tax committee and committee on highways, places the grange on record as advocating the following reforms:

Needed Reforms.

Complete ratification of last year's demand for primary election reform; the drafting of a primary bill by the State Grange; the enactment of the Torrens system of land titles; prohibition of the sale of cigarettes; regulation of the speed of automobiles on country roads; election of drain commissioners at the polls; election of United States senators by direct vote; a reformation of the present plans regarding grange deputies; a bureau of information for members desiring to make sales or exchanges; a suitable grange headquarters at the state fair; good roads by virtue of national, state and township expenditures; more power to the arm of the state forestry commission; standing committees of women in each grange to cooperate with the state committee; a grange cyclone insurance society; optional biennial elections in subordinate granges; public ownership of public utilities; election of state tax com- [illegible] ment of a government official to guard against cruelty in the Chicago stock yards.

Grange Extension.

Radical changes in the management of the extension of the grange were made at the morning session. A report of the executive committee provided for a complete reorganization of the system of deputies, taking the appointment out of the hands of the grand master and placing it in charge of a sub-committee of the executive committee.

The state will be divided into districts, with approximately 60 granges in each, the entire number of districts to be placed in charge of a general deputy, who shall be appointed by the sub-committee, and who shall, in time, appoint a deputy for each district. This will greatly reduce the number of deputies.

The evening session was social and devoted to the installation of the incoming officers and a musical and literary program.

Talented Writer Went Insane.

Battle Creek, Mich., Dec. 12.—Charles Gough, one of the most talented newspaper writers in the state, a graduate of several universities and a brother of two of Toronto's wealthiest merchants, has been taken to the Kalamazoo asylum. Gough has allowed drink to ruin his brilliant prospects.

Fire Burned Masonic Temple.

Blissfield, Mich., Dec. 14.—Fire destroyed the three-story brick Masonic temple here Saturday evening. The temple was occupied on the third floor by the Masonic lodge and chapter of the Eastern Star; the second floor by the Maccabees, and the first floor and basement by Ford's laundry. The fire started in the drying room of the laundry.

To Be Electrocuted.

Upper Sandusky, O., Dec. 14.—Philip Nagel, after a second trial, was convicted of murder in the first degree, without recommendation for mercy, which means the infection of the death penalty. Nagel was convicted of murder in the first degree and sentenced to be electrocuted at his first trial. He is accused of having killed William Wade, a farm hand, to secure Wade's savings, amounting to about $50.

COULDN'T FIND IT

Newspaper Man Fails to Locate Salsbury's $10,000 Editorial

IN GRAND RAPIDS HERALD

Files Were Searched—Money Is Alleged to Have Been Given Editor Conger—No Comfort in Herald's Columns For Salsbury's Deals.

Detroit, Mich., Dec. 14.—The following relative to Lant K. Salsbury's statement that he paid Editor Eugene D. Conger of the Grand Rapids Herald $10,000, with the understanding that the Herald cease its attacks upon the Lake Michigan water deal, appears in today's Detroit Tribune, dated Grand Rapids, Dec. 13, and contributed by [illegible] Correspondent [illegible]

On the theory that Eugene D. Conger, manager and owner of the Grand Rapids Herald, got from Lant K. Salsbury the sum of $10,000 on the understanding that the Herald would cease its attacks upon the Lake Michigan water deal and would, in fact, on a certain day, print a certain editorial favoring the Jackson bid, it must be seen by a glance at the following editorial comments taken from the files of the Herald that Lant K. Salsbury was a bigger sucker than he has yet acknowledged himself to be. In brief, if Conger got the money he didn't "deliver the goods" so far as one may judge from the files.

Salsbury's Claims.

Salsbury's charge against Conger is specific in one feature—that he paid Conger $10,000. When he paid it, why he paid it and what he got for it has yet to be detailed. Salsbury claims that Conger printed a certain editorial as part of the alleged contract.

"If I could see the files I could tell which one and on what date it was published," Salsbury has been saying on the witness stand.

What is in that editorial? Salsbury has asserted that the files of the Herald will prove the truth of his allegations that the paper had been bought and the public had been betrayed by the press. In a hazy way the public has assumed that there is something suspicious lurking in the mysterious files.

I have carefully examined all the matter in the news and editorial columns of the Herald for the period of Sept. 1, 1900, to May 9, 1901, covering the receipt of the Jackson bid in September and the calling of the grand [illegible] following May. At no time [illegible] news column touching the [illegible] in the [illegible] has failed of editorial comment. During that time the least fierce in its opposition to Salsbury, Perry and the water deal is the editorial which I give in full. Is this the editorial which Salsbury says he paid $10,000? Oct. 21, 1900. Editorial caption "Lake Michigan Water Supply."

The editorial is then given in full, and in it the Herald in brief encourages the citizens to give the question serious consideration and advancing its own opinion that Grand Rapids is not large enough to warrant such an undertaking.

The Herald's Attacks.

Continuing, the correspondent says: Prior to this date, Oct. 21, 1900, the Herald had been lambasting the water scheme in terms which must have been libelous had they not been true. After this date the Herald continued its vitriolic attack. At this time the council was about to act. Election was not far distant. On the day following, Oct. 22, the discovery was made that the guarantee checks deposited with the bids were bogus checks. Mayor Perry exposed the checks. Salsbury claims that when the editorial of Oct. 21 was published Conger knew that the checks were bogus, and that he, Salsbury, had Perry expose the checks so that Conger would get no glory out of the exposure, which he, Conger, was threatening to make.

Salsbury also claims that Conger had prepared an editorial exposing the scheme, which editorial Conger was to withhold. What alleged editorials were not printed and what alleged editorials were paid for is a matter between Salsbury [illegible] Conger. The one obvious conclusion is that Salsbury's deal found no comfort in the columns of the Herald. However, they speak for themselves. I give liberal and unprejudiced extracts from all the editorials in question. All these editorials but one, I am informed, were written by the same person. Salsbury declares that Conger wrote the editorial on which he harps. It will be up to the prosecution to pick out that editorial.

Then follow extracts from editorials which go to support the correspondent in his statements as given above.

K. of C.'s Had a Good Time.

Niles, Mich., Dec. 14.—Sunday afternoon the local Knights of Columbus took in forty new members and last evening a banquet was given at which covers for 400 were laid. Charles Blaney of Kalamazoo acted as toastmaster.

Accidentally Shot Himself.

Carsonville, Mich., Dec. 14.—Glen Hartshorn, the 16-year-old son of George Hartshorn of Carsonville, accidentally shot himself while hunting at Wilmot Saturday afternoon and died from the effects of the wound Sunday night.

Thieves in Royal Palace.

St. Petersburg, Dec. 13.—The palace of Prince and Princess Beloselsky (who was a Miss Whittier) was entered last night by burglars. A great quantity of valuables was stolen.

Better than a Plaster.

A piece of flannel dampened with Chamberlain's Pain balm and bound on the affected parts is better than a plaster for a lame back and for pains in the side or chest. Pain balm has no superior as a liniment for relief of deep seated, muscular and rheumatic pains. For sale by all druggists.

WAR ON SALOONS.

A Wave of Temperance Sweeps Over Ottawa County.

Grand Haven, Mich., Dec. 14.—War has been declared against the saloons of Ottawa county by the state anti-saloon league. Sunday in the Methodist, First Reformed, Second Reformed and Presbyterian churches of this city anti-saloon meetings were held, addresses by ex-Senator Humphrey of Allegan county, Dr. Saunderson, state president of the anti-saloon league, Dr. Brusko, president of Alma college, who is one of the most active temperance workers in the state, and other speakers of state reputation.

A county convention will be held in the First Reformed Methodist church of this city, to which every temperance worker in the county and all interested have been invited. At this convention the advisability of making a fight for local option at this time will be thoroughly discussed.

WORKED UNIQUE SCHEME.

But Now Former Michigan Man Is [illegible]

Menominee, Mich., Dec. 14.—A dispatch received here says that A. O. Blackwell, who at one time represented an upper peninsula district in the state senate and was mayor of Gladstone, but who for some time past has been postmaster at Laporte, twenty-five miles from Galveston, Tex., has been arrested on charges of irregular sale of postage stamps and is held under bonds to appear before the United States court at the next term, with 208 counts against him.

Blackwell's arrest revealed a unique method of swelling the sale of stamps at his postoffice. In the purchase of goods for his own use Blackwell would pay for the same in stamps. Thus the stamp receipts from his office grew to such an extent that the Laporte postoffice was advanced from the fourth class to the presidential class. The increase continued and finally resulted in an investigation being made, which ended in Blackwell's arrest. The charges were preferred by United States District Attorney Marco McLanmore.

Michigan Corporations.

Lansing, Mich., Dec. 14.—During the past week the following corporations filed articles of association with the secretary of state: Lake Orion Amusement Co. Phoenix, Ariz., and Orion, $10,000; Solotar Chemical Manufacturing Co., Detroit, $8,000; American Pig Iron Storage Warrant Co., Jersey City and Detroit, $1,500,000; Mosaic Tile and Cement Brick Machinery Co., Detroit, $700,000; Hayward-Deadman Co., Sault Ste. Marie, $10,000; Church Recorder Publishing Co., Laurium, $10,000; Debonair Co., Detroit, $10,000; Bi-Chemic Medical Institute, Detroit, $30,000; Jefferson Prospecting Drilling Co., Iron Mountain, $10,000; Ste Marie, $50,000; [illegible]ing and Development Co., Chicago and Ishpeming, $5,250,000; Walnut Hill Gold Mining Co., Detroit, $50,000.

Snow Caused a Wreck.

Benton Harbor, Mich., Dec. 14.—Another Pere Marquette freight wreck occurred in the yards between this city and St. Joseph late Saturday night. Heavily drifted snow on the track was the cause of the accident, in which four cars loaded with general merchandise were derailed in several feet of snow. The track was badly torn up for a long distance. The wrecker was sent from Holland, but the track was not cleared until noon Sunday and Chicago and Grand Rapids trains were delayed from 10 to 12 hours.

Her Unique Defense.

Owosso, Mich., Dec. 14.—Mrs. Clarissa Humphrey Mullins, the Chicago spiritualist medium who will be examined for kidnaping Hazel Wallace, has prepared a unique defense. She claims that she took Hazel away to escape the attentions of a dark, mysterious young man who was evidently in love with the child and who followed Hazel everywhere. As the child is only 11 or 12 years old, the absurdity of this claim is pointed out by Hazel's friends.

Coasting Accident Caused Death.

Battle Creek, Mich., Dec. 14.—Roy Quinn is dead as the result of injuries received while coasting last week. He received a slight bruise on the knee in a spill, but thought the accident of no importance, though he must at the same time have received an injury to his spine. He went to school but was compelled to leave. Cerebro spinal meningitis developed and he died in terrible spasms. The doctors say his death was directly due to the accident.

Charged With Attempted Murder.

Jackson, Mich., Dec. 12.—J. Vogel has been arrested on the charge of attempted murder. The complaint was made by Edward Madden as a result of a scrap in which the latter was cut by a knife. Vogel claims the knife was in Madden's possession when the fight began.

New Rural Routes in Michigan.

Washington, Dec. 12.—Rural mail routes have been ordered established in Michigan on Jan. 1 as follows: Columbiaville, Lapeer county, routes Nos. 1 and 2; Six Lakes, Montcalm county, No. 1; Smith's Creek, St. Clair county, Nos. 1 and 2; Swartz Creek, Genesee county, No. 3.

Stepped in Front of Train.

Ypsilanti, Mich., Dec. 12.—Lee Forsyth, aged 31, and Charles Wesley, aged 43, were instantly killed by a Michigan Central train known as the "Blind Baggage." The men were returning from their work at the Peninsular Paper company. They had stepped from the track on which they were walking to permit a freight going east to pass when the other train dashed into them.

A costly mistake.

TO BE DEPENDED ON

Because it is the experience of a Tecumseh citizen and can readily be investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it's like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with endorsement; we doubt the sayings of people living at distant points because we can't investigate, but the public expression of local citizens can be depended on, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute.

Postmaster J. W. Wightman, well known to every reader of this statement, says: "I have no hesitation in endorsing Doan's Kidney Pills procured at C. A. Wright's drug store. They have been used in my family and the most satisfactory results followed the treatment. They proved to be a remedy of merit. You can use my name to that effect if you think proper."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

SENSATIONS YET TO COME.

Prosecutor Ward Has Not Yet Shown His Entire Hand.

Grand Rapids, Mich., Dec. 10.—The water scandal cases were devoid of any sensational features Wednesday, most of the time in police court being taken up in the reading of Salsbury's testimony for correction and having it signed.

Much interest is being manifested in the probable features of the trials to come in the higher court. It is evident that the prosecutor has not yet shown his entire hand in the examinations, as he has only put in enough testimony to get the cases held for trial. It is alleged that the revelations are only well started and that several sensations are yet to come, involving other persons. Mr. Ward, however, refused to discuss the matter at all.

It is now well assured that there will be none of the water cases tried in the superior court until after the first of January. It is equally sure that there will be an immense amount of trouble in securing a jury in any of the cases, as every man, woman and child has read of the cases and formed more or less of an opinion. If the trial of any case should be started next week, whether or not a jury was secured, the talesmen or jurors would have to be locked up, with the chances of remaining in custody over Christmas and New Years, and this the court will not permit. For this reason the cases will be held off until after the first of the year.

Student Committed Suicide.

Ann Arbor, Mich., Dec. 10.—Russell H. McWilliams, a junior "lit" in the university, from Kansas City, Mo., committed suicide early in the morning in his room at the Sigma Adpha Epsilon fraternity house by shooting himself through the heart with a 32-caliber revolver. McWilliams was 19 years old and considered one of the brightest students in his fraternity. The reason for McWilliams' suicide cannot be ascertained. He left no note explaining his actions, nor did he ever express any intention of taking his life. His fraternity brothers noticed that he had been rather quiet during several days. He purchased the revolver the day before with which he shot himself. Showing it to some of his friends, he said: "I'm going to give this to a fellow for Christmas."

More Trouble For Dowie.

Chicago, Dec. 10.—Settlement of the Dowie receivership may not pass as quietly as the order signed by Judge Kohlsaat Tuesday indicated. Attorneys for one of the creditors served notice today on representatives of all the other interested parties that a motion would be presented before Judge Kohlsaat to strike out that part of the order providing for payment by Dowie of all expenses of the receivership. The point will be made that Dowie has no right to agree to pay these costs until he is proven solvent.

Kaiser Is Grateful.

Washington, Dec. 10.—The Associated Press is requested by Baron von Sternberg, the German ambassador, to say to the people of the United States that the emperor is profoundly touched by the many and sincere expressions of sympathy which have come from America to Berlin regarding his majesty's illness. The ambassador returned to Washington Tuesday night from a visit to Germany. He brings personal messages from his majesty to the president.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

LIFE PLANT
Renews Life.
The Very Best TONIC Ever Discovered.

The kidneys are the blood filters intended to remove the waste, and most of these diseases result from overtaxing them with excessive waste. The most frequent cause of kidney trouble is indigestion. LIFE PLANT aids digestion, relieving the kidneys from the very start. Kidney diseases cause more deaths than any other human affliction. They are usually painless at first, the only warnings are shown in the Urine, being cloudy or of high color. It is by neglecting these symptoms that kidney diseases are allowed to progress. An improper treatment is worse than none. LIFE PLANT is the only sure cure for kidney trouble.

SPIRITED DEBATE

In House Over Panama's Birth and American Recognition.

ADMINISTRATION ASSAILED

By Densmore of Arkansas—Representative Hitt Comes to Rescue—Williams Thinks President Is Going to Override Spooner Law.

Washington, Dec. 12.—The birth of the Republic of Panama and its recognition by this government was the subject of a spirited debate in the house Friday. Mr. Dinsmore (Dem., Ark.), during consideration of the pensions appropriation bill, severely criticized the administration in connection with the canal and Mr. Hitt (Rep., Ill.), chairman of the foreign affairs committee, replied in a vigorous defense of the president and his Central American policy.

After reviewing the history of the act of congress and the negotiations with Colombia and the sending of a treaty to Bogota, Mr. Hitt said the people of Colombia thought the United States was so bent on having a canal on the isthmus that the game was easy. They had $10,000,000, but $20,000,000 would be better, and Colombian papers had urged those charged with power to hold out for great sums of Yankee money.

Mr. Hitt continuing said the people of Panama had organized a government which had the cordial support of every one who lived there. That, he said, is proven by the fact that a man would have been an unnatural being if he had not wished to separate himself from such a cumbrous government as had weighed upon them so hard. Referring in this connection to the government at Bogota, he said "that distant center, coldly plotting to get hold of the great spoil they hoped to get from the United States, deliberately threw away the treaty and ten millions in the hope of getting still more, utterly regardless of the great peril to which they put the people of the province of Panama."

Dems. Want a Canal.

Mr. Williams, minority leader, following, charged that this was the first time that this government had interfered in the domestic affairs of a South American country. The Democrats want a canal, he said. They wanted the Nicaraguan canal, but if they could not get the canal where they thought it ought to be, they would take it where they could get it and take it as they might get it.

After some further remarks on the same line, Mr. Williams closed as follows: "If the president refuses to obey the plain words of the Spooner act, approved by him, perhaps suggested by him; if he is going to override the law; if after having waited a reasonable time to enter into a new treaty with Colombia he now refuses to obey the language of that law and proceed to try and negotiate a treaty with Costa Rica and Nicaragua, then in God's name hurry up your canal."

MacArthur Must Explain.

Washington, Dec. 12.—At the meeting of the cabinet Friday General MacArthur's interview, in which he predicted war between the United States and Germany, it is said, was discussed, as a result of which it seems likely that Secretary Root will in the interest of fairness to General MacArthur call upon him for an explanation upon his arrival in the United States the latter part of this month.

AGAIN FOR PRIMARY

Resolution Unanimously Passes the State Grange.

OTHER REFORMS ADVOCATED

Radical Changes In Matters of Extension of Grange—State to Be Divided Into Districts Under Supervision of General Deputy.

Lansing, Mich., Dec. 12.—The Michigan State Grange last night completed its annual session after putting in a solid afternoon of business, in which reports of the twenty odd standing committees were heard and acted upon and reforms, social, political and agricultural, recommended.

The event of Friday afternoon was undoubtedly the adoption, unanimously and practically without debate, of the report of the committee on legislation, containing a resolution for primary election reform, the purport of which cannot be doubted. It was no equivocal declaration, but embraced a provision for the drawing up and presentation to the State Grange next year of a comprehensive primary bill. Chaplain-elect Perry Mayo gave a ringing primary reform address. There was a show of hands without a dissenting vote being cast, and the grange was again unanimously on record.

This resolution, and including others presented by the tax committee and committee on highways, places the grange on record as advocating the following reforms:

Needed Reforms.

Complete ratification of last year's demand for primary election reform; the drafting of a primary bill by the State Grange; the enactment of the Torrens system of land titles; prohibition of the sale of cigarettes; regulation of the speed of automobiles on country roads; election of drain commissioners at the polls; election of United States senators by direct vote; a reformation of the present plans regarding grange deputies; a bureau of information for members desiring to make sales or exchanges; a suitable grange headquarters at the state fair; good roads by virtue of national, state and township expenditures; more power to the arm of the state forestry commission; standing committees of women in each grange to cooperate with the state committee; a grange cyclone insurance society; optional biennial elections in subordinate granges; public ownership of public utilities; election of state tax commissioners by popular vote; appointment of a government official to guard against cruelty in the Chicago stock yards.

Grange Extension.

Radical changes in the management of the extension of the grange were made at the morning session. A report of the executive committee provided for a complete reorganization of the system of deputies, taking the appointment out of the hands of the grand master and placing it in charge of a sub-committee of the executive committee.

The state will be divided into districts, with approximately 60 granges in each, the entire number of districts to be placed in charge of a general deputy, who shall be appointed by the sub-committee, and who shall, in time, appoint a deputy for each district. This will greatly reduce the number of deputies.

The evening session was social and devoted to the installation of the incoming officers and a musical and literary program.

WILL GO TO ST. LOUIS.

Delegates Appointed to Federation of Women's Clubs.

Owosso, Mich., Dec. 12.—The following delegates and alternates to the general federation of Women's clubs, which meets at St. Louis, Mo., in May, 1904, have been appointed by Mrs. Joseph M. Gould of this city, president of the state federation:

Miss Clara A. Avery, Detroit; Mrs. Lucy F. Andrews, Three Rivers; Miss Frances Burns, St. Louis; Rev. Caroline Bartlett Crane, Kalamazoo; Mrs. Lois L. Felker, Grand Rapids; Mrs. Emma A. Fox, Detroit; Mrs. Josephine M. Gould, Owosso, appointed by the federation at Grand Rapids; Mrs. Ella W. Gardon, Howell; Mrs. Mary S. Knaggs, Bay City; Mrs. Ida A. Marks, Detroit; Mrs. Ellen M. Nims, Muskegon; Mrs. Belle M. Perry, Charlotte; Mrs. Lulu A. Pound, Lansing; Mrs. Cyrus Perkins, Grand Rapids; Mrs. John C. Sharp, Jackson; Mrs. Frances W. Smith, Hastings; Mrs. Grace Robbins Stratton, St. Louis; Mrs. Lucy A. Williams, Lapeer; Mrs. George P. Wanty, Grand Rapids; Mrs. Pamelia A. Wisley, Caro.

Talented Writer Went Insane.

Battle Creek, Mich., Dec. 12.—Charles Gough, one of the most talented newspaper writers in the state, a graduate of several universities and a brother of two of Toronto's wealthiest merchants, has been taken to the Kalamazoo asylum. Gough has allowed drink to ruin his brilliant prospects.

Fire Burned Masonic Temple.

Blissfield, Mich., Dec. 14.—Fire destroyed the three-story brick Masonic temple here Saturday evening. The temple was occupied on the third floor by the Masonic lodge and chapter of the Eastern Star; the second floor by the Maccabees, and the first floor and basement by Ford's laundry. The fire started in the drying room of the laundry.

To Be Electrocuted.

Upper Sandusky, O., Dec. 14.—Philip Nagel, after a second trial, was convicted of murder in the first degree, without recommendation for mercy, which means the infliction of the death penalty. Nagel was convicted of murder in the first degree and sentenced to be electrocuted at his first trial. He is accused of having killed William Wade, a farm hand, to secure Wade's savings, amounting to about $50.

Newspaper Man Fails to Locate Salsbury's $10,000 Editorial

IN GRAND RAPIDS HERALD

Files Were Searched—Money Is Alleged to Have Been Given Editor Conger—No Comfort in Herald's Columns For Salsbury's Deals.

Detroit, Mich., Dec. 14.—The following relative to Lant K. Salsbury's statement that he paid Editor Eugene D. Conger of the Grand Rapids Herald $10,000, with the understanding that the Herald cease its attacks upon the Lake Michigan water deal, appears in today's Detroit Tribune, dated Grand Rapids, Dec. 13, and contributed by Staff Correspondent W. J. Black:

On the theory that Eugene D. Conger, manager and owner of the Grand Rapids Herald, got from Lant K. Salsbury the sum of $10,000 on the understanding that the Herald would cease its attacks upon the Lake Michigan water deal and would, in fact, on a certain day, print a certain editorial favoring the Jackson bid, it must be seen by a glance at the following editorial comments taken from the files of the Herald that Lant K. Salsbury was a bigger sucker than he has yet acknowledged himself to be. In brief, if Conger got the money he didn't "deliver the goods" so far as one may judge from the files.

Salsbury's Claims.

Salsbury's charge against Conger is specific in one feature—that he paid Conger $10,000. When he paid it, why he paid it and what he got for it has yet to be detailed. Salsbury claims that Conger printed a certain editorial as part of the alleged contract.

"If I could see the files I could tell which one and on what date it was published," Salsbury has been saying on the witness stand.

What is in that editorial? Salsbury has asserted that the files of the Herald will prove the truth of his allegations that the paper had been bought and the public had been betrayed by the press. In a hazy way the public has assumed that there is something suspicious lurking in the mysterious files.

I have carefully examined all the matter in the news and editorial columns of the Herald for the period of Sept. 1, 1900, to May 9, 1901, covering the receipt of the Jackson bid in September and the calling of the grand jury in the following May. At no time do I find that a live development in the news column touching the water deal has failed of editorial comment. During that time the least fierce in its opposition to Salsbury, Perry and the water deal is the editorial which I give in full. Is this the editorial which Salsbury says he paid $10,000? Oct. 21, 1900. Editorial caption "Lake Michigan Water Supply."

The editorial is then given in full, and in it the Herald in brief encourages the citizens to give the question serious consideration and advancing its own opinion that Grand Rapids is not large enough to warrant such an undertaking.

The Herald's Attacks.

Continuing, the correspondent says: Prior to this date, Oct. 21, 1900, the Herald had been lambasting the water scheme in terms which must have been libelous had they not been true. After this date the Herald continued its vitriolic attack. At this time the council was about to act. Election was not far distant. On the day following, Oct. 22, the discovery was made that the guarantee checks deposited with the bids were bogus checks. Mayor Perry exposed the checks. Salsbury claims that when the editorial of Oct. 21 was published Conger knew that the checks were bogus, and that he, Salsbury, had Perry expose the checks so that Conger would get no glory out of the exposure, which he, Conger, was threatening to make.

Salsbury also claims that Conger had prepared an editorial exposing the scheme, which editorial Conger was to withhold. What alleged editorials were not printed and what alleged editorials were paid for is a matter between Salsbury and Conger. The one obvious conclusion is that Salsbury's deal found no comfort in the columns of the Herald. However, they speak for themselves. I give liberal and unprejudiced extracts from all the editorials in question. All these editorials but one, I am informed, were written by the same person. Salsbury declares that Conger wrote the editorial on which he harps. It will be up to the prosecution to pick out that editorial.

Then follow extracts from editorials which go to support the correspondent in his statements as given above.

K. of C.'s Had a Good Time.

Niles, Mich., Dec. 14.—Sunday afternoon the local Knights of Columbus took in forty new members and last evening a banquet was given at which covers for 400 were laid. Charles Blaney of Kalamazoo acted as toastmaster.

Accidentally Shot Himself.

Carsonville, Mich., Dec. 14.—Glen Hartshorn, the 16-year-old son of George Hartshorn of Carsonville, accidentally shot himself while hunting at Wilmot Saturday afternoon and died from the effects of the wound Sunday night.

Thieves in Royal Palace.

St. Petersburg, Dec. 12.—The palace of Prince and Princess Beloselsky (who was a Miss Whittier) was entered last night by burglars. A great quantity of valuables was stolen.

Better than a Plaster.

A piece of flannel dampened with Chamberlain's Pain balm and bound on the affected parts is better than a plaster for a lame back and for pains in the side or chest. Pain balm has no superior as a liniment for relief of deep seated, muscular and rheumatic pains. For sale by all druggists.

WAR ON SALOONS.

A Wave of Temperance Sweeps Over Ottawa County.

Grand Haven, Mich., Dec. 14.—War has been declared against the saloons of Ottawa county by the state anti-saloon league. Sunday in the Methodist, First Reformed, Second Reformed and Presbyterian churches of this city anti-saloon meetings were held, addresses by ex-Senator Humphrey of Allegan county, Dr. Saunderson, state president of the anti-saloon league, Dr. Bruske, president of Alma college, who is one of the most active temperance workers in the state, and other speakers of state reputation.

A county convention will be held in the First Reformed Methodist church of this city, to which every temperance worker in the county and all interested have been invited. At this convention the advisability of making a fight for local option at this time will be thoroughly discussed.

WORKED UNIQUE SCHEME.

But Now Former Michigan Man Is Under Arrest.

Menominee, Mich., Dec. 14.—A dispatch received here says that A. O. Blackwell, who at one time represented an upper peninsula district in the state senate and was mayor of Gladstone, but who for some time past has been postmaster at Laporte, twenty-five miles from Galveston, Tex., has been arrested on charges of irregular sale of postage stamps and is held under bonds to appear before the United States court at the next term, with 208 counts against him.

Blackwell's arrest revealed a unique method of swelling the sale of stamps at his postoffice. In the purchase of goods for his own use Blackwell would pay for the same in stamps. Thus the stamp receipts from his office grew to such an extent that the Laporte postoffice was advanced from the fourth class to the presidential class. The increase continued and finally resulted in an investigation being made, which ended in Blackwell's arrest. The charges were preferred by United States District Attorney Marco McLanmore.

Michigan Corporations.

Lansing, Mich., Dec. 14.—During the past week the following corporations filed articles of association with the secretary of state: Lake Orion Amusement Co. Phoenix, Ariz., and Orion, $10,000; Solotar Chemical Manufacturing Co., Detroit, $8,000; American Pig Iron Storage Warrant Co., Jersey City and Detroit, $1,500,000; Mosaic Tile and Cement Brick Machinery Co., Detroit, $700,000; Hayward-Deadman Co., Sault Ste. Marie, $10,000; Church Recorder Publishing Co., Laurium, $10,000; Debonair Co., Detroit, $10,000; Bi-Chemic Medical Institute, Detroit, $30,000; Jefferson Prospecting Drilling Co., Iron Mountain, $10,000; Michipicoten Gold Mining Co., Sault Ste Marie, $50,000; Tri-Bullion Smelting and Development Co., Chicago and Ishpeming, $5,250,000; Walnut Hill Gold Mining Co., Detroit, $50,000.

Snow Caused a Wreck.

Benton Harbor, Mich., Dec. 14.—Another Pere Marquette freight wreck occurred in the yards between this city and St. Joseph late Saturday night. Heavily drifted snow on the track was the cause of the accident, in which four cars loaded with general merchandise were derailed in several feet of snow. The track was badly torn up for a long distance. The wrecker was sent from Holland, but the track was not cleared until noon Sunday and Chicago and Grand Rapids trains were delayed from 10 to 12 hours.

Her Unique Defense.

Owosso, Mich., Dec. 14.—Mrs. Clarissa Humphrey Mullins, the Chicago spiritualist medium who will be examined for kidnaping Hazel Wallace, has prepared a unique defense. She claims that she took Hazel away to escape the attentions of a dark, mysterious young man who was evidently in love with the child and who followed Hazel everywhere. As the child is only 11 or 12 years old, the absurdity of this claim is pointed out by Hazel's friends.

Coasting Accident Caused Death.

Battle Creek, Mich., Dec. 14.—Roy Quinn is dead as the result of injuries received while coasting last week. He received a slight bruise on the knee in a spill, but thought the accident of no importance, though he must at the same time have received an injury to his spine. He went to school but was compelled to leave. Cerebro spinal meningitis developed and he died in terrible spasms. The doctors say his death was directly due to the accident.

Charged With Attempted Murder.

Jackson, Mich., Dec. 12.—J. Vogel has been arrested on the charge of attempted murder. The complaint was made by Edward Madden as a result of a scrap in which the latter was cut by a knife. Vogel claims the knife was in Madden's possession when the fight began.

New Rural Routes in Michigan.

Washington, Dec. 12.—Rural mail routes have been ordered established in Michigan on Jan. 1 as follows: Columbiaville, Lapeer county, routes Nos. 1 and 2; Six Lakes, Montcalm county, No. 1; Smith's Creek, St. Clair county, Nos. 1 and 2; Swartz Creek, Genesee county, No. 3.

Stepped In Front of Train.

Ypsilanti, Mich., Dec. 12.—Lee Forsyth, aged 31, and Charles Wesley, aged 43, were instantly killed by a Michigan Central train known as the "Blind Baggage." The men were returning from their work at the Peninsular Paper company. They had stepped from the track on which they were walking to permit a freight going east to pass when the other train dashed into them.

A costly mistake.

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for dyspepsia, dizziness, headache, liver or bowel troubles. They are gentle yet thorough. 25c at C. A. Wright's drug store.

WEST & TRUAX, wholesale druggists, Toledo, O.

WALDING, KINNAN & MARVIN, wholesale druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Hall's Family Pills are the best.

You cannot make clouds for others and live in the clear light yourself.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by C. A. Wright, druggist.

A good push will scare the devil more than a whole lot of preaching.

To improve the appetite and strengthen the digestion, try a few doses of Chamberlain's stomach and liver tablets. Mr. J. H. Seitz of Detroit, says, "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." There are people in this community who need just such a medicine. For sale by all druggists. Every box warranted.

I'd just as lief promise to obey a man as to promise to love and honor him. It's as easy to do one as the other, and sometimes a great deal easier.

A faded out, care-worn woman of about 40, with a spruce up-to-date husband, should take Rocky Mountain Tea. Brings back that youthful girlish beauty. Keeps the old man from going to the lodge. 35 cents. J. J. Orr.

A man can sometimes gain his point in an argument by allowing the other fellow to talk himself out.

Report from the Reform School.

J. G. Gluck, Superintendent, Pruntytown, W. Va., writes: "After trying all other advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform School. I find it the most effective and absolutely harmless. J. J. Orr.

There is nothing a man hates to do worse than to pay his wife's dental bills.

Makes assimilation perfect, healthy blood, firm muscles, strong nerves. Quickens the brain, makes and keeps you well. Great medicine. Rocky Mountain Tea. J. J. Orr.

Marrying in haste is no worse than any other kind of marrying.

A glass or two of water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggists.

Brigham Young was merely the man who had the opportunity.

Coughs, Colds and Constipation.

Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and will not constipate. J. J. Orr.

There is bound to be a squint in the sermon when it has one eye on the creed and the other on the money.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley St. Saugerties, N. Y.

The man with a tender heart does not need to demonstrate it by the softness of his head.

Dr. Wood's Norway Pine Syrup seems especially adapted to the needs of the children. Pleasant to take; soothing in its influence; it is the remedy of all remedies for every form of throat and lung disease.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed, and I have never had any trouble of the kind since." MRS. K. T. SNYDER, Troy, Ohio.

YOU MAY SING

IF WELL AND HAPPY

If you feel the throb of pure blood in your veins and the thrill of life in your body you are fit for anything, you can laugh and sing, you are in condition for work or play and you will enjoy life.

PURE BLOOD MEANS LIFE

If you do not feel right, if you are troubled with a gloomy feeling, with tired and nervous spells, look out for the following symptoms:

Foul Breath, Bad Taste in the Mouth, Sallow Skin, Pimples and Blotches, Indigestion, Loss of Appetite, Pains in the Side, Lame Back, Pains Under Right Shoulder, Dizzy Spells, Nervousness, Neuralgia, Rheumatic Pains.

These signs show that your kidneys and liver are out of order, and if they are they will not carry off the impurities and you will feel bad and are liable to have a spell of sickness. Better attend to it at once.

KINYON'S BLOOD AND KIDNEY REMEDY WILL SET YOU RIGHT

Mrs. Balch of Mishawaka, Ind., says: "I was very sick for over two months, troubled with gall stones and general kidney trouble, at times I screamed so with pain that people could hear me a block away. I had a number of doctors and they could do nothing for me. I kept getting worse, could not rest or sleep. In desperation I used Kinyon's Blood and Kidney Remedy. I took $2.00 worth and got well. For the last year I have enjoyed good health."

Sunday, Nov. 22, it is alleged Frank R. Dunham, of 90 North street, drove Mrs. Dunham from her home. The children, naturally frightened, left the place and went to the home of the nearest neighbor for shelter, and on Monday following the gentleman of the house saw the superintendent of the poor and stated that the children had been abandoned by the father and the mother was not allowed to enter the house. Arrangements were made to have the children left where they were until they could be sent to Coldwater. Judge Larwill refused to have anything to do with the affair until the superintendents had exhausted all other measures to compel the parents to support them. The party the children were stopping with refused to keep them, and the superintendents were obliged to send them to the county infirmary. Supt. Morse went before a justice of the peace, made complaint against Dunham for wilfully abandoning his children, had him arrested and placed in jail, where he now is.

Now the superintendents of the poor are going to seize the property, consisting of five acres of land, within the corporation, just west of the academy.—Adrian Times

One afternoon during a lull in the bath demands on a certain trans-Atlantic liner, George the youth who had charge of the five bathrooms used by the saloon passengers, decided to take a bath, so he locked himself in one of the rooms used by the men. Suddenly he was disturbed by a rap at the door and heard a woman's voice; "Honey! Honey! Are you there?" No reply coming from the room, the lady spoke again. "Honey are you there?" As an explanation was needed, George spoke; "Beg your pardon, lady, but this ain't no beehive; this is a bath room."—Argonaut.

Millionair's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles. 25c; regular size, 75c. At all druggists.

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. For sale by all druggists.

Banquet at Adrian.

Rev. Leslie Bower has received the following invitation. The men of the First Baptist Congregation Adrian, Mich., invite you to a banquet Tuesday Dec. 15. at 7:30 o'clock, Dorcas chapel, dinner at eight. Dr. Spencer B. Meeser of Detroit is to be the guest of honor.

After dinner there will be toasts and the following will respond:

"Toastmaster—Hon. Minor T. Cole.

"Ring in the valiant man and true." Campfires; "We are all good fellows together."—Dayton B. Morgan.

Mere Men; "It takes more genius to be a man than manhood to be a genius." —Franklin A. Stiles.

Humor of Trade; "There's many a smile cross counter."—Geo. A Wilcox.

Hearthstones; "And hie him home at evening's close,

"To sweet repast and calm repose."—Franklin W. Sweet.

"Welcome the coming, speed the parting guest."—Dr. Spencer B. Meeser.

Rev. Bower went to Adrian today to attend the banquet.

Crop Report.

The weather during November was cool the temperature being over two degrees below the normal. The precipitation was also below the normal the departures varying from three-quarters to one and a quarter inches. These conditions were unfavorable for the growth of wheat but were advantageous for the harvesting of fall crops.

The condition of wheat, as compared with an average, is 83 in the southern counties, 81 in the central counties, 90 in the northern counties and 83 in the State. Wheat was sown late and has made but small growth in most localities; there are also some reports that wheat is infested with the Hessian fly. While the reports are rather unfavorable the outcome will depend materially upon the climatic conditions of the next few months.

For the thoughtful provider of Christmas gifts a remembrance whose value and interest do not pass with the day is by far the most satisfactory to giver and receiver. A year's subscription to such a magazine as the Century, with its wealth of art and literature, costs no more than bonbons or flowers, gone in a few hours, gives days of profitable pleasure, and keeps warm and bright through twelve months the cheer of a sympathetic friend's gracious thought. Attractive little certificates of subscription are provided to carry with the giver's card the Christmas message.

The Christmas Dinner.

In spite of the fact that the word dyspepsia means literally bad cook, it will not be fair for many, to lay the blame on the cook if they begin the Christmas Dinner with little appetite and end it with distress or nausea. It may not be fair for any to do that—let us hope so for the sake of the cook. The disease dyspepsia indicates a bad stomach, that is a week stomach, rather than a bad cook, and for a week stomach there is nothing else equal to Hood's Sarsaparilla. It gives the stomach vigor and tone, cures dyspepsia, creates appetite, and makes eating the pleasure it should be.

MORE NEWS

Of the

ELECTRIC ROAD.

Foster and White were both here last night. White driving over route to Sand Lake today.

S. A. Foster, promoter from Toledo, and J. W. White, engineer of Detroit, were in town over night last night and this morning Engineer White, with J. R. Keeney of this place, started to drive west through Franklin to Sand Lake, looking up the route.

It is thought that these men will be in Tecumseh for some days making their headquarters, while looking up the right of way and route. This company seem to mean business more than any one that have previously been looking matters up here.

And it now looks as if Tecumseh would get an electric road. The feasible place for a power house to carry the current east to Petersburg, west and north to Jackson, north to Manchester, and south to Adrian, would be Tecumseh, and even this would be a benefit to the town.

Let us not throw stones in the way of this company, but encourage them all we can, for with the Toledo & Western at Adrian, the merchants of that city have an advantage which we must overcome, and by getting this new road we will overcome it and more to.

A LETTER

About the

BUSINESS HOUSES

Of Tecumseh. Just as they all speak of our Business men.

Tecumseh, Mich., Dec. 11, 1903.

DEAR MALINDA:

Here I am in Tecumseh, you no doubt are glad to hear that I found Tecumseh and our friends here all right. My shopping is done for Christmas.

I found that at John J. Orr's drug store I could get all kinds of perfume, toilet articles and medicines cheaper and better than at any other place in town. You know we want almost everything in that line. If you are sick he will tell you just what to take and you have no need to go to a doctor.

As my teeth bother me so much I found that Dr. E. D. Brown's prices were reasonable and he does lovely work and he is the same pleasant gentleman he used to be in our town, he does a fine business here too You must get your teeth filled. Oh! I found the Sunbeam studio and the pictures are fine there. One of the finest studios I have found in a long time, I will patronize that studio.

Oh! say, Malinda, at B. A. Rauch's I found just the furniture that you want for your parlor. He has everything in the furniture line. You must go there when you come to Tecumseh. Mr. Rauch beats anything in that line that I have found here. You know that Ma and Aunt Martha S— used to think a dress was not fit to wear unless they went to Seaton W. Anderson's dry goods store for it. Well they were just about right in that idea for he is still here and has the same line of dry goods, furs, cloaks and carpets that he used to carry only I think they are more reasonable than ever.

As for gents' clothing Robert can get just what he wants at McCann Bros., they beat anything in town in that line, you know Robert is a crank on clothes, and he will see that McCann Bros. will know just what will suit him. They keep such a good stock that he cannot find any fault there.

Don't forget to tell Robert to stop at the Coller House when he comes to Tecumseh for Mrs. J. B. Coller knows just what one likes to eat. The rooms are warm, everything comfortable and they are so pleasant to strangers within their walls. The house was full when I was there. Send to E. M. Coller for your music. I got mine there and he keeps a fine stock of pianos, organs and small instruments for sale.

FROM SISTER.

Fight will be bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

ROUND ABOUT US.

The engagement ring of the wife of Speaker Cannon, which was lost thirty years ago, has been found at Tuscola, Ill., and forwarded to the Speaker at Washington.—Reese Review.

Brooklyn young ladies are planning to give a leap year party some time during the holidays. The affair promises to be the event of the season. All the young men of the town wish to attend and just before the party are "as good as they kin be."—Brooklyn Exponent.

A horrible affair occured at Flat Rock early Monday morning. The home of Alfred Sutleff was burned, supposed to have started from a lamp. Mrs Sutleff and her 14-year-old son were suffocated in the building their bodies being found near the front door, where they had endeavored to escape and were badly burned. Mr. Sutleff was not at home.—Dundee Reporter.

From the correspondent of the Deerfield Journal who is in the south part of the town, it appears that a Mr. Brown, when returning from work saw lying by the roadside what he supposed was a head of cabbage. He thought to eat a piece and taking out his knife he reached for the cabbage, when he was surprised to find it was covered with soft hair, and his head of cabbage was an opossum, who lay on his back playing "possum." Brown at once secured the animal and had him to prove his statement.—Adrian Press.

THE OLD RELIABLE

ROYAL
BAKING POW

Absolutely Pure
THERE IS NO SUBSTITUTE

There is a newspaper in Kansas whose motto is "Lie, steal, drink and swear." The editor explains it thus: "When you lie, let it be down to pleasant dreams, when you steal, let it be away from immoral associates; when you drink, let it be pure water; when you swear, let it be that you will patronize your home paper, pay your subscription promptly and not send your job work out of town."—Reese Review.

Figures given out by the pension department show that the old soldiers who survive the rebellion are dying at the rate of 90 a day, and for the first time in many years the tide is turned and there are more names being taken from the pension roll than are being added to it. Ninety a day means about three regiments of the old veterans being fully mustered out every month. And with growing age the death rate must continue to increase rapidly.—Ex.

The editor received a letter addressed "Mr Santa Claus, Blissfield Mich." and down in one corner "care of W. S. Goff. The letter read as follows: "Dear Santa Claus Please bring me a pair of skates, a sack of candy, a train of cars and a sled." The name of the little writer is withheld. Needless to say the editor has forwarded the letter to the genial gentleman of the pack.—Blissfield Advance.

STRONGEST EVIDENCE OF FAITH

C. A. Wright guarantees that Hyomei will cure the worst case of Catarrh in Tecumseh.

When one of the most reputable concerns in Tecumseh guarantees that a medicine will effect a cure or he will refund the money, it speaks volumes as to the merits of that remedy. It is in this way that C. A. Wright is selling Hyomei, the treatment that has made so many remarkable cures of both acute and chronic catarrh in Tecumseh and vicinity.

Hyomei is not a pill nor is it a liquid that has to be taken with a tablespoon or wineglass. Just breatne it by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment.

It destroys all germ life in the air passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its work of healing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grow balsamic trees and plants which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

A complete Hyomei outfit costs but $1.00, and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Remember that if Hyomei does not cure you C. A. Wright will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

The Human Lottery
"Ah, if only I were beautiful how happy life would be."
Many a forlorn maid has said this as she looked into the mirror. It is the one possession in the lottery of human life which woman would not refuse.

BRADFIELD'S Female Regulator
for young girls on the threshold of womanhood is invaluable. When they become pale and languid, the eyes dull, aching head, feet and hands cold, appetite gone or abnormal, obstructed periods and painful menses, and their systems generally run down, they need a tonic, building up and their blood cleansed.
Bradfield's Female Regulator for women is particularly valuable and useful owing to its tonic properties and as a regulator of the menstrual flows. Painful, obstructed and suppressed menstruation is permanently relieved and all diseases peculiar to her genital organs are cured by it.
Regulator clears the complexion, brightens the eye, sharpens the appetite, removes muddy and blotched conditions of the skin and cures sick headache at once.

A WAY OPEN.

Many a Tecumseh Reader knows it well.

There is a way open to convince the greatest skeptic. Scores of Tecumseh people have made it possible. The public statement of their experience is proof the like of which has never been produced before in Tecumseh. Read this case of it given by a citizen:

Vet. O. Austin, who lives with his son in the northeast section of Tecumseh, says: "I am more than thankful that Doan's Kidney Pills were brought to my notice for they did me a great deal of good, in fact they stopped a dull aching pain in my back which had annoyed me for years, and also rendered the action of the kidney secretions normal which at times were too frequent and highly colored. I tried a number of so called kidney cures but I did not receive any benefit, before I learned about Doan's Kidney Pills and I knew people who had used them so I went to C. A. Wright's drug store and got them. To say I entertain a very favorable opinion of them as a kidney medicine is putit in mild terms. They are all and more than they are represented to be."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

WITHOUT AMENDMENT

Cuban Bill Will Likely Pass Senate on Wednesday.

Washington, Dec. 14.—The senate will vote on the Cuban reciprocity bill on Wednesday in accordance with the unanimous agreement entered into during the special session, and until the vote is taken practically the entire time of the senate will be given to the discussion of the bill.

Senator Bailey will be the first speaker of the week, and it is understood will consume the greater part of the day. He will oppose the bill and will devote himself particularly to a presentation of the constitutional aspects of the question. He will be followed by Senator Spooner, who also will discuss the constitutional questions involved, but from a standpoint favorable to the bill. In addition to these there will be a number of short speeches for and against the measure. There is no doubt that the bill will pass without amendment.

No program has been arranged for the remainder of the week after the disposal of the Cuban bill, but it is understood that the way will be prepared for the taking up of Panama and Chinese treaties immediately after the Christmas holidays.

Senators generally hope to secure an adjournment for the Christmas holidays Friday or Saturday.

When the house convened today consideration of the pensions appropriation bill in committee of the whole house was resumed. During the week a number of the more important committees will take up pending bills for consideration, but beyond the passage of the pensions appropriation bill it is not believed that much will be accomplished on the floor of the house in the way of general legislation before the Christmas holiday recess, which probably will be taken at the end of the week.

IN MEMORY OF BILL NYE.

Movement Afoot to Erect a Monument Over the Humorist's Grave.

Asheville, N. C., Dec. 14.—The grave of Bill Nye, the famous humorist who died nearly eight years ago and was buried at Arden, near here, is unmarked, and a movement is afoot to have a granite monument erected above his resting place. The North Carolina division of the Sunshine society is raising the fund.

When Nye passed away his devoted widow placed a memorial window in Calvary Episcopal church, near by, but her plans for a more fitting memorial were frustrated by the failure, soon after Mr. Nye's death, of banks in which practically all the fortune left her by her husband had been deposited. At present a little tree is growing at the head of the grave, and some one has laid upon the mound a rude piece of stone picked up on the highway. Other marks there are none. Mrs. J. M. Ransier, president of the Sunshine society, Hendersonville, N. C., is the active head of the memorial enterprise, and contributions are invited from the friends of Nye throughout the country. They should be addressed to Battery Park bank, Asheville, N. C., custodians of the fund.

John R. Proctor Dies Suddenly.

Washington, Dec. 14.—John R. Proctor of Kentucky, president of the United States civil service commission and an intimate friend of President Roosevelt, died of angina pectoris at the Cosmos club in this city Saturday, aged 59 years. He was with some friends in the morning at the club, but became suddenly ill about 10 o'clock. Mr. Proctor was assisted to a bed and shortly afterward went to sleep and improved so much as to encourage his friends to hope for a speedy recovery. Shortly after 2 o'clock there was another attack, the stricken man gasping twice and then death followed. The president and Mrs. Roosevelt were shocked at the news. They called personally at the clubhouse and spent considerable time at Mr. Proctor's bedside.

Shot Himself Before Mirror.

Washington, Dec. 14.—Standing before a looking glass to make sure aim, Joseph Harnie Thibadeau, 61 years of age, of Falls Church, Va., shot himself through the forehead in a local hotel some time between 9 o'clock Saturday night and 1 o'clock Sunday. He was formerly a clerk in the paymaster-general's office. A letter found on the bureau, believed to have been written just before the suicide, shows Thibadeau to have been in financial straits and that he imagined himself to be the victim of a conspiracy.

LATE NEWS IN BRIEF.

The collapse of an embankment near Cordova, Spain, Sunday derailed a train. Fourteen persons were killed and many injured.

Paul Richter, president of the Richter Iron Works Co. of Denver, was accidentally shot and killed by a companion on a hunting trip east of that city.

John Haskett, aged 27, of Elwood, Ind., cut his throat to avoid capture for stealing a horse and buggy. Five minutes after his death the officers arrived.

Fire Sunday destroyed a customs warehouse at Metz, Alsace-Lorraine, which contained among other things a quantity of American bacon and oil. The loss is estimated at $500,000.

Spain will not participate in the St. Louis exposition. This decision was reached at a cabinet council, the reason given being that there would not be sufficient time to complete preparation.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

Often The Kidneys Are Weakened by Over-Work.
Unhealthy Kidneys Make Impure Blood.
It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.
Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.
If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.
If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

JAPAN DIET DISSOLVED.

Action of Lower House Brought It About.

Tokio, Dec. 12.—The diet has been dissolved. Hope had been entertained in official circles that in view of the extraordinary nature of the step taken by the lower house Thursday in its reply to the speech from the throne, the vote on the reply would be reversed. The allied parties, however, at meetings held outside the diet decided the action taken should not be reversed and the dissolution followed.

It is now reported in official circles that the reply of the Russian government to the Japanese demands is on its way here and it is forecasted that the final proposals of Japan are considerable modifications of the claims made in the last note. It is also said that Russia has made concessions regarding the difficulties in Manchuria.

The dissolution of the diet leaves the cabinet with a freer hand in the negotiations.

Murder In Washington.

Washington, Dec. 12.—With six bullet wounds in various parts of her body, almost any one of which would have caused death, Mrs. Rachel Ann Beall, 71 years old, was found murdered in her home, 1344 H street northwest, Friday. Many mysterious features surround the case. The police have two men and a woman under arrest on suspicion of knowing something about the crime. All of them are members of the murdered woman's family, and evidences point to a long standing family dispute as the motive for the crime. Those in custody are Andrew Weedon, the husband of Mrs. Weedon's stepdaughter, and Charles Oelrich and his wife Jessie, son-in-law and daughter.

Murderer Made Daring Escape.

Winnipeg, Man., Dec. 12.—A Calgary dispatch says Ernest Cashel, who was to have been hanged on Tuesday next for the murder of Rufus Holt, escaped from the mounted police barracks in a most daring manner during the night. When his cell was searched Cashel pulled two revolvers on the guards, demanded and obtained the keys for his shackles and then, after unlocking these, made his escape from the building and has not yet been recaptured.

Absentminded.

"Rather absentminded, isn't he?"

"Extremely so. Why, the other night when he got home he knew there was something he wanted to do, but he couldn't remember what it was until he had sat up over an hour trying to think."

"And did he finally remember it?"

"Yes; he discovered that he wanted to go to bed early!"

A Lucky Call.

"I don't mind telling you now," said young Dr. Frankly, "that you just called me in at the right time."

"Really!" exclaimed the convalescent. "I wasn't so bad as that, was I?"

"Bad! My dear sir, you were good. I was down to my last cent and needed the money!"

The Traveler's Ready Answer.

Mrs. Z.—Listen, George. The baby is saying "Oo-goo-ja-boo-oo-go." What does it remind you of?

Mr. Z.—H'm! Reminds me of a brakeman calling out stations.—Philadelphia Record.

MRS. COLLINS MEDICINE

Did Leachman No Good—Damaging Testimony Given.

Owosso, Mich., Dec. 12.—If those who attended the examination of Mrs. Caroline Collins Friday were looking for excitement they certainly found it. All the morning Attorney John T. McCurdy, for the defense, seemed trying to make the suicide theory stick, but in the afternoon the prosecution decided to silence the talk that there was not evidence enough to bind Mrs. Collins over to the circuit court by introducing new testimony.

Startling were statements of Mrs. Kate Quaderer, a sister of the dead man and a neighbor of Mrs. Collins. Mrs. Quaderer stated that she went to the Collins home on the Sunday after her brother became sick and found Mrs. Collins mixing something which she said was "lemon water for George." Leachman, who was in bed, drank the mixture but said it did not taste good. Later he complained of a burning sensation in his stomach and begged for relief.

On Monday Mrs. Quaderer was at the Collins home again. George asked for a quieting powder, as he was very thirsty and restless and could not sleep. He was given two powders by Mrs. Collins, but they did him no good. A short time later the witness said Mrs. Collins was aroused from her nap by the sick man's walls of agony. She then went down into the cellar and got a large glass of beer, which George drank. He remarked on swallowing the liquid that it did not taste right. He still continued to suffer great pain and burning in his stomach.

DENIES THE RUMOR.

Gerritt Albers Contradicts Report He Will Confess to Perjury.

Grand Rapids, Mich., Dec. 12.—Because ex-Alderman James O. McCool of the First ward made no defense in his examination on a charge of accepting a bribe of $350 from ex-City Attorney Lant K. Salsbury, Judge Haggerty of the police court held him to the next term of the superior court for trial. This action was the only development in the water deal scandal cases Friday. The term will begin Monday, when respondent, with ex-Mayor Perry, J. Clark Sproat, C. S. Burch, E. D. Conger and D. E. Lozier, who have waived examination, will appear before Judge Newnham for further disposition of their cases.

Gerritt H. Albers denied the truthfulness of a report that he intended to make a confession to the prosecuting attorney acknowledging his guilt on a charge of perjury. He said to the Herald that he had made no statement to the effect and he had no intention of making a confession.

The cases of Aldermen Ellen and Depagter and ex-Alderman Muir are on call in police court for final disposition today. Salsbury's testimony given in the examination of these cases will be read to the witness in the presence of respondents, and it will depend upon their decision whether the examinations are continued or whether they shall go to the higher court without the testimony of the defense.

Lost Use of His Throat.

Flint, Mich., Dec. 12.—August Buss, well-known German farmer, living near Clio, is dead from throat trouble which resulted in his starving to death. He was about 70 years of age. Nine days ago he chased calves and became overheated, complained of pain in his head and soon lost the use of his throat.

They Burned His House.

Niles, Mich., Dec. 12.—Thursday evening Perry Phillips was arrested upon charge of beating his wife and during the night some unknown parties set fire to his house and burned it to the ground. Friday morning Mrs. Phillips withdrew her charge against her husband.

LIFE PLANT Renews Life.
The Very Best TONIC Ever Discovered.
The blood is a great source of health or disease in the human system. If the blood is pure, the individual is strong and healthy; if the blood is impure or diseased then there is sickness and disease in the whole system.
Impure blood causes such diseases as Eczema, and Scrofula. LIFE PLANT effects its wonderful cures by acting through the blood. It is impossible for that blood poison, uric acid, or any other blood impurity to exist in the presence of our harmless medicine. The phenomenal success of LIFE PLANT in the many forms of blood diseases, warrants us in stating that it is a positive cure for Eczema and Scrofula. Read what Mr. M. P. Hobbs says of LIFE PLANT:

THEY FAVOR WOOD

Investigating Committee Will Indorse Promotion.

SECRETARY ROOT TESTIFIES

Undertook to Assume Responsibility for Orders Issued by Wood Affecting Cuba's Judicial System—Only One to Defend Him.

Washington, December 17.—The senate committee on military affairs last night concluded its investigation of charges against General Leonard Wood, filed for the purpose of preventing his confirmation as major general. Secretary Root was the only witness Wednesday. He was on the stand for two and a half hours at the forenoon session and occupied the attention of the committee last night from 8 o'clock until 11:20. The committee will meet today to prepare its report. It is understood that confirmation will be recommended by a vote of 8 to 2. A minority report will be made by the opposing members of the committee.

The testimony of Secretary Root is practically the only defense that has been made of General Wood in the hearing which has extended since about the beginning of the extraordinary session of congress. This testimony, however, covered the entire range of the evidence produced against Gen. Wood and was supported in many instances with correspondents and other data taken from records at the war department covering the period of Gen. Wood's administration of Cuba. Secretary Root undertook to assume the whole responsibility for the orders issued by Gen. Wood affecting the judicial system in Cuba and concerning the concession granted to the Jai Alai Co. at Havana. He justified the acceptance by Gen. Wood of the present of silver set from the Jai Alai Co.

UNITED STATES MEDDLES.

Russian Prince Sharply Criticizes Interference of Foreigners.

Paris, December 17.—Prince Mestchersky, of Russia, in a letter to the Gaulois sharply criticizes the interference of foreign nations in the internal affairs of Russia, citing particularly the case of the United States.

The prince says: "If for example, public opinion in Russia should be moved in behalf of the negroes in America, to the point of condemning the American officials, I suppose those attacked would say: 'You must not mix in our internal affairs.' That would be a strictly logical answer, just as much so as the answer made by the people of Russia."

Three Thousand Made Idle.

Pittsburg, Dec. 17.—The entire plant of the Edgar Thomson steel works of the Carnegie Steel company at Braddock, with the exception of the furnace and foundry departments, shut down Wednesday for an indefinite period. All of the skilled men of the plant, over 3,000 in number, will be rendered idle. This is the first suspension for several years and will be utilized for the making of repairs and improvements.

Enemies of the Mosquito.

New York, Dec. 17.—Scientific investigators of national reputation assembled here Wednesday to consider methods of carrying on the war of extermination against mosquitoes, begun a few years ago. Preventative methods were discussed, mainly in the line of filling up the ponds in which mosquitoes breed or attacking the insects in the larval stage. Resolutions advocating the formation of a national organization for waging war on mosquitoes were adopted.

CHRISTMAS.

The time for presents and "good cheer" is near. Much depends upon the present, too. We anticipated your Christmas wants six months ago and have ready the largest and most complete assortment of desirable things for Christmas shoppers ever displayed in the city.

This, coupled with the fact that our cash prices save you good, clean money on anything you want in our line, makes your buying for Christmas a pleasure—that is—if—you—buy—here.

Here are some reasons why you should:

Neckties.

The "swellest line in town." Nearly everyone will tell you so. You'll say so too, when you have seen our display of Christmas TIES. All the good things are here—Imperials, Ascots, 4-in-Hands, Shield Tecks and Bows. It is a great assortment—the late patterns, new designs and best of silks, and more than that—our prices are right.

Gloves and Mittens.

For Men, Young Men and Little Fellows. Here are the stylish, comfort-bringing kind in Kid, Mocha, Astrachan and Reindeer—a great selection to choose from, commencing at 45c, and up to 1.40.

Save you money on every pair.

Mufflers

are essential and much appreciated by all men.

Now you know, we made an extra effort to get THE BEST MADE—succeeded pretty well. The latest creations in fancy Mufflers are here. 45c and on up to $1 85 is our range of prices.

Save you money on these too.

Men's Rain Coats.

It's fashion's latest edict that a man's wardrobe is not complete without a Cravenette, or rain coat. We have a nice assortment for you to choose from, at 10, 14 and 18. We save you good money on rain coats.

Dress Suit Cases.

A good Dress Suit case makes the nicest kind of a present. You'll find the largest and best stock of cases in town right here, 1.20 to 7.00. At cash prices you get the best.

MEN'S HANDKERCHIEFS, linen and silk, at 15, 20, 25, 35 and 50c, a great line, others at 5 and 10c. UMBRELLAS make an excellent gift. The excellent kind here, at 45c to $3.40 FUR MITS and GLOVES, a complete showing of them here, as low as 50c and up to $4.50. SLIPPERS, a fancy pair makes a very acceptable present. Assortment sure to please.

We would request that you come early to do your Christmas shopping. Don't wait.

MICHIGAN IS O. K.

For Stock Raising, Declares Thos Wyckoff.

STOCK BREEDERS IN SESSION

Wyckoff's Paper Discloses Interesting Information—Thinks Northern Michigan Excellent Country for Cattle Raising—Plenty of Land.

Detroit, Mich., Dec. 17.—Cracking the nut of controversy and getting at the real meat of the meat producers problems, the Michigan Improved Live Stock Breeders' association, in fourteenth annual session at the Griswold House Wednesday, furnished enough mental steak to last all winter. The papers were more than ordinarily notable. The professors from the M. A. C. had their inning and the farm kings had theirs. President Robert Gibbon's address had no cry of hard times. N. A. Clapp, of South Lyon, put the hog on a pedestal and L. C. Drake of Weston, told of the dual purpose cow.

The real feature of the program was the paper on "Cattle in Northern Michigan," submitted by Thomas Wyckoff of Orchard Lake. Mr. Wyckoff was delayed until late in the evening and the reading was abandoned, owing to the late hour. He, however, surrendered his paper for publication. Following are important extracts therefrom:

"Thousands of pure-bred cattle and sheepd are needed in most of these northern counties," he says, "from the best herds and flocks in our state.

"Stock of all kinds may be placed within the reach of every part of our state, to promote improvement. In some of the vacant northern counties men of capital are securing and fencing tracts of 1,000 to 5,000 acres of land to feed cattle, sheep and other stocks. Lands are cheap and available. No young man need look for a better opportunity than the present to secure a farm, build a good home surround himself with some good breed of cattle at the lowest minimum cost, and be independent. Michigan lands are good, well watered, near to market, will produce as much grain and grass, and bring double the money if fed to cattle, hogs and sheep as the cheap western lands.

"A man last spring, in a county adjoining Bay, bought a square mile of land at $2.50 per acre, fenced it with wire fence, bought 100 head of good steers in Chicago, fed them on grass self-seeded, or that had been seeded fro drawing hay to lumber camps when the land was cleared of timber and sold them in September at an advance over the purchase price for nearly enough to pay the cost of the land, except fencing. And there was plenty of grass, not found by the cattle, still available.

"I might add here that these cattle were chiefly Galloway grades. I have observed that the beef breeds of cattle of Galloway, Shorthorn or Hereford blood seem to do well in every northern county, while the Jersey is in demand for the dairy.

"Thousands of acres of good grazing and tillable land are now aballable in our central and eastern north counties that will yet produce as much grass, grain and stock as Wayne or Oakland. There are tracts too sandy to become valuable for anything but forestry commissions.

"From a standpoint of hardiness in north clamites I would give the Galloway the preference for a beef breed. They have shaggy coats of hair with a soft undercoat much like wool, impervious to water or snow in winter and thick enough to protect them from flies and mosquitoes in summer. The climate does not seem any colder now in Crawford, Alpena, Alcona and counties of that latitude than in Genesee and Lapeer 40 years ago.

"In traveling through the most advanced territory of our northern counties in the southern peninsula, and north of the straits, it is clearly seen that other interests have received attention with skilled labor, which, if as carefully directed in live stock improvement, would materially advance the financial interests of all these counties.

"Several tracts of land are now being prepared by fencing for raising cattle in the northern counties, one man saying he would produce 100 head of shaggy-coats for buffalo robes annually, as the buffalo is a thing of the past, while robes, overcoats and capes can be made from Galloway hides and the meat is the best beef produced at the least cost per pound. Northern Michigan produces immense crops of oats, peas, barley, potatoes, turnips and hay to feed cattle and fatten them in the winter months. The grass will do the same in the summer, even on stump land that has never been plowed. There is plenty of room, plenty of good land for 20,000 more young, energetic farmers to engage in the business of raising beef and mutton, with the profits from the hides for robes and coats and the wool for clothing.

To Build More Dams.

Kalamazoo, Mich., December 17.—The announcement has been made here by C. H. Frisbie, of the Kalamazoo Valley Electric Co., that two new dams in the Kalamazoo river will be started early in the spring. One will be near Ceresco and the other near Plainwell. The combined horsepower of the two dams will be about 600, and the cost $300,000. The company already has dams at Otsego, Allegan and Plainwell, and steam plants aggregating 300,000 horse-power.

A Guest of Honor.

Lnsing, Mich., December 17.—George W. Peck, who represented the old sixth district in congress, and who is now approaching his eighty-eighth birthday, was a guest of honor at Capitol lodge of Masons last night upon the occasion of its fiftieth anniversary. Mr. Peck was the first master of the lodge and was afterward grand master of the fraternity in this state.

New Rural Routes.

Washington, Dec. 17.—Commencing Jan. 15 rural routes 1 and 2 will be established at Port Huron, St. Clair county; length of routes, 48 miles; population served, 1,354. Rural carriers appointed: Columbiaville, Adelbert L. LeValley, carrier; George LeValley, substitute. Six Lakes, Alexander Brown, regular; Eddie Brown, substitute. Caseville, Charles A. Blake, regular; William B. Traver, substitute.

A WAR PREVENTED

Prompt Action of United States Averted Bloody Conflict.

ON ISTHMUS OF PANAMA

Assistant Secretary Loomis Explains President's Motives—Bogota Put Up Scheme to Fleece France—War Would Have Resulted.

New York, Dec. 16.—The conditions which resulted in the recent establishment of the republic of Panama were discussed last night at the banquet of the Quill club, held at the Hotel Manhattan, by Francis B. Loomis, assistant secretary of state of the United States, and M. Phillippe Bunau-Varilla, minister for Panama. The Rev. E. S. Typple, D. D., president of the club, presided and among those present were Albert Shaw, editor of the Review of Reviews, and President Frissell of Hampton Institute.

Assistant Secretary Loomis, in presenting his views on Panama and our relations with other Latin-American countries, said:

"We have not desired to annex Panama, and we have not done so. The president simply executed the will of the American people with due regard to international law and rights. He was instructed by congress to secure a canal route on the isthmus of Panama, if possible. He waited until the adjournment of the Colombian congress and gave the government of that country every opportunity to ratify the treaty or to propose some proper method looking to the ratification of a new treaty, and the Colombian congress, in utter bad faith, rejected the treaty and adjourned.

No Apologies to Offer.

"In less than a week's time and before the president could be reasonably expected to turn to grave consideration of the Nicaragua route, the long expected and inevitable revolution in Panama came to pass. The president promptly recognized the de facto government. The administration, I am sure, has no apologies to offer for its course.

"We were more deeply interested and more directly in the guarantee contained in the treaty of 1846 than New Granada was, or any other country. That treaty was negotiated for the purpose of securing to us certain canal privileges. We in turn agreed to guarantee the neutrality of the isthmus.

"It occurred to certain men in Bogota that the United States could be made to pay twenty or twenty-five millions of dollars instead of ten, or better still, as has been disclosed by recent published official correspondence, if the treaty were rejected or no action taken upon it and the whole matter postponed for another year, the concessions of the present French canal company, having expired by that time, the renewal of that concession would be declared invalid and all the rights, privileges and work of the French Canal company be practically confiscated and disposed of to the United States for forty million dollars, in addition to the ten millions as proposed, and the annuity of a quarter of a million. This was a radiant and alluring prospect and the temptation proved too strong.

"This particular phase of canal history and the possible consequences of the action of the Colombian government in rejecting the treaty have not been exhaustively discussed.

Would Have Sent Warships.

"Reflect for a moment on the grave possibilities which confronted this government as it peered into the future. I may safely assert, without fear of contradiction by any well-informed person, that the government of France would not have stood serenely by and witnessed the pillage of thousands of her people through the act which Bogota politicians devised for the looting of the French company of $40,000,000.

"A French squadron from Martinique would have borne down upon the isthmus and perhaps landed marines at Colon and sent them across the isthmus to Panama and along the line of the canal to protect the interests and property of French citizens. There would, in all probability, have been an armed conflict between France and Colombia, or France at least would have felt herself compelled to hold the isthmus for a long period. This would have wrought immediately and poignantly upon the sensibilities of the American people in respect to the Monroe doctrine, and we should no doubt have found ourselves viewing France with annoying apprehension. The French warships might easily have been followed by those of England and Holland; and Panama, like the Balkan states, might well have been expected to furnish the spark to set half the world in flames.

"This situation, which I have described, fraught with real and momentous dangers, furnished one of the very serious possibilities which the administration had to reckon with in dealing with the revolution in Panama."

Exciting Time With Robbers.

Sioux City, Iowa, Dec. 17.—Robbers blew open the safe of the Citizens' Savings Bank at Quimby, 40 miles northeast of Sioux City, early in the morning and secured $3,000 in cash. Between 1 and 2 o'clock this morning burglars blew the door from the safe of the postoffice at Paulina, Iowa, and secured $125. While in search of the men who committed the latter robbery, Sheriff Price, of O'Brien county, captured two of the Quimby bank robbers, recovering $1,400 of the stolen money.

ARE AGAINST IT.

Live Stock Breeders Opposed to Canadian Reciprocity.

Detroit, Mich., Dec. 16.—The shorthorn was king at the Griswold house Tuesday afternoon, where several hundred prominent live stock breeders met to discuss one of the vital foctors in the state's prosperity. A more successful meeting the Michigan Improved Live Stock Breeders' association has not held in some years, and a note of optimism was discernible in every one of the instructive papers read. The general meeting will be on call today; yesterday the sub-organizations had their several innings with the shorthorn breeders in the lead for numbers and enthusiasm.

The breeders are stoutly opposed to reciprocity with Canada, and it is understood that the committee on resolutions has already drafted resolutions attacking the reciprocity policy. In his address before the Michigan Shorthorn Breeders' association yesterday afternoon, President N. A. Clapp of South Lyon took a rap at reciprocity, declaring that "it means the swapping of American manufactured goods for Canadian farm products."

It is being proposed to institute combination sales on a large scale in the state. The suggestion that a big sale might be conducted in connection with the state fair met with favor and was supported by I. N. Butterfield of the state fair executive.

BLISS IS GENEROUS.

He Granted Four Paroles and Commuted One Sentence.

Lansing, Mich., Dec. 16.—Paroles were granted by Governor Bliss Tuesday to the following convicts:

Maurice M. Garnsey, sent from Calhoun county Oct. 24, 1901, to Jackson prison for four years for larceny.

John Blue, sent from Houghton Nov. 19, 1900, to Marquette prison for four years for robbery.

David Strange, sent from Wayne county Sept. 15, 1901, to Jackson prison for twenty years for murder, second degree.

Joseph O. Matthieu, sent from Monroe county Feb. 13, 1901, to Jackson prison for four years for larceny.

A commutation of sentence was granted in the case of Isaac Allerding, sent from Barry county Oct. 11, 1894, for fourteen years for rape. Allerding was paroled some time ago, and his sentence is now commuted so as to expire at once, in order that he may leave the state to accept a situation.

HAD RUNNING FIGHT.

Toledo Officers Failed to Capture Monroe Jail Breakers.

Monroe, Mich., Dec. 16.—Friends of Harry Smith, who is awaiting trial for a burglary in Dundee, attempted to break into the county jail to effect his delivery. A watch dog aroused the officers. The fellows are believed to have been Toledo thugs.

Toledo, O., Dec. 16.—Four local detectives had a running fight here early in the morning with the men who tried to break into the Monroe jail. Sheriff Dull of Monroe 'phoned Toledo that the men were headed this way and detectives were sent to capture them. As the men drove into town the detectives halted them. Instead of stopping they started their horse on the dead run and a running fight resulted. The detectives followed to West Toledo, where the rig was deserted. It contained a suit of Demake. It is supposed they took a car for Adrian, Mich.

Michigan Inventors.

Washington, Dec. 16.—Michigan patents were issued Tuesday as follows: William C. Andrus, Kalamazoo, dampening device for paper calendering machines; Arthur C. Bourdeau, Battle Creek, making malted flakes, also means for mixing cereal with malt, also means for feeding ovens, also means for filling packages; Charles S. Burton, Hastings, pedestal extension table lock; William H. Cadwell, Williamston, elevating baggage truck; G. C. Cowles, Bay Mills, undressed lumber and preserving same; Ralph Dillingham, Lattin, mowing machine; Thomas Draper, Port Huron, combined universal joint pipe coupling and plug; Michael Garland, Bay City, cable conveyor; John L. MacRae, Escanaba, game; Edward B. Morgan, Saginaw, weeding hoe; Sarah A. Moulton, Grand Rapids, playing cards; Fred N. Root, Kalamazoo, hulling machine; Abigail E. Saxton, Pomona, strainer; Moras Taylor, Detroit, screw clamp; Sherman S. Withington, Adrian, die for tying intersecting wires.

He Never Awoke.

Potterville, Mich., Dec. 16.—What is believed to have been a suicide occurred here when A. G. Martin, better known as "Dad," succumbed to the effects of morphine poisoning. Martin had been drinking heavily of late. Some weeks ago he was arrested for stealing, but escaped. He returned to the village on Friday evening and Saturday morning went to the hotel and obtained permission to lie down. He dropped off into a stupor, from which he never recovered.

Thieving Railroad's Coal.

Owosso, Mich., Dec. 16.—The Michigan Central railroad claims to be losing hundreds of dollars weekly because of the activities of coal thieves along its lines, and has started out to stop the leakage. Special Agent F. J. Maynard of Bay City has swore out warrants for the arrest of Nicholas and John Stack, Daniel Gage and Herman Spiegel of Owosso. More arrests are to follow.

Mrs. McKnight Transferred.

Lansing, Mich., Dec. 16.—Governor Bliss has ordered Mary McKnight, last week sentenced at Cadillac to Jackson prison for life for murder, transferred to the Detroit house of correction.

A costly mistake.

J. G. Gluck, Superintendent, Pruntytown, W. Va., writes: "After trying all other advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform School. I find it the most effective and absolutely harmless. J. J. Orr.

There is nothing a man hates to do worse than to pay his wife's dental bills.

Makes assimilation perfect, healthy blood, firm muscles, strong nerves. Quickens the brain, makes and keeps you well. Great medicine. Rocky Mountain Tea. J. J. Orr.

Marrying in haste is no worse than any other kind of marrying.

A glass or two of water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggists.

Brigham Young was merely the man who had the opportunity.

Coughs, Colds and Constipation.

Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and will not constipate. J. J. Orr.

There is bound to be a squint in the sermon when it has one eye on the creed and the other on the money.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley St. Saugerties, N. Y.

The man with a tender heart does not need to demonstrate it by the softness of his head.

Dr. Wood's Norway Pine Syrup seems especially adapted to the needs of the children. Pleasant to take; soothing in its influence; it is the remedy of all remedies for every form of throat and lung disease.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are uneasiness after eating, fits of nervous headache, and disagreeable belching.

"I have taken Hood's Sarsaparilla at different times for stomach troubles, and a run down condition of the system, and have been greatly benefited by its use. I would not be without it in my family. I am troubled especially in summer with weak stomach and nausea and find Hood's Sarsaparilla invaluable." E. B. HICKMAN, W.Chester, Pa.

YOU MAY SING

IF WELL AND HAPPY

If you feel the throb of pure blood in your veins and the thrill of life in your body you are fit for anything, you can laugh and sing, you are in condition for work or play and you will enjoy life.

PURE BLOOD MEANS LIFE

If you do not feel right, if you are troubled with a gloomy feeling, with tired and nervous spells, look out for the following symptoms:

Foul Breath, Bad Taste in the Mouth, Sallow Skin, Pimples and Blotches, Indigestion, Loss of Appetite, Pains in the Side, Lame Back, Pains Under Right Shoulder, Dizzy Spells, Nervousness, Neuralgia, Rheumatic Pains.

These signs show that your kidneys and liver are out of order, and if they are they will not carry off the impurities and you will feel bad and are liable to have a spell of sickness. Better attend to it at once.

KINYON'S BLOOD AND KIDNEY REMEDY
WILL SET YOU RIGHT

Mrs. Balch of Mishawaka, Ind., says: "I was very sick for over two months, troubled with gall stones and general kidney trouble, at times I screamed so with pain that people could hear me a block away. I had a number of doctors and they could do nothing for me. I kept getting worse, could not rest or sleep. In desperation I used Kinyon's Blood and Kidney Remedy. I took $2.00 worth and got well. For the last year I have enjoyed good health."

Scholarship for Women.

Ann Arbor, Mich., December 18.—President Angell Angell has just made the following announcement. "Candidates for the European fellowship of the Association of Collegiate Alumni must make out their applications to tre committee in charge. The scholarship provides $500 a year toward paying the expenses of a young woman at European universities. A competitive examination will not be held, the choice being based on character, college diploma and in her chosen profession. Of chief importance in this respect is the candidate's past work in papers or articles on science or literature. The fellowship may be held for a year and extended at the discretion of the committee."

Mrs. Angell Is Ill.

Ann Arbor, Mich., Dec.17.—Mrs. James B. Angell is very ill. Her physicians refuse to tell what her condition is, but President Angell said this morning it was very serious. She has been attacked by pneumonia.

Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At all druggists.

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. For sale by all druggists.

SAM'L SHUTT.

Best 10c candy in town, in fact the New York Store is the only place where you can get the assorted creams, fig or peanut wafers, Italian chocolates, iced dates, carmels, iced cocoa squares and many other extra good candies for 10c a pound.

Mrs. Culbertson and daughter May, of Ridgeway, were in town yesterday.

I don't pretend to say that my cough medicine will raise the dead like some of the cough medicines that are advertised, but do say if you have trouble with your throat and lungs or a bad cough get a bottle and try it and if it don't help you bring back the bottle and get your money. Call 'phone 302 or can be had at Avery's grocery.
W. A. BROWN.

Gold and silver framed mirrors, shaving mirrors on wrought iron standards, hand mirrors and triple mirrors, all at the New York Store.

Beautiful Display.

One of the prettiest windows on Chicago street is that of Wm. Willoughby, of the City Bakery. The endless display of fine confectionery, such as candy toys, nut meat chocolate, pine apple ices, berry ices, beautiful honey comb chocolate chips, Filippi almonds, salted almonds, walnut stuffed dates, hand made creams and the largest and most beautiful display of Lowney's and Sparrow's goods combined with style and taste go to make up an exceedingly artistic display which attracts the eye of all passersby. Mr. Willoughby makes a specialty of good candies and carries the most complete line to suit all pocket books.

Merry Christmas!

You will have it by eating some New York oysters found at Miller's Meat Market.

Tecumseh Taxes.

In looking over the tax roll it is seen that the following persons in Tecumseh pay $100 or more toward enriching the township each year. The taxes are a trifle higher this year. This is not on account of the library tax which is not a cent higher than usual, but the state tax is what created the mischief.

Jack Bradd.

Wednesday's Detroit Times contained the following in regard to Jack Bradd:

There was a pathetic little scene in the police court yesterday afternoon when Justice Sellers announced that Jacob P. Kelley, Frank E. Cavanaugh and John Bradd would have to stand trial in the recorder's court for the killing of Orlando Mowry in the rear of Gaffney's saloon on the night of November 18.

As soon as the court made its ruling Kelley, who comes from a well-to-do family, and who expected to be discharged, broke down and wept. Mrs. Mowry, wife of the murdered man, sat just behind Kelley, and when he manifested his grief she too began to sob as though her heart was breaking.

Justice Sellers at first announced that the three prisoners would have to stand trial on the charge of murder, but after a consultation with Assistant Prosecutor Webster and Attorney Van Dyke, for the defense, he announced that the charge would be held open for a day or to. Attorney Van[illegible]ke made a hard effort to get the ch[illegible]e reduced to manslaughter in the po[illegible]e court.

CLUB NOTES.

The Monday Club have adjourned for a two weeks' holiday vacation.

Tuesday afterno on the Research Circle held its last meeting before the Christmas holidays. Mrs. Mills read a paper upon "Child Labor," and Mrs. Andrew Wilson gave one on the subject of "Immigrants." The discussion was on Michigan State Institutions. The next meeting will be Tuesday, Jan. 5th.

John Steel

Was born in County Deery, Ireland, Feb. 1, 1823. He came to America in 1851. After living for a time in New York state, he came to Michigan, where he lived for 39 years. His faithful companion during many of these years was removed by death in 1883. The same year he united with the Reformed church in his neighborhood, in the southeast part of Macon township. He died at the home of his son, Samuel, in Macon, Nov. 19, 1903, aged 80 years, 9 months, 18 days. The funeral on Nov. 21 was largely attended, Rev. J. A. DeSpelder of Tecumseh, officiating.

THE CHURCHES.

There will be an appropriate Christmas service at the Methodist church Sunday morning. In the evening the pastor will preach on the subject, "Christ rejected by his own."

Fight will be bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

S. BROCKWAY ANDERSON

Has passed away. A former resident of

TECUMSEH

Died at his home in San Jose, Cal.

S. Brockway Anderson died at his home in San Jose, California, of heart disease, on Tuesday Dec. 8. Mr. Anderson was born in Tecumseh, Dec. 1, 1844, making him 59 years and a few days old.

When a boy of 16 he entered the service of his country, when the rebellion broke out, and served with such bravery through all, that he was made quarter-master sergeant. He served in the army a little over three years and for 14 months in Southern prisons, and he never fully recovered from the sufferings he endured though it was only about six years ago that he became an invalid. In 1868 he went to San Jose, and was appointed postmaster by President Hayes.

Mr. Anderson was married to Miss Eleanor Eddy of San Jose, in 1871, who with his mother, Mrs. Elizabeth Anderson, two sisters and a brother, all of California, survive him. The funeral was held on Thursday, Dec. 10, with military honors at the grave. He was also a Mason.

Mr. Anderson was an own cousin of the late Albert Anderson and Webster Anderson.

Concerning

THE KINGDOM OF GOD.

2 Tim. 4:2.

1 Cor. 9:16

THESE WERE MORE NOBLE THAN THOSE OF THESSALONICA IN THAT THEY RECEIVED THE WORD WITH ALL READINESS AND SEARCHED THE SCRIPTURES DAILY, WHETHER THOSE THINGS WERE SO. ACTS 17:11

The Gospel of Jesus Christ, is as we have seen, the Gospel,—i. e. the Good News—concerning the Kingdom of God; and to preach the Gospel is to preach (to announce, to define, to explain, to prove, to commend) the Kingdom of God.

Obviously, therefore, no one can understand what is meant by the Gospel of Jesus Christ until he knows what is meant by the Kingdom of God; and the first thing of all for the Christian preacher to do is to define what is meant by the term.

The three texts following not only define the meaning of the term beyond all possibility of mistake, but, indeed, give a survey of the historical development of the Kingdom of God from its inception to its fulfilment in Christ:

1. I will make of thee a great nation....and in thee shall all the families of the earth be blessed. (Gen. 12:2-3)

2. He shall be great and shall be called the Son of the Most High; and the Lord God shall give unto him the throne of his father David; and he shall reign over the house of Jacob forever; and of his kingdom, there shall be no end. (Luke 1:32-33.)

3. All authority hath been given unto me in heaven and on earth. Go ye therefore, and make disciples of all the nations, baptizing them into the name of the Father, and of the Son and of the Holy Ghost: teaching them to observe all things whatsoever I commanded you: and, lo, I am with you always, even unto the end of the world. (Matt. 28:18-20, Revised Version.)

That is to say, that particular Kingdom of God which Jesus Christ preached and with which we have here to do 1, began with that nation (the Jewish) which God raised up unto Abraham, and over which in course of time David was anointed to rule as God's Vicegerent (Ex. 19: 5, 6; Deut. 7: 6, 7, 8 etc); 2 was CONTINUED in the Kingdom which was given unto Jesus and over which He reigns as the Christ, i. e., the Anointed Son of David (2 Sam. 7:16; Ps. 89: 35,36; Is. 9:6,7 etc); 3, of which Kingdom, when proclaiming His reign about to begin, He instituted Baptism to be the initiatory rite (Matt. 28: 19; Mark 16: 16; John 3:5; Acts 2: 38; 8: 12; etc.).

The Kingdom of God is, therefore, that Divine Organization which is composed of Jesus Christ the King and His subjects, viz., those who have been baptized in His Name—the Organization being accomplished and administered, of course, by the Holy Ghost, Who is the true Vicar of Christ upon earth (Luke 24:49; John 14:26; Acts 1:8; 2:1-4; 1 Cor. 12:13, etc.)

ROUND ABOUT US.

Mrs. Felder, a worthy Trenton lady invested some $300 in diamonds and jewelry, which she had at her home Some time last week when she went to get her ring and bracelet, each of which sparkled with beautiful gems she found what Mother Hubbard found when she went to her cupboard to get her canine a bone. There was no jewelry. No diamonds sparkled in the jewel casket and the sparkle left her eye about the time it rested upon the empty case. Detectives were given such pointers as she had in mind and at last accounts were confident they had important developments in sight. Had Mrs. Felder made us a Christmas present of that cash instead of investing it in diamonds, she would be having our gratitude instead of our sympathy and the detectives would be out of a job. People of wealth seldom distribute it judiciously. Never invest in diamonds. It causes envy. If given to a country printer it is bread upon the waters and meat upon the table.—Adrian Press.

STRONGEST EVIDENCE OF FAITH

C. A. Wright guarantees that Hyomei will cure the worst case of Catarrh in Tecumseh.

When one of the most reputable concerns in Tecumseh guarantees that a medicine will effect a cure or he will refund the money, it speaks volumes as to the merits of that remedy. It is in this way that C. A Wright is selling Hyomei, the treatment that has made so many remarkable cures of both acute and chronic catarrh in Tecumseh and vicinity.

Hyomei is not a pill nor is it a liquid that has to be taken with a tablespoon or wineglass. Just breathe it by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment.

It destroys all germ life in the air passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its wo[illegible] When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grow balsamic trees and plants which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

A complete Hyomei outfit costs but $1.00, and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Remember that if Hyomei does not cure you C. A. Wright will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

Vigorous Old Age

Paine's Celery Compound makes the old feel young, and cures their ills. It has added years of health and enjoyment to many a life. Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse, 67 years old, writes:—

WELLS & RICHARDSON, Co.,

Gentlemen:—Just a word in favor of Paine's Celery Compound, hoping it may catch the eye of some afflicted person, and they may receive the same satisfactory benefit. Some 15 years ago I had a combination of malaria, chills and fever, and grip, which continued for a year or more; meantime I lost in weight about 60 pounds, trying different medicines and doctors with unsatisfactory results. Paine's Celery Compound was recommended, and, after using a little I began to improve, gaining about a pound a week. In a year I had regained 50 pounds of the lost weight and good health, and have been a well man ever since. Yours truly, GEORGE F. MORSE.

A WAY OPEN.

Many a Tecumseh Reader knows it well.

There is a way open to convince the greatest skeptic. Scores of Tecumseh people have made it possible. The public statement of their experience is proof the like of which has never been produced before in Tecumseh. Read this case of it given by a citizen:

Vet. O. Austin, who lives with his son in the northeast section of Tecumseh, says: "I am more than thankful that Doan's Kidney Pills were brought to my notice for they did me a great deal of good, in fact they stopped a dull aching pain in my back which had annoyed me for years, and also rendered the action of the kidney secretions normal which at times were too frequent and highly colored. I tried a number of so called kidney cures but I did not receive any benefit, before I learned about Doan's Kidney Pills and I knew people who had used them so I went to C. A. Wright's drug store and got them. To say I entertain a very favorable opinion of them as a kidney medicine is putit in mild terms. They are all and more than they are represented to be."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute

M. in Liber 157 of Mortgages at page 6 and whereas, said mortgage was duly assigned by said Edwin R. Smith and Leander W. Kimball to Moses Bartlitt on the 9th day of December 1903 said assignment being recorded in the aforesaid office of the Register of deeds of Lenawee County, state of Michigan, on the 10th day of December 1903 at 1:30 P. M. in Liber [illegible] of Mortgages at page 149, and whereas, there is claimed to be due on said mortgage at the date hereof for principal and interest the sum of $5,230.91 and an attorney fee of $25 allowed by law and stipulated for in said mortgage, making the whole amount claimed to be due on said mortgage at the date hereof $5,255.91. No suit at law or in equity having been instituted to recover the debt now remaining secured by said mortgage or any part thereof, and the power of sale in said mortgage contained having become operative.

Notice is hereby given that, by virtue of the power of sale contained in said mortgage, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, or so much thereof as may be necessary to produce the money due on said mortgage, at public vendue to the highest bidder, at the east front door of the Court House of Lenawee County, Michigan, in the City of Adrian in said County, on the 14th day of March 1904 at one o'clock in the afternoon of that day.

The mortgaged premises are described in the aforesaid mortgage as follows to-wit: Situated in the Township of Clinton, County of Lenawee and state of Michigan, described as follows, to-wit: The east half of the south west quarter of section nine (9) and also the south west quarter of the south west quarter of said section nine (9) and also all that part of the south east quarter of the south east quarter of section eight (8) lying east of the center of the River Raisin, and also all that part of the north east quarter of the north east quarter of section seventeen (17) known and described as beginning at the north west corner of the school section, thence west to the center of the River Raisin, thence down the center of the River to the Newburg Mill dam, thence south to the south line of the north half of the east half of the north east quarter of said section seventeen (17), thence east to the west line of said school section, thence northerly along said last mentioned line to the place of beginning, also a part of the north west quarter of the south west quarter of said section nine (9), described as beginning at the south east corner of the north west quarter of the south west quarter of said section nine (9), running thence north fifteen (15) rods and thence west, bearing south one (1) rod. Twenty eight rods (28) and eight (8) links to the center of the Clinton and Tecumseh Road, thence southerly along the center of said road to a point twenty five (25) rods west of the place of beginning, thence east twenty five (25) rods to the place of beginning, containing in all of the lands above described one hundred and sixty six acres more or less, occupied and used as one parcel or farm, and all in town five (5) south of range four (4) east.

Dated, December 18th, 1903.

MOSES BARTLITT.
Assignee of said mortgage.

O. F. SHELDON, Attorney for Moses Bartlitt, Adrian, Mich

Mortgage Sale.

Default having been made in the conditions of a certain mortgage (whereby the power of sale in said mortgage contained has become operative) dated executed and delivered on the 29th day of September A. D. 1900, by Joseph H. Brown and Annie Brown, his wife, to the Tecumseh State Savings Bank, and recorded in the office of Register of Deeds for Lenawee County, State of Michigan, on the 4th day of October A. D. 1900 in Liber 130 of Mortgages on page 510, and upon which there is claimed to be due at the date hereof the sum of seven hundred sixty-seven and 87—100 dollars, including taxes paid by the undersigned upon said mortgaged premises and interest thereon; and no proceedings at law or in equity having been taken for the collection of said mortgage debt;

Notice is therefore hereby given that, by virtue of said power of sale, I will, on the 1st day of February A. D. 1904, at ten o'clock in the forenoon of said day, at the east front door of the Court House in the City of Adrian, Lenawee County, Michigan, (that being the place where the Circuit Court for said county of Lenawee is holden), for the purpose of realizing the mortgage debt aforesaid, and said taxes, with interest thereon, together with the costs of this proceeding (including a lawful sum as an attorney fee), sell, at public vendue, to the highest bidder, the following lands in said mortgage conveyed, to-wit:—That parcel of land in the village of Tecumseh, County of Lenawee, and State of Michigan, known, bounded and described as follows, viz:—All that part of Block one of Henry L. Hewitt's addition to said village bounded by beginning in the east line of said Block about eighteen rods south from the north-east corner thereof and at north-east corner of lands (formerly) owned by Fincham (formerly by Stevens), and running thence north in east line of said Block eighty-six feet; thence west, parallel with north line of land deeded by Teachout to Waters January 17th, 1900, one hundred and thirty-five feet; thence south, parallel with first course, thirty-six feet; thence west, parallel with second course (extended), sixty-three feet; thence south, parallel with first course, fifty feet; thence east, parllel with second course, one hundred and ninety-eight feet to beginning.

Dated, November 5th A. D. 1903.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

Fighting at Santiago.

Cape Haitien, Dec. 17.—Heavy fighting, in which the revolutionists were repulsed, has been going on at Santiago for the last two days, according to a special dispatch received here. The government has advised all families to leave the city. President Morales is constantly expected in Santiago. Telegraphic communication with San Domingo is interrupted and this place is therefore without news from the capital. General Jiminez is still at Mone Cristi.

Gompers Going to Porto Rico.

Washington, Dec. 17.—Hon. Robert Todd, mayor of San Juan, P. Best Known Odd Fellow Dead.

Lansing, Mich., December 17.—Edwin H. Whitney, who died here Wednesday afternoon of erysipelas after an illness of less than a week, was perhaps the best known Odd Fellow in the state, having held the office of grand secretary of the grand lodge and grand scribe of the encampment of Michigan for 30 years, ending last October, when he declined re-election. He was 75 years of age. He was born in New York, but had resided in Lansing almost continuously since 1854, except for a few years when he was employed in the Detroit custom house.

Farmers Got $112,000.

Alma, Mich., Dec. 17.—The Alma Sugar company has just paid out to farmers more than $112,000 for the November delivery of beets, the largest amount paid out at any time since the factory was built. The company expects to have beets enough to keep the plant running until Jan. 15.

MISFORTONE OF MONEY

Rich People go to Hot Springs, Germany, and Have Special Treatment, but Still Have Their Rheumatism.

We poor people feel sorry for the rich,—they won't get something because it's cheap or advertised.

It's high-toned to spend small fortunes, and a luxury to be sick. It's "improper" to be cured at a dollar a bottle, although we have many rich clients, who are sensible and wouldn't be without Athlophoros.

In fact, Athlophoros was originated for a rich man by one of the most famous physicians. It gets at the Uric acid and dispels it. When that is done the Rheumatism is gone. It works every time.

The Uric acid clogs and poisons the blood, disables the body more or less. Athlophoros is as soothing as "oil to a burn," and especially in acute attacks will allow the breadwinner to get back to his work. It saves lots of needless suffering, and makes life worth living. All druggists sell it, or The Athlophoros Co., New Haven, Conn., will send a bottle for one dollar. It is within the reach of everyone and makes health possible to all.

LIFE PLANT

Renews Life.

NOT ONLY DOES IT PURIFY THE BLOOD, BUT IT RESTORES THE VITAL ELEMENT IN THE BLOOD.

There are hundreds and thousands whose systems are loaded with uric acid poison preparing the way for Rheumatism, Eczema, etc., and prompt action is necessary or serious pain and disease are sure to ensue. The first symptoms of any of these diseases are so slight as to pass unnoticed. A slight stiffness or soreness in the joints and slight twinges in the back point to a serious condition against which prompt measures should be taken. Many remedies have been proposed for the cure of Rheumatism, Eczema, Catarrh, etc., but so far only one has proven of any real value and that one is LIFE PLANT.

It has been very successful in curing these diseases, so successful that we sell it with a positive guarantee. Take LIFE PLANT, take it now.

RIGHT AFTER XMAS

The Treaty With Cuba Will Go Into Effect.

A PROCLAMATION ISSUED

Document Was Signed With Gold Pen Presented by Senor Quesada—Great Britain Demands Concessions on Sugar Same as Cuba.

Washington, Dec. 18.—The president issued a proclamation Thursday afternoon reciting the passage of the Cuban reciprocity bill and declaring the treaty to be effective ten days from that day, or Dec. 27.

The proclamation begins by setting forth in separate paragraphs, each beginning "whereas," the actions of the several conventions and congresses of the two nations which made the treaty a law, and then closes with the following:

"Now, therefore, be it known that I, Theodore Roosevelt, president of the United States of America, in conformity with the said act of congress, do hereby declare and proclaim the said convention, as amended by the senate of the United States, to be in effect on the tenth day from the date of this, my proclamation.

"Wherefore, I have caused the said convention, as amended by the senate of the United States, to be made public to the end that the same and every clause thereof, as amended, may be observed and fulfilled with good faith by the United States and the citizens thereof.

"In testimony whereof I have hereunto set my hand and caused the seal of the United States of America to be affixed. Done at the city of Washington this 17th day of December, in the year of our Lord one thousand nine hundred and three and of the independence of the United States the 128th.

(Signed)

"THEODORE ROOSEVELT."

"By the President: John Hay, Secretary of State."

The greatest dispatch was used in getting the Cuban bill started to the White House for signature of the president. Senor Don Gonzalo de Quesada was at the capitol when the congress was convened and he offered a pen for the signatures necessary to make the reciprocity operative. The pen was a gold one with a highly ornamented holder. It was used by Speaker Cannon, President Pro Tem Frye and Alexander McDowell, clerk of the house. It accompanied the bill to the White House, where it was used by President Roosevelt. The pen will be sent to Havana, where it will be placed on exhibition in the Cuban palace.

Now that the bill has become a law a question of great interest has arisen, namely, the effect of the reduction of the duty on Cuban imports of sugar from other countries. The British government has served formal notice on the state department that under the favored nation clause it expects that British sugar from the British West Indies shall be admitted into the United States on equal terms with Cuban sugar.

Couldn't Let Drink Alone.

FOUND LEO'S MONEY

Portion of It Was Intrusted to Cardinal Gotti.

CONCEALED SOME IN A HOLE

In Wall of His Compartments—Electrician Found It—Gotti Brought Gold to Pope After Lapse of Four Months—Leo's Dying Request.

Rome, Dec. 19.—According to the Tribuna, the Vatican had sudden wealth poured into its coffers Friday. For some time certain sums which were known to be possessed by Pope Leo were looked for without result, the search toward the end becoming somewhat feverish.

Cardinal Gotti, prefect of the propaganda, accompanied by Mgr. Marzolini, one of the late pope's secretaries, drove up to the Vatican and getting out hurriedly began tugging at a heavy object in the carriage. Assistance was offered, but it was refused and Cardinal Gotti and Mgr. Marzolini between them carried the mysterious object to the apartment of Pope Pius. They were immediately admitted and remained for two hours.

Intense curiosity was aroused by this act, as it was believed to have some relation to the missing wealth, and the wildest rumors were circulated. It soon became known, however, that the bag contained 45,000,000 francs ($9,000,000) in bank notes.

When Cardinal Gotti entered the presence of the pope he sank to his knees and pointing to his burden said: "Your holiness, the lamented Leo, just before his death, confided to me the money which I now lay at your feet, saying that if I succeeded him I was to use it as I thought best, but that if another took his place I was to turn the money over to him after a period of four months had elapsed. This I now do in the presence of Mgr. Marzolini, who has been the only other person to share the secret."

The pope was much affected. The Tribuna goes on to relate that just about the time this scene was being enacted in the papal apartments an electrician, while removing the hangings in the late Pope Leo's chamber in order to get at the electric light wires, found in a hole in the wall several bags which were carelessly tied. These bags when opened were found to contain 9,250,000 francs ($1,850,000).

A DANGEROUS PAIR.

Two More Alleged Counterfeiters Arrested in Boston.

Boston, Dec. 19.—Following on the great raid on counterfeiters at Revere two weeks ago, the United States secret service agents arrested in Boston Friday two men they say are as dangerous a pair of counterfeiters as the government has had to deal with. The men under arrest are Fred L. Wilson and Edward D. Wiggin, both of them claiming the title of doctor, although according to the officials neither man has any right to do so.

The secret service officials assert that Wilson before his arrest offered, through his attorney, to turn state's evidence, but the offer was refused.

Unlike the men arrested at Revere, Wilson and Wiggin are not expert engravers, their work being wholly of a photographic nature. The counterfeit money alleged to have been made by them was so exact an imitation of government paper that it was readily accepted as genuine by most of the banks through which it passed.

Women Sat as Jurors.

Chicago, Dec. 19.—For the first time in the history of the United States, so far as local records show, a jury composed of six women sat on a case before Judge Honore in the juvenile court Friday here. The jury passed on a petition to have Mary McGann, eight years old, declared a delinquent and placed in an institution. The mother of the girl, Mrs. Ann McGann, declared that her child had been with her all her life and would die if taken away from her. The jury sympathized with the mother and returned a verdict that mother and daughter should be sent to Dunning. The verdict was concurred in by a jury of six men in order to make the verdict legal.

MacArthur Explains.

Washington, Dec. 19.—The secretary of war has determined to take no further action regarding the utterances of Maj.-Gen. MacArthur, in Honolulu recently, in which he is alleged to have predicted war between the United States and Germany. In a cablegram to the department General MacArthur explains that his remarks were made in private conversation and not with the slightest idea that they would be given publicity. In view of the precedents in such cases, the department will allow the matter to drop.

Four Known to Have Perished.

Nashville, Tenn., Dec. 19.—Four persons are known to have been killed and perhaps thirty others injured, twelve of them fatally, in a fire here last night, which consumed the Central Tennessee college for young negro women, a department of Walden university. It is possible that the ruins may contain the bodies of other victims. The property loss is $25,000.

Charlotte Sued For Pay.

Charlotte, Mich., Dec. 19.—M. A. Talbott & Co., sewer contractors of Logansport, Ind., commenced suit in the United States court for western Michigan Friday against the city of Charlotte to recover the amount they allege is still due them on the sewer system they recently constructed for the city. As Engineer H. E. Riggs of Toledo, who has been in charge of the construction for the city, has not filed the final estimate for the reason, as he gives it, that certain parts of the work are defective, it is impossible to give the exact amount still due, but it is close to $10,000.

HE KILLED THEM ALL

Roscoe Derby, of Cleveland, Shot His Family and Himself.

HAD NO MONEY FOR CHRISTMAS

Wife and Three Children Killed by Hand of Merciless Parent—Wrote Letter to Friend Announcing His Intentions.

Cleveland, Dec. 21.—Roscoe W. Derby, a machinist and about 45 years old, exterminated his family early Sunday by shooting his wife, his three children and then himself. The crime is believed to have been due to despondency over the impoverished condition of the family purse and the near approach of Christmas.

The crimes were extraordinary in their thoroughness and there was, evidently no mishap in their enactment. The wife was killed first while sleeping at her husband's side in bed; two of the children were killed as they ran hither and thither through the house in the darkness of early morning endeavoring to escape their merciless parent. The third child was killed in its bed, after his elder brother and sister had been killed.

The dead: Roscoe W. Derby, Della Derby, his wife; Harold Derby, aged 8; Alice Derby, aged 7; Thimas Derby, aged 5.

Derby had been down town as late as 11 o'clock Saturday night, ostensibly shopping, but in all probability securing ammunition for his revolver. When he got home his wife and he talked with a neighbor, who had been calling, over the approaching festival. Derby seemed pale and nervous. Shortly after his arrival at home the neighbor left and the Derby family went to bed.

The crime is believed to have been committed about 4 o'clock in the morning. Mrs. Derby was shot to death in bed, two bullets having been fired into her forehead, and a third, probably fired after the children had been exterminated, in the back of the neck. Mrs. Derby probably was killed during sleep, the expression on her face showing no sign of a struggle, and it was calm and peaceful. Two of the children, however, probably had a struggle with their infuriated father, because they had been awakened by the noise of the revolver being fired and sought to escape him, but without avail. Harold's body was found lying in a pool of blood in the kitchen and that of Alice in the dining-room, with her face to the floor and a bullet in her breast.

The last of the children to die was Thomas, aged 5. He had remained in bed, probably still asleep, and also received bullets into his head, dying instantly. After the extraordinary crimes had been committed the perpetrator of them went into the bedroom where his wife had been killed, and lying down at her side, fired a bullet into his own brain and died at his wife's side.

The first knowledge of the crime was communicated in a letter written by Derby Friday to a friend who lived not far away and which was sent by special delivery. The letter was to the effect that when it had been received the Derby family would be dead. When the friend hurried to the house all that had been promised was seen to have been fulfilled.

Tragedy in Chicago.

Chicago, Dec. 21.—While crazed with liquor Sunday Fred Pfiugrodt, a machinist, shot and killed and wife and then committed suicide. Mrs. Pfiugrodt was lying sick in bed with her week-old baby when, without a word of warning, her husband staggered into the room and opened fire. The woman was shot twice in the side and lived but a few minutes. Pfiugrodt then shot himself in the heart. The child was uninjured.

Lived 105 Years.

Worcester, Mass., Dec. 21.—Mrs. Honoretta Marshall of Webster is dead in the Worcester hospital for the insane at the age of 105 years. She was believed to be the oldest woman in Massachusetts and was a remarkable character. Born in Poland Aug. 8, 1798, she enjoyed as a young woman both wealth and high position. Left a widow nearly sixty years ago with great wealth at her command, she devoted herself to distributing her entire fortune to the poor.

MAYOR PAID A FINE

Bible, of Ionia, Charged With Violating Game Laws.

SHIPPED TWO DEER HOME

Charged With Buying Them—Plead Guilty to Offense in One Case—Deputy Brewster Vigorously Applies Laws.

St. Ignace, Mich., Dec. 21.—Mayor John F. Bible of Ionia pleaded guilty here before Justice of the Peace Bishop to the charge of violating the game laws and was fined $25 and costs, making a total of $75 67. The case was worked up by Deputy Game Warden W. K. Brewster.

Mr. Bible took out his license in Ionia county Nov. 6. Two days later, the first of the hunting season, he was hunting at Brevoort, fifteen miles from here. On Nov. 9 he was back in Ionia, having shipped two deer, both of which were seized at Mackinaw City. The charge was that one of these deer had been purchased from two young men, Adrain Langstaff and Ed Langdon. Another warrant is now out for two other young men for selling a deer on Nov. 8, and the inference is that this charge, when investigated, may account for Mr. Bible's second trophy. Warden Brewster sought to question Mr. Bible as a witness on oath before the justice in support of his second complaint, but he stood upon his constitutional right to refuse to answer questions.

Mr. Bible is a prominent Ionia citizen, having been a candidate for the nomination for governor in the state Democratic convention in 1902, and running for lieutenant governor.

Deputy Brewster directed operations here during the hunting season, and the application of the game laws to leading individuals, without discrimination, is having the effect of inspiring local confidence in their administration, it being seen that outside sportsmen must obey the law as well as enjoy the benefits of the protection of game.

INDICATIONS OF MURDER.

Believed Fred Neill, the Benzonia Farmer, Met With Foul Play.

Honor, Mich., Dec. 21.—There have been important developments in the case of Fred Neill, the Benzonia farmer who was supposed to have committed suicide three weeks ago. His body was disinterred in the presence of Sheriff Thomas, Prosecuting Attorney Lausell and three physicians, and the vital organs removed and placed in sealed cans to be taken by the sheriff to Ann Arbor for examination as to the presence of poison.

It was discovered that on the side of the head opposite where the gunshot wound was are unmistakable signs of a severe blow, which the doctors say must have been inflicted before death.

It was also demonstrated, by measuring Neill's arm and the gun with which he was supposed to have shot himself, that he could not have fired the gun himself, as his arm was too short by over five inches to reach the trigger.

The woman who was the first person to enter the house after the shooting of Neill found Mrs. Neill on her knees beside the dead man, injecting arsenic into his veins with a hypodermic syringe, and Mrs. Neill remarked that it might help revive him.

The prosecuting attorney has decided to have Mrs. Neill arrested on the charge of murdering her husband.

Old Bay City Firm Fails.

Bay City, Mich., Dec. 21.—W. I. Brotherton & Co., one of the oldest wholesale grocery concerns in the Saginaw valley, has given a chattel mortgage running to I. M. Persons as trustee, to protect all of the firm's creditors. W. I. Brotherton & Co. have been in business for over thirty years and the firm is one of the best known in northern Michigan. The company's liabilities aggregate $100,000 and the assets $120,000.

Fined For Contempt of Court.

Kalamazoo, Mich., Dec. 21.—Walter S. Hodges, president of the Superior Paper company and director of the Home Savings bank, was by Judge Adams in the circuit court fined $25, with the alternative of thirty days in jail, for contempt of court in failing to appear when summoned as a witness. Hodges was subpenaed in the case of William E. Messviole, charged with and convicted of forgery.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by C. A. Wright, druggist.

A good push will scare the devil more than a whole lot of preaching.

To improve the appetite and strengthen the digestion, try a few doses of Chamberlain's stomach and liver tablets. Mr. J. H. Seitz of Detroit, says, "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." There are people in this community who need just such a medicine. For sale by all druggists. Every box warranted.

I'd just as lief promise to obey a man as to promise to love and honor him. It's as easy to do one as the other, and sometimes a great deal easier.

A faded out, care-worn woman of about 40, with a spruce up-to-date husband, should take Rocky Mountain Tea. Brings back that youthful girlish beauty. Keeps the old man from going to the lodge. 35 cents. J. J. Orr.

A man can sometimes gain his point in an argument by allowing the other fellow to talk himself out.

Report from the Reform School.

J. G. Gluck, Superintendent, Pruntytown, W. Va., writes: "After trying all other advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform School. I find it the most effective and absolutely harmless." J. J. Orr.

There is nothing a man hates to do worse than to pay his wife's dental bills.

Makes assimilation perfect, healthy blood, firm muscles, strong nerves. Quickens the brain, makes and keeps you well. Great medicine. Rocky Mountain Tea. J. J. Orr.

Marrying in haste is no worse than any other kind of marrying.

A glass or two of water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggists.

Brigham Young was merely the man who had the opportunity.

Coughs, Colds and Constipation.

Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and will not constipate. J. J. Orr.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

Is is a disordered stomach and a general bad condition of the blood, possibly a torpid liver was the primary cause. Would you not advise them to do something to get rid

OF THAT BREATH?

Reader, if you are one of those unfortunates with a foul breath, why do you not take action? why do you not see that your stomach is put in order? There is no excuse for it when there is a remedy at hand.

Kinyon's Blood AND Kidney Remedy

Strengthens the kidneys, enabling these important organs to carry off the impurities. Regulates the liver so that it may aid in the digestive operation and keep the bowels active. Tones up the stomach and enables it to properly digest the food so that the body may be nourished and become strong. With these organs all active and strong the system becomes cleansed and the foul breath will leave as if by magic. Do not delay. Act at once.

Imposed Upon Americans.

Paris, Dec. 18.—Many Americans who visited Paris during the past year purchased water colors bearing the names of prominent artists, but which were not original, according to the testimony brought out at the trial here Thursday of a picture dealer. M. Bureau, a merchant, explained that the pictures were purchased from an artist named Raynold, and were sold principally to Americans. The pictures were copies of the works of famous artists. The art world is closely following the proceedings and is anxious that an example shall be made in order to stop what is believed to be a general practice.

Both Were Killed.

Shreveport, La., Dec. 18.—The body of George Manuel, the negro who was thought to have killed his employer, J. T. Watkins, of Bayou Pierre, in Red River parish Wednesday, was found yesterday about 300 yards from the scene of the killing. His head had almost been shot away. It now develops that both the planter and his negro servant were shot from ambush by unknown men, whose motive was robbery.

The Pope Delighted.

Rome, Dec. 18.—Full particulars concerning the agreement reached between Governor Taft and the friars, providing for the settlement of the friar land question in the Philippines, have not yet been received by the Vatican authorities, only a mere announcement that such an agreement had been reached having been cabled from Manila. When the news was brought to the pope he seemed highly delighted and exclaimed: "It is the best Christmas box I could have had."

Ten Destitute Chinese.

Whatcom, Wash., Dec. 18.—Ten Chinese who had been deserted by their guide, who piloted them across the international boundary line into this country, were arrested as they made their way into this city in a famished and exhausted condition. They had spent hours wandering around in the woods during a terrific downpour of rain. They will be ordered deported.

Last Friday, Earl, the youngest son of Joshua West, was kicked in the head by a horse. Dr's Haynes and Sage were sent for and found the boy still unconscious and a sad looking head. The doctors took him to Ann Arbor on the afternoon train and the doctors there removed a piece of bone 2¼ inches long and one inch wide from the right side of the skull. It is doubtful if the little fellow lives.—Deerfield Times.

Detroit Tribune: George Atwood, of Rome, aged 80, fell out of a hay mow and alighted on his head, a feat usually almost as fatal as "looping the loop," yet the old gentleman sprang up and declared it "never touched him." There may be something in the name of Atwood. "Tip," railroad commissioner and ex-senator, has been in several bad "accidents," and still recklessly rides over the torpedoes placed on the track.

Miss Lizzie Dancer, a girl of sixteen, was found drowned in a creek about five miles from Chelsea, Tuesday afternoon about five o'clock. She was on her way home from school. She had been attending school at AnnArbor and came home part way on the electric line, driving the balance of the distance. Her horse was also found in the water and the girl's clothes were frozen to the ice when found.—Ex.

Millionair's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. At all druggists.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

An exchange, whose editor has ample time to study the styles in female hosiery, says: "The story of Lot's wife turning to a pillar of salt can no longer be doubted. A young lady the other day put her foot up on a dry goods box to tie her shoe, and two young men who were passing turned to rubber!"

The farm house of Marcus Brooks, who lives southwest of Onsted was entirely destroyed by fire Monday night. The fire was caused by a defective chimney and the family were turned out doors in the night, on one of the coldest nights we have had. Insurance $900 but will not cover the loss.

Word has just been received at Monroe of a sad accident at Ida Center, ten miles southwest of Monroe. The son of John Larrow, a well known farmer of that vicinity, was fitting a cartridge into his gun when it was accidentally exploded and the charge hit his 3-year-old brother in the head, killing the child instantly.—Adrian Telegram.

A Chicago minister avers that there is no chance of saving an unconverted man, after he passes 23 years. There, Brother Grandon, there being no hope for you in the future you having failed to avail yourself of the past, you might just as well keep right on with that circulation business. "How old is Ann?" fades into nothingness, in comparison. Here's a man past 23 and all hope gone. Not even a church member employed to swear to circulation. Oh, death, where is thy stinger! Oh, hell, here is thy victim!—Adrian Press.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. For sale by all druggists.

Tecumseh State Savings Bank.

Savings depositors, who have not already done so, are requested to bring their pass books to the TECUMSEH STATE SAVINGS BANK and have interest due Dec. 1st. credited.

The business of the Tecumseh State Savings Bank for the year 1903 has been very satisfactory. Its late statement published in the HERALD shows a large increase over 1902 both in business and in profits. The deposits at this date are $188,000.00, and are secured by its capital stock, liability of stockholders, bonds, mortgages, notes, surplus, undivided profits, cash on hand and in reserve banks $262,000.00.

This has been accomplished by the careful and conservative management of its officers and directors. It is the policy of its officers to extend every accommodation consistant with good banking to its customers, and also to allow them to share in the profits of the bank by paying them a fair rate of interest on their deposits. During the year 1903 it has paid to its depositors $2400 interest. In addition to this and increasing its surplus, it has been able to declare a dividend of 10 per cent to its stockholders. We believe this a showing of a bank worthy of the patronage of the citizens of Tecumseh. And we promise any and all accommodations to our customers which can be afforded by other banks.

Owen—Russell.

One of the most important events of the season was the marriage Wednesday evening of Miss Grace Mae Owen and Millard Smith Russell at the home of the bride's parents west of this village, the ceremony being performed by Rev. J. H. Ashby in the presence of a large concourse of relatives and friends, there being about 100 in attendance.

Promptly at the appointed hour the bridal party came down stairs, and to the strains of the wedding march played by Miss Gertrude Schmitt, took their places under the evergreen arch in the parlor. Homer Wood of Saline, acted as best man, and Miss Ina Russell, sister of the groom, was the maid of honor.

The bride was attired in a beautiful gown of white china silk and carried white roses. The maid of honor was dressed very becomingly in a pink carnation dress and carried roses and carnations. The groom and best man wore the conventional black.

The necessary questions were asked and responses given, after which Rev. Ashby introduced Mr. and Mrs. Russell to the company. Hearty congratulations were then tendered the newly married couple which wound up with a deluge of rice from their young friends.

Small tables were then brought in and the whole company were seated and served to an elegant five course supper to which all did ample justice.

Mrs. VanAntwerp of Tecumseh, catered, and M. F. McClure furnished a nice lot of goods for the occasion. The rooms were very prettily decorated with smilax, the major portions of these coming from Detroit.

A short time after this the bride and groom were found to be missing and it was soon learned that they had made their escape through the cellar and were on their way for a short wedding trip to Jackson and Albion.

They expected to take the train here for Jackson but arrived at the depot a little too late and were driven to Manchester by Albert Matthews where they remained till the next morning when they left for Albion.

On their return here they will take up their home with the bride's parents, and Mr. Russell will work the farm, Mr. Owen's health compelling him to lay aside the active duties of the farm.

Mr. Russell is one of the sterling young men of Tecumseh township, his parents residing only a few miles southwest of Tecumseh, and he is to be congratulated in being the lucky man to win the heart and hand of one of the best young ladies in this township.

The bride was the recipient of many beautiful and useful presents, besides a nice cash consideration from each of the parents and they will begin life together with very bright prospects.

Friends were present from Adrian, Tecumseh, Tipton, Clinton, Manchester, Saline, Macon and Ramona, Kansas.—Clinton Local.

WASHINGTON LETTER

Washington, Dec. 21, 1903.

In executive session the Senate ratified the treaty for the extension of the commercial relations between this country and China. There was no opposition to the ratification, although Mr. Nelson, of Minnesota, republican, made a long speech in which he criticized the convention for making insufficient provision for the trade of the United States and said that Russia made it impossible for the United States to receive the full concessions needed in the way of open ports. He warned the Senate that there might yet be trouble with Russia over her actions in Manchuria. The attitude of Mr. Nelson was upheld by other senators; but it was argued that the present treaty was an entering wedge, and the best which China could give under present circumstances. Senator Lodge urged the importance of having the treaty ratified at once, adding that the State department considered immediate action as essential. He declared that the ratification of the treaty would doubtless have an effect on the settlement of the far Eastern question.

Senator Hoar made a bitter attack in open Senate on the Panama policy of the President and his speech caused as much delight among the democrats as surprise among the members of his own party. He said in part, "I want to know and the American people want to know, and have a right to know, whether this mighty policeman, instructed to keep the peace on that Isthmus, seeing a man about to attack another, before he had struck his blow manacled the arms of the attacked so that he could not defend himself, leaving the assailant free, and then instantly proceeded to secure from the assailant the pocketbook of the victim, on the ground that he was the de facto owner." Senator Gorman followed up Mr. Hoar's attack by declaring that President Roosevelt was an American Napoleon. Senator Bailey expressed the pleasure of the democrats to find that Senator Hoar was "on their side," to which the Massachusetts Senator replied that he was not. Senator Foraker of Ohio, severely criticised Mr. Hoar's speech, declaring that he had no right to ask the President to prove that he had spoken the truth in his message.

President Roosevelt signed the Cuban reciprocity bill after it had been passed by the senate by a vote of 57 to 18. Speaker Cannon, president pro tem, Frye and President Roosevelt signed the bill with a gold pen which was presented by Senor Don Gonzalo de Quesada, the Cuban minister, and which will be sent to Cuba and kept on exhibition in the Cuban palace. The act will be effective ten days from the date of signing and then the two years campaign for Cuban reciprocity will be ended with a victory for those who favored closer trade relations with the island republic.

Just before the vote was taken in the senate, Mr. Bailey from Texas, made an able speech in which he argued that the President and senate did not possess the constitutional authority to negotiate a treaty reducing the tariff or to make the validity of the treaty contingent on the approval of the House, where all revenue acts should originate. This question may be taken to the supreme court, but friends of the treaty have no doubt that the action of the administration will be upheld.

For two days the Northern Securities case was argued before the Supreme Court and is now in the hands of the Justices, whose final decision is awaited with much interest. Attorney General Knox argued for the government and former Attorney General Griggs aided for the company.

Mr. John G. Johnson stated for the companies that the stock of the two railroads was not acquired for the purpose of restraining trade but to increase it; that the Sherman Anti-Trust Act did not declare illegal the acquisition of stock in two companies, and if it did it would be unconstitutional; and finally that the possession of the power to retain trade was not the same as actually restraining it. Attorney General Knox argued that the Northern Securities Co. was a combination in restrain of interstate commerce and subsequently a violation of the Sherman act; that it constituted a monopoly; and that the court had power to prevent it. He claimed that it was absurd to say that two railroads would compete in any real sense of the word after they had come under the control of the same management.

The State Department is by no means satisfied with the explanation offered by Turkey, relative to the assault on Consul Davis at Alexandretta by Turkish soldiers and will demand an apology from the Sultan's government. After receiving the report of Minister Leishman, the State Department decided to sustain Consul Davis and placed a warship at his disposal in case he desired to return to Alexandretta. Chekib Bey, the Turkish Minister here, has held several conferences at the State Department but has failed to show that the action of the Turkish soldiers was not entirely unwarranted.

It will be remembered that Consul Davis was assaulted in trying to prevent the arrest of an Arminian citizen of the United States.

His mind then wandered far away to the time when he should die, and his loyal, editorial soul go scooting to the sky; when he'd roam the fields of Paradise and sail o'er Jaspers seas, and all things glorious combined, his every sense to please. He thought how then he'd look across the great gulf dark and drear, that yawned between his happy soul and those that dwindled here. CURES CATARRH

"Hyomei the most wonderful cure for catarrh ever discovered," says C. A. Wright.

Do not try to cure catarrh by taking drugs into the stomach; it cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the bacilli of catarrh and prevent their growth.

Hyomei is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only absolute cure for catarrh that has ever been discovered.

Thousands of unsolicited testimonials have been received from the most prominent men and women in the country who have been cured by this remarkable remedy. Ministers, bankers, lawyers, even eminent physicians have given strong testimonials as to the remarkable powers of Hyomei to cure catarrh.

The complete Hyomei outfit costs but $1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50c. It is not alone the best (it might be called the only) method of curing catarrh, but it is also the most economical.

C. A. Wright has so much confidence in the power of Hyomei to cure catarrh, that he will for a limited time, sell this medicine under his personal guarantee to refund the money if the purchasers can say that it did not help them.

Doan's Kidney Pills cure all kidney ills.

Tecumseh people endorse them.

Mr. Henry Keyser, retired farmer and capitalist, residence in the southwestern section of Tecumseh, says: "I am thoroughly convinced of the superior merits of this popular remedy, Doan's Kidney Pills. They deserve naught save the highest praise. Before going to C. A. Wright's drug store for a box I had a dull aching pain in my back which had annoyed me for some time and the secretions from the kidneys were unnatural and irregular. To say that I was surprised at the effect is putting it very mildly. In a very short time the trouble disappeared. I never knew a medicine that worked so quickly and satisfactorily."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

TO SAVE HIS MOTHER

Saginaw Boy Shot and Killed His Father.

Saginaw, Mich., Dec. 18.—Emil Wienke, aged 20 years, shot and killed his father, August Wienke, Thursday while the latter was abusing the boy's mother. Then, seeing what he had done, tried to kill himself, but being prevented by his mother, he tried to reach the river, but was caught and brought back.

According to the story told by the family to the police, the elder Wienke came home intoxicated and was quarrelsome. Waking up his wife, who had gone to bed, he began to quarrel with her over some trivial matters and became morose and ugly, remarking that he was going to commit suicide. He secured a shotgun which was in the house, but his wife wrenched it away from him and apparently pacified him.

Shortly afterward they retired. Wienke remained quiet for a while, then suddenly jumped out of bed, remarking that he was going to choke his wife to death. The wife ran to the sitting-room, where a struggle ensued.

Emil, the son, who was sleeping in the same room, followed them and seeing the gun standing in the corner grabbed it, and while his father was standing with his back to the opposite wall deliberately raised the shotgun and poured its contents into the left breast of his father, who with a murmured query, "Did you do right?" expired almost instantly.

TO THE GREAT BEYOND.

Wife of President Angell Dies of Pneumonia.

Ann Arbor, Mich., Dec. 18.—Mrs. James B. Angell, aged 70, wife of President Angell of the U. of M., died early Thursday morning after a brief illness with pneumonia. Her husband and all her relatives except her daughter, Mrs. A. C. McLaughlin, were at her bedside in the last moments. Mrs. McLaughlin, who resides at Washington, D. C., was unable to reach here before her mother's demise.

Mrs. Angell was prominent both here and in the east, where she spent her earlier years. Her death comes as a sad blow to President Angell, who is now 74 years old.

Because of Mrs. Angell's death classes were dismissed Thursday until after the holidays. The city and university is in deep gloom.

Mrs. Angell was the daughter of the late Prof. Alexis Caswell of Brown university. She and President Angell were married in 1855.

She was born in Providence, R. I.

THREE SWEDES PERISHED.

Fell to Sleep In Saloon Which Caught Fire In Early Morning.

Sault Ste. Marie, Mich., Dec. 18.—In a fire which broke out in the Sundstrum saloon, in Water street, about 6 o'clock in the morning, three Swedes, Martin Olson, John Rusk and Lari Anderson, were burned to death, and Mrs. Pete Sundstrum, wife of the proprietor, broke her leg by jumping from a window.

The three men who were burned came in about 11 o'clock the night before and were at that time under the influence of liquor. They drank more in the saloon and fell asleep.

Upstairs Pete Sundstrum, wife and child and Ed Nieman, wife and child, were sleeping. When they were awakened the house was a mass of flames and escape by the stairway was cut off. All six jumped from the windows, and all but Mrs. Sundstrum landed safely.

Both Fell on the Ice.

Ypsilanti, Mich., Dec. 18.—Two children of John Young were severely hurt by falling on the icy sidewalk. Marguerite, aged 6, fell down at noon, striking her head on the sharp ice, and remained unconscious for six hours. The doctor feared serious injury to the brain and worked over her for hours. The son, Glenn, slipped and fell on the walk in the evening and was badly cut about the eyes. It is feared the little girl may have brain fever.

To Have Eastern Game.

Ann Arbor, Mich., Dec. 18.—The board of control of the university Thursday afternoon authorized Manager Baird to secure a football game next fall with Yale, Harvard, Princeton or Columbia, to be played at the end of the season. This action of the board is taken in response to the great demand for a game between the east and west.

Washington, Dec. 18.—The president Thursday sent to the senate the appointment of Charles Bidwell to be postmaster at Tecumseh, to succeed his father, and W. E. Holt to succeed himself as postmaster at Bellevue.

Lynching In Tennessee.

Ripley, Tenn., Dec. 19.—A mob of about 100 men last night took Joseph Brake, a negro, from the county jail here and hanged him to a tree nearby. The negro had been arrested for the killing of Chester Connor, a prominent young white man, at Ashport. The leaders of the mob were masked.

Less Number Fever Cases.

Butler, Pa., Dec. 19.—Much gratification was expressed last evening when the report of the relief committee was announced, showing that but one death resulted from the fever Friday and one new case developed. The total number of fever cases now being treated is estimated at between 1,000 and 1,100.

Alleged Murderer Murdered.

Luling, Tex., Dec. 19.—Dr. W. D. Branyon, a physician of Prairie Lea, was shot and killed Friday while driving into town. There is no clue to the assassin. Dr. Branyon was under indictment for murder, and it is said had made many threats against witnesses and others.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

New York Budget. Fashions at Opera and Concert.

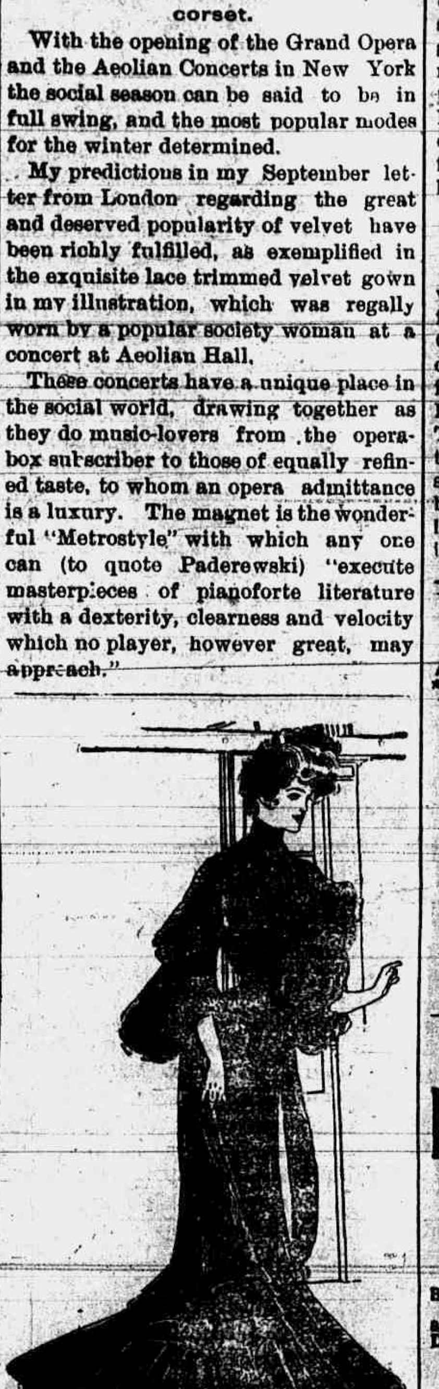
VELVET'S REGAL SWAY.

The American woman will have her corset.

With the opening of the Grand Opera and the Aeolian Concerts in New York the social season can be said to be in full swing, and the most popular modes for the winter determined.

My predictions in my September letter from London regarding the great and deserved popularity of velvet have been richly fulfilled, as exemplified in the exquisite lace trimmed velvet gown in my illustration, which was regally worn by a popular society woman at a concert at Aeolian Hall.

These concerts have a unique place in the social world, drawing together as they do music-lovers from the opera-box subscriber to those of equally refined taste, to whom an opera admittance is a luxury. The magnet is the wonderful "Metrostyle" with which any one can (to quote Paderewski) "execute masterpieces of pianoforte literature with a dexterity, clearness and velocity which no player, however great, may approach."



A peau de crepe gown very much admired is a daintily lace-trimmed model, and is a charming design for a formal afternoon affair, and with the addition of a handsome wrap becomes a most effective theatre costume.

All the prettiest evening coats and those for matinee wear are of white cloth, all lengths being permissable, fitted and loose shapes being equally in vogue. The same latitude in length and shape applies to coats for less formal occasions.

So, of all things, let each woman carefully determine which shape is best suited to her own proportions. Let the short or stout woman steer clear of the coat that is an inch or two below the knee, such a length tends to detract materially from her height.

And while there is nothing more graceful than the Princess gown on a woman with a neat figure, unfortunately very few women can wear it becomingly, and it should be tabooed by the short woman together with the three quarter length coat.

But the styles, are not all for her of the lissom figure, and the other types of women have their inning in the very long skirt that the best modistes are making, the sort that milady must needs hold up whenever she wishes to take a step, but which gives her a regal appearance, particularly when worn beneath a coat seven-eighth the length of the skirt.

And as there are coats and skirts suitable for all women, short or tall this winter, so are the lines of corsets planned for all figures, and notwithstanding the frequent outbursts of the "Anti-Corset-Leagues" made up of the comparatively few women in America who may be called "dowdy," every fashionable American woman will have her corset, preferably the C—B a' la Spirite, and to it she owes much of the reputation she enjoys for gracefulness and style.

IN A BURNING MINE

Three Men Are Imprisoned at Houghton.

Houghton, Mich., Dec. 19.—Fire broke out Friday at the eleventh level in No. 2 shaft of Isle Royal mine and is burning fiercely. Superintendent James Richards and six men went down to make some repairs and were caught, and at a late hour last night three of them were still in the mine, despite the heroic efforts of a rescuing party, who succeeded in bringing four of the men to the surface.

COMMITTED SUICIDE.

Detroit Man Shot Himself In Ann Arbor Hotel.

Ann Arbor, Mich., Dec. 19.—The body of Fred B. Hooper of Detroit, a brother of Mrs. Levi L. Barbour, was found cold in death in a room in the Cook house in this city Friday. A bullet hole in the temple and a revolver lying on the floor beside the body, which was seated in a chair with the head drooped forward, told the story of self-destruction.

Hooper came here Thursday to visit old friends. He called on B. F. Watts, jeweler, and bought a box for mailing some jewelry. He had his watch, chain and diamond stud packed and addressed it to D. G. Rexford, Detroit. He also wrote a letter to Rexford, saying that he was a failure and was going to end it all. He then went to the Cook house and committed suicide.

Church Federation Organized.

Lansing, Mich., Dec. 19.—The organization of the Church Federation of Michigan was completed Friday at a meeting of the representatives of the Congregational, Presbyterian, Baptist, Methodist Episcopal, Methodist Protestant and Free Will Baptist denominations. These representatives came from various sections of the state and elected the following officers for the state federation: President, Rev. W. B. Pope, Methodist Episcopal, Bay City; vice-president, Rev. David Howell, Presbyterian, Lansing; recording secretary, Rev. W. H. Warren, Congregational, Lansing; corresponding secretary, Rev. C. H. Irving, Baptist, Detroit; treasurer, Rev. S. E. Kelley, Free Will Baptist, Grand Ledge. A committee was appointed to arrange for the annual public meeting to be held in this city in February.

Four Italians Blown to Atoms.

Dubois, Pa., Dec. 18.—Four Italians were killed and two probably fatally injured by a dynamite explosion at Cramer, ten miles from here, Thursday. The men were laborers on grading work for the Buffalo, Rochester & Pittsburg road and were blasting. Their dynamite was frozen and when they attempted to thaw it the explosion followed, shaking the ground and buildings for nearly a mile. The bodies of the four men were gathered up in baskets.

LIFE PLANT
Renews Life.
The Very Best TONIC Ever Discovered.
The kidneys are the blood filters intended to remove the waste, and most of these diseases result from overtaxing them with excessive waste. The most frequent cause of kidney trouble is indigestion. LIFE PLANT aids digestion, relieving the kidneys from the very start. Kidney diseases cause more deaths than any other human affliction. They are usually painless at first, the only warnings are shown in the Urine, being cloudy or of high color. It is by neglecting these symptoms that kidney diseases are allowed to progress. An improper treatment is worse than none. LIFE PLANT is the only sure cure for kidney trouble.
Read what a cured one says.
Rev. J. H. Merchant, Pastor M. E. church at Freeport, O., writes:

"I take great pleasure, and do not hesitate to recommend Life Plant as an excellent remedy for Liver and Kidney difficulties. Mrs. Merchant desires to bear testimony to the healing virtues of Life Plant, as a sure and certain remedy for rheumatism."

INDICTED FOR MURDER

Four of Gillespie Family Are Placed Under Arrest.

FOR KILLING ELIZABETH GILLESPIE

The Rising Sun, Ind., Woman Who Was Shot Through Window—Twin Brother Charged With Being the Principal.

Rising Sun, Ind., Dec. 23.—In its report of the investigation of the assassination of Miss Elizabeth Gillespie on Dec. 8, who was shot through a window, the grand jury Tuesday afternoon returned true bills of murder in the first degree against James Gillespie, a twin brother of the murdered woman; Mrs. Belle Seweard, her widowed sister; Mrs. Carrie Barbour, niece of Dr. Thad A. Reamy, a prominent physician of Cincinnati, and Myron Barbour, her husband. Mrs. Barbour is sister-in-law of Dr. William Gillespie, brother of the murdered woman. Bench warrants were issued immediately by Judge Downey of the circuit court.

The Gillespies were expecting the arrests, and Dr. Gillespie drove to the home of the accused in a closed carriage and brought the indicted persons to the courthouse, surrendering all of them to the court. The four indictments were read to the accused. The indictments charged them with "feloniously, maliciously and with premeditated intent" causing the death of Elizabeth Gillespie. A conspiracy among members of the murdered woman's own family to kill her is charged. James Gillespie, her twin brother, is the one who is charged as the principal, although all are charged with murder in the first degree. Each entered a plea of not guilty. Captain Coles, attorney for the defendants, presented petitions for writs of habeas corpus on the ground that there is not enough evidence to indict and that their liberty was withheld on a charge of a crime of which they were innocent. Judge Downey ordered the writs returnable immediately and the petition was then heard with arguments.

Counsel for the defense stated that they were able to furnish reasonable bail, but the charge was not bailable and the only proceeding was under the writs. It is stated that some of the prisoners will be taken to Lawrenceburg and Aurora and that they will be kept in separate confinement. Dr. Reamy, the uncle of Mrs. William Gillespie, and Mrs. Barbour, came here yesterday from Cincinnati.

He Guarded McKinley's Tomb.

Washington, Dec. 23.—Officers of the army are endeavoring to find Second Lieutenant Floyd C. Miller of the First Infantry, who, while engaged with troops on guard at the tomb of ex-President McKinley in the Westlawn cemetery, near Canton, O., disappeared on the 4th inst. and has not been seen or heard from since. There is no known reason for his conduct, as he was not involved in any apparent trouble and was supposed to be satisfied with his duties. If he does not report within three months he will be recorded as a deserter.

Refute Stories of Pope's Wealth.

Rome, Dec. 23.—The Osservatore Romano, the Vatican organ, publishes a semi-official communication characterising the recent stories that millions of dollars had been left to Pope Pius by his predecessor, Pope Leo, as absurd and altogether unbelievable. The communication says the possible object of these stories is to render the financial condition of the holy see even more difficult by insinuating that the pope is so rich that he does not need the customary offerings of Peter's pence.

Insane Man After Gov. Mickey.

Lincoln, Neb., Dec. 23.—Clayton S. Dexter, an escaped insane inmate of the Grand Island Soldiers' home, armed with a huge paper knife, got into Governor Mickey's private office where, brandishing his weapon, he declared Senator Dietrich, now under indictment for bribery, was innocent and compelled the governor to express the same view. Governor Mickey was agreeing to everything the insane man declared when capitol employes rushed in and overpowered the man and took him away.

Bank Robbers Made $5,000 Haul.

Tower Hill, Ill., Dec. 23.—Burglars have blown open a safe in the Tower Hill bank and escaped with $5,000 in cash. The thieves stole a horse and buggy in which to get away, and members of the anti-horsethief association are in pursuit.

Jonesville Mail Pouch Lost.

Jonesville, Mich., Dec. 23.—Postoffice officials have been unable to locate mail that should have been thrown off here from fast mail No. 35, going west, Dec. 11. W. B. Howlett, a cigar manufacturer, will be the loser of $42 in government revenue stamps unless found.

A Sad Homecoming.

Des Moines, Ia., Dec. 23.—Winnifred Belder, a member of the Gran Opera company, arrived home last night to find that her mother, Mrs. Charles W. Graves, had been brutally and mysteriously murdered. The girl had been secretly married for two years to an actor, Walter Halbach, also a member of the Gran Opera company. She was coming home to tell her mother of her marriage. She left her company at Freeport.

LIBERTY FOR ANDREWS

Detroit Bank Wrecker Is Paroled By Michigan's Governor.

WITHOUT CONSULTING PARDON BOARD

Says He Did It Because Andrews Will Help Restore Some of Money He Stole—Victims Petitioned Bliss For Andrews' Release.

Lansing, Mich., Dec. 23.—Governor Bliss Tuesday afternoon signed a parole for Frank C. Andrews, the Detroit bank wrecker.

In granting the parole Governor Bliss made sure that Andrews will not be prosecuted on any of the many counts which still stand against him.

If Andrews had been granted a pardon his fifteen-year sentence would then have been considered as legally completed and he could at any time be placed under arrest on any of the other charges against him. On parole he is a ward of the governor of the state and the warden of the state prison and cannot be apprehended until his full sentence expires. When that time comes the statute of limitations will protect him.

To make matters doubly sure Governor Bliss went behind an old and venerable rule of the state prison. That rule set down on all fours the doctrine that no prisoner should be paroled until at least one-half his sentence had been served.

Advisory Board Not in It.

Another feature of the case was that the advisory board in this matter of pardons was not consulted, possibly for the anomalous reason that the advisory board [illegible] pardons is not in existence at the present time. The old board died on Nov. [illegible] and its successors have not yet been appointed. The advisory board was created in the first instance to deal with such cases as this one and to relieve the governor of the sole responsibility of passing on matters of the kind. It seems to have survived its usefulness, however, for the Andrews case never even came officially before the board. Neither, it is announced, was the board of control of Jackson prison consulted.

Bliss' Reasons.

The governor makes this explanation: "My investigation convinced me that if Mr. Andrews were out of prison he could aid materially in disposing of the vast amount of pending litigation over the affairs of the bank and in handling the assets to the best advantage. I am firmly convinced that my action is in the best interests of the numerous depositors of the bank, including the state, which had a deposit of $80,000 there when the bank closed its doors. Mr. Andrews can now appear as a witness in these suits, and I have no doubt that, being at liberty, he can and will not only hasten the time when the depositors will realize on their deposits, but materially increase their dividends. This is my sole reason for issuing the parole."

The parole, which names Marshall W. Beecher of Detroit as Andrews' first friend, was taken to Jackson last night by Alex. J. Groesbeck, one of the convict's attorneys. Andrews will probably be released today and will go at once to Detroit.

The parole was petitioned for by more than 1,000 of the depositors of the City Savings bank. In addition to this Governor Bliss received personal letters from several hundred prominent citizens of Detroit recommending clemency, and fifteen opposing the prisoner's release.

Andrews has served only a few days more than a year of his fifteen-year term.

Detroit, Mich., Dec. 23.—The news that Governor Bliss had finally signed the paper which turned Frank C. Andrews loose was received last night by the people of Detroit with mingled incredulity and amazement. It spread rapidly and was practically the only topic of conversation. In fact, the announcement created almost as much excitement as did the story, told on Monday morning, Feb. 10, 1902, of the failure of the City Savings bank.

Jackson, Mich., Dec. 23.—Frank C. Andrews was released at 11:30 last night, and with Alex. Groesbeck left Jackson for Detroit at 5 o'clock this morning.

Mrs. Collins Bound Over.

Owosso, Mich., Dec. 23.—The showing made by the prosecution in the case of the people vs. Mrs. Caroline Collins of New Lathrop for murder by poison of her hired man, George Leachman, was so strong that the justice bound her over Tuesday to the circuit court for trial. The attorneys, acting Prosecutor Odell Chapman for the people and John T. McCurdy for the defense, agreed to submit the case without argument.

PLEAD "NOT GUILTY"

Trials of Those Who Confessed Begin on January Eleven.

PROSECUTION HAS 17 WITNESSES

Is Learned That Stenographer Barratt and George F. Ellis Have Taken Prosecution Into Their Confidence.

Grand Rapids, Mich., Dec. 22.—At the superior court Monday morning all the respondents who had not previously confessed to their part in the water deal pleaded not guilty. Jan. 11 was settled upon as the date for beginning trials, and it was ordered that the attorneys for the defense should arrange for the order of trial and report on Jan. 4. Those charged with conspiracy demanded separate trials.

The informations filed in court divulged the fact that seventeen witnesses are to be used by the prosecution.

Thirteen witnesses are named upon the information in the bribery cases as follows: Lant K. Salsbury, Frederick H. Garman, Marsh H. Sorrick, Clay H. Hollister, Corey P. Bissell, Clark E. Slocum, Abraham G. Gysels, I. F. Lamoreaux, J. Russell Thompson, Adrian Schriver, Reyner Stonehouse, John T. Donovan and John McLachlan. Of these all but Sorrick and Hollister have been implicated in the deal.

Additional witnesses in the Perry cases are W. D. Pugh, Glenn J. Barrett, Frank Dorgan and N. F. Gray. Jugh was claim agent in the office of city attorney and is said to have been used as a tool by Salsbury, according to one of the recent confessions. This is the first time it has become known that he has taken the prosecution into his confidence. Barrett was the stenographer for the grand jury.

In addition to witnesses in the other cases there are J. Russell Thompson, George E. Ellis and Mrs. Lant K. Salsbury and David Forbes as witnesses in the conspiracy cases against Burch, Conger, Sproat, Thomson and Lamoreaux. Lamoreaux is also a witness in these cases.

Most important is the naming of George E. Ellis, who is alleged by Salsbury's confession to have played an important part in the bribing of Eugene D. Conger, manager of the Grand Rapids Herald. Salsbury claims that he gave Ellis the $10,000 for Conger. No announcement had hitherto been made that Ellis had told his story to the prosecutor. Mr. Ward was asked yesterday by the Associated Press whether it was true, as the appearance of his name upon the information indicated, that Ellis had made a complete statement of his relation to the alleged bribery. He acknowledged that this was the first that the public had had any reason to suppose that Ellis had told what he knew, but said: "I don't care to discuss that now."

"Doesn't the fact that his name appears upon the information speak for itself?" was asked, but the prosecutor replied: "I can't talk about that."

HAZARDOUS UNDERTAKING.

Rescuers Overcome by Gas in Houghton Mine.

Houghton, Mich., Dec. 22.—After a harrowing experience, in which thirteen men nearly lost their lives, the bodies of three miners who were suffocated in the Isle Royale mine fire a few days ago, were brought to the surface Monday afternoon.

The thirteen rescuers, led by Captain Moyle, went down 700 feet through old shafts and winzes, taking ladders with them. As they moved about in the old workings they stirred up gas, and it began to asphyxiate them. One man returned to the surface and dropped exhausted the moment he reached the open air. Thirty volunteers at once went to the rescue. Two of the injured rescuers were found crawling toward the surface, while the other ten were found unconscious, deep in the mine. After tedious and exciting labor the asphyxiated men were brought to the surface and revived and the three bodies were secured.

Soaked the Saloonists.

Menominee, Mich., Dec. 22.—Deputy Collector of Customs Alec Black of Marinette has returned from Door county, Wisconsin, where he found many infractions of the law by saloonkeepers and collected over $1,000 in fines. It was the biggest raid that has occurred in that county for many years, and the saloonmen all through that district are worried over the outcome. Mr. Black discovered that it was the practice of saloonmen to sell beer and liquor in quantities of five gallons or over without having a wholesale license. This rendered them liable to the amount of the license and 50 per cent penalty.

Wos y Gil Raising an Army.

San Juan, P. R., Dec. 23.—It is said on excellent authority that General Wos y Gil, former president of Santo Domingo, and all of his followers here have secured new recruits in Porto Rico and intend sailing via Haiti for Santo Domingo on a French steamer Jan. 4 for the purpose of starting a new revolution to replace General Wos y Gil in the presidential chair.

Rapid Telegraphy.

New York, Dec. 23.—Patrick B. Delany, electrical inventor, South Orange, N. J., has perfected a telegraph system which, he says, will send messages at a rate of 3,000 words a minute.

HOTEL CLERK PERISHED.

Early Morning Fire In a Menominee Hostelry.

Menominee, Mich., Dec. 23.—Joe Beatty cremated, Joe and James Vorachek and Alfred Barney terribly burned and a number of others bruised in their jump for life, are the results of an early morning fire which destroyed the Travelers' hotel in this city.

Will McDonald, the night clerk, discovered the roof ablaze about 12:40 a. m. and rushed through the building bursting in the doors to the rooms of the guests and giving the alarm, and but for his promptness many would have been burned to death.

Beatty had made his way to the head of the stairs, six feet from his room, where he fell overcome by the smoke, and his charred body was found in the ruins. The Veracheks and Barney succeeded in getting to a point where they could be reached, but were so badly burned that it is feared they will die.

JUDGEMENT REVERSED.

Twelve Thousand Dollar Suit Against Pere Marquette Lost.

Lansing, Mich., Dec. 23.—The supreme court reversed the decision of the Muskegon circuit court awarding Robert K. Mason and W. G. Watson a judgment for $12,000 from the Pere Marquette railway for the loss of lumber, destroyed by fire, set by one of the company's locomotives while shunting cars in the plaintiffs' millyard. The plaintiffs contended that the company's agreement, whereby they waived all claims to recover the loss from the railroad company did not hold, as it exempted a common carrier for loss resulting from his own negligence, and that such contracts are void as against public policy. The application for a new trial was denied.

Michigan Inventors.

Washington, Dec. 23.—Michigan patents were issued Tuesday as follows: Louis J. Anderson and C. Palmer, Escanaba, storage pocket; Orrin R. Baldwin, Detroit, cultivator; (reissue) H. G. Barry, Pontiac, hose coupling; G. R. Beamer, Detroit, packing; Ida D. Bennett, Coldwater, window shelf; Franz G. Berling, Bay City, clock striking mechanism; Victor E. Clark, Grand Rapids, fastening for knockdown furniture, also furniture fastening; David M. Deering, Jackson, mechanically propelled vehicle; Henry Ford, Detroit, motor vehicle; John L. Harris and J. W. Shields, Hancock, discharge for stamp machine; Robert Laughray, West Bay City, brick making plant; Otto F. Lidke, Ypsilanti, hoisting apparatus; John T. McGrath, Fort Gratiot, pneumatic flue cutter; Helen F. Miller, Bellville, railway track; Lewis W. Nelson, Grand Rapids, implement for filling wood surfaces; James Rice, Detroit, disintegrating emery wheels; H. F. Thompson, Moscow, railway tie; Ward C. Walker, Battle Creek, hose clamp; Dora A. Waltz, Columbus, O., and C. W. Daly, Ann Arbor, bed pan; William E. Wilt, Pontiac, axle gage.

Judgment Affirmed.

Lansing, Mich., Dec. 23.—The supreme court has affirmed the judgment of $5,000 given Samuel Robinson, administrator of the estate of Samuel Robinson of Charlotte, against the Chicago & Alton Railway Co. It will be recalled that the elder Robinson was thrown from the train and killed while on his way to the last Democratic national convention. Suit was commenced against the Chicago & Alton and the Pullman Car company jointly, but both courts held the latter not liable.

Sued For Heavy Damages.

Ontonagon, Mich., Dec. 23.—Claiming that the negligence of the company was responsible for the death of their husbands, Mrs. Willard Britten and Mrs. Herman Hesse have brought suit for total damages of $45,000 in the Houghton county circuit court against the Adventure Consolidated Copper Mining company. The men were firemen employed at the Adventure stamp mill and both were so badly scalded by escaping steam that they died in agony not long afterward.

IN FACE OF GALLOWS

Cool Murderer Wished Jurors a Merry Christmas.

New York, Dec. 23.—With a verdict that sends Frank H. Burness, a self-confessed murderer, to the electric chair, a jury before Judge Crane Tuesday afternoon ended one of the most sensational murder trials heard in Brooklyn for months. Burness' fourth murder was committed Nov. 10 last, when he shot Captain George B. Townsend of the schooner Charles K. Buckley, because the latter would not pay him $6 30, the prisoner alleged to be due him. This and other killings were calmly described by Burness on the witness stand, and the murderer insisted that he did the deed with premeditation and in a full realization of the consequences.

The jury brought in a verdict of murder in the first degree. Burness smiled broadly when the jury was being polled. Judge Crane said he would sentence Burness on Monday, and he asked the judge if he would be permitted to say something. On being given the privilege he said:

"There may be an idea in the minds of some of the jurors that I hold a grudge against them for having found me guilty. I wish to say that I do not feel in that way in the slightest, and (laughingly) all I can say is that I wish them all a merry Christmas."

Ypsi's New Postmaster.

Ypsilanti, Mich., Dec. 23.—William N. Lister has received word from Congressman Townsend that he will be recommended as Ypsilanti's postmaster when H. D. Wells' term expires in February. Mr. Lister is 36 years old and has lived here most of his life.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by C. A. Wright, druggist.

A good push will scare the devil more than a whole lot of preaching.

To improve the appetite and strengthen the digestion, try a few doses of Chamberlain's stomach and liver tablets. Mr. J. H. Seitz of Detroit, says, "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." There are people in this community who need just such a medicine. For sale by all druggists. Every box warranted.

Coughs, Colds and Constipation.

Few people realize when taking cough medicine other than Foley's Honey and Tar, that they contain opiates which are constipating besides being unsafe, particularly for children. Foley's Honey and Tar contains no opiates, is safe and will not constipate. J. J. Orr.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not do without it. CHRISTMAS

At the Churches.

THE POOR AND NEEDY

Of this Village were remembered with coal and wood. Good programs have been prepared.

With a potatoe to pay their fare, quite a number of the members of the Presbyterian Sunday school met at the church at 7 o'clock Tuesday, evening. Each class had prepared something for the program, besides furnishing something for the poor.

Mrs. Waring's class of boys were the feature. *Armed with horns, clarionets,* etc., they rendered, with the aid of a graphaphone, several pieces to an amused audience. There were several songs by the little ones; recitations from some of the different classes. All of them were good.

Dr. Frost's, Mrs. Frost,s, Edith Gray's, Mrs. Waring's and Mr. and Mrs. Chas. Slayton's classes furnished three tons of coal and a load of wood. Mrs. Kyle's class gave $6 toward a Christmas dinner. Mrs. Eugene Camburn's class furnished canned fruit and Miss Edith Ingersoll's, breakfast foods. In Mrs. S. W. Anderson's class of little ones, each one took a basket of apples and Miss Lizzie Lowry's class took baskets of fruit. Miss Sena Hosmer's class took story books. Mrs. John Anderson's class of 12 girls will give a dinner on Thursday, Dec. 31, at the home of Mrs. Anderons to 12 less fortunate ones.

A committee in the Sunday school has been appointed who will see that these things will go to some family or families deserving of their help.

* * *

The Baptist church will give a Christmas program at their church this afternoon, at 5 o'clock. A free supper will be given after the program for the church and Sunday school. Each class will take an offering for the poor.

* * *

At the Methodist church at seven o'clock this evening Santa Claus will appear in a Christmas boat instead of his sleigh with reindeer's as before. They have also a good program prepared.

Emile Gaboriau

Is the Author of our Next Serial Story

From a sketch of the distinguished author in A Library of the World's Best Literature, edited by Chas. Dudley Warner, we clip the following:

"To speak of the detective novel is to speak of Gaboriau. He can't be called the father of it; but the French novelist made his field so peculiarly his own, developed its type of human nature so painstakingly, created so distinctive a reputation associated with it, that it is doubtful whether any one can be said to have outrivaled him. * * * Gaboriau elevated the detective story to something like a superior plane in popular fiction. It is a question whether he did not say in a large measure the strongest word in it, and to all intents and purposes the last word."

CASE 113

This story will begin in the next issue of the HERALD.

Concerning
THE KINGDOM OF GOD.

2 Tim. 4:2.

KINGDOM
THY KINGDOM COME

1 Cor. 9:16

THESE WERE MORE NOBLE THAN THOSE OF THESSALONICA IN THAT THEY RECEIVED THE WORD WITH ALL READINESS AND SEARCHED THE SCRIPTURES DAILY, WHETHER THOSE THINGS WERE SO. ACTS 17:11

We saw last day that the particular Kingdom of God which Jesus Christ preached (and which therefore we have to preach) began with that nation which God raised up unto Abraham in fulfilment of His promise (Gen. 12:2, 3); and was continued in the Kingdom which was given unto Jesus and over which He reigns as the Christ—the Lord's Anointed. In a word the Kingdom of God which Jesus preached is none other than the Kingdom of David of old; the Son of David was anointed to rule over the same Kingdom of God over which David himself had been anointed to rule before Him. Such is the plainest teaching of Scripture: "The Lord God shall give unto him the throne of his father David, etc." (Luke 1:32. Cf. Is. 9:7; etc).

It will be asked, How can this thing be? The explanation is simple enough. The Kingdom over which David ruled of old was God's Kingdom, the Kingdom of God; David ruled over it as God's vicegerent. Accordingly, when the descendants of King David on the throne forfeited their privilege of reigning by reason of unfaithfulness, the Kingdom of God was not destroyed. The Jewish nation still continued to be God's chosen people, though carried away captive to Babylon as they had been captive in Egypt before (Is. 40:1; etc.). The descendents of King David upon the throne had forfeited their right to reign as the vicegerents of God; they ceased to reign over the Kingdom of God. But the Kingdom of God did not cease to exist; it simply passed into earthly captivity. And so, when Jesus was born, God gave unto him the throne of His father David (which throne the former sons of David had forfeited); and on that throne He reigns as the Lord's Anointed, the Christ. Thus the Kingdom of God today is the same Kingdom of God as that over which David reigned of old.

The same, only changed, transformed. It is the prerogative of any King—at least of such a King as Jesus—to change the character of his Kingdom at will. Thus Jesus, inheriting the Kingdom of David, transformed it into a Spiritual Kingdom by conferring upon it Spiritual powers and directing it to Spiritual ends. Thus while David's Kingdom had been a Kingdom of the earth earthy, our Blessed Lord transformed it into a Kingdom which is no longer after the manner of the Kingdoms of this world. (John 1:11-13; 18:36).

And so, in the Kingdom of God, has been fulfilled the divine law, first that *which is natural, and afterward that* which is spiritual. (1 Cor. 15:46.)

THE CHURCHES.

Morning subject at the Presbyterian church Sunday will be, "Unification of Life." Evening subject, "First things first."

There will be a special Christmas service at the Methodist church Sunday morning. Christmas anthems by the choir and a sermon suitable for the occasion by the pastor. Evening theme, "The Gospel the Power of God."

The closing services of the year, at the Universalist church will be conducted by the retiring pastor, next Sunday. The subject of the morning sermon will be "Unknown Disciples or Unsung Heroes." The evening services will be appropriate to the Christmas tide with a special musical program, and a short sermon on "The Star of Bethlehem." Miss Young will be followed one week from Sunday, Jan. 3, by Rev. Mrs. Eves of Detroit, an able and experienced worker in our church, and we bespeak for her a generous hearing.

Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

FOUL BREATH?

DID YOU EVER MEET A PERSON WITH A FOUL BREATH?

and have them get close to you while relating some good joke? and although you wanted to escape the breath, you could not?

THE CAUSE

is a disordered stomach and a general bad condition of the blood, possibly a torpid liver was the primary cause. Would you not advise them to do something to get rid

OF THAT BREATH?

Reader, if you are one of those unfortunates with a foul breath, why do you not take action? why do you not see that your stomach is put in order? There is no excuse for it when there is a remedy at hand.

Kinyon's Blood AND Kidney Remedy

Strengthens the kidneys, enabling these important organs to carry off the impurities. Regulates the liver so that it may aid in the digestive operation and keep the bowels active. Tones up the stomach and enables it to properly digest the food so that the body may be nourished and become strong. With these organs all active and strong the system becomes cleansed and the foul breath will leave as if by magic. Do not delay. Act at once.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it becomes settled. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. For sale by all druggists.

Improvement came at once and four bottles entirely cured her." Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

VanWinkle—Murphy.

A very quiet wedding occurred last evening at the home of Mr. and Mrs. A. S. VanWinkle when their daughter, Cora Mae, became the wife of James G. Murphy. The house was tastily decorated in house plants, smilax and carnations, the bride and groom standing before a bower of lace curtains and holly. The bride was gowned in gray crepe over pink satin and carried a bouquet of pink and white carnations. The groom wore the conventional black suit. The ceremony was performed by Rev. Leslie Bower, of the Baptist church, in a most impressive manner in the presence of fifty guests. After congratulations a two course wedding supper was served after which the bride and groom quietly took their departure for parts unknown escaping from the usual shower of rice and old shoes from their friends.

They received many beautiful presents, among which was fifty dollars in gold from the groom's father.

The out of town guests were Miss Marie Bauer, of Jackson; Mrs. J. D. Bauer and Mrs. Margaret English, of Manchester; Miss Eda Kirk and Bert Service, of Clinton; and James Langham, of Milan.

A GREAT CURE.

A Happy Mother lifts her Voice in Praise

OF THE WONDERFUL CURE EFFECTED BY PROF. WALLACE.

Others also offer Testimonials.

Adrian, Nov. 2, 1903.

I wish to state to the public a case which has proved itself very interesting, and also very wonderful. It has opened the eyes of many people within our midst, and perhaps for miles around.

In May, 1900, our little daughter, Cora Rogers, 85 Michigan street, Adrian, Michigan, (only two years old at the time) while playing with her toys stood up in her doll chair, and in some manner the chair tipped and she fell to the floor. She struck her right knee with all her weight and as she picked herself up, said, "Ouch, mamma, I hurt my knee." I laughed and rubbed her knee, but thought nothing more of it at the time. Soon after this, I noticed that every time she would bump her knee she would complain of its hurting.

Condition of knee when first taken to Prof. Wallace.

The latter part of June she began to limp and as I kept watch I soon discovered that it was swelling. We took our little one to a good physician in Riverdale, Ilinois. (We were living fourteen miles south of Chicago at the time Cora was hurt). The doctor thought it was only bruised a little and said it would be all right in a few days. I rubbed it with iodine, but it only grew worse.

The tenth of July I came to Michigan with my three children to visit my people, who lived in Deerfield. I started a week early on Cora's account, as the doctor said she must not walk. We came to Adrian, and our family physician examined the knee. He found that it was in a very bad condition, and advised me to take her back to Chicago and put her in a good hospital. I knew that meant something terrible. During the ten long weeks that I stayed with my people, I did everything I could for her, but she only grew worse.

The 27th of September I went home and the next day took her to the Hannonaman hospital, Chicago, for examination. Doctor Chiselette found that the patella ligament was torn loose and said they could help her if the little one was left there. We left her there six weeks, which seemed like six months to us, as we thought how she was suffering. But worst of all, at the end of that time she was no better and could scarcely bear the weight of the sheet, as it touched her knee.

Finally she was taken before the medical staff and they decided to put her leg in a plaster paris cast. She suffered four weeks with it on, as the leg was drawing up all the time. Of course, her limb was growing and a larger cast had to be put on after she had rested a week. At the end of five weeks she was no better, but she was so brave and cheerful and bore her sufferings so patiently that she was called "Little Cora Rogers, the Pet of the Hospital."

Just before Christmas we went up and brought Cora home to spend the holidays with us and when we went back with her, Doctors Chiselette and Cushion said an operation might help her. Yet, she had suffered so long and grown so weak that the doctor would not accept the case. Dr. Martin came and wrote a history of her knee, as it was such an interesting case.

The above shows the heel brought the floor at the end of three months.

We then took Cora to Professor Green, a noted surgeon, who said, "By all means you want to have an operation in less than twenty-four hours If it was my child I would not listen to anything but an operation."

We were broken hearted when we took our baby home, but we still felt that there was help for her somewhere.

The first of July, 1901, we moved back to Adrian, our old home, and our friends thought it would be wise to consult Professor Wallace. The 27th of December we took Cora to him in the condition shown in the first photo.

She could scarcely touch the tip of her shoe to the floor and would hop about on her left foot like a chicken with a broken leg. Professor examined her leg and found it in a terrible condition. He disagreed with the doctors, and said the two bones below the knee had separated and become inflamed. There was no circulation of blood below the knee and had not been for so long that the leg had shrunken considerably. For weeks I was kept busy putting on warm applications to keep the foot and leg warm day and night. The little one had had no sleep to speak of since the day she was hurt; so one can imagine in what condition she was at this time. After the Professor's first treatment Cora slept all night and we cried for joy to see her so refreshed in the morning. The third treatment helped her so that the pain had entirely left her, and in three months her heel touched the floor. She could walk and wear a shoe.

The 9th of June, 1902, Professor Wallace called in Dr. Treat to administer an anesthetic while Professor performed an operation which proved to be a great success. Her pictures can convince anyone that it was a very wonderful thing that Mr. Wallace could cure her in so short a time. The most wonderful feature is, Professor Wallace kept her on her feet while treating her. Two weeks after the operation, she contracted whooping cough of the worst form (while in Chicago suffered from bronchitis, diphtheria and mumps) and Professor has cured her. She is bright and happy, walks to school every day as is shown in picture No. 3. She is five years old and thinks a great deal of Professor Wallace. She took to him more than anyone else and requested that her picture be taken with him as shown in picture No 4.

The Professor is a man of few words, but all that he said with regard to our little girl's condition, proved to be true. May all who are afflicted in any way, read this and consult Professor Wallace, Adrian, Mich., at once. We feel that we cannot say enough in praise of him, but we hope that he may always be as successful as in this case. He has indeed been a Lorenz to us and his price has been adapted to our circumstances.

This picture shows Cora well and going to school.

Signed, MR. AND MRS. JOHN ROGERS,
85 Michigan street, Adrian, Mich.

Taken by request of Cora.

P. S.—The above letter is written without the solicitation or knowledge of Professor Wallace and we are paying for its publication. MRS. ROGERS.

TESTIMONIAL OF MAJOR J. H. COLE.

My sympathy always goes out to suffering humanity, and especially when it comes to the children. I saw little Cora Rogers for the first time, the morning of the operation. I am free to say I had many misgivings and felt that Prof. Wallace was taking too great a risk. This was increased as I learned he was going contrary to the medical fraternity in one of the leading hospitals in Chicago.

But as I watched the calm and quiet manner of Doctor Treat, who was getting ready to administer the anesthetic and was informed that the operation would not be more severe than by the knife, I felt relieved. So I watched the crippled child as she went limping to the operating table, and saw the little limb gradually straighten under the powerful pressure of Prof. Wallace. I said time will tell the result, and I wondered how it would terminate. A few months later I was more surprised than ever to see the mother enter our home with her face all aglow and tears of joy in her eyes, as her little daughter came bouncing up to my side.

I said, "Is this the little girl I saw limping last June?" "The same one," said the mother. "I'm the one," said the child. We praised God for the wisdom given man to bring such joy in a home. JAMES H. COLE.

WALLACE'S SANITARIUM.

Forty-six Persons are under Treatment.

Forty-six people at the present time are taking treatments at Prof. Wallace's sanitarium, among the number including Mr. Kehoe, of Seattle, Washington. When he came to Adrian two weeks ago, he inquired among the business men where to go. He found the largest majority in favor of Prof. Wallace's treatment. He is suffering from rheumatism of four year's standing. He is now getting better.

Fell out of a little express wagon in Indian Territory seven years ago. Fell on his back and hurt it, so it brought on a severe curvature. He was taken to Stewart Bros.' hospital at Hutchinson, Kansas; was there two years lacking two month. Since that time his parents moved to Monroe, Mich. There is where they heard of Prof. Wallace. The little boy was still almost in a helpless condition. He has been taking treatments at Prof. Wallace's for three months up to this date. He now has almost perfect use of himself. He is eleven years of age and his name is Clarence Char er.

Henry Hubert, of Ottawa Lake, has been suffering from a stroke of paralysis on her left side for twenty-four and one-half years. Her left arm was entirely helpless. She has gained the use of her arm again in three months' treatment up to this date under Prof. Wallace's treatment.

Outside of the above cases mentioned, Prof. Wallace was treating a patient that seemed to be troubled with gas and bloating. They bloated so they almost suffocated at times. While under treatment something passed away in a tumor-like form and the patient is well. No names given in these conditions.

Dundee Reporter: Mrs. Alfred Wilkerson is again at her Dundee home, after an absence of several weeks receiving myopathic treatment at Adrian. Came to partake of Thanksgiving dinner. Is greatly improved in condition and is now able to move about her home upon crutches—was entirely helpless when she went to Adrian for treatment. Expects to now remain at home and her many friends hope that she will continue to improve. By Prof. Wallace.

N. B.—Having noticed the above when it appeared in the Adrian Telegram, I would hereby bear testimony to the accuracy of the account, as I have seen little Cora in the various stages of her recovery, from the time when she had to be carried in her mother's arms until through Prof. Wallace's skill the remarkable success was attained, which the above article exhibits. It is, however, only one of the many truly remarkable cases that have come under my observation at Prof. Wallace's sanitarium.

CURES CATARRH

"Hyomei the most wonderful cure for catarrh ever discovered," says C. A. Wright.

Do not try to cure catarrh by taking drugs into the stomach; it cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the bacilli of catarrh and prevent their growth.

Hyomei is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only absolute cure for catarrh that has ever been discovered.

Thousands of unsolicited testimonials have been received from the most prominent men and women in the country who have been cured by this remarkable remedy. Ministers, bankers, lawyers, even eminent physicians have given strong testimonials as to the remarkable powers of Hyomei to cure catarrh.

The complete Hyomei outfit costs but $1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50c. It is not alone the best (it might be called the only) method of curing catarrh, but it is also the most economical.

C. A. Wright has so much confidence in the power of Hyomei to cure catarrh, that he will for a limited time, sell this medicine under his personal guarantee to refund the money if the purchasers can say that it did not help them.

If some men were worms they would be to lazy to turn.

A WORD TO FARM TOILERS.

PAINE'S CELERY COMPOUND

The Home Friend of the Farmer and His Family.

After the labors and toils of the summer time, and harvesting of crops in the early autumn, many of our farmers, their wives, daughters, and sons, find themselves in a condition of health demanding careful attention if suffering is to be avoided later on. Many experience kidney trouble in some form; with some the liver is torpid; there is billiousness, nausea, and vomiting, with loss of appetite and depression of spirits. Thousands who have been exposed to cold, damp winds and rains while toiling in the harvest fields, now feel the twinges of terrible rheumatism; others run down by worry, overwork, and irregular dieting, are tormented with the pangs of dyspepsia.

To the thousands of run down, sickly, and half dead men and women in farm homes we recommend with all honesty and confidence, the worker's friend, Paine's Celery Compound, the only medicine that can quickly and fully restore strength to the weak body and vigor to the muscles. Paine's Celery Compound tones the stomach; it removes poisonous acids from the blood which cause rheumatism; it feeds the weak and diseased nerves and banishes neuralgic tortures; it purifies the blood and gives true vitality and life. The use of Paine's Celery Compound in autumn means the establishing of a perfect physical vigor to withstand the rigors of a severe winter.

DIAMOND DYES, Burlington, Vt.

The indulgence of the flesh dwarfs the spirit.

A hobo's idea of a nightmare is to dream of working.

IT WILL COME BACK.

Some Tecumseh residents have learned how to keep it away.

Your back may not ache very long,
But the ache will return shortly,
Comes oftener—stays longer
Unless the kidneys are relieved.

Doan's Kidney Pills cure all kidney ills.

Tecumseh people endorse them.

Mr. Henry Keyser, retired farmer and capitalist, residence in the southwestern section of Tecumseh, says: "I am thoroughly convinced of the superior merits of this popular remedy, Doan's Kidney Pills. They deserve naught save the highest praise. Before going to C. A. Wright's drug store for a box I had a dull aching pain in my back which had annoyed me for some time and the secretions from the kidneys were unnatural and irregular. To say that I was surprised at the effect is putting it very mildly. In a very short time the trouble disappeared. I never knew a medicine that worked so quickly and satisfactorily."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Never draw a sight draft on a blind man.

It's the little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds, Dr. Wood's Norway Pine Syrup.

It sometimes happens that he who hesitates is found out.

Half the ills that man is heir to come from indigestion. Burdock Blood Bitters strengthens and tones the stomach; makes indigestion impossible.

STATE OF MICHIGAN, County of Lenawee ss. Probate Court for the County of Lenawee.

POISON IM COFEEE.

Girl Suspected of Attempting to Kill Detroit Woman.

Detroit, Mich., Dec. 22.—Miss Florence West, a 20-year-old girl, was taken into custody by the police Monday on suspicion of having placed poison in the coffee of Mr. and Mrs. William Detsch of 453 Fort street east, with whom she lived, and thereby nearly causing death. The circumstances surrounding the case are tinged with romance.

William Detsch is a delivery driver, while the young woman under arrest worked as a pillmaker. It is said that the young woman had formed an attachment for Mr. Detsch and the poison was meant for his wife, the girl hoping that Detsch would marry her when his wife was dead.

Down on Bucket Shops.

Niles, Mich., Dec. 22.—An attempt on the part of a Milwaukee commission firm to open a bucket shop here has aroused a storm of protests from the whole community. Last night the city council took the matter up and instructed the city attorney to ascertain whether the concern cannot be driven out of town. The failure of the First National bank, which went under two years ago, is attributed to the bucket shop which operated over the bank at that time, and through which Charles Johnson, the ex-cashier, lost thousands of dollars, which he deposited with the bucket shop people for speculation on the Chicago board of trade.

Big Stock Sale.

Pontiac, Mich., Dec. 22.—Pontiac is filled to overflowing with stockmen, and the appearance of the state fair grounds reminds one of days when the fair is on. Beginning today and continuing through tomorrow, under the auspices of the Michigan Premium Stock company, a big sale of Michigan's best stock of all kinds is being held on the fair grounds. The idea of such a sale is a new one and so far, judging from appearances, the affair is a success. Some of the finest stock in the country is on exhibition and bidding is lively.

Lumber Output of 1903.

Menominee, Mich., Dec. 22.—Final reports made by the various mill companies operating on the Menominee river at Menominee and Marinette show that during the past season there were manufactured a total of 266,000,000 feet of lumber, 146,000,000 shingles and 66,500,000 lath. This is about the same cut as in 1902. The season was a remarkable one in many respects, the lumber market having been fairly good, while the shingle market slumped off badly.

Construction Company Sues.

Owosso, Mich., Dec. 22.—The Industrial Construction company of Chicago has started suits against four out of the sixteen prominent Durand business men who agreed, on verbal representations, to take stock in the new creamery at Durand and signed contracts which turned out to be promissory notes. The cases were started before Justice J. J. Peacock in Corunna and continued. Suits will be begun against the others immediately.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The Fairest wheel still leads as cigar machine. Never cheats you, pays one every time, may get 2 or 3, always right at the Britton drug store.

Mortgage Sale.

Whereas, default has been made in the payment of the money secured by a mortgage dated the 13th day of May 1899 executed by H. Brant Roberts, of Clinton, Lenawee County, Michigan, to Edwin R. Smith and Leander W. Kimball of the same place, which said mortgage was recorded in the office of the Register of deeds of Lenawee County, State of Michigan, on the 15th day of May 1899 at 10:40 o'clock a. m. in Liber 157 of Mortgages at page 6 and whereas, said mortgage was duly assigned by said Edwin R. Smith and Leander W. Kimball to Moses Bartlitt on the 9th day of December 1903 said assignment being recorded in the aforesaid office of the Register of deeds of Lenawee County, state of Michigan, on the 10th day of December 1903 at 1:00 p. m. in Liber 164 of Mortgages at page 149, and whereas, there is claimed to be due on said mortgage at the date hereof for principal and interest the sum of $5,230.91 and an attorney fee of $25.00 allowed by law and stipulated for in said mortgage, making the whole amount claimed to be due on said mortgage at the date hereof $5,255.91. No suit at law or in equity having been instituted to recover the debt now remaining secured by said mortgage or any part thereof, and the power of sale in said mortgage contained having become operative.

Notice is hereby given that, by virtue of the power of sale contained in said mortgage, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, or so much thereof as may be necessary to produce the money due on said mortgage, at public vendue to the highest bidder, at the east front door of the Court House in Lenawee County, Michigan, in the City of Adrian in said County, on the 14th day of March 1904 at one o'clock in the afternoon of that day.

The mortgaged premises are described in the aforesaid mortgage as follows to-wit: situated in the Township of Clinton, County of Lenawee and state of Michigan, described as follows, to-wit: The east half of the south west quarter of section nine (9) and also the south west quarter of the south west quarter of said section nine (9) and also all that part of the south east quarter of the south east quarter of section eight (8) lying east of the center of the River Raisin, and also all that part of the north east quarter of the north east quarter of section seventeen (17) known and described as beginning at the north west corner of the school section, thence west to the center of the River Raisin, thence down the center of the River to the Newburg Mill dam, thence south to the south line of the north half of the east half of the north east quarter of said section seventeen (17), thence east to the west line of said school section, thence northerly along said last mentioned line to the place of beginning, also a part of the north west quarter of the south west quarter of said section nine (9) described as beginning at the south east corner of the north west quarter of the south west quarter of said section nine (9), running thence north fifteen (15) rods and thence west, bearing south one (1) rod. Twenty eight rods (28) and eight (8) links to the center of the Clinton and Tecumseh Road, thence southerly along the center of said road to a point twenty five (25) rods west of the place of beginning, thence east twenty five (25) rods to the place of beginning, containing in all of the lands above described one hundred and sixty six acres more or less, occupied and used as one parcel or farm, and all in town five (5) south of range four (4) east.

Dated, December 18th, 1903.

MOSES BARTLITT,
Assignee of said mortgage.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage (whereby the power of sale in said mortgage contained has become operative) dated executed and delivered on the 29th day of September A. D. 1900, by Joseph H. Brown and Annie Brown, his wife, to the Tecumseh State Savings Bank, and recorded in the office of Register of Deeds for Lenawee County, State of Michigan, on the 4th day of October A. D. 1900 in Liber 180 of Mortgages on page 510, and upon which there is claimed to be due at the date hereof the sum of seven hundred sixty-seven and 87—100 dollars, including taxes paid by the undersigned upon said mortgaged premises and interest thereon, and no proceedings at law or in equity having been taken for the collection of said mortgage debt;

Notice is therefore hereby given that, by virtue of said power of sale, I will, on the 1st day of February A. D. 1904, at ten o'clock in the forenoon of said day, at the east front door of the Court House in the City of Adrian, Lenawee County, Michigan, (that being the place where the Circuit Court for said county of Lenawee is holden), for the purpose of realizing the mortgage debt aforesaid, and said taxes, with interest thereon, together with the costs of this proceeding (including a lawful sum as an attorney fee), sell, at public vendue, to the highest bidder, the following lands in said mortgage conveyed, to-wit: That parcel of land, in the village of Tecumseh, County of Lenawee, and State of Michigan, known, bounded and described as follows, viz:—All that part of Block one of Henry L. Hewitt's addition to said village bounded by beginning in the east line of said Block about eighteen rods south from the north-east corner thereof and at north-east corner of lands (formerly) owned by Fincham (formerly by Stevens), and running thence north in east line of said Block eighty-six feet; thence west, parallel with north line of land deeded by Teachout to Waters January 17th, 1900, one hundred and thirty-five feet; thence south, parallel with first course, thirty-six feet; thence west, parallel with second course (extended), sixty-three feet; thence south, parallel with first course, fifty feet; thence east, parallel with second course, one hundred and ninety-eight feet to beginning.

Dated, November 5th A. D. 1903.

LIFE PLANT Renews Life.
The Very Best TONIC Ever Discovered.

The blood is a great source of health or disease in the human system. If the blood is pure, the individual is strong and healthy; if the blood is impure or diseased then there is sickness and disease in the whole system.

Impure blood causes such diseases as Eczema, and Scrofula. LIFE PLANT effects its wonderful cures by acting through the blood. It is impossible for that blood poison, uric acid, or any other blood impurity to exist in the presence of our harmless medicine. The phenomenal success of LIFE PLANT in the many forms of blood diseases, warrants us in stating that it is a positive cure for Eczema and Scrofula. Read what Mr. M. P. Hobbs says of LIFE PLANT:

Gentlemen:

Two years ago I contracted a very aggravated case of Eczema. I tried many kinds of medicine called sure cures, but all failed. I was persuaded by a friend to give LIFE PLANT a trial, and after taking two bottles I was cured. To [illegible] truth of my statement try LIFE PLANT and be convinced.
Yours truly,

BANK WAS WRECKED

Daring Robbers Used Nitro-Glycerine on Vault.

AN INCESSANT RAIN OF BULLETS

Posse of Citizens and Robbers Engaged in Duel—Bandits Escaped in the Darkness—Much Money Secured and Destroyed by Robbers.

South McAlester, I. T., Dec. 28.—A bold bank robbery, attended by a desperate battle between a posse of citizens and robbers, occurred at Kiowa, a small town sixteen miles south of this city, Sunday, the robbers securing and destroying about $28,000, which was in the bank. The first charge of nitroglycerine made no impression on the safe, but this noise aroused residents of the town and soon a posse composed of fifty men was congregated in the stock yards at the rear of the bank. An almost incessant fire was kept up for half an hour, during which time the robbers continued their efforts to open the safe. It required three discharges to force the door. The third explosion was terrific and almost completely demolished the safe, as well as the interior of the bank. Paper money was blown into shreds, large quantities of mutilated bills being left by the bandits.

After looting the safe the robbers left the building from the front and backed off into the darkness, keeping up a fire on the posse. It is said that one of the robbers was injured. A posse is in pursuit of the robbers.

FOOTPADS WITH REVOLVERS

Caused Considerable Excitement in Pennsylvania Towns.

Philadelphia, Dec. 28.—Two white men with revolvers blew open a safe, held up several persons and otherwise caused considerable excitement in the suburban towns along the main line of the Pennsylvania railroad. Two men were held up at Haverford and later a man escorting several ladies was stopped by the same men, but the screams of his companions scared the footpads off. Several hours later they appeared at Stafford, covered an aged watchman with revolvers and blindfolded him. The men then blew open the safe in the railroad station, which is also used as a postoffice, and took about $1,000 in money and stamps. The police have a good description of the burglars, but as yet they have been unable to find any trace of them.

THROUGH ITALIANS

Mad Mullah Willing to Treat With English.

Rome, Dec. 28.—News has been received here that Captain Bisio, commander of the Italian squadron in Somaliland, arrived at Obbia on the flagship Cristoforo Colombo, from which point he sent emissaries to the interior, having been given to understand that the Mullah was disposed to treat with Great Britain through the Italians. The Mullah is believed to be in an almost desperate condition owing to the lack of a good base of supplies.

Crew Suffered Great Hardships.

San Juan, P. R., Dec. 28.—The British steamer Lady Joicey, bound from Chilian ports to Savannah, Ga., Wilmington, N. C., and New York with a full cargo of nitrate of soda, took fire and sunk seventy-five miles south of Porto Rico last Wednesday. The cargo of the Lady Joicey exploded and the vessel went down within two and a half hours. Captain Smith with his cre wand one passenger arrived at Ponce in two small boats, completely exhausted and almost naked, having made their way through terrible seas. There were no fatalities. The British consul at Ponce attended to the immediate wants of the shipwrecked marines.

Panama to Assume Part of Debt.

New York, Dec. 28.—Mr. Buna-Varilla, minister of Panama to the United States, stated that he had notified Sir H. Mortimer Durand, British ambassador to the United States, of Panama's willingness to assume a part of the exterior debt of Colombia, in proportion to a population of Panama compared with that of Colombia. The minister says this will be done as soon as the independence of Panama is recognized by Colombia.

An Exceptional Showing.

Detroit, Mich., Dec. 26.—J. C. Hudson, superintendent of the money order department of the postoffice, says the money order business of the Detroit office this week was the heaviest in its history. "Before the week is over we will probably have paid 12,000 orders, amounting to $140,000," he said. One Italian forwarded $2,200 to his native country.

Whole School Exposed.

Romulus, Mich., Dec. 26.—William Armstrong, health officer of this township, reports four cases of scarlet fever in the families of Albert Mook and Daniel Dugan, both living near Hale's Corners. The whole school is said to have been exposed to this disease.

Indian Killed by Train.

Boyne City, Mich., Dec. 26.—An Indian named Taylor, who was intoxicated, was run over by a locomotive on the Boyne City and Southeastern railroad and his body terribly mangled. Death was instantaneous.

A frightened horse.

Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable salve handy and there's none as good as Bucklen's Arnica Salve. Burns, cuts, sores, eczema and piles disappear quickly under its soothing effect. 25c at C. A. DYNAMITE OUTRAGE

PLANNED AGAINST THE VILLAGE OF ZEELAND.

MAN IN OTTAWA COUNTY JAIL TOLD OF PLANS.

REVEALED TO HIM BY A FELLOW PRISONER.

Grand Haven, Mich., Dec. 26.—If the stories told by William Wilson, who is at present sojourning in the Ottawa county jail, are to be believed, the village of Zeeland has had a narrow escape from a series of dynamite outrages.

Wilson made an attempt to escape from the jail some time ago, and in so doing shot and seriously hurt Sheriff Dykhuis. He made the statement at the time that the gun he used was smuggled to him in the jail by a pal, one Frank Quinn, alias King. Now, however, he denies this story and declares that some weeks ago one Frank Wierda, a young man of Zeeland, not unknown to the police, visited the jail and delivered the gun to him.

Since then Wierda has himself been arrested on suspicion of having robbed the pickle plant at Zeeland, and Wilson states that since Wierda has been in jail he has told him of a plot to burglarize the Zeeland bank and commit other depredations in the small village. It was the intention, according to the second-handed story, to catch and bind the watchman of the bank and then blow the safe with dynamite. Dynamite had already been secured for the purpose and is said to have been stolen from the hardware store of C. Verhage of the village. The officers look upon the story as having some semblance of truth.

Wilson says that Wierda further told of a plot to blow up one of the drug stores of Zeeland. The gang which the story implicates had a grudge against the proprietor of this store, and if Wilson is to be believed, his store was to have been completely destroyed by dynamite.

Wierda denies giving Wilson the revolver. The officers declare it has been identified as one stolen from the Verpage store.

Several prominent young men of Zeeland are implicated in the affair, and when the officers get the necessary evidence it is said there will be a great sensation in the little south Ottawa village.

WHY RENT WENT UP.

Improvements Were Made on Ypsi's Postoffice Building.

Ypsilanti, Mich., Dec. 26.—The dragging of this city into the scandal with which the postoffice is besmirched has caused considerable gossip on the streets. The charge is made by Fourth Assistant Postmaster-General Bristow that the rental of the postoffice in this city has been boosted without a change in the lease by former Superintendent of Salaries and Allowances Beavers.

The property in which the postoffice is located is owned by a brother of J. B. Wortley, but the latter is the manager of it. He doesn't appear to be at all worried over the situation. He admits that the rental of the place was raised from $700 to $900, as stated in Bristow's report, and justifies it on the ground of improvements and increased expenses. "We had to build on an extra room, put in skylights and make many other repairs," said Mr. Wortley. "I think the whole outlay was at least $1,500. It was hard to make both ends meet for $700 a year. We furnish the building completely, furnish water, lights and heat."

"Is it true that the increase was made without your request?" he was asked.

"No, we made the request for the increase, and had a hard time getting it."

Shooting Affray at Ann Arbor.

Ann Arbor, Mich., Dec. 26.—A shooting scrape occurred in Northfield township Christmas, about ten miles from here, and as a result Frank Davis has two bullet wounds and Albert Bauer has been landed in jail. Just how the trouble occurred it has been difficult to learn, as Bauer, when arrested, was too much under the influence of liquor to tell an intelligent story of the affair, and Davis was in such a serious condition that he could not be questioned. It is known that the men were in the city and drinking together and the affray took place while they were on their way home. Davis was shot once in the arm and the second bullet took effect in the back, striking a rib and following it around to the side, where it was extracted by the physician.

Two Persons Fatally Burned.

Philadelphia, Dec. 28.—The overturning of an oil stove at No. 705 Spring Garden station caused a slight fire during which two persons were so seriously burned that they died in a hospital. Several other persons were rescued from the house after being burned, but they will recover.

LATE NEWS IN BRIEF.

A general insurrection has broken out among the Bondelzwarts tribes in Great Namaqualand, German Southwest Africa. The insurrectionists have collected in the Kara mountains.

Dr. Alexander Graham Bell, inventor of the telephone, has arrived at Genoa, Italy. He will convey to the Smithsonian Institution at Washington, D. C., the remains of James Smithson, founder of the institution, who died in Genoa in 1829.

There is no doubt in the minds of the police the man arrested on the Canadian side of the Niagara river is James Abeel of New York, who it is alleged posed as "J. Orden Goelet, Jr." and claiming relationship to the well-known Goelet family, became engaged to Miss Grace Anderson of New York. The prisoner, however, still maintains that Hall is his proper name and he will fight extradition.

George Palmer, Detroit.
William Smith, Saranac, Mich.

UNKNOWN DEAD.

Man of perhaps 21 years of age. Nothing in clothing with exception of cards of local saloonkeepers, which would indicate that he lived in this city; at Spring's undertaking rooms.

Man of about 30 years of age. Had initials "A. J. K." on cuffs; weight about 150 pounds.

Man of between 35 and 40 years, clad in working clothes. Hands dirty. Appearance would indicate had only recently left machine shop. Absolutely nothing to identify and head crushed beyond all recognition.

Man pulled from the wreckage under No. 6 mail car almost simultaneously with discovery of Burns' body. Railway reports no trainman missing, and body must be that of passenger or tramp.

THE INJURED.

Gerrit Motman, Grand Rapids; Charles West, Saranac; John Post, Clarksville, Mich.; Michael Maltburg, Hart; Charles T. Chambers, Ionia; Frank Waterman, Detroit; J. C. Woodworth, Salom, Mich.; Edward Weigel, Grand Rapids; George Niel, Grand Rapids; R. E. Gay, Detroit; Harry Marcus, New York city; E. B. Moon, Grand Rapids; Mrs. H. Kent, Grand Rapids; C. N. Botsford, Farmington; Mrs. H. O. Gray, Grand Rapids; H. O. Branch, Sunfield; George Crammond, Grand Rapids; Andrew Sprague, Allegan; Miss Gale Sprague, Allegan; Claud Brown, Grand Rapids; Mrs. H. R. Bols, Grand Rapids; Ada Keller, Clarksville.

Grand Rapids, Mich., Dec. 28.—Eighteen identified dead and four unidentified and thirty injured is the result of the most disastrous railway wreck that ever occurred on the Pere Marquette and one of the worst, so far as life is concerned, that ever happened in Michigan.

A warning signal light in the order board of the McCords station, extinguished by the high wind, sent train No. 5, speeding toward Grand Rapids to meet the fast local No. 6, on what is admittedly the fastest stretch of track on the Detroit division of the Pere Marquette.

Five cars and two magnificent locomotives were crushed and broken and compressed into a space ordinarily occupied by three coaches and the wreckage strewn from fence to fence of the right of way, with injured and dying pinned and crushed under the fragments of the heavy bulkheaded cars.

Signal Lamp Blew Out.

No. 6 left Grand Rapids with Engineer Stoddard at the throttle. The starting orders were changed to meet No. 5 at McCords. A similar order was transmitted to the operator at McCords. His order board was set against the flyer, and the lamp was burning brightly two minutes before the fast train roared out of the cut.

There was no chance of the fast running trains to see each other through the driving blizzard in time to even slow down, and in a few minutes the word came from the conductor of No. 5. They had come together and the death list was something horrible to contemplate. Both trains were behind time and both engineers were crowding their magnificent machines. As the trains came together the steam domes of each boiler blew off, releasing the contents of the generators, else there would have been added horrors from the blistering vapor.

It was at the rear end of the smoker and forward end of the cafe car where all passengers were injured. From a space six feet square the bodies of two women, a boy and a man were taken out. Relief trains were sent out and brought in the bodies of many of the dead and injured.

Pathetic Scenes.

It was a pathetic little pathway that was worn by the six carriers who bore the single cot back and forth from the end of the big parlor car to the baggage coach of the relief train, and few of the hundreds who stood about the wreck cared to look.

The majority of the killed and injured were riding in the east bound train. The flyer, with its heavy bulkheaded coaches, hung together and stayed on the rails back of the baggage and mail cars, and the passengers in this train escaped serious injury. The passengers of No. 5 as one man turned in to assist their less fortunate ones in the local.

According to statements made by officials of the Pere Marquette, the westbound train was climbing the hill at a speed of forty miles an hour.

When the engines met one turned completely over and lay with its nose in a direction opposite to that in which it had been traveling. The other climbed the wreckage of the first, its boiler torn from the trucks, standing erect in the center of the debris. It was in the eastbound train that most of the fatalities occurred.

In the cafe coach one of the most shocking of the many tragedies of the wreck was enacted. Section Foreman Linden J. Baldwin, wife and son had spent Christmas in Grand Rapids and were returning to their home at Mulliken. Between the man and wife, sitting on the top of the car seat and playing with a penny bank received as a Christmas gift, was their little son. The crash came and all three met death. A beam flying through the air struck the child, beheading him. Mother and son were found together on the floor of the car.

FEAR FOUL PLAY.

Former Owosso Man Found Dead In Well.

Owosso, Mich., Dec. 28.—C. L. Gillett, who recently went from this place to Bjelland, N. D., was found dead in his well there yesterday, and relatives residing in the vicinity of Owosso are of the opinion that death is due to foul play.

Gillett had taken up land and was prospering. He leaves a widow and three children.

Michigan Corporations.

State Board Followed Precedent.

Lansing, Mich., Dec. 28.—In view of the criticism which the state board of education has been subjected to because it required the citizens of Kalamazoo to make substantial contributions as a condition to locating the new state normal school in that city, it is interesting to note that in this matter the board was simply following the established precedent in this case. From the very beginning these donations were required of cities where these institutions have been located.

Big Improvements to Be Made.

Owosso, Mich., Dec. 28.—The Ann Arbor railroad expects to spend a large sum of money in Owosso and vicinity next spring on repairs and alterations. The track now describes a wide curve in coming into the city from the south and to straighten this out a right of way has been purchased between Owosso and Corunna half a mile to the north. Since the establishment of the sugar factory here the yards are constantly congested and miles of extra trackage in the shape of sidings will be laid.

Wants Better Pay For Firemen.

Battle Creek, Mich., Dec. 28.—In his sermon Rev. S. J. Stewart cited the case of a member of the local fire department who resigned his position to engage in the saloon business. He condemned this action, stating that some remedy should be given to pay more for the great risks taken by firemen and not allow them to seek other occupations for more money making, especially the saloon business.

Stock Gambling Denounced.

Niles, Mich., Dec. 28.—Stock exchange gambling was vigorously denounced from several local pulpits Sunday and was declared to be ruining thousands of families. The attempt of a Milwaukee commission firm to open an alleged bucket shop here, which is opposed by the city council and the people in general, was responsible for the onslaught on the part of the clergy. The last bucket shop that operated here ruined a large number of citizens financially and was a standing scandal in the community.

Accidents at Mines.

Wilkesbarre, Pa., Dec. 28.—Mine Inspector Reynolds of the Seventh district, the largest of the anthracite districts, has completed his report of the work for the past year showing there were 38 fatal and 106 non-fatal accidents in the seventeen collieries of the district during the year. In 1901 there were 37 fatal accidents and the inspector, noting that there was 30 per cent more coal mined this year than in 1901, says the present year is in advance of any previous year in the small number of deaths for the amount of coal mined.

Three More Bodies Identified.

Connellsville, Pa., Dec. 28.—Thre bodies in the morgue were identifie They are H. M. Tobies of Readin Pa.; Leo Sancenato of New Yor James Fox of Pittsburg, and John mon of New York. Only three bodi remain to be identified. Two ha been identified but not claimed, making in all five bodies of the sixty-five that will probably be buried in unknown graves.

CASE 113,

By Emile Gaboriau. . . .

CHAPTER I.

IN the Paris evening papers of Tuesday, Feb. 28, 1866, the following announcement appeared:

"A great robbery, committed against one of our most honorable bankers, M. Andre Fauvel, caused intense excitement this morning throughout the neighborhood of the Rue de Provence. The robbers with extraordinary skill and boldness succeeded in making an entrance to the offices, in forcing the lock of a safe that has heretofore been considered impregnable and in getting away with the enormous sum of 350,000 francs in bank notes. The police, immediately informed of the robbery, displayed their accustomed zeal, and their investigations have been crowned with success. Already, it is said, one P. B., a clerk in the bank, has been arrested, and there is every reason to hope that his accomplices will be soon overtaken by the hand of justice."

But this time the newspapers were inaccurate in their information. The sum of 350,000 francs certainly had been stolen from M. Andre Fauvel's bank, but not in the manner described. The following are the facts as they were related with scrupulous exactness at the preliminary examination:

The banking house of Andre Fauvel, 87 Rue de Provence, is an important establishment and, owing to its large force of clerks, presents very much the appearance of a government department. On the ground floor are the offices, with windows on the street, protected by strong iron bars, sufficiently large and close together to discourage all burglarious attempts. M. Fauvel's private office is on the first floor over the offices and leads into his private apartments. This private office communicates directly with the bank by means of a narrow staircase, which opens into the room occupied by the head cashier. This room, which in the bank goes by the name of the "cashier's office," is proof against all attacks, no matter how skillfully planned. Fastened in the wall by enormous iron clamps is a safe, a formidable and fantastic piece of furniture, calculated to fill with envy the poor devil who easily carries his fortune in a pocketbook.

The safe is opened by a curious little key. But this is the least important part of the mechanism. Five movable steel buttons, upon which are engraved all the letters of the alphabet, constitute the real power of this ingenious piece of furniture. Before inserting the key into the lock the letters on the buttons must be in the exact position in which they were placed when the safe was locked. In M. Fauvel's bank, as everywhere, the safe was always closed with a word which was changed from time to time. This word was known only to the head of the bank and the cashier. They each had also a key. There was but one danger—that of forgetting the word which was indispensable.

On the morning of the 28th of February the employees were all busy at their various desks about half past 9 o'clock when a middle aged man of very dark complexion and military bearing, in deep mourning, presented himself in the office adjoining the safe, where he found five or six employees. He asked to see the cashier. He was told that the cashier had not yet arrived and that the cashroom was not opened till 10 o'clock, a notice of which was posted in the entry.

"I thought," he said in a tone of cool impertinence, "to find some one here ready to attend to my business, having arranged the matter with M. Fauvel yesterday. I am Count Louis de Clameran, an iron maker at Oloron, and have come to draw 300,000 francs deposited in this bank by my late brother, whose heir I am. It is surprising that no orders were given about it."

Neither the title of the noble manufacturer nor his explanations appeared to affect the clerks.

"The cashier has not yet arrived," they repeated, "and we can do nothing for you."

"Then conduct me to M. Fauvel."

There was some hesitation, then a clerk named Cavaillon, who was writing near a window, said:

"The chief is always out at this hour."

"Then I will call again," said M. de Clameran. And he departed without saying "Good morning" or even touching his hat.

"Not very polite," said little Cavaillon. "But here comes Prosper."

Prosper Bertomy, cashier of Fauvel's banking house, was a tall, handsome man of thirty, with light hair and blue eyes, and dressed in the height of the fashion.

"Ah, here you are!" cried Cavaillon. "Some one has just been inquiring for you."

"Who? An iron manufacturer, was it not?"

"Precisely."

"Well, he will return. Thinking that I would be late this morning, I attended to the matter yesterday."

Prosper had unlocked his office and as he finished speaking entered and closed the door behind him.

"There is a cashier," exclaimed one of the clerks, "who never lets anything disturb him. The chief has quarreled with him twenty times for being tardy, and his remonstrances have no effect upon him whatever."

"And with reason—he knows he can get anything he wants out of the chief. Besides, how could he come any sooner? He sits up all night and leads a fast life. Have you noticed how pale he looks this morning?"

The cashroom door opened, and the cashier appeared before them with tottering step.

"Robbed!" he gasped out. "I have been robbed!"

Prosper's expression, his hollow voice and trembling limbs betrayed such fearful suffering that the clerks got up from their desks and ran toward him. He almost dropped into their arms. He was sick and faint and fell into a chair.

His companions surrounded him and begged him to explain himself.

"Robbed?" they said. "Where? How? By whom?"

Gradually Prosper recovered himself.

"All I had in the safe."

"All?"

"Yes, all—three packages, each containing 100 notes of a thousand francs, and one package of 50,000. The four packages were wrapped in a sheet of paper and tied together."

With the rapidity of lightning the news of the robbery spread throughout the bank. The curious clerks rushed in.

"Did you find the safe broken open?" said young Cavaillon.

"No; it is untouched."

"Well?"

"Yesterday I put 350,000 francs in the safe, and this morning it is gone."

A messenger had already informed M. Fauvel of the disaster, and at this moment he entered the [illegible]. M. Andre Fauvel appeared to be a man of fifty, inclined to corpulency, of medium height, with iron gray hair, and, like all hard workers, he had a slight stoop. Never did he by a single action belie the kindly expression of his face. He had an open countenance and a lively, frank eye.

"What's this I hear?" he said to the clerks, who stood before him respectfully. "What's happened?"

The sound of M. Fauvel's voice inspired the cashier with the energy of a great crisis. The dreaded and decisive moment had come. He arose and advanced toward his chief.

"Monsieur," he began, "having, as you know, a payment to make this morning, I yesterday drew from the Bank of France 350,000 francs."

"Why yesterday, monsieur?" interrupted the banker. "It seems to me that I have a hundred times ordered you to wait until the day of the payment."

"I know, monsieur, and I did wrong to disobey you. But the evil is done. Yesterday evening I locked up the funds. They have disappeared, and yet the safe has not been forced."

"You are crazy," exclaimed M. Fauvel, "or you are dreaming!"

"I am not crazy, neither, unfortunately, am I dreaming. I am simply saying what is true."

This calmness at such a moment appeared to exasperate M. Fauvel. He seized Prosper by the arm and shook him roughly.

"Speak!" he cried out. "Speak! Who do you say opened the safe? Answer me!"

"I cannot say."

"No one but you and I knew the secret word. No one but you and I had keys."

This was a formal accusation. At least, all the auditors present so understood it. Yet the cashier's strange calmness did not leave him. He gently released himself from the chief's grasp and said:

"In fact, monsieur, I am the only one who could have taken this money."

"Unhappy man!"

Prosper drew himself up and, looking M. Fauvel full in the face, added:

"Or you!"

The banker made a threatening gesture, and there is no knowing what would have happened if they had not been interrupted by loud and angry voices in the entry. A man insisted upon entering in spite of the protestations of the employees and succeeded in forcing his way in. It was M. de Clameran. The clerks stood looking on, bewildered, motionless, in profound silence. It was easy to see that some terrible question—a question of life or death—was being weighed by all these men. The iron founder did not appear to observe anything unusual. He advanced, his hat on his head, and said in the same impertinent tone:

"It is after 10 o'clock, gentlemen."

No one answered, and M. de Clameran was about to continue when he for the first time saw the banker. He went straight to him.

"Well, monsieur," he said, "I congratulate myself upon finding you in at last. I have been here once before this morning and found the cashroom not opened, the cashier not arrived; you were absent."

"You are mistaken, monsieur; I was in my office."

"I return, and this time not only the cashroom is closed, but I am refused admittance to the office. I am compelled to force my way in. Will you tell me, yes or no, can I have my money?"

M. Fauvel listened, trembling with anger, yet he controlled himself.

"I would be obliged to you, monsieur, for a short delay."

"I thought you said"—

"Yes, yesterday, but this morning, this very instant, I find I have been robbed of 350,000 francs."

M. de Clameran bowed ironically and said:

"Shall I have to wait long?"

"Long enough for me to send to the bank."

Then, turning his back on the iron maker, M. Fauvel said to his cashier:

"Write a note to the bank for a loan of 300,000 francs. Send at once. Let the messenger take a carriage."

Prosper did not move.

"Do you hear me?" said the banker angrily.

The cashier trembled. He seemed as if he was in a stupor.

"It is useless to send," he said. "There is a credit to this gentleman of 300,000 francs, and we have less than 100,000 in the bank."

M. de Clameran evidently expected this answer, for he muttered:

"Naturally."

Although he only pronounced this word, his voice, his manner, his face, clearly said:

"This comedy is well acted, but nevertheless it is a comedy, and I don't intend to be duped by it."

"Oh, don't be alarmed, monsieur," said the banker. "This house has other resources. Have patience till my return."

He went out and up the narrow steps leading to his study and at the end of five minutes returned, holding in his hand a letter and a bundle of securities.

"Here, quick, Couturier," he said to one of his clerks, "take my carriage, which is waiting, and go with monsieur to M. de Rothschild's. Give him this letter and these securities. In exchange you will receive 300,000 francs, which you will hand to this gentleman."

The iron founder was visibly disappointed. He seemed to wish to apologize for his impertinence.

"I assure you, monsieur, that I had no intention of offending. For some years our relations have been such that I"—

"Enough, monsieur," interrupted the banker. "I desire no apologies. In business friendship counts for nothing. I owe you money. I am not ready to pay you. You are pressing. You have a right to demand what is your own. Follow my clerk. He will pay you your money."

Then he turned to his clerks who stood curiously gazing on and said, "As for you, gentlemen, resume your desks."

In a moment the room was cleared of every one except those who belonged there, and they sat at their desks with their noses almost touching the paper before them, as if absorbed in their work. Still excited by the events so rapidly succeeding each other, M. Andre Fauvel walked up and down the room, with quick, nervous steps, occasionally uttering some low exclamation. Prosper remained leaning against the door, with pale face and fixed eyes, looking as if he had lost the faculty of thinking. Finally the banker, after a long silence, stopped short before Prosper. He had determined upon his line of conduct.

"We must have an explanation," he said. "Let us go into your office."

The cashier obeyed without a word, and his chief followed him, taking the precaution to shut the door after them.

Nothing in the cashroom bore evidence of the entrance of burglars. Everything was in perfect order. Not even a paper was misplaced. The safe was open, and on the top shelf lay several rouleaus of gold, overlooked or disdained by the thieves. M. Fauvel, without troubling himself to examine anything, took a chair and ordered his cashier to be seated. He had entirely recovered his equanimity, and his countenance wore its usual kind expression.

"Now that we are alone, Prosper," he said, "have you nothing to tell me?"

The cashier started, as if the question surprised him. "Nothing, monsieur, that I have not already told you."

"What? Nothing? Do you persist in asserting a fable so absurd and ridiculous that no one can possibly believe it? It is folly! Confide in me. It is your only chance of salvation. I am your chief, it is true, but I am, above all, your friend—your best and truest friend. I cannot forget that here fifteen years ago you were intrusted to me by your father, and ever since that day have I had cause to congratulate myself on possessing your faithful service. Yes, it is fifteen years since you came to me. I was then just commencing to build my fortune, and you have seen it gradually grow step by step from almost nothing to its present size. As my wealth increased I endeavored to better your condition, you who, although so young, are the oldest of my clerks. At each inventory I increased your salary."

Never had Prosper heard his chief express himself in so feeling and paternal a manner. Prosper was silent with astonishment.

"Answer!" pursued M. Fauvel. "Have I not always been like a father to you? From the first day my house has been open to you. You were treated as a member of my family. My niece, Madeleine, and my sons looked upon you as a brother. But you grew weary of this peaceful life. One day a year ago you suddenly began to shun us, and since then"—

The memories of the past thus evoked by the banker seemed too much for the unhappy cashier. He buried his face in his hands and burst into tears.

"One can confide everything to his father without fear," resumed M. Fauvel. "A father not only pardons, but forgets. Do I not know the terrible temptations that in a city like Paris beset a young man? There are some inordinate desires which break down the firmest principles. Speak, Prosper, speak!"

"What do you wish me to say?"

"The truth. An honorable man may yield to temptation, but his first step toward atonement is confession. Say to me: Yes, I have been tempted, dazzled. The sight of these piles of gold turned my brain. I am young. I have passions."

"I!" murmured Prosper. "I!"

"Poor boy!" said the banker sadly. He paused, as if hoping for a confession, which, however, did not come.

"Come, Prosper, have courage. Make a clean breast of it. I will go up stairs. Go again to the safe. I am sure that in your agitation you did not search thoroughly. This evening I will return, and I am sure that during the day you will have found, if not the 350,000 francs, at least the greater portion of it. And neither you nor I will tomorrow remember anything about this false alarm."

M. Fauvel had risen and was about to leave the room when Prosper arose and held him by the arm.

"Your generosity is useless, monsieur," he said bitterly. "Having taken nothing, I can restore nothing. I have searched carefully. The bank notes have been stolen."

"But by whom, poor fool? By whom?"

"By all that is sacred, I swear that it was not by me."

The banker's face turned crimson. "Miserable wretch," cried he, "do you mean to say that it was I?"

Prosper bowed his head and did not answer.

"Ah, it is thus, then," said M. Fauvel, unable to contain himself any longer. "You dare— Then between you and me, M. Prosper Bertomy, justice shall decide. God is my witness that I have done all I could to save you. You will have yourself to thank for what follows. I have sent for the commissary of police. He must be waiting in my study. Shall I call him?"

Prosper, with the fearful resignation of a man who abandons himself, replied in a stifled voice:

"Do as you will."

The banker was near the door. He opened it and after giving the cashier a last searching look said to an office boy:

Itching Skin

At one of Sir Henry Irving's New York appearances in "Dante" spectators seemed uncommonly impressed by the scene in hell. It is here that two traps in the stage suddenly open, showing a defunct cardinal enduring sundry tortures as he lies strapped to the trap. The effect of this scene was aptly described by a lady, who, turning to one of her friends, said: "I always felt sure they must have folding beds in hell."

A timely suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take, both adults and children like it. Buy it and you will get the best. It always cures. For sale by all druggists.

About 40 couple attended the Christmas party given at the Armory Friday night. Willetts Orchestra of Adrian, furnished the music, which was, indeed, very fine. Great credit is due, not only to Mr. Willets, the manager, but to the whole orchestra. Supper was served by Mr. Gillman, proprieter of the Emery hotel. Every one enjoyed a good time. The party broke up about 4 o'clock.

Charles M., son of Thomas Moffatt, underwent an operation yesterday morning for the correction of diseased mastoid. He was operated on two years ago at AnnArbor. Shortly after a serious discharge took place and has continued up to this time. The operation was performed by Dr. L. M. Bunnell, assisted by Dr. Jones, and the patient is doing nicely.

The rummage sale will be reopened Saturday morning, Jan 2, by the ladies of the Universalist church. The patronage of the public is solicited. The ladies will have on sale, besides their second hand goods, new aprons and other domestic articles. Second-hand clothing, furniture, dishes and books or any farm products that can be spared, would be gladly received at their rooms on North Evans street. Please bring in contributions as early as possible.

Adrian, Mich., December 28.—Otto Bosky, of Blissfield township, was arrested this morning, charged with pounding his horse on the head with a club until it died. Bosky had been drinking, and in driving out of Blissfield for his home, collided with several rigs, tipping one cutter over and throwing out the occupants. Not content with this damage, he steered his horse into the fence when almost home and, blaming the horse for the smashup, beat it over the head with a club until it died. He pleaded guilty before Justice Humphrey this afternoon and rather than spend sixty-five days in the Detroit house of correction, paid a fine of $20 and $8.30 costs.—Detroit Free Press.

FREIGHT CARS

At Lenawee Junction have been opened.

TWO YOUNG BOYS

Are suspected of the theft. County Agent Avery investigating.

Within the past month, freight cars have been opened and numerous articles stolen from them at Lenawee Junction. Lake Shore Detectives from Toledo have investigated and at last have found a clue, which leads them to suspect two young boys. The matter has been turned over to County Agent Avery, who will investigate it still farther.

A Pleasant and Profitable Evening.

Miss Katherine Anderson entertained quite lavishly last evening in honor of Mr. Chester White Jr. Mr. White is a distinguished friend and classmate of Mr. Newbold Satterthwaite and has recently made some remarkable excavations in Barnys, Rd., in the vicinity of Britt, on the ancient lake beds of that region.

Although Mr. White has achieved the highest distinction in his chosen profession, he does not forget the associations of his early youth, and in this particular instance, has been en route for more than a year, for the sole purpose of renewing the acquaintance of those whose friendship he values.

Covers were laid at the hospitable home of Miss Anderson, for ten. The decorations were severely simple, but effective. The most attractive, perhaps, being the unique center piece, designed by a Pittsburg artist, an associate of Mr. White's, depicting one of the most stirring scenes in the explorer's career.

A number of native dishes were served, prepared under Mr. White's supervision, and Mr. White, himself, appeared in native costume.

The evening was spent in scientific discussion and in an attempt to unravel some Oriental mysteries provided expressly for this occasion.

Mr. White is an altogether charming personage; calm, unassuming and genial, a personality as rare as it is delightful.

A touching little scene occurred at the departure of the guests. Mr. White presented each one with a dainty souvenir bound beautifully in swine skin, and as the friends of his youth glanced into the pleasant, open countenance of the companion whom they might never again see, and murmured "God Speed", the tears welled to the explorer's eyes and he was absolutely unable to respond.

Mr. White will be in the village but a day or two, when after a short season on the platform, he departs on the longest and most ambitious journey of his eventful career, into the wilds of distant and little known Softso. A. P.

May he be entirely successful and add farther laurels to those already acquired by the sons of our pretty little village.

Fight will be bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her. Guaranteed by C. A. Wright, druggist. Price 50c and $1.00. Trial bottles free.

ROUND ABOUT US.

Last week we printed an item saying that a Quincy man held the record for trapping muskrats and other fur bearing animals having furs to the value of $85. Now comes, Robt. Leach of our town saying he beats this having over $100 worth of furs.—Chelsea Standard.

Will Foot, while acting as Santa Claus at the Prairie school Christmas exercises, west of the city, last evening, accidentally stuck his false hair too close to a candle. There was a flash for a moment, but the fire was extinguished in time to prevent any serious results.—Adrian Telegram.

A Coldwater lady had a series of accidents. First she fell from a step ladder, then fell against a door casing and cut a hole in her head, next a fall on an icy walk and last she tipped over backward in a rocking chair while holding a child in her arms. She is now patiently waiting for a cyclone.—Hudson Post.

A little three year old child of Mr. and Mrs. Ed Ferguson south of town, sat down into a boiler of hot water Monday and was seriously scalded, but will recover. The mother had been washing and took off the boiler to get dinner and while in another room the child is supposed to have fallen in the hot water.—Saline Observer.

Judge Lane said there was no probate notice this week for the best paper in Lenawee county. That's why no new notice appears in the Press. Our democratic readers ought to arrange to have probate notices in their own paper. Fix it before you pass to the other shore. You can do nothing more here, after you go.—Adrian Press.

Lucius Lilley is the oldest business man in Tecumseh. He is the best preserved man of his age in the village. He pays the biggest tax of any man in the place and grumbles less about it as he tosses his check to the treasurer. Were he 25 years younger the republican party could hunt the state over and then not discover so competent a man for governor. He'd put the brakes on when necessary, but he would not be a hindrance to improvement, progress or enterprise. His tax levy this year is $598.10, which leaves him sufficient out of $600 to secure the Press for a year and still have some pocket change. L. I. Bidwell is second on the list with $569.40. There are 28 persons or firms which pay over $100 taxes but not a lawyer, minister, editor or saloon keeper is admitted to this combination.—Adrian Press.

WASHINGTON LETTER

Washington, Dec. 28, 1903

Admiral Walker, who has returned from Panama, made a favorable report to the President. He says that there are plenty of marines on the scene to protect the canal route, that the health of the force is good, and their presence popular with the people, but he advises against sending regular troops, as such an act might cause uneasiness. The administration is determined to be prepared for every emergency. More marines are being sent to the fleet and several transports are in readiness to carry regular troops should their presence be necessary.

Advices from the State department show that the American minister, W. I. Buchanan, was given a magnificent reception upon his arrival at Panama. He was entertained at the government palace, all members of the junta, ministers and foreign officials being present. Panama troops served as his guard of honor. He has presented his credentials and our diplomatic relations with the small republic are now complete.

Minister Varilla brought to the State department a notice that the act of the junta in ratifying the canal treaty has been officially approved by the municipal council of the twelve provinces of the republic. He calls attention to this in order to answer the criticisms that junta which accepted the treaty was not composed of representative men. He has also received information that Great Britain and Cuba have recognized the republic of Panama.

General Reyes is still here. He has given Secretary Hay a note protesting against the act of the United States in recognizing Panama and awaits an answer before returning to Colombia to take charge of the government and personal command of the army. The General recognizes that an attack by Colombia on Panama would involve this country in a hopeless war with the United States, and is doing all he can to prevent it. He is not at all confident of success however, as his countrymen have been aroused to great excitement and have no idea of the power of the United States, or of its determination to protect the canal route in Panama. "Be patient" and remember that war with Panama is war with the United States, is the kind of advice he sends by cable to Colombia.

The Panama treaty continues to be the chief topic of interest here among politicians. Many senators have expressed in print their views on the subject, and the action of the next democratic caucus in which the treaty will be discussed is awaited with interest. The eagerness of the Southern states for the treaty as shown by the action of the Louisiana legislature in instructing its senators to vote for it, by the speeches of prominent southern democrats and by the editorials of democratic papers, lead the politicians here to believe that the democratic caucus will not decide to oppose the ratification of the treaty, it is thought by some that the caucus decision is more likely to be in direct favor of it.

Senator Morgan will of course oppose the treaty. Senator Hale, republican from Maine, declared in an interview, "I do not like the situation and am afraid it will involve us in an expensive and profitless war, but I have seen no way from the beginning, except to ratify the treaty and make the best of it. Our government moved rather rapidly and with some prevision when the insurrection broke out, but Colombia was holding us up, and meant to rob us, and as we were committed to the building of the canal by the United States, and as some kind of government had been set up in Panama, we were compelled to come to terms with that government however quickly formed and however unsubstantial it might be.

For the purchase of the friars' land in the Phillipines President Roosevelt after a conference with Secretaries Shaw and Root, decided to authorize the issuance of $7,000,000 of 4 per cent. Philippine bonds, redeemable after ten years and within thirty. An act of the last Congress provided for the issue of such bonds. They will be accepted by the government as security for the deposit of public funds, and it is believed that they will sell above par. The sale will commence early in January. Within the last seven months $,000,000 of 4 per cent Philippine bonds were issued in the United States and sold above par. More than half of them are now in deposit with the government as security for public money.

The Navy Department has ordered Rear Admiral Evans to proceed at once with the Asiatic fleet under his command, from Honolulu to Chinese waters. This order is in connection with developments in the East. The Chinese Treaty has not yet been ratified at Pekin and it is thought here that Russia is secretly opposing such ratifications in order to prevent the opening of Manchurian ports at Antung and Mukden, to American trade. Russia fears that such American interest in Manchuria might induce the United States to oppose the permanent occupation of the territory by Russia, or might involve her in the Russian-Japanese quarrel. War between Russia and Japan is considered inevitable, although it may be postponed for some time. The administration is determined that a large American fleet will be on the scene to protect American interests, and therefor Admiral Evans has been ordered to leave Honolulu at once.

A cablegram has been received from Governor Taft saying that the contract for the purchase of the lands has been signed and provides for the payment within six months. Now that they possess no more land the friars will leave the islands and will be superceeded by American priests, who will exercise their functions more inkeeping with the present conditions of the islands.

METROPOLITAN MISSOURI.

Champ Clark, the eloquent representative from Missouri, is a stanch champion of his state.

"You people out in Missouri," said a New York man to him, "are all right, but you are too provincial."

"Provincial?" snorted Clark. "Provincial? Why, let me tell you, sir, the shoe is on the other foot. Nobody in New York knows anything about Missouri, but everybody in Missouri knows all about New York."

"Mr. Isaacs," F. Marion Crawford's first novel, was written for the diversion of an uncle to whom he was greatly attached. When he was in India he met a broker in precious stones on whom he conferred the name of Isaacs, and whose dealings, particularly with the nizam of Hyderabad, formed the plot of this, his first romance. He completed it in two months and the uncle for whose entertainment it was prepared, without the author's knowledge, submitted it to the Macmillan company, who accepted it. It's dealing with theosophy was to hold it up for ridicule for the benefit of the afore said relative who was somewhat interested in the doctrine. Many of Mr. Crawford's readers drew the inference that he was a believer and he received many letters of inquiry in consequence.

NATURE'S OWN CURE

Hyomei cures catarrh without dangerous drugging of the stomach.

Not until Hyomei was discovered has it been possible to truthfully say that a remedy for catarrh was known.

This remedy is breathed through the Hyomei inhaler for a few minutes four times a day, and during that time every particle of air taken into the air passages and lungs is impregnated with the germ killing and health giving Hyomei. It is the only treatment that cures catarrh.

Stomach drugging often causes disordered digestion or brings on some other diseases and never makes a permanent cure of catarrh. Hyomei not only kills the germs in the throat and nose but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the germs in the blood. It frees the mucous membrane from poisonous microbes and gives perfect health.

A complete outfit costs but $1.00, and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

C. A. Wright has so much faith in the merit of Hyomei that he agrees to return the money to any purchaser who may be dissatisfied.

BEAUTY TRIUMPHS,

'Tis a Priceless Treasure.

Beauty is woman's greatest charm. The world adores beautiful women. A pretty woman dreads maternity for fear of losing this power. What can be done to perpetuate the race and keep women beautiful? There is a balm used by cultured and uncultured women in the crisis. Husbands should investigate this remedy in order to reassure their wives as to the ease with which children can be born and beauty of form and figure retained.

Mother's Friend

is the name by which this preparation is known. It diminishes the pain allied to motherhood. Used throughout pregnancy it relieves morning sickness, cures sore breasts, makes elastic all tendons called upon to hold the expanding burden. Muscles soften and relax under its influence and the patient anticipates favorably the issue, in the comfort thus bestowed.

Mother's Friend is a liniment for external application. It is gently rubbed over the parts so severely taxed, and being absorbed lubricates all the muscles.

Druggists sell it for $1 per bottle. You may have our book "Motherhood" free.

HARKEN YE

To the voice of Tecumseh people.

If you will but listen to your friends and neighbors, they will tell you how the pains and aches of a bad back, the annoyance of urinary troubles, the nervousness, the restlessness that come from kidney ills, can be relieved and cured. Read what one Tecumseh citizen says:

Mr. George Merritt, the well known proprietor of the cigar manufactory, says: "I can testify to the honesty and worth of Doan's Kidney Pills. There is no humbug about them. I was annoyed for some time with a dull aching pain in my back at times quite severe I heard so much about Doan's Kidney Pills that I procured a box at C. A. Wright's drug store and after taking them a short time I found they were helping me. Finally the pain in my back disappeared entirely. Doan's Kidney Pills are a splendid remedy for all kidney ailments."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

"GOING TO MEXICO."

So Says Frank C. Andrews—Prosecution Says Its "Good Bye Andrews."

Detroit, Mich., Dec. 26.—According to the statement of a reporter Frank C. Andrews, the Detroit bank wrecker, recently paroled by Governor Bliss, he intends to go to Mexico in the near future—that is, as soon as the governor issues the permit. But Prosecuting Attorney Hunt says that if Gov. Bliss allowed Andrews to go to Mexico it would be good by Andrews, so far as bringing him back by force under his parole is concerned.

When interviewed Andrews made the following statement:

Mines down there in which I have $200,000 worth of stock, the largest holding of any Detroiter, are worth untold wealth. Nevertheless, the 5,000 shares at $25 each which I turned over to the receivers of the City Savings bank previous to my conviction and the 2,900 shares that were turned over after my conviction, were appraised as valueless and counted in my assets as nothing.

"Attorney F. W. Whiting and myself will go to Mexico to straighten out the affairs of these mines and put things in good running order as soon as the necessary permit for the trip can be obtained from the governor. I have known all the time that there was all kinds of money awaiting me there. I look to those mines as one of the means of my rehabilitation."

Local papers now declare that many of the names placed on the petition sent to Governor Bliss, asking for Andrews release were forged. All of these express indignation that their names were used and would like to know who took such a liberty. About 100 other names appear on the petition without street addresses, or the parties are not known at what address is given.

W. Louis Graulich, who was one of Andrews's bondsmen, circulated the petition through a good portion of the east side and it is alleged that in order to get the depositors of the City Savings bank to sign, he gave positive assurance that they would receive 100 cents on the dollar for their money.

Boyne City Lad Drowned.

Boyne City, Mich., Dec. 26.—Alfred Winger, aged 14, was sent by his father, Rev. Henry Winger, pastor of the German Evangelical church, to Bay Springs Christmas morning. On his return he fell into Pine lake, where the current from Boyne river had worn the ice thin. Amast Taylor, another boy who was skating behind him, saw his danger, and skated to a dock where some men were piling lumber. The men told him to get a rope at a fish house. The boy couldn't find one, and called another man, who got a rope and plank, but by the time they reached the spot young Winger had gone down. His body will probably not be recovered.

Makes Animals Grow Fast.

Ann Arbor, Mich., Dec. 26.—Dr. W. J. Herdman, of the University of Michigan, has been conducting some interesting experiments with guinea pigs and rabbits. He has been keeping several of these animals at intervals in cages connected with dynamos, so that the temperature in which they were living was fairly impregnated with electricity. He finds that these animals develop much more rapidly than animals kept under normal conditions. They are as mature at the age of 12 months as others are at 14 or 16, but he finds that they die sooner. He may make tests with cows and sheep soon

Nearly Cost Two Lives.

Owosso, Mich., Dec. 26.—The act of some miserable miscreant nearly cost the lives of two or three men at the mines of the Owosso Coal Co. He moved the weight which is suspended from the safety valve of the hoisting engine at the mines out until the air receiver was choked and the engine blew up. The engineer and two others were a few feet away in another building and ecaped injury, although pieces of the boiler were hurled 150 yards. The machinery is a total wreck, and operations at the mines may be suspended for some time.

Revived An Old Custom.

Lansing, Mich., Dec. 26.—The announcement a few days ago that the children would revive an old custom drew great crowds to the principal thoroughfares Thursday afternoon, and many an old man's heart beat faster as the 400 little children came down the center of the road singing Christmas carols. They had been drilled for the occasion and visited the industrial school, the state capitol and the city hall.

Duel Over Dreyfus Case.

Paris, Dec. 28.—A duel with swords was fought between Captain Levy of the Fifth regiment of engineers and Henry de Milley, a leading anti-semite. Captain Levy was wounded in the arm. The traditional results of French duels were not followed in this case, for the opponents remain unreconciled. The duel was the outcome of an altercation over the Dreyfus case.

Popular Junta Wins.

Panama, Dec. 28.—Elections for members of the constitutional convention took place Sunday in every part of the republic. The results are not yet known, but telegrams from the interior report the apparent triumph of the candidates proposed by the popular junta composed of liberals and conservatives.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's cough remedy freely as soon as the child becomes hoarse or even after the rough cough appears and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by all druggists

A kidney or bladder trouble can always be cured by using Foley's Kidney Cure in time. For sale by J. J. Orr.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

His Weight In Gold For the Poor.

"A Hindoo stood in a scale and his weight was measured in goldpieces. That," said a traveler, "was the strange spectacle that I once beheld in India. There was a great crowd looking on, and it took a great many goldpieces to equal the Hindoo's weight, for he was fat. Finally, though, the big scale balanced, and then everybody began to shout: "Tulabhara! Tulabhara! Tulabhara!" The fat man got out of the scale. He and his friends took the gold, and, going through all the poorer quarters of the town, they distributed it among the destitute. This, I was informed, was a kind of religious ceremony among a certain sect. Every male at the time in his life when it was thought his weight would be greatest was put in a scale, and gold to equal him in bulk was measured out and distributed in alms. As a rule, each man was forty-seven when his weight was taken. They hold in India that at forty-seven a man is at his fattest."—Philadelphia Record.

A Story With a Bad Moral.

In a prosperous town in Mexico lives a merchant whose wealth grew out of a combination of good luck and drunkenness. An uncontrollable desire for drink cost him position after position, and he drifted down to Mexico and became a news agent. He sold lottery tickets. He had to report on drawing day what unsold tickets he had and forward them. He got drunk the day before one of the big drawings. Two days later he sobered up and found himself in possession of several hundred dollars' worth of unsold tickets. He did not possess $10 in the world. He examined the list and found that a number of the unsold tickets had drawn prizes aggregating $35,000 in gold. He collected the winnings, paid for the unsold tickets and took an oath of perpetual total abstinence. That was years ago. He has never touched liquor since and is today a wealthy man. The moral is bad, but the story is too good to suppress.—New Orleans Times-Democrat.

Legend of the Looking Glass.

Who ever heard it stated that the looking glass was first invented to spite a pretty woman? And how would it be possible to spite a woman by showing her a perfect reflection of her own dainty self? Well, according to Japanese mythology, the deity presiding over the sun and furnishing light to the world became infuriated at some trifle and hid herself away in a cave, thus depriving humanity of a very necessary element. In order to induce her to come out the mirror was invented and placed in the cave. The beautiful goddess, seeing another beautiful goddess within those narrow confines, immediately departed, and the people took care that never again should she enter the precincts of a cave. And so that most valued of woman's treasures was invented for spite, but for what a different purpose has it served!

A Mystery.

A very small boy was watching his mother sew whalebones in her dress.

"What are they, ma?" he asked.

"Bones," she replied.

"Whose?" continued the little fellow.

"Mine," she answered.

He regarded her a minute in amazement and then asked solemnly, "How did you get 'em out?"

My Breath.

Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured. Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homoeopathic) of regular practicing physicians. It has proved itself unique in the history of medicine, by being so uniformly successful in curing those diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercises, if the heart is unable to meet this extra demand upon its pumping powers—there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves.

"I know that Dr. Miles' New Heart Cure is a great remedy. For a number of years I suffered from shortness of breath, smothering spells, and pains in my left side. For months at a time I would be unable to lie on my left side, and if I lay flat on my back would nearly smother. A friend advised using Dr. Miles' New Heart Cure, which I did with good results. I began to improve at once, and after taking several bottles of the Heart Cure the pains in my side and other symptoms vanished. I am now entirely well. All those dreadful smothering spells are a thing of the past."—W. P. DRAKE, Middletown, O.

LONG CAMPAIGN AT PANAMA.

Cruiser Dixie Will Take South Six Hundred Marines.

Philadelphia, Dec. 28.—The Sabbath stillness at the League Island navy yard was broken Sunday by the hurried fitting out of the cruiser Dixie for her trip to Colon. The activity at the yard resembled much the busy scenes there prior to the Spanish American war. Altogether the Dixie will take south 600 marines, who will be under the command of Lieut.-Col. Walter.

The quantity and character of the Dixie's cargo indicate that the government expects a long campaign at Panama. Her holds and decks are crowded to the limit with stores. Besides the regular stores and other outfit for the marines on board of her and those now at the isthmus the Dixie will take with her five wagon loads of small arm ammunition, a large quantity of lumber, camp supplies and a number of wagons.

American Bonds In Favor.

London, Dec. 28.—What little business was transacted on the stock exchange last week was completely dominated by the varying phases of the far eastern situation. Japanese securities were severely depressed at the beginning of the week, but became steadier when it was seen that the negotiations between Russia and Japan were likely to continue. Depression, however, was rather general and was only desisted by the American market. The Statist calls attention to the fact that good American bonds are growing in favor all over Europe.

Fire In Geological Survey.

Washington, Dec. 28.—Three alarms were sounded for a fire which occurred Sunday night in the photograph laboratory of the United States geological survey. The combustible character of the material stored in the laboratory caused the flames to eat their way through the roof but prompt service by the firemen confined the fire to the immediate section in which the laboratory is located. Losses nominal.

King Victor Sends Condolences.

Rome, Dec. 28.—Thousands of telegrams of condolence have been received by the family of former Premier Zanardanelli, who died Saturday, including one from King Victor Emmanuel, in which his majesty said that Italy had lost one of her best sons—one who had dedicated all of his life to promoting the greatness of his country.

Will Cause Big Shutdown.

Pittsburg, Dec. 28.—A decision has been reached by the flint glass manufacturers to close all bottle factories shortly after the first of the year for a period of four weeks, in order to curtail production and better enable the trade to maintain prices. Thousands of skilled workmen will be rendered idle.

Unions Forging Ahead.

Albany, N. Y., Dec. 28.—Despite the fact that there has been alleged concentrated effort to discourage unionism, the New York state department of labor in its bulletin issued for the quarter ending Oct. 1, reports a great increase in membership and in unions established.

Stole the Doctor's Safe.

Niles, Mich., Dec. 26.—One of the boldest robberies ever known in Berrien county occurred Christmas day at Buchanan, five miles from Niles. During the absence of Dr. Curtiss, who was called to Dayton, burglars entered his office, which is on the second floor of one of the principal streets, carried off his safe, with its contents, including cash and valuable papers. No one seems to have heard or seen anything of the burglars, although jacks were used in removing a 600-pound safe. Dr. Curtiss offers a large reward for the capture of the burglars. Officers are searching the country for them.

NOTED PEOPLE

Little Clippings about persons we all of us know

SELECTED

From different Newspapers.

It is satisfactory to know that the poet Swineburne, who has been so ill with pneumonia, is now completely convalescent. His illness was short but sharp. Its seriousness was not realized until Sir Thomas Barlow was called in. He took a grave view of the case. but fortunately the poet's vigorous constitution enabled him to surmount the crisis safely. Since then his recovery has been remarkably rapid.

* * *

People generally use superstitions as playthings and half-believe, half-laugh at them. Many well-known people have had their little museum of occult notions.

George Eliot was a slave to the influence of the hunch-back and club-footed man, and did no literary work upon the day when she saw one.

Caroline Herschel firmly believed that if she met a cross-eyed beggar in the morning it presaged the discovery of a new star that night.

Harriet Beecher Stowe believed that it was bad luck to throw away a tooth-brush which had outlived its usefulness, and to the anguish of her household preserved every one that she had ever used.

Rosa Bonheur treasured a small lead image of St. Anthony of Padua as a lucky charm.

Queen Victoria cherished a number of superstitions, and among them she believed that the removal of her wedding ring would surely bring calamity, and that a pet Manx cat would bring good luck to the royal household.

Lady Mallais, the wife of the great painter, was convinced that the crack of doom would sound for any one who stepped on a crack in the sidewalk.

Sarah Bernhardt has the dried eye of a mummy and an uncut emerald of great size, which she imagines are necessary to her success.

Eleanor Duse, the famous Italian actress recently in this country, is sustained by a small copper crucifix wrought in a Siberian prison.

The cynical Mrs. Craigie (John Oliver Hobbes—a woman, notwithstanding the masculine name) has a childlike faith in a tiny image of a hideous Hindu god which she wears as a charm.

LIPTON'S COMPLIMENT.

Sir Thomas Lipton has a gallant way of paying pretty compliments to ladies. Driving through Washington on the day he lunched at the White House with President Roosevelt, he passed a large red automobile that stood before an imposing mansion of gray stone. A young girl in a white gown sat in the automobile, and, as Sir Thomas glided by, she bowed to him, smiling a radiant and charming smile. He, however, failed to see her.

The young girl looked embarrassed, vexed. She bit her lip. She thought a moment. Then she took hold of the wheel of her machine, pressed with her small foot the bulb that made the horn toot gruffly, and swiftly and smoothly she shot after the English knight.

Soon the great automobile overtook the carriage and halted. The young girl, an old friend of Sir Thomas, extended her hand, and, as he took it, she said reproachfuly:

"You passed me, a while ago, without looking at me."

With a gallant smile and inclination of the head, Sir Thomas answered:

"If I had looked at you, I couldn't have passed you."

McAdams & Co had a narrow escape Tuesday afternoon from having their place of business reduced to ashes. They have a large kettle in the back room that it used for trying out lard. Under this kettle a foundation of brick had been made which was covered with sand, but in some way the fire communicated with the floor. It being discovered in time and the prompt work by John and the boys was the only thing that saved Clinton from a good big blaze.—Clinton Local.

Domestic troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessoned by having Dr. King's New Life Pills around. Much trouble they save by their great work in stomach and liver troubles. They not only relieve you, but cure. 25c at C. A. Wright's drug store.

Old Coins From Old Mints.

The "mint house" in Boston existed about thirty-four years. All the coins issued from it bore the dates 1652 or 1662, the same dies being used probably throughout the thirty-four years of coinage. Some coins had been made in Bermuda for the use of the Virginia colony as early as 1644. Copper coins bearing the figure of an elephant were struck in England for the Carolinas and New England in 1694. Coins were also struck for Maryland bearing the effigy of Lord Baltimore. A mint was established in Rupert, Vt., by legislative authority in 1785, whence copper cents were issued, bearing on one side a plow and a sun rising from behind hills and on the other a radiated eye surrounded by thirteen stars.

Pen Picture of a Beautiful Horse.

A pen picture of a beautiful horse is to be found in one of Sewell Ford's stories in "Horses Nine." Here it is: In the stalls at Gray Oaks stables were many good hunters, but none better than Pasha. Cream white he was, from the tip of his splendid yard long tail to his pink lipped muzzle. His coat was as silk plush, his neck as supple as a swan's, and out of his big, bright eyes there looked such intelligence that one half expected him to speak. His lines were all long, graceful curves, and when he danced daintily on his slender legs one could see the muscles flex under the delicate skin.

A Failure.

"Yes, I consider my life a failure."

"Oh, Henry, how sad! Why should you say that?"

"I spend all my time making money enough to buy food and clothes, but the food disagrees with me, and my clothes don't fit."

Wiser.

Jerry—Is the world getting better?

Jack—It's getting wiser. I have an awful time trying to borrow money.—Detroit Free Press.

"Don't pretend." People will catch you at it and think less of you, and they think little enough of you now.—Atchison Globe.

Beware of ointments for catarrh that contains mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimoniols free.

Sold by druggists, price 75 c per bottle.

A very close call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by C. A. Wright. Price 50 cents.

Children Poisoned.

Many children are poisoned and made nervous and weak if not killed outright by mothers giving them cough syrups containing opiates. Dislocated her shoulder.

Mrs. Johanna Soderholm of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's pain balm advertised for sprains and soreness and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so pleased with the relief it gave his mother that he has since recommended it to many others. For sale by all druggists.

CASE 113,

By Emile Gaboriau. . . .

CHAPTER II.

"There is still time, poor boy," he said. "In the name of heaven, reflect!"

Prosper did not appear to hear him. He drew from his pocket a small key, which he laid on the mantel, and said:

"Here is the key of your safe, monsieur. I hope for my sake that you will some day be convinced of my innocence, and I hope for your sake that it will not come too late." Then, as every one was silent, he added: "Before leaving, here are the books, papers and accounts necessary for my successor. I must at the same time inform you that, without speaking of the stolen three hundred and fifty thousand francs, I leave a deficit in cash. There is a deficit of three thousand five hundred francs on my cash account, which has been disposed of in the following manner: Two thousand taken by myself in advance of my salary and fifteen hundred advanced to my fellow clerks. This is the last day of the month. Tomorrow the salaries will be paid, consequently"—

The commissary interrupted him.

"Were you authorized," he demanded, "to draw money whenever you wished to to make advances?"

"No, but I knew that M. Fauvel would not have refused me permission to oblige my friends. What I did is done everywhere. I have simply followed my predecessor's example."

The banker made a sign of assent.

"As regards that spent by myself," continued the cashier, "I had a sort of right to it, all of my savings being deposited in this bank—about fifteen thousand francs."

"That is true," said M. Fauvel. "M. Bertomy has at least that amount on deposit."

This last question settled, the commissary's errand was ended, and his report might now be made. He announced his intention of leaving and ordered the cashier to prepare to follow him. Usually this moment, when stern reality stares us in the face, when our individuality is lost and we feel that we are being deprived of our liberty—this moment is terrible. At this fatal command, "Follow me," which brings before our eyes the yawning prison gates, the most hardened sinner weeps and begs for mercy. But Prosper lost none of that studied phlegm which the commissary secretly pronounced consummate impudence. Slowly, with as much careless ease as if going to breakfast, he drew on his overcoat and gloves and said politely:

"I am ready to accompany you, monsieur."

The commissary folded up his pocketbook and bowed to M. Fauvel, saying to Prosper:

"Let us go."

They left the room, and, with a distressed face and eyes filled with tears that he could not restrain, the banker watched their **departure**.

"Good heaven!" he exclaimed. "Gladly would I give double the sum stolen to regain my old confidence in poor Prosper and be able to keep him with me!"

Fanferlot had resolved to obtain possession of Prosper's note, which he knew to be in Cavaillon's pocket. To obtain this written proof, which must be an important one, appeared the easiest thing in the world. He had simply to arrest Cavaillon, frighten him, demand the letter and, if necessary, take it by force.

Fanferlot began talking with an office boy and, after a few apparently idle questions, had discovered that the Fauvel bank had no outlet on Victory street and that consequently all the clerks were obliged to pass in and out through the main entrance on Province street. From this moment the task he had undertaken no longer presented a shadow of difficulty. He rapidly crossed the street and took up his position under a carriage gate.

After awhile Cavaillon appeared at the door of the bank, but before stepping on the pavement he looked up and down the street hesitatingly. He soon decided, entered the Faubourg Montmartre and walked up Notre Dame street so rapidly, utterly regardless of the grumbling passersby, whom he elbowed out of his way, that Fanferlot found it difficult to keep him in sight. Reaching Chaptal street, Cavaillon suddenly stopped and entered the house numbered 39. He had scarcely taken three steps in the narrow corridor when he felt a touch on his shoulder and, turning abruptly, found himself face to face with Fanferlot.

He recognized him at once, and, turning very pale, he shrank back and looked around for means of escape. But the detective, anticipating the attempt, barred the passageway. Cavaillon saw that he was caught.

"What do you want with me?" he asked in a voice tremulous with fear.

"You will be kind enough, my dear monsieur," said Fanferlot, "to excuse the great liberty I take. It is only about a trifling matter, and you will overwhelm me with obligations if you will do me the honor to accept my arm and step outside for a moment."

What could Cavaillon do? He took Fanferlot's arm and went out with him.

"What I wished to say is, my dear monsieur," began the detective, "that M. Prosper Bertomy threw you a note this morning. I am sure you will be kind enough to give it to me. Believe me, nothing but the most absolute necessity"—

"Never!" exclaimed Cavaillon. And, believing the moment favorable, he suddenly attempted to jerk his arm from under Fanferlot's and escape.

But his efforts were vain. The detective's strength was equal to his suavity.

"Don't hurt yourself, young man," he said, "but take my advice and quietly give up the letter."

"I am in your power," said Cavaillon, then suddenly drew from his pocketbook the unlucky note and gave it to the detective. Fanferlot's hand trembled with pleasure as he unfolded the paper. Yet, faithful to his habits of fastidious politeness, before reading it he bowed to Cavaillon and said, "With your permission." Then he read:

> Dear Nina—On the receipt of this note take everything you have in the house, absolutely everything, and establish yourself somewhere at the other end of Paris. Do not appear in public, but conceal yourself as much as possible. My life may depend on your obedience. I am accused of an immense robbery and am about to be arrested. You will find 500 francs in the secretary. Leave your address with Cavaillon, who will explain what I cannot say. Be hopeful, whatever happens. Goodby. PROSPER.

Had Cavaillon been less bewildered he would have seen blank disappointment depicted on the detective's face after the perusal of the note. Fanferlot had cherished the hope that he was about to possess a very important document, and who knows but that it would clearly prove the guilt or innocence of Prosper. Whereas he had only seized a love letter written by a man who was evidently more anxious about the welfare of the woman he loved than about his own. Vainly did he puzzle over the letter, hoping to discover some hidden meaning. It proved nothing for or against the writer. The two words "absolutely everything" were underscored. It is true, but they could be interpreted in so many ways. Fanferlot folded up the note and slipped it into his pocket.

"A thousand thanks, monsieur, for the information, and in return, if you please, I will relieve you of the trouble of executing your commission. I will myself take this note to Mme. Nina Gipsy. I will also give you a piece of advice. If I were in your place, I would return quietly to business and have nothing more to do with this affair."

The poor fellow obeyed. Slowly and with swelling heart he returned to Notre Dame street. He asked himself how he could serve Prosper, warn Mme. Gipsy and, above all, be revenged upon this odious detective who had just made him suffer such cruel humiliation. He had no sooner turned the corner of the street than Fanferlot went into the house, gave his name to the porter as Prosper Bertomy, went up stairs and knocked at the first door he came to.

A young servant dressed in the most fanciful livery opened the door.

"Is Mme. Gipsy at home?"

The little groom hesitated. Seeing this, Fanferlot showed his note.

"M. Prosper charged me to hand this note to madame and wait for an answer."

"Come in, and I will let madame know you are here."

The name of Prosper produced its effect. Fanferlot was ushered into a little room furnished in blue and gold silk damask. But he had no time to pursue his inventory. One of the door curtains was pushed aside, and Mme. Nina Gipsy appeared. Mme. Gipsy is, or, to speak more correctly, was, quite young, small and graceful, with a brown, or, rather, gold colored quadroon, complexion and the hands and feet of a child. She eyed her visitor with the most disdainful surprise.

"What do you want?" she said.

"I am charged, my dear madame," he answered in his humblest and softest tone, "by M. Bertomy to give you this note."

Fanferlot slowly drew Prosper's note from his pocket and with a bow presented it to Mme. Gipsy.

"Read," he said.

At a glance she read its contents. She turned very red, then very pale. She trembled from head to foot. Her limbs seemed to give way, and she tottered so that Fanferlot, thinking she was about to fall, extended his arms to catch her. Useless precaution! Mme. Gipsy was one of those women whose inert listlessness conceals indomitable energy—fragile looking creatures whose powers of endurance and resistance are unlimited, catlike in their soft grace and delicacy, especially catlike in their nerves and muscles of steel.

"Explain yourself! What does all this mean? Do you know anything about the contents of this letter? Prosper is to be arrested, accused of being a thief?"

"Yes, madame; he is accused of taking 350,000 francs from the bank safe."

"It is false, infamous, absurd!" she cried. "Prosper steal! It is absurd! Why should he steal? Is he not rich?"

"M. Bertomy is not rich. He has nothing but his salary."

This answer seemed to confound Mme. Gipsy.

"But," she insisted, "I have always seen him have plenty of money. Not rich—then"—

She dared not finish. But her eye met Fanferlot's, and they understood each other.

"No," she cried, "I regret to say that Prosper would never have stolen one cent for me! One can understand a man who is trusted robbing a bank for a woman he loves, but Prosper does not love me. He never has loved me. But I love him, and it is for me to save him! I will see his chief, the miserable wretch who dares to accuse him. I will prove that he is innocent. Come, monsieur, let us go, and I promise you that before sunset he shall be free, or I shall be in prison with him."

Mme. Gipsy's project was certainly laudable and prompted by the noblest sentiments. Unfortunately it was impracticable. Besides, it would be going

Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At all druggists.

ROUND ABOUT US.

Darwin Hand of Ann Arbor, is charged with attempting to murder his mother in-law, Mrs. Caroline Contant, in order that his wife who is dying of consumption, might inherit her wealth and leave it to him. They were in the house alone together and he claims she fell down stairs, but the old lady says he choked her and dragged her through two rooms and threw her down stairs. It seems that Hand married the daughter against the old lady's wishes and he claims she is out of her mind and bears him a grudge on that account. The officers say she has wounds that never could have been made accidentally and that they have affidavits and other evidence that will support the evidence of Mrs. Contant. Hand was released on $1,000 bail. Hand is 69 and Mrs. Contant is past 70. —Clinton Local.

The out come of a slight but spirited skirmish with a contrary hog was most disagreeable as far as Mr. Wm. Alderdyce's part was concerned. Saturday he was attempting to drive a hog which was in the orchard and it being very cold had his cap pulled well over his eyes. Running swiftly he came in contact with an apple tree. He was knocked unconscious and his nose was badly broken. Dr. Ross fixed him up and Mr. Alderdyce's nasal appendage will assume once more its customary shape. His friends are inclined to joke him but Wm. fails to see the comical side.—Onsted News.

A few nights ago a man in Jonesville was walking home with his family. His arms were full of bundles, and when he stepped on a patch of ice he could do no less than sit down with force and energy. But a box of matches was in his hip pocket, and the concussion set them on fire. Then his wife sprang to his aid and the "fire in the rear" was extinguished. He now carries a water bottle in his pocket with the matches, and argues that the same force which will ignite the matches will break the bottle and cause the water to put out the fire.—Hudson Post.

Just One Minute.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the the cough and at the same time clears the phlegm, draws out the inflamation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Colds, Coughs and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by C. A. Wright.

A preacher's turkey from the barn, did manage to escape; the preacher scarce knew what to do, for 'twas a dreadful scrape. The turkey swift through snow did run, the preacher sprinted after; while people who were looking on were doubled up with laughter; but all things must come to an end, and no two-legged creature, can hope to safely get away from a light footed preacher. The turkey's once more in the barn, and broken is its spirit, for every time it tries to stir, the preacher seems to hear it.—Ex.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed, and I have never had any trouble of the kind since." MRS. K. T. SNYDER, Troy, Ohio.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Croup.

The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it and for this purpose no medicine has received more universal approval than Chamberlain's cough remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by all druggists.

Roy Rundell of Detroit, was in town Saturday morning.

Married, Dec. 31, 1903, by Rev. J. A. DeSpelder at the bride's home, the residence of Mr. M. D. Billmeyer, near Holloway, Sam'l J. Wilson of Edgerton, O., and Miss Maude L. Lewis of Holloway.

David Nixon of Detroit, died Saturday Jan. 2, at the home of Charles Bailey and his remains were brought here last evening at the home of Mrs. I. C. Hendershott at one o'clock this afternoon.

On the first day of January "Grandma" Tilden was 95 years old and although she is not as smart as she used to be 25 years ago she is well and enjoys every day of her life. About once a month she walks down to call on Mrs. Stacy and they visit like two young women. She now bids fair to rival Mrs. Hixon in age and smartness. On the same day Mrs. Adelia Wheeler was 79 years old and she is about as smart and cheerful as any lady in the community of like age. Mrs. Wheeler cleans off her own side walk and sets a good example to many younger people on Chicago street. In the spring makes her own garden besides doing all her housework and waiting on herself. May she see many more birthdays in Tecumseh.

Bradley—McNamara.

A very pretty holiday wedding occurred at the pleasant home of Mr. and Mrs. Frank E. Bradley, in Ypsilanti Thursday evening at 6 o'clock, when their daughter, Alta Dora, became the wife of Dr. W. F. McNamara of Brighton, Mich. Promptly at six o'clock to the strains of Lohengrin's wedding march, rendered by Miss Fitch, of Ann Arbor, the bridal couple, unattended, came into the parlor and beneath a bower of smilax, Rev. Beach pronounced the words, which made them man and wife.

After congratulations a three course wedding supper was served in the dining room. The bride's table was decorated with smilax and white carnations, the second table being in red carnations and smilax. The bride was gowned in white silk voile over white taffetta. The groom wore the conventional black. The bride is one of Ypsilanti's brightest young ladies and a graduate of the Normal. She is well known to Tecumseh people, having spent most of her time here during vacations and is loved by all who know her. Dr. McNamara is a graduate of Ann Arbor and has already established a fine practice in Brighton.

The happy couple left for the East on a short wedding tour, after which they will be at home in Brighton. They will go to housekeeping immediately. The bride was the recipient of many beautiful presents, among them was a check from the bride's parents for $500.

Among the guests from away were Dr. and Mrs. C. W. Graham, of Milwaukee; Mr. and Mrs. Gilbert Bradley, of Brighton; Mr. and Mrs. Ira Bradley, of Livingston; Mr. and Mrs. Shumaker, and Miss Fitch, of Ann Arbor; Mr. and Mrs. McNamara and three children, of Brighton; Mrs. Thankful Aten, of Cambridge; Mrs. Frank Baldwin, of Tipton; Miss Nina Rundell and Roy Rundell, of Detroit; Isabel Davis, of Clinton; Mr. and Mrs. Henry Wilson and daughter, Edith, Mrs. F. A. Osborn and Margaret, Sarah Platt, Bessie Spayde, May Lowry, Gertrude Bowers, Dr. Pauline Wilson, Christine, Winnifred and Anna Wilson, of Tecumseh.

During the afternoon, prior to the wedding, the Tecumseh girls gave the bride a kitchen shower, and also a miscellaneous shower. She was the recipient of a number of useful articles for the kitchen, and several pieces of point lace, linen, and china in the miscellaneous shower.

Beautiful Calendars.

On January first the Hayden Milling Co. with their team called at the residences in the village and left in each place a beautiful calendar done in Pyrography. The New Years gifts are works of art and will be fully appreciated by every recipient. In fact the Wm. Hayden Milling Co. are great and successful advertisers and their fine business is the result.

Lansing, Mich., Jan. 1904.

DEAR OLD HERALD:

Come along again for 1904 I shall always be glad to see you.

Yours Truly
L. C. BLOOD.

Saved from terrible death.

The family of Mrs. M. L. Bobbitt of Bargerton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed bottles 50c and $1.00. Trial bottles free at C. A. Wright's drug store.

To some people truth is stranger than fiction because they have so little to do with the former.

FIRE

Four stores in Adrian on North Main street were destroyed

JACKSON'S MUSIC HOUSE

Are the greatest losers. Loss in all about $6,000.

About 8 o'clock yesterday morning fire was discovered in the rear of Jackson' music house, on North Main street in Adrian. The alarm was turned in and the department were on hand in a minute. Owing to so many frozen pipes and the cold weater it was some time before the water would run freely.

The stores were owned by B. F. Graves and occupied by J. G. Mattauch as a barber shop, Jackson's music store, S. C. Adams, harness shop, and Chas. M. Walker, bicycle shop. The loss to all of them together is about $6,000.

Very little of the contents were saved. Jackson's music house are perhaps the greatest losers, three pianos and several stringed instruments being destroyed. They are all insured but the insurance will not begin to cover the loss.

WASHINGTON LETTER

Washington, Jan. 2, 1904.

The social season at the national capital bursts into bloom on New Years day and continues to be a whole bouquet of functions until the advent of Lent. The occupants of the White House are expected to set the pace, and as the President is a young man, with an interesting family of boys and girls, he gives more, and a greater variety of entertainments, than have most other presidents. The usual and regular official reception to the foreign diplomats and the officers of the government, with a long line of the public bringing up the rear, was held on the first day of the new year beneath smiling skies. The first of the series of cabinet dinners to the President was given by the Secretary of State on the 29th of December. Mr. Hay being too ill to leave his room, Mrs. Hay did the honors of the occasion. The Secretary of War and Mrs. Root followed with the second cabinet dinner on the 5th inst., and a third one will be given on the 19th inst. by the Postmaster General and Mrs. Payne. These dinners are purely official reunions and few outsiders are present. The President reciprocates and begins the dinner business with one for the diplomatic corps on the 7th inst. He has also issued invitations for a private dinner to New York friends on the 8th.

Dinners, dances and teas fill up the short days of the winter season. Many prominent people visit Washington while Congress is in session and they are sure of being sumptuously entertained. On the 29th Secretary Root will give a big dinner to Gov. Taft of the Philippines, his successor as Secretary of War. When college students or young ladies of social prominence come to Washington for a visit they are sure of having a jolly time. Mrs. John R. McLean recently gave a dinner-dance to 100 guests in honor of Miss Walcott, daughter of the late Governor of Massachusetts, and Miss Fish, daughter of Hamilton Fish of New York. The dining room was profusely decorated with greens, small Christmas trees on the mantels, buffet and sideboard twinkling with electric stars adding to the effect. Small tables were set with 8 covers for each. In the ball room there was a superb set of tapestries from the Barberini Palace, Rome. Mr. and Mrs. Thomas F. Walsh have given a ball in honor of Alice Roosevelt, in their new Massachusetts Avenue palace, the largest, newest and most costly private residence in the city. Dancing at ten o'clock in the spacious ball room on the top floor: supper at midnight served on small tables, followed by a cotillion the favors for which were beautiful and costly—lace fans for the women and gold pencils for the men.

What with peace, prosperity, pleasure, party politics and Panama, everything in Washington goes as merry as a marriage bell. While the children of fortune and high birth were being entertained at the White House, a thousand others, babes of the employes of the city street railway company, were remembered at the Masonic Temple, with a fetching program of sleight of hand tricks, marionettes, songs and Santa Claus in person to distribute to every one toys, candies and fruits. The President of the company gave the entertainment and was as happy as the other President in the Executive mansion.

Southern people in Washington are warm-hearted at all times but especially so about New Years. The Mt. Vernon Place church, which claims members from every southern state, gave a great reception on New Years eve in the Sunday school room, for which 1,000 invitations were sent out. Booths were erected for each southern state and decorated with greens and state flags. The Texas booth was covered with cotton, while the South Carolina booth displayed a row of palmetto hats.

Justice and Mrs. Oliver Wendell Holmes have given a housewarming, and the new British Ambassador and Lady Durand have extended their hospitalities to the diplomatic corps, while Admiral Dewey has been at home to his gentlemen friends.

The Russian and Japanese legations in this city are much less irritated and febrile. Russia's postponement for ten days of her answer to Japan's request is felt to promise peace.

All the theatres in this city are being inspected at once and compelled to obey regulations.

From the United States Observatory here the exact second marking the beginning of the New Year was telegraphed to all the cities of the land. The record was made even in Alaska, Guam and the Philippines.

The President has appointed "Corporal" James Tanner to be Register of Wills of the District of Columbia. When Commissioner of Pensions he always registered his own will "in busting the surplus."

At a meeting of the Shorthand Teachers' association in Cincinnati, Fred Irland, an official reporter of debates in the national House of Representatives, wrote with a piece of chalk on an ordinary blackboard, at the rate of 233 words a minute. He probably holds the world's record as its fastest writer.

LITERARY NOTES.

The holiday season exempts even the grownup magazine from being always wise. In Lippincott's for January there is evidence of this in the sweet little tale of a child called "A Little Girl's Kingdom," meaning, of course, her doll-peopled nursery. It is by Virginia Tatnall Peacock.

* * *

"The Status of the Southwestern Oil Industry" is the subject of an illustrated article in the January Review of Reviews by Day Allen Willey. The Texas and California oil fields are described at length, and the prospects of the industry discussed in detail.

* * *

The January issue of the Metropolitan Magazine is an extraordinary number, as it contains both a Christmas story as well as a "Christmas Reverie" and is on the news-stands some days before Christmas. "The Christmas Peace" by Thomas Nelson Page, is the strongest, most appealing, most engaging short story ever written by this undisputed master of fiction.

* * *

The "toast-master" of the January Atlantic opens the feast with a genial talk On Catering for the Public—the tasks and troubles of a literary purveyor. Thomas Wentworth Higginson resumes his reminiscent papers with a characteristic account of the Sunny Side of the Transcendental Period full of entertaining description and anecdote.

* * *

"The Latest News from Lhasa" by the Rev. Ekai Kawaguchi, to appear in the January Century, is the fullest and most satisfactory account of Tibet's forbidden city ever published in this country. Kawaguchi, a Buddhist priest of Zen sect, spent months in wandering through Tibet before gaining entrance to Lhasa, and then, his remarkable journey accomplished, maintained a residence in Lhasa for two years, living nearly all the time in the house of a Tibetan official.

News, news, news! It's enough to give a man the blues. Nobody married, nobody dead, nobody broken an arm or a head; nobody come in to talk of the "crop"; no one boozy and started a scrap; no one got run in for taking a horn; nobody buried and nobody born. Oh! for a racket, a riot, a fuss; some one to come in and kick up a muss; some one to stir up the peace laden air; somebody's comment to give us a scare; somebody thumped within an inch of his life; somebody run off with another man's wife; some one come in and pay up his dues; anything, anything, just so it's news.—Ann Arbor Courier.

DO NOT DOSE THE STOMACH.

Cure Catarrh by Nature's own Method—Every Breath of Hyomei brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but $1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

C. A. Wright has sold a great many Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

THE THIEF OF BEAUTY
Is Captured by Bradfield's Regulator.

Thousands of young women are awaking to the fact that inherited comliness has been stolen, and instead of glowing cheeks and bright eyes, the tell-tale wrinkles of pain have taken their place. These are the warning feelings! Weak and tired in the morning, no life to enter upon their former pleasures, irritable, cross, dull headaches, general dispirited feeling, sleepless nights, cold feet, "bearing down" pains. All these symptoms indicate deranged and weakened organs, and exhausted energies follow the weakened condition of the female organs as surely as night follows day. Save yourself from worse results by taking

BRADFIELD'S Female Regulator

The most invigorating menstrual regulator in the world. It relieves painful, profuse, obstructed or suppressed menstruation, nervousness, headaches, *et cetera*. Beauty of face and symmetry of form are the results of its use. Of druggists $1. Our book, "Perfect Health for Women." free.

A woman never puts anything in her pocket that she can hold in her mouth.

IT IS SERIOUS.

Some Tecumseh people fail to realize the seriousness.

The constant aching of a bad back,
The weariness, the tired feeling,
The pains and aches of kidney ills
Are serious—if neglected.
Dangerous urinary troubles follow.

A Tecumseh citizen shows you how to avoid them.

Mr. F. A. Ferguson, tinsmith, residing in the northwestern section of Tecumseh, says: "I had symptoms of kidney trouble. The kidney secretions were very irregular and at times too frequent and highly colored. Having seen so many cases of severe kidney trouble I thought it wise to do something at once, so I got a box of Doan's Kidney Pills at C. A. Wright's drug store and took them. I began to improve from the very start and continued to do so. I emphatically declare Doan's Kidney Pills to be up to the representations made for them."

For sale by all dealers: Price 50 cents per box, Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Insane on One Point.

Erskine mentions a case where a person who had been confined in an asylum prosecuted his brother and the proprietor for imprisonment and false duress. The prosecutor, himself a witness in support of the indictment, was put into the witness box and examined. When Erskine came to cross examine him, he tried to discover some lurking alienation of mind, but during a cross examination, conducted with all the skill and sagacity of which he was master, for nearly an hour he was completely foiled.

But a gentleman who had come accidentally into court whispered in Erskine's ear that the witness thought he was the Saviour of mankind.

On receiving the hint Erskine made a low bow to the prosecutor, addressed him in terms of great reverence, respectfully begged to apologize for the unceremonious manner in which he had treated a person of his sacred character and called him by the name of Christ. The man immediately said: "Thou hast spoken truly. I am the Christ."

Similarity of Animals and Men.

It has been observed that if the tamed dog is taken back to the wild state he loses his voice. These "sounding voices" are produced in the animal throat in a way similar to human language, but are not "voices" proper nor "languages" proper, and yet they are full of psychological expression and reveal the animal's psychic states. If we tickle a chimpanzee in the armpit, the touch produces a grin on the face similar to that of a man under like circumstances. He also emits laughterlike sounds. The same is the case with the ourang outang. The gorilla knits the brow when angry, just like men.

We often observe in apes a complete change in the facial muscles when something is going to happen, be it agreeable or disagreeable. It is so also with the child. In apes there is evidently the same connection between the facial muscles and vocal muscles as in man.

The Original Carnation.

The original carnation was a five petaled bloom native in the south of Italy. It was imported into England about the time of the Norman conquest. As early as 1619 horticultural works gave minute directions for the cultivation of the flowers in winter. The carnation industry has risen to considerable importance during the last ten years, according to Town and Country. As 2,500,000 of young carnation plants are sold each year and florists produce an equal amount grown by themselves which are not sold, the entire production of young carnation plants approximates 5,000,000 and upward a year. These plants are grown under glass during the winter time for cut flower purposes, producing an annual average of more than 100,000,000 blooms. What becomes of this enormous number of flowers is somewhat of a mystery. They are put to innumerable uses.

Spiders Eat Their Mothers.

One of the most unnatural things in nature, if the expression is allowable, is the manner in which the young of the common wolf spider treat their mother. After the little creature has laid her eggs she envelops them in a silken covering, so as to make a ball about the size of a pea, and this she carries about with her wherever she goes and will defend it with her life. When the young are hatched, they climb on her back, giving her a monstrous appearance, and ride about until nearly half grown, and as soon as they discover their strength they fall to and devour their mother. As a rule the maternal relation is recognized in the animal and insect world only as long as the necessity for protection exists, but instances of the young actually devouring a parent by main force and common consent are extremely rare.—London Nature.

Queer Way to Kill Fish.

Natives of the Torres strait have an original method of killing fish. In places where turtles and large fish are wont to congregate they erect platforms, and as soon as a great turtle or fish appears the man on the nearest platform throws a harpoon and almost invariably strikes the animal. After this is done one of the other men jumps from his platform with a rope, which he fastens around the tail of the captured fish. One end of this rope remains tied to a platform, and thus the fish or turtle is soon safely secured. It is likely, however, to plunge about a good deal, and therefore those men who are within reach of the rope are obliged to take care that it does not trip them up with it.

Her Plan.

"I intend," she said, "to give in charity as much as I spend on dress. It's such a grand idea, so ennobling!"

"It's a good plan," he admitted. "I think you spend too much on dress anyway."

"What's that got to do with it?" she demanded.

"Why, you'll divide your wardrobe money, won't you?"

"Certainly not. I expect you to double it."

Canada's Woods.

The impression that British North America is covered with valuable timber is fallacious. Black walnut, red cedar and white oak are not found north of Toronto. A line drawn from the city of Quebec to Sault Ste. Marie will designate the northern limit of beech, elm and birch. The north shore of Lake Superior will mark the northern boundary of sugar hard maple.

Ancient.

Robson found Smith engaged in vigorously polishing his shoes. "What are you doing that for?" he asked. "I always thought you wore patent leather."

"These used to be patent leather," replied Smith, painfully bringing his spinal column into its normal position, "but the patent on them has expired."

Its Exclusiveness Its Charm.

"What is the object of your society?" said the serious little woman.

"Why," answered Miss Cayenne, "the same as that of any other society—to enjoy the satisfaction of knowing that there are a lot of people who want to get in and can't."—Washington Star.

Her Answer.

"What kind of letter did your husband write when he was away?"

"He started 'My Precious Treasure' and ended by sending 'love.'"

"How did you answer?"

"I started with 'My Precious Treasurer' and ended with 'Send me $20.'"

There is less room at the top than is popularly supposed. They who are there are few, but large.—Puck.

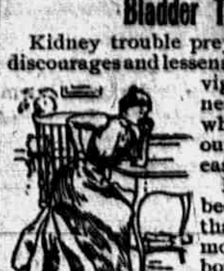
Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.



Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Cured after Suffering 10 Years.

B. F. Hare, Supt. Miami Cycle & Mfg. Co. Middleton, O., suffered for 10 years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says, "One night while feeling exceptionally bad I was about to down my paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years and I recommend Kodol Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble." Sold by C. A. Wright.

Character Building.

Character is the wool of honor from which a coat of mail can be woven that the swiftest arrow of shame or the keenest knife of disrepute cannot pierce. Every thought that enters our mind, every act we do and every word we utter adds a link to the golden chain of character. The strength of a steam engine can be estimated to within an ounce of its limit, but it is impossible to estimate the force of a noble character. The hardest hearts are softened and the most repulsive dispositions become fascinating. Our failures and our successes help to form a reputation that may be destroyed by an external force, but the destruction of a character can only be effected by some internal force.—Our Boys' Magazine.

Her Reason.

Dr. Porter had responded to a note left at his door by a farmer asking him to go as soon as possible to see his little boy, who had "a very bad cold."

The doctor took one look at the child and turned to the mother.

"Don't you know your boy is coming down with measles?" he asked severely.

"Yes, doctor, I knew he was," said the woman.

"Then what in the world did you mean by writing me he had 'a very bad cold?'" asked the doctor.

The woman hesitated for a moment; then, looking at her husband, she said, with sullen frankness, "Neither him nor me knew how to spell measles."

Ask for DeWitt's—the genuine. Sold by C. A. Wright.

Dressed Turkeys.

Miss Sallie Blake, who lived in Calvert county, Md., some years ago, was in the habit of gathering chicken grapes in the autumn and making them into medicine by preserving them in spirits.

It happened once, after the contents of a jar containing the decoction had been exhausted, that Miss Blake emptied liquor soaked grapes on the ground. Here her fine brood of turkeys quickly gobbled them.

Presently Miss Blake found the turkeys lying on the ground, and not realizing the cause of their stupor she thought they were dead. In order to realize something from the feathers, she had the turkeys picked. The carcasses were thrown outdoors.

The next morning there was a great hue and cry from the servants in the back yard, and, looking out of the window, Miss Blake saw her turkeys walking about absolutely bare except for a few tail and wing feathers.

In order to protect them from the cold, the good woman bought enough red flannel to make each turkey a comfortable garment. Very soon, to the wonder of the neighbors far and wide, Miss Blake's turkeys stalked abroad, wearing their red coats with the same easy grace with which they had worn their feathers.—Youth's Companion.

Queer Revenge.

"Speaking of queer revenge," said an Englishman, "I remember how, according to a friend of mine, the natives of certain villages in India treat their enemies.

"Do you know what they do? They just get a few handfuls of rice and sprinkle it on the roofs of the people they hate.

"Then what do you think happens? Why, then the monkeys come flocking down from all the trees on to that roof after the rice. They eat all there is on the surface of the roof, and then, to get at the stray grains that have lodged in the crannies, they begin to pull the shingles off. Wherever there is a grain to be seen far down in some crack or other place they pull the roof up to get at it, and finally, lo and behold, there is no roof left! The monkeys have torn it all away. Then the man who spread the rice laughs subtly, for he has had his revenge, and yet no one knows and he cannot be punished."

Births.

In the matter of births in general the popular months in their order are January, March, February, April and October. As to the hour of birth, from midnight to 6 o'clock in the morning ushers in 29.5 per cent of the children, from 6 in the morning to noon 24.5 per cent are born, from noon to 6 o'clock in the evening 22 per cent and from 6 o'clock to midnight 24 per cent.

As to the classes arranged according to worldly wealth and without regard to occupation, it has been asserted that 100 rich families will have 313 children, 100 families of moderate means will have 360 children, while 100 poor families will have 370 children. In general there is a tendency among young couples toward male children and of middle aged parents to female offspring.

Training a Hunting Horse.

The training of a hunting horse is thus described by Sewell Ford in "Horses Nine:" When the time was ripe began the hunting lessons. Pasha came to know the feel of the saddle and the voice of the hounds. He was taught the long, easy lope. He learned how to gather himself for a sail through the air over a hurdle or a water jump. Then, when he could take five bars clean, when he could clear an eight foot ditch, when his wind was so sound that he could lead the chase from dawn until high noon, he was sent to the stables of a Virginia tobacco planter who had need of a new hunter and who could afford Arab blood.

Couldn't Find Rosa.

The youngster in the art gallery looked long and earnestly at the painting. Then he read the inscription.

"Do you like it?" asked his mother.

"Oh, I like it well enough," he answered, "but I don't understand it."

"What is it you don't understand?"

"Why, it says 'Wild Horses—After Rosa Bonheur.' I see the horses all right, but where's the girl they're after?"—Chicago Post.

Clews.

"Have you any clews to the murder?"

"We have plenty of clews—too many, in fact."

"Then what are you waiting for?"

"We can't decide which to follow first. If we tried to follow them all, it would take a lifetime."—Cleveland Plain Dealer.

Sadie was eleven and Alice was seven. At lunch said Alice:

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

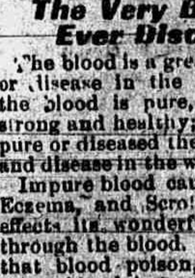
LIFE PLANT
Renews Life.
The Very Best TONIC Ever Discovered.

The blood is a great source of health or disease in the human system. If the blood is pure, the individual is strong and healthy; if the blood is impure or diseased then there is sickness and disease in the whole system.

Impure blood causes such diseases as Eczema, and Scrofula. LIFE PLANT effects its wonderful cures by acting through the blood. It is impossible for that blood poison, uric acid, or any other blood impurity to exist in the presence of our harmless medicine. The phenomenal success of LIFE PLANT in the many forms of blood diseases, warrants us in stating that it is a positive cure for Eczema and Scrofula. Read what Mr. M. P. Hobbs says of LIFE PLANT:

Wilmot, O., Jan. 9, 1903.
The Life Plant Co., Canton, Ohio.



Gentlemen:

Two years ago I contracted a very aggravated case of Eczema. I tried many kinds of medicine called sure cures, but all failed. I was pursuaded by a friend to give LIFE PLANT a trial, and by taking two bottles was cured. To get the real truth of this statement try LIFE PLANT and be convinced.

Yours truly,
M. P. HOBBS.

Better get LIFE PLANT next time. It's a wonder.

B. BARNETT

THE CLOTHIER, 3 E. MAIN ST., ADRIAN, MICH.

Nature's Curious Tree Law.

Let us observe a law common to all trees. First, neither the stems nor boughs of the maple, elm or oak taper except at the point where they fork. Whenever a stem sends forth a branch and a branch sends off a smaller bough, bud or stem, they remain the same in diameter, and the original stem will increase rather than diminish until its next branch starts. No bough, branch or stem ever narrows near its extremity except where it parts with a portion of its substance by sending off another branch or stem.

All trees are alike in this respect, and if all the boughs, branches, stems, buds and blossoms were combined and united without loss of space they would form a round log the same in size and diameter as the trunk from which they spring. This is one of nature's imperative laws and never fails to prove true.

A Poser.

Little Dorothy Perkins was usually a very truthful child. When she was not truthful, she was plausible.

Coming in from her walk one morning, she informed her mother that she had seen a lion in the park.

No amount of persuasion or reasoning wavered her statement one hair's breadth, so at night, when she slipped down beside her knee, her mother said, "Ask God to forgive you for that fib, Dorothy."

Dorothy hid her face for a minute; then she looked straight into her mother's eyes, with her own shining like stars, and said, "I did ask him, mamma, dearest, and he said: 'Don't mention it, Miss Perkins. That big dog has often fooled me.'"—New York Herald.

Very Attentive.

"Mr. Tiffin is awfully attentive to that rich old maiden aunt of his. Haven't you noticed it?"

"Yes; he believes people can be killed by kindness."—Town and Country.

True friends visit us in prosperity only when invited, but in adversity they come without invitation.—Theophrastus.

Every bottle of Chamberlain's cough remedy warranted.

We guarantee every bottle of Chamberlain's cough remedy and will refund the money to anyone who is not satisfied after using two thirds of contents. This is the best remedy in the world for la grippe, coughs, colds, croup and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia.

Man, Know Thyself!

Is a very old proverb that very few of us have been able to keep tab on, but when it comes to buying fine confectionery and baked goods, you have no trouble because our goods are known by all. Our hand made creams are truly the finest line in town; our taffy can't be beat; our line is all fresh and up-to-date, such as almond creams, stuffed dates, peanut squares, peanut crisp, dates, figs and Italian cream fudge. You will save money by buying your goods at the Old Reliable City Bakery.

Beware of ointments for catarrh that contains mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimoniols free.

Sold by druggists, price 75 c per bottle.

Hall's Family Pills are the best.

You cannot make clouds for others and live in the clear light yourself.

A very close call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by C. A. Wright. Price 50 cents.

A good push will scare the devil more than a whole lot of preaching.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's stomach and liver tablets," says [illegible] Middlegrove, N. Y., they work like a charm and do not gripe or have any unpleasant effect. For sale by all druggists.

I'd just as lief promise to obey a man as to promise to love and honor him. It's as easy to do one as the other, and sometimes a great deal easier.

Have you indigestion, constipation, headache, backache, kidney trouble? Hollister's Rocky Mountain Tea will make you well. If it fails get your money back. That's fair. Tea or tablet [illegible]

A man can sometimes gain his point in an argument by allowing the other fellow to talk himself out.

Children Poisoned.

Many children are poisoned and made nervous and weak if not killed outright by mothers giving them cough syrups containing opiates. Foley's Honey and Tar is a safe and certain remedy for coughs, colds and lung trouble, and is the only prominent cough medicine that contains no opiates or other poisons. J. J. Orr.

There is nothing a man hates to do worse than to pay his wife's dental bills.

Jennie Stitzer, Omaha—"I have gained thirty-five pounds in two months. Nothing did me any good until I used Hollister's Rocky Mountain Tea." A blessing to sickly woman. John J. Orr.

Marrying in haste is no worse than any other kind of marrying.

Dislocated her shoulder.

Mrs. Johanna Soderholm of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's pain balm advertised for sprains and soreness and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so pleased with the relief it gave his mother that he has since recommended it to many others. For sale by all druggists.

Brigham Young was merely the man who had the opportunity.

A Life at Stake.

If you but knew the splendid merit of Foley's Honey and Tar you would never be without it. A dose or two will prevent an attack of pneumonia or la grippe. It may save your life. J. J. Orr.

There is bound to be a squint in the sermon when it has one eye on the creed and the other on the money.

A Vest-Pocket Doctor.

Never in the way, no trouble to carry easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. A vial of these little pills in the vest-pocket is a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tonic and strengthen the liver. Sold by C. A. Wright.

CASE 113,

By Emile Gaboriau. . . .

CHAPTER II.

"What will you gain by acting thus, my dear madame?" asked Fanferlot. "Nothing. I can assure you that you have not the least chance of success. You will compromise Prosper. Who knows if you will not be suspected as his accomplice? M. Bertomy expressly forbade such a course in his letter."

Mme. Gipsy remained thoughtful for a moment, then a ray of light seemed to cross her mind, and she cried:

"Oh, I understand now! Fool that I was for not seeing it before! But where am I to go?"

"Did not M. Bertomy say, my dear lady, to the other end of Paris—to a boarding house or hotel?"

"But I don't know where to find any."

Fanferlot seemed to be reflecting, but he had great difficulty in concealing his delight at a sudden idea that flashed upon him. His little black eyes fairly danced with joy.

"I know of a hotel," he said at last, "but it might not suit you."

"Where is it?"

"On the other side of the river, Quai St. Michel the Archangel, kept by Mme. Alexandre."

Mme. Nina was never long making up her mind.

"Here are writing materials. Write your recommendation."

"With these three lines," he said, handing her the letter, "you can make Mme. Alexandre do anything you wish."

"Very well. Now how am I to let Cavaillon know my address? It is he who should have brought me Prosper's letter."

"He was unable to come, dear madame," interrupted the detective. "But I will tell him where he can find you."

Mme. Gipsy was about to send for a carriage, but Fanferlot said he was in a hurry and would send her one. He seemed to be in luck that day, for a cab was passing the door, and he hailed it.

"Wait here," he said to the driver after telling him that he was a detective, "for a [illegible] packing her trunks. If she tells you to drive her to Quai St. Michel, crack your whip. If she gives you any other address, get down from your seat and arrange your harness. I will keep in sight."

He stepped across the street and stood in the door of a wine store. He had not long to wait. In a few minutes the loud cracking of a whip apprised him that Mme. Nina had started for the Archangel.

"Aha!" said he gayly. "I hold her, at any rate!"

CHAPTER III.

A Nina Gipsy went to find refuge at the Archangel, so highly recommended by Fanferlot the Squirrel, Prosper Bertomy was being entered on the jailer's book at the police office. There he had to wait two hours while the commissary went to receive orders from higher authorities. When it was announced to him that a coach was waiting for him at the door, he got up, but before going out requested permission to light a cigar, which was granted. It was magnificent weather, a bright spring morning. As the coach went along Montmartre street Prosper kept his head out of the window, smilingly complaining at being imprisoned on such a lovely day when everything outside was so sunny and pleasant.

"It is singular," he said. "I never felt so great a desire to take a walk."

To the court clerk while he was going through the formalities of the commitment Prosper replied with haughty brevity to the indispensable questions asked him.

But when he was ordered to empty his pockets on the table and they began to search him his eyes flashed with indignation, and a single tear dropped upon his flushed cheek. In an instant he had recovered his calmness and stood up motionless, with his arms raised in the air so that the rough creatures about him could more conveniently search him from head to foot to assure themselves that he had no suspicious object hid under his clothes.

The investigation would have, perhaps, been carried to the most ignominious lengths but for the intervention of a middle aged man of distinguished appearance, who wore a white cravat and gold spectacles and was sitting by the fire. At sight of Prosper he started with surprise and seemed much agitated. He stepped forward and seemed about to speak to him, then suddenly changed his mind and sat down again. In spite of his own troubles, the cashier could not help seeing that this man kept his eyes fastened upon him. Did he know him? Vainly did he try to recollect having met him before. This man, treated with all the deference due to a chief, was no less a personage than a celebrated member of the detective corps, M. Lecoq. When the men who were searching Prosper were about to take off his boots, saying that a knife might be concealed in them, M. Lecoq waved them aside, saying, "That is sufficient."

He was obeyed. All the formalities being ended, the unfortunate cashier was taken to a narrow cell. The heavily barred door was swung to and locked upon him. He breathed freely. At last he was alone. Yes, he believed himself to be alone. He was ignorant that a prison is made of glass; that the accused is like a miserable insect under the microscope of an entomologist. He did not know that the walls have stretched ears and eyes always watchful. He was so sure of being alone that he at once gave vent to his suppressed feeling and, dropping his mask of impassibility, burst into a flood of tears. His wrath, long pent up, now flashed out like a smoldering fire. In a paroxysm of rage he uttered imprecations and curses. He dashed himself against the prison walls like a wild beast in a cage.

In the evening when the jailer brought him his supper he found him lying on his pallet, with his face buried in the pillow, weeping bitter tears. He was not hungry. Now that he was alone, he fed upon his own bitter thoughts. He sank from a state of frenzy into one of stupefying despair. The night was long and terrible, and for the first time he had nothing to count the hours by as they slowly dragged on but the measured tread of the patrol who came to relieve the sentinels. He suffered agony. In the morning he dropped into a sleep, from which he was awakened by the rough voice of the jailer.

"Come, monsieur," he said, "to the judge of instruction."

"Let us go," said Prosper, without stopping to repair his disordered toilet.

During the passage the jailer said, "You are very fortunate in having your case brought before an honest man."

The jailer was right. Endowed with remarkable penetration, firm, unbiased, equally free from false pity and excessive severity, M. Patrigent possessed in an eminent degree all the qualities necessary for the delicate and difficult office of judge of instruction.

Prosper was escorted along a corridor, through a room full of policemen, down a flight of steps, across a kind of cellar and then up a steep staircase which seemed to have no end. Finally he reached a long, narrow gallery, upon which opened many doors bearing different numbers. Summoning all his courage, he placed his hand on the doorknob and was about to enter when the jailer stopped him.

"Don't be in such haste," he said. "Sit down here, and when your turn comes you will be called."

The wretched man obeyed, and his keeper took a seat beside him.

Presently a little old man dressed in black, wearing the insignia of his office, a steel chain, cried out:

"Prosper Bertomy!"

Prosper arose and, without knowing how, found himself in the office of the judge of instruction.

M. Patrigent's homely face, with its irregular outline and short red whiskers, lit up by a pair of bright, intelligent eyes and a kindly expression, was calculated to impress one favorably at first sight.

"Well," he said abruptly, "you are accused of having robbed M. Fauvel of 350,000 francs. What have you to answer?"

"That I am innocent, monsieur; I swear that I am innocent."

"I hope you are," said M. Patrigent, "and you may count upon me to assist you to the extent of my ability in proving your innocence. Have you anything to say in your defense?"

"Ah, monsieur, what can I say when I cannot understand this dreadful business myself? I can only refer you to my past life."

The judge interrupted him with an impatient gesture.

"Let us be specific. The robbery was committed under circumstances that prevent suspicion from falling upon any one but M. Fauvel and yourself. [illegible]"

"No, monsieur."

"You declare yourself to be innocent; therefore the guilty party must be M. Fauvel."

Prosper did not answer.

"Have you," persisted the judge, "any cause for believing that M. Fauvel robbed himself? If you have, say so."

The prisoner preserved a rigid silence.

"I see, monsieur," said the judge, "that you need time for reflection. Listen to the reading of your examination, and after signing it you will return to prison."

The unhappy man was overcome. The last ray of hope was gone. He signed the paper without looking at it. He tottered as he left the judge's office so that the keeper was forced to support him.

If Prosper had remained an hour longer in the gallery, he would have seen the same bailiff who had called him come out of the judge's office and cry out:

"Number three!"

Witness No. 3, who was awaiting his turn and answered the call, was M. Fauvel.

Although he had very slightly examined Prosper, the judge was now scrupulously attentive and particular in having every question answered.

"Did you ever suspect your cashier of being dishonest?" he asked.

"Certainly not. Yet there were a thousand reasons which should have made me distrustful."

"What reasons?"

"M. Bertomy gambled. I have known of his spending whole nights at the gaming table and losing immense sums of money. He was intimate with a bad set. Once he was mixed up with one of my clients, M. de Clameran, in a scandalous gambling affair."

"You must confess, monsieur," interrupted the judge, "that you were very imprudent, not to say culpable, to have intrusted your safe to such a man."

"Ah, monsieur, Prosper was not always thus. Until the past year he was a model of goodness. He was received into my house as one of my family. He spent all of his evenings with us and was the bosom friend of my eldest son, Lucien. Then suddenly he left us and never came to the house again. Yet I had every reason to believe him attached to my niece Madeleine."

"Then you can see no motive for your cashier's conduct?"

The banker paused to reflect.

Millionair's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. At all druggists.

Throwing Away a Fortune.

A poor Austrian official in the civil service bought two tickets in the Hungarian philanthropic state lottery. A little while afterward his funds ran very low, and he sent back one of the tickets to the lottery office and asked that the money he had paid for it might be returned. This very ticket won the first prize at the drawing, amounting to 150,000 kronen, a sum which would have made the official rich beyond his utmost dreams if he had not at the last moment let his own good fortune slip out of his hand.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are uneasiness after eating, fits of nervous headache, and disagreeable belching.

"I have taken Hood's Sarsaparilla at different times for stomach troubles, and a run down condition of the system, and have been greatly benefited by its use. I would not be without it in my family. I am troubled especially in summer with weak stomach, and find Hood's Sarsaparilla invaluable." E. B. HICKMAN, W. Chester, Pa.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it and for this purpose no medicine has received more universal approval than Chamberlain's cough remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by all druggists.

The proceeds of this entertainment are to be devoted to charitable purposes. Public are cordially invited to attend. Hours of demonstration from 7:30 to 10:00 p. m. Admission 10 cents

Concerning
THE KINGDOM OF GOD.

2 Tim. 4:2. 1 Cor. 9:16

THESE WERE MORE NOBLE THAN THOSE OF THESSALONICA IN THAT THEY RECEIVED THE WORD WITH ALL READINESS AND SEARCHED THE SCRIPTURES DAILY, WHETHER THOSE THINGS WERE SO. ACTS 17:11

As we have seen, therefore, the Kingdom of God which Jesus preached and sent us to preach is the Kingdom of David of old, only changed, transfigured, glorified, according to the Divine law, first that which is natural and afterward that which is spiritual. David's Kingdom of old was an earthly Kingdom, like any other Kingdom of this world; our blessed Lord, upon ascending David's throne (Luke 1:32-33), transformed this earthly kingdom into a Spiritual Kingdom—a Kingdom quite different from the Kingdoms of the world (John 18:36)—by conferring upon it Spiritual powers, viz., through the gift of the Holy Ghost (Luke 24:49; Acts 1:8).

Having thus identified the Kingdom of God we must now proceed to learn about the various institutions, etc., which the King Himself has appointed therein for the administration of its (Spiritual) blessings.

The Kingdom of David, the earthly Kingdom of God, had a shadow—we are told (Heb. 10:1)—of good things to come, viz., in the Spiritual Kingdom of God. Thus the earthly Kingdom prepared the way for the Spiritual Kingdom by familiarizing the people beforehand with the very features of the Kingdom to come. We shall find therefore that the institutions of the Spiritual Kingdom correspond exactly with those of the earthly Kingdom; only we must remember, that whereas the institutions of the earthly Kingdom had only "shadows" of good things to come, those of the Spiritual Kingdom have the good things themselves. The rites and ceremonies of the earthly Kingdom were mere empty signs and forms, conferring no real spiritual grace, but only shadows; the rites and ceremonies of the Spiritual Kingdom are not mere empty signs and forms, but are full of grace because they have the very substance of the good things which were to come, viz., the good things of the Holy Spirit.

Now the leading features—institution, etc.,—of the earthly Kingdom of God were these:

1. The Rite of Circumcision—by which children were admitted into the earthly Kingdom.
2. The Law—once given on Mt. Sanai, but to be solemnly undertaken by each Israelite on his coming of age.
3. The Sacrifices—of which the Passover was the focal centre.
4. The Ministry—solemnly ordained of God, and specially charged with, the administration of these things.

Corresponding with these—but having the substance of good things—we have in the Spiritual Kingdom of God:

1. The Rite of Baptism—by which children are admitted into the Spiritual Kingdom. (Col. 2:11-12)
2. The Holy Spirit—once given on Mt. Zion, but to be solemnly made over to each Christian on his coming of age, viz., by the laying-on-of-hands. (Acts 8:17; 19:1-6)
3. The Holy Communion—which as the Christian continuation of the Jewish Passover has the good things foreshadowed by that Rite and the whole sacrificial system of the earthly Kingdom (Luke 22:7-20).
4. The Christian Ministry—solemnly ordained of the King Himself for, and specially charged with, the administration of these things. (John 15:16)

It follows therefore that further exposition of the Kingdom of God—i. e. of the Gospel—will require an exposition of these institutions which are fundamental to the Kingdom of God. There is no understanding the Kingdom of God without understanding these things; and it is just these very things which are most commonly misunderstood (next to the Kingdom itself). I shall therefore take them in order, and shall really hope by God's grace to be able to throw such light upon them (through the concept of the Kingdom of God which we have now laid hold of) as will remove somewhat of this misunderstanding. C. C. KEMP.

Some old friends back again.

So many requests have been made for a return of Happy Hooligan, the Katzenjammer Kids and other old favorites of newspaper readers, The Free Press will present them again, beginning next Sunday. Happy Hooligan's guileless old smile will greet you then, and his pictured adventure is one that will convulse all.

With Buster Brown and Happy Hooligan—two of the strongest features in the comic pictorial world—accompanied as they will be by other old-time favorites, the colored comic supplement of The Free Press will be far and away the best offered by any newspaper.

An old fashioned time.

About twenty friends of "Farmer" and Mrs. W. T. Eccles took a sleigh ride out to their farm last evening and had a most delightful night of it. Nothing was overlooked, even to the complete "tip over" going out. The road to Newburg was badly drifted and nicely fixed for an easy spill out, but all enjoyed a most delightful time and there is no home on earth more pleasant for an old fashioned good time than at the "Farmer" Eccles home.

People who live in glass houses ough to take pains not to cast reflections.

NOTED PEOPLE

Little Clippings about persons we all of us know

SELECTED

From different Newspapers.

Mrs. Vanderbilt is the possessor of a dainty gold and enamel thimble, which is valuable in having been once used by the late queen of England, and she also owns a tiny silver thimble, which was used by Queen Victoria, when she was but 14 years old and it is said to show a great deal of use so the late sovereign was evidently a very industrious little maid. These are not so valuable from an intrinsic value, but it is doubtful if their owners would exchange them for one of the elaborately jeweled ones, and if they were to be put on the market they would undoubtedly bring a fortune owing to their associations.

THE SENATOR'S SEND-OFF.

Senator Dillingham of Vermont, the successor of the lamented Morrill, recently returned from an extended trip through the West and up to Alaska.

The senator says that while he was in Idaho he was much struck by the strength of character and the manliness so characteristic of the men of that state. The party with which the senator was traveling put up for several days with a rich miner, whose manner of thought and action acquired in the rough days of prospecting and poverty has in no way been changed by the acquisition of enormous wealth.

When the time came for the senator to say good-by to the miner the latter shook the statesman's hand with great fervor, saying as he did so:

"Senator, we like you here. You're an easterner and a successful man, but you're no—aristocrat! We like you, sir, because you're free and easy and no gentleman. In fact you're just like us."

LADY BEACONSFIELD'S COMPLIMENT.

Sir William Harcourt, a political rival, but still an admirer of Disraeli, once paid a pretty compliment to Lady Beaconsfield:

He was dining with the Disraelis, and sat beside the hostess, who observed that he was looking at the picture of a lightly-robed lady on the wall opposite, and said: "It oughtn't to be allowed in here, but it is nothing to the Venus that Dizzy has up in his bedroom."

"That I can well believe," replied he, with a gallant bow.

Samuel McClure.

The citizens of this village were greatly shocked on Tuesday evening, Dec. 30, to learn of the sudden death of Mr. McClure. He had been confined to the house but a week, and was thought to be improving. The end came suddenly and very unexpectedly.

Mr. McClure was a good citizen, honest, industrious and upright. He has been identified with the business life of this village for many years, as a builder, contractor and mill man.

Mr. McClure was born in Antrim County, Ireland, Feb. 12, 1840. In 1865 he married Miss Ann Sloan. To them were born seven children, of whom six survive the father; Mrs. Bangs of Oil City, Pa., Thomas and Samuel of Pittsburg, Harry and Edward of New York, and Mrs. Mead of Tecumseh.

Mr. and Mrs. McClure came to America in 1869. They settled permanently in Tecumseh, after a few years in Alton, Ill.

Mr. McClure united with the Presbyterian church in early life. He brought his letter and united with the church here during the pastorate of Rev. Grady.

Mrs. McClure and children have the sincerest sympathy of the whole community in their sudden bereavement.

Mrs. Henrietta C. Matthews.

Mrs. Henrietta C. Matthews, nee Usher, was born March 7, 1835, and died, Dec. 21, 1903. She was married in 1856 to Aden S. Matthews of Seneca Falls, N. Y. They came to Michigan in 1861. Two children were born to them, Usher and Lowella, the latter being Mrs. Paxon, both of whom had preceded their mother in death.

She leaves beside two sisters and a brother, five grandchildren, Agnes and Mary Paxon, who resided with her at the time of her death, Mrs. D. E. Wieser nee Ella Paxon, Clara and Anna Matthews of Grand Rapids.

She was a great sufferer for four months and longed for death. She would cry out several times during the day, "Come blessed Jesus and take me home."

Farmers' Institute to be held in Tecumseh Jan. 25.

The State Farmers Institute will be held in Tecumseh, at the opera house, Jan. 25. Also one day at Sand Creek, Jan. 20; Ogden Center Jan. 21; Riga Jan. 22; Deerfield Jan. 23; Macon Jan. 26; Wolf Creek Jan. 27; North Rome Jan. 28 and Hudson Center Jan 29.

The State Speaker is N. I. Moore of Jonesville, and a good program will be prepared at each of these meetings. Open at 10 a. m. and every one is invited to come.

There will be a one day Institute in the village of Tecumseh Jan. 25th and all interested are requested to meet in the office of G. R. Gillespie at 1:30 Saturday p. m. to arrange a local program.

Saved from terrible death.

The family of Mrs. M. L. Bobbitt of Bargerton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed bottles 50c and $1.00. Trial bottles free at C. A. Wright's drug store.

THE CHURCHES.

At the Presbyterian church Sunday morning the Communion of the Lord's Supper will be observed.

The annual meeting of the Baptist church society was held Thursday afternoon and the new board of trustees are as follows: Dr. L. G. North, F. M. Bryan, F. B. Bauer, R. S. Moore, B. J. Pulver and O. M. McBride.

The Methodist, Friends, Presbyterian and Baptist churches will unite in revival meetings. A call has been extended to Rev. Milton S. Rees of Rochester, N. Y., to lead these meetings and he has accepted. Mr. Rees will be here about Feb. 1. Between now and then much must be done in the way of preparation. To this end the churches from now on will hold union services on Sunday evenings. Next Sunday evening the service will be held in the Baptist church. Sermon by Rev. C. Sedweek, subject, "What if Christ should come to Tecumseh."

Just One Minute.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the the cough and at the same time clears the phlegm, draws out the inflamation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Colds, Coughs and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by C. A. Wright.

MR. AND MRS. HARRY MARSH AND FAMILY.

The American Boy for January contains five complete short stories, namely: "The Defender of Aracena," by William Murray Graydon—a New Mexican Indian story; "The Boy of Many Tongues," by the author of "Dickey Downey"—a school story; "An Adventure With Wolves," by Tom Chapman—an animal story; "[illegible] Pirate," by George H. Coomer—a story of the sea; and "My First Steeple Chase," by T. E. Donaldson—an English story of sport.

DO NOT DOSE THE STOMACH.

Cure Catarrh by Nature's own Method—Every Breath of Hyomei brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but $1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

C. A. Wright has sold a great many Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

IT IS SERIOUS.

Some Tecumseh people fail to realize the seriousness.

The constant aching of a bad back,
The weariness, the tired feeling,
The pains and aches of kidney ills
Are serious—if neglected.
Dangerous urinary troubles follow.

A Tecumseh citizen shows you how to avoid them.

Mr. F. A. Ferguson, tinsmith, residing in the northwestern section of Tecumseh, says: "I had symptoms of kidney trouble. The kidney secretions were very irregular and at times too frequent and highly colored. Having seen so many cases of severe kidney trouble I thought it wise to do something at once, so I got a box of Doan's Kidney Pills at C. A. Wright's drug store and took them. I began to improve from the very start and continued to do so. I emphatically declare Doan's Kidney Pills to be up to the representations made for them."

For sale by all dealers: Price 50 cents per box. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.
